SO1301-177

Crude Oil First Purchaser. (6272).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Energy Supply and Environmental Coordination Act of 1974, as amended (P.L. 93-319).

Availability: Agency

Geographic Relevance: National; State; Outer Continental Shelf

Purpose: This system calculates the weighted average wellhead monthly price of domestic crude oil based upon its first exchange for value. Data are reported monthly. Two hundred seventy firms provide data showing the volume and value of crude oil purchased by location (state). **Input:** Reports are from any firms that obtain ownership of domestic crude oil through purchase or other exchange. It uses Form EIA-182 which superseded Form ERA-182. **Output:** The principal reports are: Domestic Crude Oil Volume and Price Analysis Summary; Domestic Crude Oil Volume and Price Analysis-Company Summary; and subsidiary reports, including Purchasers/Sellers Report and Volume/Costs Variance Exception Report. These are produced monthly and are hardcopy. **Agency Contact:** Energy Information Administration. (202) 252-6567.

SO1301-178

Uranium Marketing Activity. (DOE0128).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: International/Foreign, National

Purpose: In order to fulfill the Department of Energy's (DOE) responsibility for assessment of uranium resources and for meeting uranium enrichment program objectives, it is necessary to acquire and maintain an accurate data base concerning current and historical sales/purchase transactions and commitments of natural uranium among uranium producers, reactor manufacturers, utilities, and various agents, both domestic and foreign. The status and trend of various uranium market factors may thus be ascertained and related to other factors. The results of such analyses aid in policy formulation and decisionmaking, not only in DOE programs but also those of other government agencies as well. Periodic publications summarizing the data also provide an overall guide to industry activities in the nuclear fuel cycle for planning and operating purposes. Information covers quantities and time of sales/purchase transactions and commitments with associated prices. Also included are actual capital mining and milling costs for previous year and planned expenditures for following two years. Data requests are sent to all U.S. uranium producers, reactor manufacturers and utilities involved in nuclear power. Surveys are carried out semiannually--once with requests for inventory, transactions, costs, and prices, and once for prices only. **Input:** Information concerning quantities, prices, and time of uranium sales/purchase transactions is obtained from industry sources, including producers, manufacturers, and utilities. Also obtained from uranium producers are capital expenditures for mining and milling. Data are used in various analyses of current and projected uranium market conditions, and results are used as a guide to pricing of government uranium sales and enrichment contracting policy and to determine trends in industry uranium market activities. **Output:** The principal report is the "Survey of U.S. Uranium Marketing Activity." Also published are two semiannual press releases per year--one for the complete market summary report and one for the uranium price update. Results also form an integral part of other reports and speeches given on uranium supply and demand problems.

Agency Contact: Energy Information Administration. (202) 252-6363.

SO1301-179

Uranium Exploration Activity and Costs.

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Purpose: The survey is intended to gather data on industry exploration activities in the United States. With the increase of U.S. uranium requirements to meet expanding nuclear power growth needs, there is the necessity for determining the ability of industry to explore for and develop additional resources, to ascertain the actual effort taking place, and project future exploration trends. Survey forms are sent in February of the given year. Requested data include actual footage and cost of both exploration and development drilling for the year just past, as well as expenditures for any other type of uranium exploration which may have been carried out. A breakout of expenditures for any exploration in foreign countries is requested as is an estimate of planned exploration and associated expenditures for the given year and the following year. **Input:** Information on past and expected future drilling and exploration costs are obtained from close to 100 companies involved in exploration and development of uranium resources. Form EIA-717 is used. **Output:** The principal report is Uranium Exploration Expenditures in Past

S01301-180

Annual Quantity and Value of Natural Gas Report (EIA 627). (6854). 1980

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Appropriations Committee: Interior Subcommittee; *House* Committee on Energy and Commerce; *Senate* Appropriations Committee: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275, § 51, as amended by P.L. 94-385, title I, § 142, 15 U.S.C. 790 et seq.). Department of Energy Organization Act (P.L. 95-91, title II, § 205; 91 Stat. 572; 42 U.S.C. 7135 et seq.). Availability: Agency

Geographic Relevance: State

Purpose: Data are voluntarily submitted by 31 state offices in natural gas producing states. Contents include natural gas production; value of gas; number of producing wells; gas vented and flared; gas returned to formation with hydrocarbon gases removed in treating or processing operations; and the value and volume of marketed production. **Input:** Input consists of Energy Information Administration form 627, an annual, voluntary filing by natural gas producing states. **Output:** Output includes a natural gas annual and a natural gas monthly.

Agency Contact: Energy Information Administration. (202) 252-6305.

S01301-181

Gas Analysis Modeling System (GAMS).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Appropriations Committee: Interior Subcommittee; *House* Committee on Energy and Commerce; *Senate* Appropriations Committee: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275, § 51, as amended by P.L. 94-385, title I, § 142; 15 U.S.C. 790 et seq.). Department of Energy Organization Act (P.L. 95-91, title II, § 205; 91 Stat. 572; 42 U.S.C. 7135 et seq.). Energy Policy and Conservation Act (P.L. 94-163, title I, § 106; 89 Stat. 880; 42 U.S.C. 6214).

Availability: Agency

Purpose: The Gas Analysis Modeling System (GAMS) model provides annual projections through 1995 for natural gas supply and demand. The model is used to analyze the natural gas industry, including the effects of current regulations and policy alternatives. The model contains detailed representations of natural gas supply, pipeline transmission, distribution, pricing, and demand. Among the model's features are: simulation of future needs and the competitive bidding by pipeline companies and direct purchasers for the natural gas reserves offered by producers and cost-or-service pricing by pipeline companies and distributors. GAMS also contains explicit representation of natural gas contract provisions, including take-or-pay clauses and definite and indefinite pricing escalator provisions. The model is coded in FORTRAN and requires approximately 30 CPU minutes of computer time and 4000 K bytes of memory to generate a forecast through 1995. **Input:** Inputs to the model include information regarding the natural gas industry institution and information and scenario assumptions. The first category includes reserves and production data. The second and third categories include contract information (pricing provisions, take-or-pay provision, and other contract terms), policy specifications (that is, NGP A), world oil prices, and other user-specified parameters. **Output:** The model provides projections for natural gas production and wellhead prices disaggregated by NOP A category and pipeline system and end-use consumption, and prices for the residential, commercial, industrial, and utility sectors.

Federal Information Systems and Sources

Appropriations Committee: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275, § 51, as amended by P.L. 94-385, title I, § 142, 15 U.S.C. 790 et seq.). Department of Energy Organization Act (P.L. 95-91, title II, § 205; 91 Stat. 572; 42 U.S.C. 7135 et seq.). Energy Policy and Conservation Act (P.L. 94-163, title I, § 106; 89 Stat. 880; 42 U.S.C. 6214).

Availability: Agency

Geographic Relevance: State

Purpose: This system forecasts the lower 48 states' outer continental shelf oil and gas supply in terms of exploration and discovery processes influenced by economic and geological factors. Forecasts may be for up to 30 years in 1-year increments. Supply curves generated by the model are used in the integrating models. The model uses simulation methods to determine the probable supply of oil and gas at different price levels.

Input: The Outer Continental Shelf Model (OCSM) reads economic, geologic, and institutional data describing the industry operating environment for the outer continental shelf of the lower 48 states. OCSM also reads user specified parameters defining such terms as the expected prices of oil and natural gas, and discount rates. **Output:** Output includes oil and natural gas production, reserve additions, and drillings by year in support of the Energy Information Administration Annual Energy Outlook and as issues develop.

SO1301-185

Transfer Pricing System

OMB Funding Code/Title: 89-0217-0-1-276 / Emergency preparedness and energy regulation
Program: Economic Regulation
Congressional Relevance: *House Appropriations Committee: Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources*
Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).
Availability: Agency
Geographic Relevance: International/Foreign; National
Purpose: The objective of the DOE Transfer Pricing Program was to monitor and regulate the prices at which oil companies transfer equity crude oil from their foreign to domestic affiliates prior to decontrol on January 28, 1981. Such regulation was needed because of the cost pass-through provisions of the Emergency Petroleum Allocation Act of 1973. The DOE attempted to control these transfer prices by comparing them with prices from transactions involving the same or similar crude types that were conducted on an arm's-length basis. When a company's transfer prices for a given crude exceeded the arm's-length standard established by the DOE, a disallowance of cost was proposed. Certain schedules on the form were deleted subsequent to decontrol. The system consists of information concerning imported crude petroleum obtained by purchase and through exchanges, cost data for imported equity and buy-back oil, crude petroleum sales and purchases, foreign crude trading activity by country of origin, and crude characteristics data. Form ERA-S1 is used. **Input:** The data are derived from reports submitted monthly by each refiner which imports 500,000 barrels of crude oil during the month and/or each refiner which imports crude oil from an affiliated entity during the month. **Output:** Output reports are generated monthly in hardcopy. Reports provide data on the high, low, and average transaction prices. Companies whose transaction prices exceed the computed average transaction price are subject to the issuance of a notice of disallowance.
Agency Contact: Energy Information Administration. (202) 252-1331.

SO1301-188

Petroleum Imports Licensing and Accounting System (PILAS)

(6127/6313/6727).
OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration
Program: Collection, Production and Analysis
Congressional Relevance: *House Appropriations Committee: Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Energy and Natural Resources*
Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385). (Presidential Proclamation 5141).

Geographic Relevance: National; Customs District, Puerto Rico
Purpose: The system is a standby accounts receivable system. It stores, retrieves, and processes data on imported petroleum and petroleum products in accordance with Presidential Proclamation 5279. The PILAS system contains data taken from licenses, consumption entry forms, refund documents, and remittance advices. These documents reflect the transactions of approximately 1000 companies which import petroleum and petroleum products. The consumption entry forms are put into PILAS daily from the Customs Offices in each district. They provide data on the number of barrels, type of product, and duties paid for each importation. **Input:** Interface with Customs provides transfer of timely data to the DOE computer. Other data are input from resource documents. The payment data would be obtained from ERA-17, ERA-95, and ERA-96 which are forms completed by firms or individuals which have incurred fees for the importation of crude oil, unfinished oils and finished petroleum products. **Output:** Output is produced as required and includes: Fees incurred, if any, transaction lists, importer transaction lists, importer master list, current bonds list, importer allocation summary, allocation report, current licenses issued, current licenses listed, check payments accepted, new bonds/rider, unaccompanied payments, additions to license table, authorized refunds to be issued, shipment discrepancy, potential refund qualification, overdue accounts, closed licenses, shipments in excess of license amount, shipments made against expired licenses, crude and unfinished oil imports, finished and other petroleum, and residual fuel.
Agency Contact: Energy Information Administration. (202) 252-9271.

SO1301-187

Department of Energy Oil Import System (ERA-60). (6253)

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration
Program: Collection, Production and Analysis
Congressional Relevance: *House Appropriations Committee: Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Energy and Natural Resources*
Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Trade Expansion Act of 1962 (P.L. 87-794). Energy Conservation and Production Act (P.L. 94-385). (Presidential Proclamation 5141).
Availability: Agency
Geographic Relevance: National; Puerto Rico, East Coast Refining District
Purpose: The DOE Oil Import System provides the means by which firms report data on the importation of crude oil, unfinished oils, residual fuel oil and finished petroleum products into the United States and Puerto Rico, as well as shipments from Puerto Rico to the U.S. The data are collected pursuant to Public Laws 93-275 and 93-159, as amended, and Presidential Proclamation 5141. Data are also provided on import into the East Coast Refining District. The system is updated on a monthly basis and contains information by respondent company relative to port of entry, country of origin, quantity of imports, and product imported. **Input:** Information is filed on a monthly basis by approximately 400 firms which import crude oil and petroleum products. Form ERA-60 is used. **Output:** Reports are produced monthly. In addition, plans call for the availability of data for on-line queries.

SO1301-186

Tertiary Enhanced Recovery Program (TERP)

1979
OMB Funding Code/Title: 89-0217-0-1-276 / Emergency preparedness and energy regulation
Program: Fuels Regulation
Congressional Relevance: *House Appropriations Committee: Interior Subcommittee; House Appropriations Committee: Energy and Water Development Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee; Senate Committee on Energy and Natural Resources*

Authority: Emergency Petroleum Allocation Act of 1973 (P.L. 93-159, § 8; 15 U.S.C. 751); Energy Policy and Conservation Act (P.L. 94-136, title IV, § 401; 42 U.S.C. 6201); Energy Conservation and Production Act (P.L. 94-385, title I, § 122; 42 U.S.C. 6801).

Availability: Agency

Geographic Relevance: National

Purpose: The TERP was designed to encourage installation of high cost, high risk tertiary oil recovery projects by providing funds through the oil pricing control regulations to offset certain costs for installation of tertiary recovery projects. Up to 20 million per property was permitted. The program was operated primarily by self-certification; however, a small fraction of the projects were certified by Economic Regulatory Administration (ERA) orders. Another part of the program permitted certain projects to receive market prices for price controlled incremental oil production. Self-certification for certain projects was allowed, with fewer requiring ERA orders for certification. **Input:** Annual reports from producers of goods and services purchased and paid for but not yet used (prepaid expenses) are sources of input. **Output:** The interest owners in all projects, their share of expenses, revenue generated, properties used to generate revenue, location of tertiary projects, and certain technical information will be produced in hard copy.

Federal Energy Regulatory Commission

S01304-002

Regulatory Evaluation and Docketed Information System (READI). 1980

OMB Funding Code/Title: 89-0212-0-1-276 / Federal Energy Regulatory Commission

Program: Federal Energy Regulatory Commission (All Programs)

Congressional Relevance: House Appropriations Committee; Energy and Water Development Subcommittee; House Committee on Interior and Insular Affairs; House Committee on Energy and Commerce; Senate Appropriations Committee; Energy and Water Development Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Department of Energy Organization Act (P.L. 95-91); Federal Power Act (P.L. 74-333; 49 Stat. 863); Natural Gas Act (P.L. 95-617; 15 U.S.C. 717); Natural Gas Policy Act of 1978 (P.L. 95-621).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The READI System tracks the status of docketed proceedings in the Federal Energy Regulatory Commission (FERC). Its purpose is to aid managers and staff in processing applications and to aid in the analysis of elapsed time and trends to improve procedures. The system includes dockets that take longer than one month to process. Its master files include approximately 5,000 pending filings and 45,000 completed cases dating back to 1977. The data in the system are information identifying dockets, such as applicant name, project manager, judge name; and target and completion dates for milestones. **Input:** Input is from FERC staff directly involved with the application, filing, or case. The

entireties of input are target and completion dates and descriptive or narrative data associated with the docket. **Output:** Principal outputs are listings of pending dockets, counts of dockets received, completed, or pending in given time periods; and categorizations of dockets by organization, type of filing, filing date, and staff assigned.

Agency Contact: Federal Energy Regulatory Commission. (202) 357-8216.

S01304-003

Federal Energy Regulatory Commission Management Information System (MIS).

OMB Funding Code/Title: 89-0212-0-1-276 / Federal Energy Regulatory Commission

Program: Federal Energy Regulatory Commission (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91); Federal Power Act (P.L. 74-333; 49 Stat. 863); Natural Gas Act (P.L. 95-617; 15 U.S.C. 717); Natural Gas Policy Act of 1978 (P.L. 95-621).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State

Purpose: The Federal Energy Regulatory Commission (FERC) Management Information System is composed of three reports that provide data for decisions to senior Commission Managers. Its objective is to support the mission of the Commission which is to develop, manage, and direct energy regulatory programs. The reports and their content are: the Monthly Management Information Report--workload and processes; the quarterly Energy Data Validation Report--forms, validation, clearance, and transfer; and the monthly Management Summary Report--summarizes the entire Management Information System for the Chairman and the Executive Director. **Input:** Workload, receipts and completions of cases (applications and filings) are sources of input. **Output:** Management Information System Report, Energy Data Validation Report, Management Summary Report, and miscellaneous computer printouts are produced.

Agency Contact: Federal Energy Regulatory Commission. (202) 353-5362.

S01304-004

Federal Energy Regulatory Commission Central Files (Manual) and Records and Information Management System (RIMS). 01/82

OMB Funding Code/Title: 89-0212-0-1-276 / Federal Energy Regulatory Commission

Program: Natural Gas Regulation; Hydropower Licensing Regulation; Oil Pipeline Regulation; Electric Power Regulation

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Natural Gas Act, as amended (P.L. 75-688; 52 Stat. 821; 15 U.S.C. 717 et seq.); Natural Gas Policy Act of 1978 (P.L. 95-621, § 2, 92 Stat. 3352; 15 U.S.C. 3301 et seq.); Federal Water Power Act (P.L. 66-280, § 4, 10; 41 Stat. 1065, 1068; 16 U.S.C. 797-825); Water Resources Planning Act of 1965, as amended (P.L. 89-80, § 2; 79 Stat. 244; 42 U.S.C. 1962); Niagara Power Project Act (P.L. 85-159, § 1-2; 71 Stat. 401-402; 16 U.S.C. 836, 836a); Public Utility Regulatory Policies Act of 1978 (P.L. 95-617, title 1, § 133; 92 Stat. 3132; 16 U.S.C. 2643); Department of Energy Organization Act (P.L. 95-91, title 1, § 2; 91 Stat. 567; 42 U.S.C. 7101, 7112).

Availability: Agency

Purpose: The Federal Energy Regulatory Commission (FERC) Central Files contain the official records of docketed proceedings before the FERC or the Federal Power Commission since 1920, except for those records that have been destroyed in accordance with authority granted by the National Archives. The great majority of the system is manual. In January 1982, an automated micrographics system (RIMS) was established to index, store, and retrieve records from that date forward. **Input:** The system contains documents filed with the Commission and issuances of the Commission. **Output:** The manual portion of the system

produces no output. The automated position (RIMS) produces copies of documents in either microfiche or paper; an automated index displayed on a terminal or printed on paper; various administrative statistics, such as frequency of record demand.

Conservation and Renewable Energy

S01308-002

Federal Energy Usage System. (6069 and 6324).

OMB Funding Code/Title: 89-0215-0-1-272 / Energy conservation

Program: Buildings and Community Systems

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Science and Technology; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Energy Conservation and Production Act (P.L. 94-385, title III, § 304, as amended by P.L. 95-91; 90 Stat. 1146; 42 U.S.C. 6833). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385). National Energy Policy and Conservation Act (P.L. 95-619). Energy Security Act (P.L. 96-294).

Availability: Agency

Geographic Relevance: National

Purpose: The purposes of the system are: (1) to respond to reporting requirements for the President and Congress and (2) to track progress through the data base, as follows: federal energy consumption in buildings and operations by agency, fuel type, and cost for the period FY 1975 through 1985; and analysis of federal agencies as a group and individually in graphics and numbers by fuel, cost and function, developing ratios, percentages, comparisons and trends. **Input:** Input consists of quarterly reports (DOE-F 6200.2) and annual reports from agencies. **Output:** Output consists of annual reports to the President and Congress, printouts to agencies and analyses of specific data elements for MIS purposes and in response to queries.

Agency Contact: Conservation and Renewable Energy. (202) 252-9473.

S01306-003

Federal Fuel Economy Information Program. (6290).

OMB Funding Code/Title: 89-0215-0-1-272 / Energy conservation

Program: Transportation

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Science and Technology; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93-577, § 6; 88 Stat. 1881; 42 U.S.C. 5905). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).

Availability: Gas mileage guide (EPA and DOE)

Purpose: The system is to enable DOE to assist EPA to group autos with similar characteristics (e.g., all autos weighing 2,500 pounds or more, or all autos over 16 feet long). Within each group, autos are to be ranked according to their fuel economy and interior volume measurements. Specifications are weight, wheelbase, price, exterior size, passenger space, and cargo volume. **Input:** Data taken from Environmental Protection Agency confirmatory testing of automobile emission readings produced by automobile manufacturers. **Output:** Fuel economy label, Automobile Gas Mileage Guide.

Agency Contact: Conservation and Renewable Energy. (202) 252-8012.

S01308-004

Industrial Energy Efficiency Program. (6473).

Program: Industrial

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Science and Technology; Senate Appropriations Committee; Interior Subcommittee; Senate Committee

on Energy and Natural Resources

Authority: Energy Policy and Conservation Act (P.L. 94-163, title III, § 372, 42 U.S.C. 6342).

Availability: NTIS; Agency; Technical Information Center, Oak Ridge, TN

Geographic Relevance: National

Purpose: This system is designed to help encourage large energy consumers to seek increased energy efficiency by establishing energy efficiency targets and monitoring the various companies' progress toward achieving those targets. **Input:** Forms (CE-189C)(CS-189-P)(CS-189-S) are used to collect information from trade associations and companies outlining manufacturing energy consumption figures. **Output:** An annual report to the Congress is produced which shows industrial energy consumption by Standard Industrial Classification (SIC) code as compared to target consumption figures developed by the Department of Energy in conjunction with industry.

Agency Contact: Conservation and Renewable Energy. (202) 252-2371.

S01308-005

Grant Program for Schools and Hospitals (GPS/H). (1511).

OMB Funding Code/Title: 89-0215-0-1-272 / Energy conservation

Program: State and Local Assistance

CFDA NO.: 81.052

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Science and Technology; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: National Energy Conservation Policy Act (P.L. 95-619, § 302; 42 U.S.C. 6371).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides for a grant award tracking system for grants awarded to schools and hospitals for energy conservation measures and related technical assistance programs. The program provides energy conservation assistance to schools, hospitals, and public care and other miscellaneous local government buildings. Information maintained in this system includes the type of building, the anticipated funding needs, and the budget specifics of the proposed grant. **Input:** Forms EIA-144 and EIA-145 are used to collect information from institutions applying for and awarded grants under this program. **Output:** Internal program monitoring reports are generated by this system as well as special reports upon request to the agency contact.

Agency Contact: Conservation and Renewable Energy. (202) 252-2337.

S01308-007

State Energy Conservation Plans. (6551).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Interior and Insular Affairs; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: State

Purpose: The system monitors the implementation of the federally aided State Energy Conservation Program in order to reduce state projected 1980 energy consumption by 5 percent. The data pertain to planned and actual energy savings by program measure. The implementation strategy and end-use sector data are included. The file size is currently 2,000 records with an anticipated maximum of 10,000 records and the file will be updated annually with savings data. **Input:** State energy offices provide initial input and update data. **Output:** The outputs are initial planned energy savings for each program measure, by state and an annual energy savings reports for each program measure by state. These are available in hardcopy or by CRT. An ad hoc query capability is also available.

Agency Contact: Conservation and Renewable Energy. (202) 252-8298.

Controller

S01314-001

Financial Management Systems. (383, 384, 385).

OMB Funding Code/Title: 89-0228-0-1-276 / Departmental administration

Program: Policy and Management

Congressional Relevance: *House* Committee on Science and Technology; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Internal Use Only

Geographic Relevance: International/Foreign, National, State, Congressional District

Purpose: The system is the primary financial information collection and dissemination mechanism for the Agency. The financial management system is composed of two primary modules--the accounting module and the budgeting module. The accounting and budgeting modules are interfaced to provide comparisons of actual costs with financial plan estimates. The accounting module is designed to collect and disseminate cost and obligation data at varying levels by budget and reporting classification, reporting organization, contractor, and location. The budgeting module is essentially made up of two major submodules--budget formulation and budget execution. Budget formulation is primarily a manual system. Budget schedules show a 3-year spread (past year actuals, current year estimates, and budget year estimates) for comparison purposes. Special analyses of the budget data are prepared, as are certain crosscuts which emphasize computers, laboratories, personnel, etc. **Input:** The input includes congressional actions, OMB budget decisions, field financial reports, field and headquarters financial plans, program financial status information, and manpower management reports (contractor). **Output:** The principal output consists of Budget Status Tables, Financial Plans (Cost and Obligation), Manpower Reports (Contractor), Obligation and Cost Accounting Reports (Actual Versus Planned), and Treasury Schedules and Reports.

Agency Contact: Controller. (202) 252-4171.

assistance Data System (PADS) are received from initiating organizations, procurement offices, and major cost-type prime contractors. Data categories include: financial, work description, contractor address, contract number, and other categorizations of procurement and assistance data. **Output:** Summary and status reports are prepared monthly in hard copy containing information on contracts and contractual actions. A quarterly list of contractual transactions is prepared on tape for submission to the Federal Procurement Data System. A quarterly list of financial transactions is prepared on tape for submission to the Federal Assistance Award Data System. Data are also obtainable via on-line, dialup terminals.

Agency Contact: Procurement and Assistance Management. (202) 252-4930.

Nuclear Energy

S01316-002

Reactor Information File. (DOE-104).

OMB Funding Code/Title: 89-0224-0-1-271 / Energy supply, R&D activities

Program: Nuclear Fusion

Congressional Relevance: *House* Committee on Science and Technology; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State

Purpose: The Reactor Information File edits and processes parametric, cost, and scheduler data received from electric utilities and other sources on civilian nuclear powerplant units. The Reactor Information File (RIF) is maintained on the MARK IV File Management System. The RIF includes data in the following areas with respect to central station nuclear power plants: 1) Number of plants announced, on order, under construction, operable or terminated. 2) Significant milestone dates of announcement, contract award, start of construction, initial criticality, first electricity, initial power design, commercial operation, and licensing dates. 3) Capacity rating. 4) Plant cost data on land and land rights, structures and improvements, reactor plant equipment, turbogenerators, accessory electric equipment, miscellaneous power plant equipment, cumulative costs; training costs; fuel fabrication costs; and fuel statistics, and 5) Selected operating statistics on cumulative and total yearly power production electrical generation megawatt hours net and gross, and thermal megawatt hours gross; performance indicators including reactor criticality hours and availability factors (percentage); plant availability factors (percentage); plant capacity factors (percentage) based on net design electrical rating and net maximum dependable capacity. The Central Station Power records are periodically updated. **Input:** Electric utilities having nuclear plants ordered or under construction, EIA, the Nuclear Regulatory Commission (NRC), and the Public Affairs of DOE supply input material. Uses form DOE-HQ-254. **Output:** Principal reports of the system which are sent to DOE organizations, Congress, other federal agencies, industry and the public are DOE/NE-0030, "U.S. Central Station Nuclear Electric Generating Units: Significant Milestones" (quarterly); "Operating History U.S. Central Station Nuclear Power Plants" (yearly); and UPDAT13DOE/NE-0048, which is a quarterly report on nuclear power information and data sent to various energy-related committees of the Congress.

Agency Contact: Nuclear Energy. (301) 353-3908.

Procurement and Assistance Management

S01315-008

Procurement and Assistance Data System (PADS). 03/82

OMB Funding Code/Title: 89-0228-0-1-276 / Departmental administration

Program: Management and Administration

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Foreign Affairs; *House* Committee on Interior and Insular Affairs; *House* Committee on Science and Technology; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91, title II), § 301; 91 Stat. 577; 42 U.S.C. 7151.

Availability: Agency

Purpose: PADS has replaced the Integrated Procurement Management Information System. PADS will be used internally by the Department of Energy (DOE) Procurement and Assistance Management Directorate, procurement offices, initiating offices, initiating organizations, and senior management, and externally by Congress, Executive Branch organizations, industry, and individuals. The principal subject matter is DOE procurement and federal assistance awards. Data/information coverage includes procurement request data and all contract awards with total value in excess of \$10,000 and all federal assistance awards. The initial load is estimated to generate approximately 25,000 records. Some contract data will extend back to 1943 and procurement request data will extend back for a maximum of a year. The update cycle is daily, week-

S01316-003

U.S. Uranium Resources and Supply.

OMB Funding Code/Title: 89-0226-0-1-271 / Uranium supply and enrichment activities

Program: Uranium Resource Assessment

Congressional Relevance: *House* Committee on Science and Technology; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee

Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Interior Subcommittee. **Authority:** Department of Energy Organization Act (P.L. 95-91). **Availability:** Agency. **Geographic Relevance:** International/Foreign; National; State. **Purpose:** The purpose of this data acquisition system is to gather information on domestic uranium ore reserves and resources, economics, and production capability as a basis for Agency and industry planning for nuclear energy and alternative system development. Data are gathered and published in a wide ranging variety of uranium raw materials related subjects, including efforts of government and government contractors and the private sector. Information covers all aspects of uranium raw materials area for the United States, including Alaska. Data are released routinely through press releases and papers. Similar data are gathered and reported regarding foreign uranium resources and production capability. **Input:** Information is developed by gathering the results of industry activities in uranium exploration and mining. The basic data are used to prepare estimates of U.S. uranium reserves and resources. Analysis of the data by DOE personnel results in projections of uranium supply. Statistics on exploration and mining activity and future plans are also provided by industry. **Output:** Output consists of press releases and papers. **Agency Contact:** Nuclear Energy. (301) 353-5936.

Fossil Energy

S01317-001

Business Management Information System (BMIS).

OMB Funding Code/Title: 89-0213-0-1-271 / Fossil energy research and development

Program: Fossil Energy Research and Development (All Programs)

Congressional Relevance: House Appropriations Committee: Interior Subcommittee; House Committee on Interior and Insular Affairs; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93-577, § 4; 42 U.S.C. 5901). Department of Energy Organization Act (P.L. 95-91, title III, § 301; 42 U.S.C. 7101). Coal Production and Conservation Act (P.L. 86-599, § 7).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the system is to provide a computerized method of planning procurements by division/office B&R code which can be easily changed, or updated in order to plan, organize, coordinate, and control procurements. It is also used for indicating procurement office location and cognizant persons responsible for each project.

Input: The data contained in the system are derived from: Purchase, Budgets, Financial Plans, Contract Documents, and Personnel Data.

Output: The frequency of the system output is daily, weekly, and monthly. The output includes the following: Financial Plan Reports, Procurement Status Reports, Program Execution Plan Reports, Obligational Data Reports, and other ad hoc reports as required. The output is in machine readable form.

Agency Contact: Fossil Energy. (301) 353-2621.

S01317-005

Alternative Fuels Data Bank (AFDB). (3032).

OMB Funding Code/Title: 89-0213-0-1-271 / Fossil energy research and development

Program: Coal; Petroleum; Enhanced Gas Recovery

Congressional Relevance: House Appropriations Committee: Interior Subcommittee; House Committee on Science and Technology; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93-577, § 17; 88 Stat. 1894; 42 U.S.C. 5916). Coal Production and Conservation Act (P.L. 86-599; 74 Stat. 336; 30 U.S.C. 661 et seq.).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The Alternative Fuels Data Bank (AFDB) is a computerized system open to the research community at no cost. Although the AFDB contains historical information and some information about other aspects of alternative fuels, it is designed primarily to reflect current state-of-the-art of utilization of alternative transportation fuels. The emphasis is on utilization characteristics of liquid fuels produced from non-petroleum sources. The computerized data base contains three types of information files: publications, current research, and topics. **Input:** Publications, current research reports, and summary research information on energy topics provide the input for this data base. **Output:** Abstracts of publications, information on the status of current research, and short comments on a variety of energy topics (1 to 2 pages) are produced on demand.

Agency Contact: Fossil Energy. (918) 337-4267.

Management

SO1403-001

Department of Education Grants and Contracts Management System. (EEC 013).

OMB Funding Code/Title: 91-0800-0-1-503 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

CFDA NO.: 84.003; 84.004; 84.005; 84.011; 84.014; 84.015; 84.016; 84.017; 84.019; 84.020; 84.021; 84.022; 84.023; 84.024; 84.025

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Education Amendments of 1974 (P.L. 93-380, § 405).

Availability: Agency

Geographic Relevance: National, State, Congressional District

Purpose: The Grants and Contract Management System tracks information on Assistance Management and Procurement Service activity on the award of both contracts and grants by the Department of Education. The Grants System provides for the automated receipt, control, tracking, and award production for grant applications and grant awards processed for over 100 discretionary grant programs and three formula programs within the Department of Education. The contract data base supports the production of various mandated reports. Numerous control and statistical reports from the Grants and Contracts Systems are produced to support the needs of headquarters and regional offices, program officials, and grant and contract negotiators in the evaluation and award processes. The system also encompasses the maintenance of centralized mailing files for label generation and control in the mailing of some 200,000 preapplication and application packages to the educational community. Basic identification data of each applicant as well as state identification number, contact person, authorizing official, region, state and congressional district of applicant, funds requested, type of applicant, type of grant, and population benefited, are collected for each application for a grant received throughout the year. Data items on grant awards include title of proposal, budget and performance periods, type of award, carryover funding, indirect costs, project director, negotiator, ED Project Officer, etc., as well as the amount of award specified of object class, fiscal year, and common accounting number. Contract data include historical information on purpose of contract, amount of action, performance period, program numbers, branch codes, consultant categories, etc., for contracts, purchase orders, delivery orders, and interagency disbursements. A major subsystem in the grants area is a

Grants Scheduling Subsystem: It provides Management the capability to manage the scheduling of the annual grant process of more than 100 grant programs. This enables the appropriate levels of management to: (1) analyze schedule compliance or schedule variance; (2) inform all levels of management on current program status; (3) enhance management planning, control, and decision-making activities; (4) expedite resolution among competing activities; and (5) accumulate measures of impacts of workload caused by schedule revisions. **Input:** Applications received from the many segments of the educational community, state and local governments, higher education, vocational/technical institutions, profit and non-profit organizations provide input for the system. **Output:** Approximately 130 control and statistical reports are generated on a selective and as-required basis to meet administrative control and reporting needs of the 94 program offices, ED top management, regional offices and numerous requests for information under the Freedom of Information Act. The system provides for generation of award document, congressional notification listings, regional notification reports, as well as mandated reports.

Department of Education Financial Management Information System (EDFMS).

OMB Funding Code/Title: 91-0800-0-1-501 / Salaries and expenses; 91-0230-0-1-502 / Guaranteed student loans; 91-0201-0-1-502 / Higher education; 91-0102-0-1-501 / Impact aid

Program: Department of Education Grants Management System; State Uses of Federal Funds; Guaranteed Loan Successor System; All Programs; Maintenance and Operations

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *House* Appropriations Committee: Legislative Branch Subcommittee

Authority: Act of April 13, 1970 (P.L. 91-230, § 400 (D)). Higher Education Act of 1965 (P.L. 89-329, § 421, as amended by P.L. 89-329).

Purpose: The Department of Education (ED) Office of Management/Controller, Financial Management Service, maintains a computerized accrual accounting system known as the Department of Education Financial Management Information System (EDFMS). This system constitutes the official accounting records for all programs and operations assigned to the Department of Education. All update processing of the system is made through a contractor, COMNET, which maintains central data processing equipment available for agency use on a contract basis. In addition to responding to program areas, Financial Management Services must respond to directives from the Office of the Comptroller General (GAO), specifically outlined in the General Accounting Office Systems and Procedures Manual and based on provisions of the federal statutes. The result of these requirements is to produce financial reports and documents from which the program officers can manage ED programs and the financial status and accountability of the agency can be reported to higher authority. The EDFMS data base is primarily of an accounting nature; i.e., accounting control for all Department of Education financial transactions. This data base, which is updated weekly, is the source used to produce all required and special request reports. Output can reflect accounting transactions which have occurred at the state, county, SMSA, LEA, and congressional district levels for any given year. **Input:** Accounting transactions are entered through a mini-computer (FREEDS), a front-end on-line data entry system which provides immediate fund-control verification, input edit checks, error correction, and query capabilities. **Output:** This system generates a number of reports in hardcopy format, microfilm, and magnetic tape. These reports are generated weekly, monthly, quarterly and annually.

Geographic Relevance: National; State; County

Purpose: Section 406A (Formerly Section 437) of the General Education Provisions Act requires the Secretary of Education to obtain an annual report from each state-administered federal education program. The state report shows the allocation of funds to local grantees. A nationwide summary and analysis is prepared for Congress. For each state-administered federal education program, the state provides a list of local grantees showing most recent fiscal year's grant. **Input:** State education agencies provide the required source data. **Output:** The output is an annual hardcopy report to Congress showing summary and analysis of data.

Congressional Relevance: *House* Committee on Education and Labor; *House* Committee on The Judiciary; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Civil Rights Act of 1964 (P.L. 88-352, title VI, § 601; 78 Stat. 52; 42 U.S.C. 2000d et seq.). Education Amendments of 1972 (P.L. 92-318, title IX, § 901; 86 Stat. 373; 20 U.S.C. 1681 et seq.). Department of Education Organization Act (P.L. 96-88; 93 Stat. 668; 20 U.S.C. 3401 et seq.). Older Americans Amendments of 1975 (P.L. 94-135, title III, § 302; 89 Stat. 728; 42 U.S.C. 6101 et seq.). Rehabilitation Act of 1973 (P.L. 93-112, § 504; 87 Stat. 394; 29 U.S.C. 794).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The Automated Case Information Management System (ACIMS) was developed to collect and store case information on Office for Civil Rights (OCR) complaints and compliance reviews, to track critical case events, and to provide accurate and timely case information to OCR personnel in the regional offices and headquarters. Information is stored in the system on the current status and past history of active cases. Through ACIMS, OCR can monitor compliance with the Adams court order and produce data for quarterly and end of year management reports, as well as periodic workload reports. In addition, the system is designed to generate lists of cases that have certain characteristics in common in order to respond to ad hoc requests for case information. ACIMS is an on-line interactive computer system residing in Washington, DC. All regional offices have access to the system via IBM 2741 terminals. **Input:** The data contained in the system are derived from information on complaint cases and compliance reviews. At present, these data are also recorded on case control forms. **Output:** All case information for all regions is stored on a common data base. Printouts of data are retrieved as needed.

Reorganization Act of 1975 (P.L. 94-142, title I, § 101, 29 U.S.C. 794). Older Americans Amendments of 1975 (P.L. 94-135, title III, § 302; 89 Stat. 728; 42 U.S.C. 6101 et seq.). Department of Education Organization Act (P.L. 96-88; 93 Stat. 668; 20 U.S.C. 3401 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: Survey Data Collection and Analysis System consists of a series of information systems designed to monitor the compliance of educational facilities with various civil rights legislation. Information is collected through survey instruments designed to determine enrollment by race, ethnic origin, and sex in education-related institutions in to determine special information on particular institution types. Elementary and secondary, postsecondary, special purpose, and vocational education institutions are surveyed. Surveys are conducted: (1) elementary and secondary, every two years; (2) vocational education, every four years; (3) special purpose, done once in 1978; (4) postsecondary, full enrollment in even years and earned degrees in odd years. Data is generally available one year after the survey is conducted. The period covered by the surveys included in the system include 1968 through the present. **Input:** The data contained in these systems are derived from survey instruments that education-related institutions complete. **Output:** On completion of surveys, output is available in published reports and raw tapes.

SO1406-008

Annual Survey of Children in Institutions for Neglected or Delinquent Children. 1966

OMB Funding Code/Title: 91-0900-0-1-501 / Compensatory education for the disadvantaged

Program: Grants for Disadvantaged; Basic Grants

CFDA NO.: 84.013

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35, § 554; 20 U.S.C. 2711; 20 U.S.C. 2781).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: An annual survey is conducted to determine the numbers of institutionalized neglected or delinquent children in state facilities and local school districts. State agencies directly responsible for providing free public education are eligible to receive Chapter 1 grants based on the average daily attendance of children in state institutions. Local educational agencies receive grants which are based in part on the number of children living in institutions which are not state operated. The files for fiscal year 1983 consist of over 600 state institutions and approximately 2,000 local institutions. **Input:** The information is provided by the state educational agencies for each of the institutions for neglected or delinquent children. The data include: (1) names of institutions; (2) state agencies directly responsible for providing free public education; and (3) average daily attendance data in state institutions for the latest completed school year or October caseload data for children in local institutions. **Output:** A typed listing by state of the institutions and the population data is submitted to the National Center for Education Statistics (NCES) in the Department of Education. NCES has the responsibility for computing Chapter 1 grants using these reports.

Authority: Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35; 20 U.S.C. 2711; 20 U.S.C. 2781).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The purpose of the State Performance Report is to collect data to provide nationwide information on Chapter 1 recipients and the types of supplemental services provided for educationally deprived children. States are requested to include evaluation data in the report. Each of the 50 states, as well as the District of Columbia, Puerto Rico, and the Outlying Areas, is required to submit an annual performance report for the latest completed school year. The Performance Report consists

of five pages. Files by fiscal year for each state are maintained in the Department of Education. **Input:** The information for this system is furnished by the state educational agencies. The data in the reports include: (1) participants by grade level; (2) participants in public and non-public schools; (3) participants by service category; (4) participants by racial/ethnic group; (5) the number of Chapter 1 staff; and (6) Chapter 1 achievement information, if available. **Output:** Information is keypunched and tabulated on an annual basis by the Office of Planning, Budget, and Evaluation in the Department of Education.

SO1406-012

Tenth Annual Report to the Congress of the United States: "The Indian Education Act: Indian Students Have the Right to Excellence in Education".

OMB Funding Code/Title: 91-0101-0-1-501 / Indian education

Program: Program Administration; National Advisory Council

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Select Committee on Indian Affairs; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Education Amendments of 1972 (P.L. 92-318, title IV, § 442; 86 Stat. 343; 20 U.S.C. 1221g)

Availability: GPO; ERIC/CRESS

Geographic Relevance: National

Purpose: The Council advises the Congress and the Secretary of Education with regard to programs benefiting Indian children and adults. Recommendations of the Council reflect the needs and desires of local Indian communities in education. The recommendations have been incorporated into Department of Education/Indian Education Programs regulations, programs priorities, budget requests, and the general administration of the Indian Education Act. Additionally, the National Advisory Council on Indian Education (NACIE) works in close coordination with national Indian organizations, state and local educational agencies, institutions of higher education, and Indian controlled education agencies (non-LEA's). The NACIE advises the Congress and the Secretary of Education with regard to programs benefiting Indians. It is required to: (1) submit a list of nominees for the position of Director, Indian Education Programs; (2) advise the Secretary with respect to the administration of programs in which Indian children and adults participate and from which they can benefit; (3) review applications for assistance and make recommendations with respect to their approval; (4) evaluate programs and projects carried out under programs in which Indian children and adults participate and from which they can benefit; (5) provide technical assistance for improving the education of Indian children; (6) assist the Secretary in developing criteria and regulations for the administration and evaluation of grants; and (7) submit annual reports to the Congress on its activities and recommendations and be consulted regarding the definition of the term "Indian." **Input:** Input includes a list of nominees for the position of Director, Indian Education Programs. **Output:** Output consists of annual reports that chronicle activities for each fiscal year.

Guaranteed Student Loan Information System (GSLIP). (EEC 020).

OMB Funding Code/Title: 91-0240-0-1-502 / Higher education facilities loans and insurance

Program: Higher Education Facilities Loan and Insurance; Operating Costs

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Higher Education Act of 1965 (P.L. 89-329, § 421).

Availability: Agency

Purpose: Title IV, of the Higher Education Act of 1965, as amended, provides for a program of guaranteed loans for students attending vocational schools and institutions of higher education. The system concentrates on the administrative and program management requirements associated with large volumes of data, effective and efficient program management, and federal-state institutional relationships. The Loan Control Master File provides a record of all students who have received Federal Insured Student Loans. Student data describe the student name, state of residence, date of birth and academic status. The School/Lender Subsystem contains institutional data regarding eligible program participants. The Insurance Subsystem captures financial data on insurance premiums received from lenders for Federal Insured Student Loans. The Interest Payment Subsystem records payments of interest benefits, special allowance, and capture of loan origination fees for participating lenders. The Claims and Collections Subsystems record detailed loan data and collection activity on defaulted Federal Insured Student Loans and National Defense/Direct Student Loans. **Input:** Nineteen thousand commercial lending institutions and thirteen thousand educational institutions provide OCSI, with data of insurance commitment, payment of interest/special allowance, and collection of insurance payment. Student loan records include data from the Lender Report of Guaranteed Student Loan; Lender's Manifest; Student Application for Federal Insured Student Loan; Lender's Request for Interest and Special Allowance; Student Confirmation Report; Federal Loan Transaction Statement, and Lender's Annual Call Report. The claims and collections subsystems provide a record of defaulted student loans, payments for defaulted loans to lenders by OE, and defaulted student payment records. **Output:** Various reports are generated.

Student Financial Aid Management Information System (SFAMIS). (EEP 002).

OMB Funding Code/Title: 91-0201-0-1-502 / Higher education

Program: Higher Education (All Programs)

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Higher Education Act of 1965 (P.L. 89-329).

Availability: Agency

Purpose: The Student Financial Aid Management Information System (SFAMIS) serves the National Direct Student Loan Program, the College Work-Study Program, and the Supplemental Educational Opportunity Grants Program with computerized management reports which provide financial and institutional analytical data for institutions of postsecondary education receiving funds for operation of these programs. The six basic subsystems are designed to: review fiscal-operations reports before input into the data base; collect institutional requests and update necessary components needed for calculation of institutional conditional guarantee and fair share; compute institutional allocations and maintain cumulative allocations and accounting documentation for each program; edit data elements on the fiscal operations report; compute teacher/military reimbursements; resymbolize and reallocate unexpended balances; allow institutions a chance to appeal tentative funding levels; provide congressional camera copies for announcement of institutional allocations and maintain institutional characteristics and system status. The Student Financial Aid Management Information System collects, edits, and provides update capability for a wide range of data elements. The majority of elements originate from the fiscal-operation report and the institutional characteristics file. **Input:** The institutional funding requests and fiscal-operations data are provided by institutions of postsecondary education. **Output:** Output provided by the system includes a comprehensive edit/error listing representing the collection of the fiscal-operations report; tentative and final funding worksheets explaining calculation of institutional allocations; award letters and approval lists for final awards; and teacher/military reimbursement letters. Summaries of the above data are aggregated by state, region, and type and control of institution. Machine generated reports are available in hardcopy and are normally generated on an annual basis.

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Higher Education Act of 1965 (P.L. 89-329, § 417).

Availability: Agency

Purpose: Project 2-D provides the computer operation, reporting, and systems maintenance for the Upward Bound Information System and its funding report, and directory and mailing labels systems for all special programs. This system maintains information on current and former Upward Bound participants. Various reports are produced for management information purposes, including: monitoring compliance with program regulations, description of the population served, and project and program analysis and evaluation. These reports are provided to the national program managers, the 10 regional program managers and, upon occasion, in response to congressional inquiries. Information concerning current Upward Bound students contained within the system includes name, address, date of birth, social security number, income eligibility information, recruitment source, veterans' information, high school name and location, student's academic program, and grade point average at entry. Information concerning former students includes the above as well as reason for leaving project, educational status, course of study, name of college, admission basis, grade point average at departure, and SAT and ACT test scores. Project directory information includes grant amount, estimated number of students to be served, address, type of institution, region, state, and congressional district. **Input:** Input data for the Upward Bound Information System are provided on the Report on Current Upward Bound Students. The Report on Former Upward Bound Students, and the Report on College Retention of Former Upward Bound Students. The first two reports are completed by project directors. The retention report is completed by college registrars where former Upward Bound students are reported to be enrolled. Information concerning funded applications is derived from the applications. Information contained in the Directory of Funded Projects is obtained from applications and updated by the projects themselves. **Output:** Principal reports of the Upward Bound Information System include a project profile report which is produced twice a year, an Upward Bound postsecondary report produced annually, and current and former student rosters produced twice and once a year, respectively. The Upward Bound system has no direct query capability. All reports are currently produced on hardcopy. Annually, a directory of projects and funding report summary are produced.

Pell Grant System--Student Application Processing. (EEP 010).

OMB Funding Code/Title: 91-0201-0-1-502 / Higher education

Program: Student Services

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Higher Education Act of 1965 (P.L. 89-329, § 41).

Availability: Internal Use Only

Purpose: This system is maintained and operated by a contractor. This system puts Pell Grant application data on magnetic tape, validates data, determines if students are eligible for Pell Grants based on an ED formula, indicates eligibility index for eligible students, generates a student eligibility report for eligible students, maintains a master file of all Pell applications processed, and submits a condensed record of the master file to ED. The student Pell application master file contains a variety of personal information on the financial status of the student and his family, marital status, SSN, date of birth, and complete home address. The master file also contains some personal information on the parents. **Input:** The input to the system is Pell Grant student applications received directly from the student. **Output:** The system has two principal reports, a hardcopy student eligibility report sent to the student and a magnetic tape containing a condensed record of Pell Grant applications

processed. A system is maintained to allow responding to queries regarding the status of an application. The query capability is internal within the contractor's office as well as available to EJD and to another contractor who is answering correspondence for ED.

Pell Grant System (PELL-RDS). (EEP 011).

OMB Funding Code/Title: 91-0201-0-1-502 / Higher education

Program: Student Services

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Higher Education Act of 1965 (P.L. 89-329, § 41).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State; Congressional District

Purpose: The Regular Disbursement System (RDS) maintains the following: records of funds authorized to postsecondary schools for disbursement as Pell payments to eligible students; funds expended by these schools; individual student Pell records; and verifications of disbursements to students by schools. RDS maintains a master file of all institutions participating in the Pell program and pertinent characteristics of those institutions. RDS provides the necessary reports and controls to manage the Pell program and provides the accounting and auditing records. Four major master files are maintained. Three of the master files have contents relating to Pell funds disbursed at schools showing amount of funds, type of institution, region and state codes, congressional districts, characteristics of schools, and number of students assisted by Pell. The student master file has data on social security number, date of birth, student educational cost, and family contributions. **Input:** Input into RDS comes from postsecondary institutions sending progress reports for funds requested and funds used; validation rosters verifying disbursements made to students; students' submissions of student aid reports (SARS) via schools; and student application processing contractor provision of records, on magnetic tape, of Pell applications processed. **Output:** The principal reports are letters of Pell fund authorization/ceiling issued to schools four-five times per year; student validation rosters issued to schools annually; monthly authorization report used for internal management; yearly Pell handbook; yearly list of eligible schools, yearly eligibility index, and yearly payment schedule. All of the above are hardcopy.

S01407-007

Cooperative Education Program (CEP).

OMB Funding Code/Title: 91-0201-0-1-502 / Higher education

Program: Student Services

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Higher Education Act of 1965 (P.L. 89-329, § 101).

Availability: Agency

Purpose: The Higher Education Act, Title VIII, as amended, provides federal support for cooperative education programs to institutions of higher education for planning, establishment, and expansion of programs which alternate periods of academic study with periods of public or private employment; for the training of such program administrators; for research directed toward the promotion of improved programs of cooperative education; and for projects demonstrating or exploring the feasibility or value of innovative methods of cooperative education. The scope of information is the applications which are officially received according to the established criteria and instructions, in the Department of Education Application Center, established under the direction of the Director, Grant and Procurement Management Division for the programs. After the applications are evaluated by outside consultants and the ED program staff, award recommendations are made to the Grant and Procurement Management Division. Institutions may receive annual grants for no more than five fiscal years. **Input:** The primary source of

input is via applications and progress reports in accordance with the regulations, funding criteria, and notice of closing date for receipt of applications. **Output:** The major reports are the Annual Notification of Grant Awards, the Annual Cooperative Education Awards Booklet, and the Education Briefing Paper (published by Department of Education). All reports are printed annually.

S01407-008

Community Service and Continuing Education Program.

OMB Funding Code/Title: 91-0201-0-1-502 / Higher education

Program: Student Services

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Higher Education Act of 1965 (P.L. 89-329, § 10).

Availability: Agency

Geographic Relevance: National; State; Congressional District; U.S. territories

Purpose: Title I authorizes the allotment of federal funds in the state for the purpose of strengthening community service and continuing education programs of colleges and universities in order to assist people in the solution of community problems through the continuing education of adults. Section 106 authorizes the Commissioner of Education to reserve up to 10 percent of the sums appropriated in order to make discretionary grants to institutions of higher education. These awards will assist the institutions in carrying out special projects designed to seek solutions to national and regional problems relating to technological and social change and environmental pollution. Information is collected from the 50 states, the District of Columbia, Guam, Puerto Rico, the Virgin Islands, and American Samoa. State grant data (program and fiscal) are collected quarterly. Principal subject matter includes the amount of dollars and the number and types of grants, participating institutions, and students. Geographic references are state and congressional district. **Input:** The primary sources of data are state agencies and institutions of higher education. The major categories of input data are numbers and types of institutions, number and types of grant, number and types of students, and the amount of dollars going into the projects. **Output:** The principal report is an annual report in hardcopy.

S01407-013

National Defense Student Loan (NDSL) Default Institutions.

OMB Funding Code/Title: 91-0200-0-1-502/Student financial assistance

Program: Direct Loans

CFDA NO.: 13.471

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Education Amendments of 1972 (P.L. 92-318). Higher Education Act of 1965 (P.L. 89-329).

Availability: Agency; Regional Office

Purpose: This system provides information pertaining to the collection of outstanding student loans when a school has closed. Individual student files contain all information relative to the establishment of the account, including the student loan application; borrower's name, address, and social security number; total amount borrowed; payments made; cancellations granted; deferments approved; and any other pertinent information. In addition, all information is keyed to a computerized system for CRT display. **Input:** Borrowers, lending institutions, and other sources relevant to the making and collection of the loans provide the information used in this system. Changes to the computerized system are required to update the status of the account. **Output:** Everything is currently in hardcopy since the system is a manual operation. However, a computerized system which will provide CRT display is being developed.

Agency Contact: Postsecondary Education. (202) 755-1467.

National Institute of Education Information System. (NB).

OMB Funding Code/Title: 91-0800-0-1-503 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

CFDA NO.: 84.117

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Education Amendments of 1972 (P.L. 92-318, § 301(a)(2); 86 Stat. 330; 20 U.S.C. 1221(e)(1)). Education Amendments of 1976 (P.L. 94-482).

Availability: Both internal and external, including FPLS, PAIS

Geographic Relevance: National

Purpose: This automated data processing system is designed to capture and report information relating to the National Institute of Education's contracts and grants. The system utilizes a data management software package which structures contract and grant information for storage efficiency and ease of retrieval. Principal data files and components are the geopolitical data file containing entries for each state and the congressional districts within the state; the award information, consisting of vendor identification, assigned key vendor personnel, project officer and financial information; and a descriptive resume of project functions and areas of study for each award. Updating of most data occurs weekly. **Input:** Sources of information are the program offices, which supply subjective, descriptive information; the EIS Financial Management Information System, which supplies financial data; the Contracts and Grants Management Division, which supplies data relating to technical contract and grant categories; and the NIE Central Registry System,

which supplies vendor information. **Output:** A data base designed for ease of retrieval is available for multiple variations of reporting. Summaries of projects by subject area, award size, location, and method of procurement are among the numerous reports which may be generated from this system.

Mailing Information System (MIS). (E7).

OMB Funding Code/Title: 91-0800-0-1-503 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

CFDA NO.: 84.117

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Education Amendments of 1972 (P.L. 92-318, § 301(a)(2); 86 Stat. 330; 20 U.S.C. 1221(e)(1)). Education Amendments of 1976 (P.L. 94-482).

Availability: Agency

Geographic Relevance: National

Purpose: The Mailing Information System (MIS) enables the National Institute of Education (NIE) user to compile a data base of essential information related to all individuals or organizations that are in correspondence with the Institute. The system is available for use by any individual in the Institute and is flexible enough to satisfy a multiple of user needs. The principal data items stored by the MIS include name; address; organization; organization type (government, media, student, union, etc.); educational category of organization (pre-school, elementary, etc.); and interest of the recipient. Provisions exist so that the entering organization can assign unique codes to group mailing recipients in a manner not already provided. The data file contains approximately 25,000 entries for organizations and individuals. Data input and report/output are under the exclusive control of the NIE user; however, entries are aged and retired to a history file if inactive for ten months. **Input:** System data comprise names of individuals and organizations that are interested in learning of the activities or products of NIE research. The names are collected and edited by the various groups in NIE and input to the system. **Output:** This system is designed for multiple types of retrieval of the names and addresses (in label format) by preselected criteria. Reports of any data item stored in the system may be retrieved in any specified sequence.

Office of Bilingual Education and Minority Language Affairs

S01415-001

Bilingual Education Management Information System (BEMIS). (ZF).

OMB Funding Code/Title: 91-1300-0-1-501 / Bilingual education

Program: Bilingual Education; Bilingual Vocational Training

CFDA NO.: 84.003; 84.077; 84.099

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee

Authority: Elementary and Secondary Education Act of 1965, as amended (P.L. 89-10, as amended by P.L. 96-881; 20 U.S.C. 3221 et seq.); Vocational Education Act of 1963, as amended (P.L. 94-482, § 181-189B; 90 Stat. 2205; 20 U.S.C. 2411-2421).

Availability: Agency; National Clearinghouse for Bilingual Education

Geographic Relevance: National; State; City; County; Congressional District; Local Education Agency

Purpose: The purpose of the Bilingual Education Management Information System (BEMIS) is to capture, maintain, and report descriptive program information in an automated form. It will make possible more efficient management of the Bilingual Education Program and facilitate response to requests for information from the Congress, from the planning, budget and legislative offices of the Department of Education; and from the bilingual education community and the general public. The file size is approximately 1,000 records representing grant awards under Title VII of the Elementary and Secondary Education Act for a given fiscal year, beginning with the Fiscal Year (FY) 1981 grant awards. The system will eventually capture all grant award records from FY 1980 on-

ward. **Input:** The system uses an application form for assistance under the Bilingual Education Act. The major categories of information consist of the names and addresses of grantees, grant numbers, grant award periods, languages of children served, estimated pupil participation, grade levels served, and amounts of grant awards. **Output:** Reports will be provided annually in hardcopy and on an as-needed basis for information not already available in the regular reports. The principal product of the system will be camera-ready copy of a directory of the grant award made in a given fiscal year (beginning with FY 1981) which will be reproduced and distributed by the National Clearinghouse for Bilingual Education.

Program: Appalachian Development Highway System; Area Development Programs; Research and Local Development District Program

CFDA NO.: 23.001

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Appalachian Regional Development Act of 1965, as amended (P.L. 89-4, § 105).

Availability: Agency

Geographic Relevance: State; Congressional District; County; City; local development district

Purpose: The system provides full financial and geographic data on all nonhighway projects approved and funded by the Commission since its inception in 1965. The scope includes project identification number, name, and type; state, county, city, congressional district, local development district, and city location; fiscal data, including state, local, and other federal agency financial participation, approval date, budget period, and other relevant project data. **Input:** ARC approved projects provide data on project identification, description, approved amounts, agencies administering projects and the type of project. Additional obligation and expenditure data are entered from other agencies' reports to the Commission. **Output:** Output is produced at the request of staff as they require data for use in preparing annual reports and budgets, congressional inquiries, and for internal management use.

Agency Contact: (202) 673-7886.

documents. **Output:** Cumulative hardcopy reports are issued monthly listing individual projects by allocation class and/or state with class summaries.

Agency Contact: (202) 673-7886.

SO1600-003

Highway Data Information System.

OMB Funding Code/Title: 11-0090-0-1-452 / Appalachian regional development programs

Program: Appalachian Development Highway System

CFDA NO.: 23.003; 23.008

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Appalachian Regional Development Act of 1965, as amended (P.L. 89-4, § 105).

Availability: Agency

Geographic Relevance: State; Appalachian Region

Purpose: The system was established shortly after enactment of the Appalachian Regional Development Act to provide a means for obtaining detailed and summary data concerning the work status of projects and construction segments on the development highway and access road portions of the Appalachian Development Highway system. Work status and obligation and cost data by segments of ARC financed highway construction are updated from quarterly reports of state highway departments and periodic cost estimates of development highway segments. **Input:** Data are obtained from state highway department reports on segment and project status. **Output:** Monthly and quarterly reports on the status of individual highway segments are produced in hardcopy.

Agency Contact: (202) 673-7984.

SO1600-002

Status of Funds.

OMB Funding Code/Title: 11-0090-0-1-452 / Appalachian regional development programs

Program: Appalachian Development Highway System; Area Development Programs; Research and Local Development District Program

CFDA NO.: 23.001

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Appalachian Regional Development Act of 1965, as amended (P.L. 89-4, § 105).

Availability: Internal Use Only

Geographic Relevance: State

Purpose: The system provides a regular means for obtaining detailed and summary data as to research and local development district projects approved and obligated and area development projects approved during each fiscal year, compared with amounts budgeted and allocated. It includes all research and local development district and area development project approvals for the ARC program in the region. Data are entered continuously with monthly reports prepared. **Input:** Approvals and obligations are entered directly from ARC approval forms and obligating

SO1600-004

Budget Fiscal System.

OMB Funding Code/Title: 11-0090-0-1-452 / Appalachian regional development programs

Program: Highway Program; Area Development Programs; Research and Local Development District Program

CFDA NO.: 23.001

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Appalachian Regional Development Act of 1965 (P.L. 89-4).

Availability: Internal Use Only

Geographic Relevance: State; Appalachian Region

Purpose: This budget fiscal system is designed to prepare spread sheets for budget analysis and budget justifications to Congress. The system contains obligation and outlay data by appropriation, federal agency, and major program and project approval data by subprogram, operating, or construction. **Input:** Input for the system consists of accounting reports and supporting data from other agencies and the Appalachian Regional Commission (ARC); summaries of project approval data from ARC systems and estimates and projections from state members of Commission; and accounting reports from Department of Commerce

Appalachian Regional Commission Regional Planning and Programming Data System.

OMB Funding Code/Title: 11-0090-0-1-452 / Appalachian regional development programs

Program: Non-Highway Programs

CFDA ND: 23.001

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Appalachian Regional Development Act of 1965, as amended (P.L. 89-4, § 302; 40 U.S.C. 302).

Availability: Agency

Geographic Relevance: State; County; (SMSA) Standard Metropolitan Statistical Area; Appalachian region

Purpose: This system assembles and analyzes current and recent data on the Appalachian region to identify demographic, economic, and social trends within the region and subareas down to the county level where possible. Major topics covered by this system include population estimates and projections, labor force, employment and unemployment, personal income, vital statistics, educational and socio-economic data, data on Appalachian migration, and settlement patterns. The system contains data from 1950 to the present. Major items are continuously updated as information becomes available. Special data files are maintained on migration and on settlement patterns. Most of the data are stored on computer tape in the Appalachian Regional Commission Data Base Management System, but some is maintained in relatively small current data files for internal analytical work and manual processing. **Input:** Data for this system are extracted from a variety of U.S. Census Bureau sources, including the County & City Data Book, data published by the Bureau of Economic Analysis, revenue sharing data, and others. Vital statistical data are taken from state reports. Labor force and unemployment data are extracted from Labor Department sources. **Output:** Publications generated by this system include the periodical Appalachia (six issues per year) and the following reports published annually or less frequently: State Plan Summary and Review, Appalachia-A-Reference Book, and Economic Report. Occasional special reports or papers are published. Computer printouts of data for analytic use are available from the ARC data base files.

Agency Contact: (202) 673-7825.

Civil Aeronautics Board

S01800-002

Fuel Consumption and Cost Statistics System.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Domestic Competition, Operating Authority and Pricing; Consumer Protection, Assistance and Information

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency

Purpose: This system was designed in order to provide the Board with timely information concerning fuel cost and consumption trends among U.S. certified route air carriers. These data are vital to the Board in performing its rate-making functions under the Federal Aviation Act of 1958. **Input:** is submitted in hardcopy by U.S. certified route air carriers. This input is converted to machine-readable format and is then edited by computer to produce a computer file of the basic data. **Input:** The system input is CAB Form 41, Schedule P-12(a)--Fuel Consumption by Type of Service and Specific Operational Markets. **Output:** The basic

S01800-003

Commuter/Air Taxi Statistics System.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Operating Authority and Pricing, Domestic Competition; Consumer Protection, Assistance and Information

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency

Purpose: The system is used by the Board in fulfilling its regulatory responsibilities under the Federal Aviation Act of 1958 for the commuter/air taxi segment of the U.S. air transportation industry. Commuter air carriers file CAB Form 298C, Schedules T-1 and A-1. Schedule T-1 data are manually edited, transformed into machine-readable format, and processed into magnetic tape data files. These files are used to produce internal studies and reports. Schedule A-1 data are manually reviewed and maintained on file as hardcopy. **Input:** Input is CAB Form 298C, Schedule T-1--Report of Revenue Traffic By On-Line Origin and Destination and Schedule A-1--Report of Aircraft Operated. They are filed quarterly by commuter air carriers. A commuter air carrier is defined in section 298.2 of the Board's Regulations. Air taxi operators file CAB Form 298D--Report of All Revenue Operations (Excluding Rotary-Wing and All Cargo Operations) Performed by Air Taxi Operators, Including Commuter Air Carriers. **Output:** The major output is the publication, Commuter Air Carrier Traffic Statistics (Semi-annually).

Agency Contact: (202) 673-5922.

S01800-004

Origin-Destination Survey of Airline Passenger Traffic.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Domestic Competition, Operating Authority and Pricing; Consumer Protection, Assistance and Information; International Negotiations, Operating Authority and Pricing

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency; Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: The Civil Aeronautics Board, in cooperation with the certified route air carriers and the Air Transport Association of America, conducts a recurrent passenger origin-destination survey presenting statistics on passenger travel via the scheduled services of the U.S. certified route air carriers and showing passenger trip origin and destination and volume of traffic by routing in terms of carriers and transfer points. A single survey is conducted continuously on the basis of a 10-percent sample. Flight coupons surrendered by passengers upon boarding flights are the source for the survey data collected, and the universe consists of all flight coupons listed by the participating carriers. **Input:** The certified route air carriers collect survey data on the basis of a continuous 10-percent sample of passenger tickets according to instructions prescribed by the Civil Aeronautics Board. The carriers report data to the Board for each calendar quarter of each year. **Output:** The Civil Aeronautics Board processes the reported survey data and produces tabulated survey results. The Air Transport Association publishes and sells the tabulated results for the domestic portion of the survey; they are issued in two forms, printed books and microfilm. They are available only by annual subscription (currently \$350.00 plus \$3.00 packaging and shipping) from the Air Transport Association.

Agency Contact: (202) 673-5922.

S01800-005

Service Segment Statistics.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Domestic Competition, Operating Authority and Pricing; Consumer Protection, Assistance and Information; Internal Navigation

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Internal Use Only; Agency

Purpose: Service Segment Data is a system for collection of detailed traffic and operating data from U.S. certified route air carriers on a monthly basis. Reporting under this system began with fiscal year 1971 and was instituted to support the functions the Board's mission. Monthly service segment statistics may be retrieved by flight number, origin airport, destination airport, aircraft type, and type of service for each carrier. Included are data on passengers and traffic enplaned and transported, the number of departures scheduled and performed, the available capacity of each aircraft by number and class of passengers and cargo payload, as well as the number of miles and time taken to complete each flight. **Input:** Service segment statistics are filed by U.S. certified route air carriers monthly. The information is developed from records of actual aircraft operations. The CAB reviews and edits the data and establishes verified data banks. **Output:** Summary listings are developed for general purpose use. Special searches are done for evidence in formal case work, industry planning requirements, and special purpose economic analyses. Recurring output includes: Traffic and capacity by carriers, by segment; Passenger/cargo service (Tab 3A) (monthly and semiannually); All-cargo service (Tab 3E) (monthly and semiannually); Operations in markets served by wide-bodied aircraft (Tab 4A) (monthly); and Comparative traffic, capacity, and land factors in top-ranked markets (Tab 10A and 10C) (monthly on request).

Agency Contact: (202) 673-5922.

S01800-006

Uniform System of Accounts and Reports (Form 41).

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Economic Analysis and Regulatory Information

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: This is a system of financial and traffic reports filed by U.S. certified route and supplemental air carriers since 1947 under Part 241 of the Board's Economic Regulations. These data are required by the Board in exercising its regulatory responsibilities, and their collection is authorized under sections 204 and 407 of the Federal Aviation Act of 1958. Depending on the schedule involved, Form 41 data are filed monthly, quarterly, and annually to reflect air carriers' operations on a total system basis and by major geographic entity (e.g., domestic and international). Major subsystems contain profit and loss data (income and expense items) for the carriers' operations in the reporting period, a detailed breakdown of revenues and a detailed breakdown of income tax, and expense items; a detailed breakdown of the flying operations, maintenance, and depreciation and amortization accounts; a detailed breakdown of the general services and administration; a detailed breakdown by geographic location of the ground serving expenses account; and other similar data. **Input:** Form 41 information is from air carrier company records. The CAB reviews and edits the data and establishes verified data banks. From these basic data files the information is summarized and further developed for use in publications and reports. Special purpose analyses are performed by Board staff. **Output:** This system produces The Handbook of Airline Statistics (biennial) and 24 other recurrent publications of air carrier traffic, cost, fuel consumption, financial reporting, aircraft inventories and international civil air (CAO) statistics.

Agency Contact: (202) 673-5922.

S01800-008

Charter Statistics System.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Domestic Competition, Operating Authority and Pricing; Consumer Protection, Assistance and Information; International Negotiations, Operating Authority and Pricing

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system was developed in 1976 in order for the Board to receive and evaluate data for charter operations of the air transportation industry involving U.S. points. Under the Federal Aviation Act of 1958, the Board is responsible for the economic regulation of these operations and therefore requires timely and accurate data which fill this regulatory need. This system involves collection of the basic documents named above from U.S. certified carriers and foreign air carriers authorized to provide charter service to U.S. points. The data are manually edited, converted to machine-readable format, and edited by computer. Corrections and/or resubmissions are requested of reporting carriers, and the file is updated accordingly. **Input:** CAB Form 41, Schedule T-6--Report of Civil Aircraft Charters--and CAB Form 217--Report of Civil Aircraft Charters Performed by Foreign Air Carriers--provide the basic source document. Data are reported on a monthly but submitted quarterly. **Output:** Production of recurrent tabulated output is under development. Anticipated output on a quarterly and annual basis will show, among other things, major charter traffic movement by market, major geographic area, among scheduled and nonscheduled carriers, and among U.S. and foreign carriers. An historical annual data file is expected to be available on magnetic tape through the National Archives and Records Service, Machine Readable Archives Division, General Services Administration.

Agency Contact: (202) 673-5922.

S01800-010

Financial Management System.

OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses

Program: Civil Aeronautics (All Programs)

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726)

Availability: Internal Use Only

Purpose: This system provides centralized payrolling, accounting, and related financial reporting for all Civil Aeronautics Board (CAB) funds. The major functions of this system are to effect prompt payment of payrolls; generate payroll reports and cost data as necessary; accumulate all funded and unfunded costs and financial data necessary for internal management and external users by appropriation code, organization, object class, and program; and provide data necessary for budget formulation, presentation, and execution. System files consist of a payroll master file which is processed through a highly automated payroll system on a biweekly basis, capitalized equipment and leasehold data file which is used with related computer programs to calculate depreciation costs on a quarterly basis, and an administrative cost distribution data file and related computer programs which collect data on payments made by the CAB. Manually maintained ledgers, charts of accounts, files, and reports contain all necessary data not included in the three automated data subsystems cited above. **Input:** The data are derived from: 1) payroll related forms completed by employees and records from the CAB Office of Personnel; 2) routine accounting transactions initiated by purchase order forms, capitalized equipment depreciation, payments made to employees, vendors, contractors, lessors, and payments to air carriers; 3) accounting entries associated with recognition of accruals, expenditures, and costs; and 4) routine accounting transactions initiated by the payment of user and filing and license fees by the general public. **Output:** Several magnetic tape and hardcopy financial reports are issued at varying frequencies to meet the Board's needs.

Agency Contact: (202) 673-5476.

Author: Appropriations Committee: Transportation Subcommittee.
Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).
Availability: Agency.
Purpose: This system serves as the basis upon which the Civil Aeronautics Board (CAB) makes subsidy payments to subsidy-eligible certified air carriers. The system is updated and processed monthly as input tapes become available from air carriers. The tapes contain daily information by air carrier listing the air carrier identification code; the year, day, and month; flight subsidy status code; flight number; aircraft type; points schedule; distance between points; and passengers transported between points. Manual files and printouts generated by computer programs contain data on airports claimed and paid. Subsidy ratesetting and analysis activities are conducted within the CAB's Bureau of Economics and promulgated by the Board through issuance of Class Rate Orders. **Input:** The data are derived from hardcopy CAB Forms 545-Air Carrier's Claim for Subsidy, hardcopy reports and magnetic tapes submitted monthly by carriers approved for subsidy containing information on flights performed; published air carrier schedules; and data generated by other CAB organizational components concerning points that carriers are eligible to serve. **Output:** Output is limited to printouts utilized to validate subsidy claims, financial authorizations for subsidy payment, and necessary accounting and budget records and schedules.
Agency Contact: (202) 673-5282.

501800-017

Subsidy for United States Certified Air Carriers System.
OMB Funding Code/Title: 70-1236-0-1-402 / Payments to air carriers
Program: Community Assistance and Subsidy
Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee
Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).
Availability: Agency
Purpose: The system was designed to develop historical economic data covering federal subsidies disbursed to air carriers. Information covers subsidy payments made to air carriers since 1938; it is updated annually. **Input:** Records of payments made to air carriers provide system information. **Output:** The major output is a hardcopy Annual Report.
Agency Contact: (202) 673-5368.

501600-018

Consumer Complaints Information System.
OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses
Program: Consumer Protection, Assistance and Information
Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee
Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).
Availability: Agency
Purpose: The system is designed to indicate major sources of consumer complaints, provide a record of individual carriers, establish trends, and indicate areas for corrective action (consumer education, new or amended regulations, and enforcement action). Data include the number of consumer complaints classified by category and carrier per 100,000 enplanements compared with previous periods (month and calendar year to date) for all classes of carriers and services. The report is issued monthly. **Input:** Complaints submitted to the Bureau of Consumer Protection are input. **Output:** A monthly press release is issued.
Agency Contact: (202) 673-6047.

Author: Appropriations Committee: Transportation Subcommittee.
Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).
Availability: Agency
Purpose: These reports are published to inform the public about the performance of the certified route air carriers with respect to overbooking. They are intended to serve as an incentive for the carriers to improve their rates of passengers denied boarding. Some of the data elements included are number of passengers enplaned, number of passengers denied confirmed space, number of passengers eligible for compensation, number of passengers compensated, and the ratio of passengers denied confirmed space per 10,000 enplanements. Data are presented by carrier and by month. The report is generated twice a year. There is no geographical coding although separate data are available on domestic and international operations. **Input:** Data are from CAB Forms 251 filed by the air carriers. All trunk line and local service air carriers are included. **Output:** A monthly press release is issued. The information is not on-line; there is inquiry capability.
Agency Contact: (202) 673-5922.

501800-020

Work Item Tracking System.
OMB Funding Code/Title: 70-1226-0-1-402 / Salaries and expenses
Program: Civil Aeronautics (All Programs)
Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee
Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726); Airline Deregulation Act of 1978 (P.L. 95-504).
Availability: Agency; Internal Use Only
Purpose: This system comprises an on-line computer-based agency-wide work item and workload monitoring and control system developed to assure that deadlines for regulatory action and all plans and regulations are met. The system documents the receipt and processing progress of every significant regulatory and nonregulatory work item. CR display terminals provide managers with information about a specific work item's processing status, current location, and progress. The terminals also handle delivery of recurrent exception and planning reports and provide on-line multiple search and retrieval and report generation capabilities using the WITS data base. Operational reports show overdue work and overdue items on a day-to-day basis. **Input:** Information for this system is extracted from all regulatory and significant nonregulatory work items. **Output:** The system generates both operational and managerial reports. The operational reports serve the day-to-day requirements of various organizations. The managerial reports include weekly scheduled new work and completions. Tailored management summaries are provided which service the specific needs of individual organizations.
Agency Contact: (202) 673-5255.

Commission on Civil Rights

501900-001

Budget Fiscal System. (885).
OMB Funding Code/Title: 95-1900-0-1-751 / Salaries and expenses
Program: Salaries and Expenses (All Programs)
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Civil Rights Act of 1957, as amended (P.L. 85-315; 71 Stat. 634; 42 U.S.C. 1975 et seq.); Civil Rights Act of 1959 (P.L. 86-383; 73 Stat. 724); Civil Rights Act of 1961 (P.L. 87-264; 75 Stat. 559); Civil Rights Act of 1963 (P.L. 88-152; 75 Stat. 559)

GSA audits the Commission's fiscal operation periodically to insure adherence to government procedures and regulations. This system, maintained by GSA, contains the following information: Allotments, obligations, unobligated balances, accrued expenditures and disbursements accumulated by cost center, major object class and subobject class under the major budget activities of the Agency. **Input:** The Commission, in concert with its congressional appropriation and OMB's apportionment, provides GSA an allotment advice at the beginning of each fiscal year to establish annual and quarterly ceilings on obligations. Salary vouchers, contracts, purchase orders, reimbursement vouchers, and all other documents reflecting expenditures under the traditional object classification are assigned activity symbols and entered into the system. **Output:** Output is monthly and includes: Allotment Status Report, Accounting History Report, Travel Limitation Register, Listing of Undelivered Orders Accruals and Open Commitments, and a Report on Budget Execution.

Agency Contact: (202) 754-6630.

Commission of Fine Arts

S02000-001

Accounting System.

OMB Funding Code/Title: 95-2600-0-1-451 / Salaries and expenses

Program: Administration

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Legislative Branch Subcommittee; Senate Appropriations Committee: Legislative Branch Subcommittee*

Authority: Commission of Fine Arts Act (P.L. 61-181; 36 Stat. 371; 40 U.S.C. 104).

Availability: Internal Use Only

Purpose: The accounting system provides for the preparation and processing of financial and accounting data. The major functions of this system are to edit transactions, classify transaction input, and provide various accounting and management reports. The accounting system is maintained by the Department of the Interior Accounting System. The master records consist of detailed transaction records and balance forward summary records which are matched once a month to provide required reports on general ledger control account balances, reimbursements, disbursements, collections, travel advances, accounts receivable, undelivered orders, accounts payable, obligations by location and object class, budget, accounting, and financial management. **Input:** The data are derived from source documents initiated by or for agency program managers pertaining to financial and accounting records. **Output:** The major output types are daily input central listings (hardcopy); monthly operating reports (hardcopy); and monthly fund control reports (hardcopy). The system is basically a unit record system with no meaningful query capability.

Agency Contact: (202) 566-1066.

Consumer Product Safety Commission

S02100-001

Consumer Product Safety Commission Management Information System (MIS).

10 / 77

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Consumer Product Safety (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Federal Information Systems and Sources

SJC 5/21/81 (SJC 5/21/81)

Availability: Internal Use Only

Purpose: The system provides Commission managers with data for evaluating current operations and manpower utilization as measured against planned resource application to CPSC projects and programs. Obligations against contract, operating expense and common cost funds are distributed to respective program and project categories. The data are integrated into a series of monthly reports to management. The current system supplements the CPSC Accounting System and became operational on October 1, 1977. **Input:** Data in the system are comprised of the number of workhours expended against specific projects within each program as well as to several organizational levels. The workhours are related to salary dollars paid. **Output:** Monthly reports tabulate time spent on each CPSC project and program by each organizational unit.

Agency Contact: (301) 492-6518.

S02100-005

Product Defect Notifications (PDF).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Compliance and Enforcement

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act (P.L. 92-573).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: By public law all manufacturers, distributors, and retailers of consumer products are required to report to the Commission information which reasonably supports the conclusion that a consumer product either fails to comply with an existing consumer product safety rule or contains a defect which could create a substantial product hazard. In addition to receiving and processing such reports, the Division of Corrective Actions of the Directorate for Compliance and Administrative Litigation investigates hazards and assists in developing the voluntary and compulsory corrective action to be undertaken by firms. This information system was developed to provide effective monitoring of the large number of reports and investigations under section 15 (b) of the Consumer Product Safety Act. Records in this system contain information on the given consumer product, its manufacturer, distributors, retailers, nature of the potential hazard, injuries from the product, corrective actions being taken by the manufacturer, and regulatory action being taken by CPSC. The file contains records from 1972 to present and is updated daily. **Input:** System input initially is derived from reports received from manufacturers, distributors and/or retailers, reports of individual consumers or consumer groups, or CPSC investigations that a particular product could create a substantial product hazard. Further data on actions taken by CPSC, if any, are provided by the Division of Corrective Actions. **Output:** Authorized CPSC personnel may search this file on-line via remote terminal. Search results can be printed either on-line or off-line.

Agency Contact: (301) 492-6621.

S02100-007

Chemical Consumer Hazard Information Data Base (CCHID).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Hazard Identification; Hazard Strategy Analysis

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act (P.L. 92-573, § 5-10, 25).

Geographic Relevance: National

Purpose: The purpose is to make maximum use of the data gathered through a survey of manufacturers on formulation of chemical consumer products in selected National Electronic Injury Surveillance System consumer product categories. Formulas for some 15,000 chemical products manufacturer in the United States have been reported; approximately half of these contain ingredient/percentage information claimed to be trade secret. Data on file at present are for the years 1975 and 1976.

Input: Data were gathered from manufacturers of chemical consumer products by Auerbach Associates under contract to CPSC. **Output:** An on-line file of a subset of this data base, Chemicals in Consumer Products (CHIP), provides tabulations and directories of data collected in the Manufacturers Survey Project along with a ranked list of chemicals by occurrence in the classes of products surveyed.

Agency Contact: (301) 492-6990.

S02100-008

In-Depth Investigations Report System (INDP).
07/72

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Hazard Strategy Analysis; Regulatory Development

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act (P.L. 92-573)

Availability: Agency

Geographic Relevance: National

Purpose: The system supports the product-related injury surveillance functions of CPSC by providing efficient storage and retrieval of the information collected in the large number of reports on CPSC's in-depth investigations of deaths and injuries involving consumer products. The IDI file contains data on age, sex, handedness, race, etc., of the accident victim as well as data on the consumer products involved, manner of death, cause of the accident, injury diagnosis, dates of injury and death, and location of the accident. The file contains no personal references by which a victim can be identified. Types of information that can be retrieved are: All investigation reports for a particular calendar year; all reports generated by a given area office or contractor; all deaths and injuries related to a particular type of injury (e.g., burns); all deaths and injuries related to a particular type of consumer product; and all deaths and injuries for a particular age, sex, etc. The file contains all investigative records dating from July 1972 and is updated every two weeks. **Input:** Input is data from reports of in-depth investigations of product-related injuries/deaths conducted by CPSC area offices and contractors. **Output:** The data base may be queried on-line via remote terminal. Search results are printed either on-line or off-line depending on volume.

Agency Contact: (301) 492-6550.

S02100-012

Consumer Product Safety Commission Accounting System.

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Consumer Product Safety (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act (P.L. 92-573).

Availability: Internal Use Only

Purpose: The CPSC Accounting System is the automated general accounting system which records financial data and reports the financial position of the agency, the results of its operations, and the availability of funds. Data provided by the system facilitates preparation and use of cost-based and line-item budgets, reviews of operating effectiveness, economy and control of resources. The system contains information relating to assets, liabilities and obligations incurred and equity of the U.S. government and budgetary information required for past, current, and future operations. **Input:** Detailed information put into the system in-

cluding system interfaces with the payroll data transmitted from the GSA payroll operation in Kansas City and a purchase order system. **Output:** Data are summarized into general ledger and various subsidiary accounts which in turn form the basis for the reports for internal and external purposes. These reports include status of funds reports, department report series, object class report series, transaction series reports, Office of Management and Budget reports, and the Treasury Department reports.

Agency Contact: (301) 492-6518.

S02100-013

National Electronic Injury Surveillance System (NEISS).

07/72

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Hazard Identification; Hazard Strategy Analysis; Regulatory Development

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act (P.L. 92-573).

Availability: National Injury Information Clearinghouse

Geographic Relevance: National

Purpose: Statistics developed from the input data help identify particularly hazardous types of products and aid in determining the direction and emphasis of various Commission activities. A subset of NEISS, The Children and Poisoning (CAP) file, provides specific identification of household chemicals that are associated with poisonings of children under 5 years of age. **Input:** Data on injuries from accidents involving consumer products are collected daily from statistically representative hospitals throughout the United States since July 1972. The information includes: (a) the age and sex of the victim; (b) the diagnosis and body part affected; (c) the disposition of the case; (d) the product involved; (e) an indication of a second product involved (if any); and (f) the location of the accident. **Output:** The NEISS data base can be queried via remote computer terminals. Search results may be printed in hardcopy. NEISS Data Highlights, which is published annually, presents a tabulation of the 100 products most frequently associated with injuries.

Agency Contact: (301) 492-6440.

S02100-014

Death Certificate System (DCRT and DTHS).

07/73

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Hazard Identification; Hazard Strategy Analysis; Regulatory Development

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act (P.L. 92-573).

Availability: National Injury Information Clearinghouse

Geographic Relevance: National; State

Purpose: The timely receipt of information on product-related deaths allows the Commission to study the causes of deaths from various products and to determine ways to prevent such deaths. Records in the system include information on the victim's age, sex, date and place of accident, accident mechanism, manner of death, and up to four lines of narrative detail. Geographic coverage extends to the 50 states and the health jurisdictions of New York City, the District of Columbia, Puerto Rico, and the Virgin Islands. The records on file date from 1973 to present (few earlier). New reports are added weekly. There is a lag time of three to six months, however, from date of death to date of information receipt by the Commission. **Input:** All health jurisdictions in the United States are asked to furnish copies of death certificates classified within certain international classification of diseases adapted for use in the United States on a regular monthly basis. The classes designated are those which are thought to have a high probability of product involvement, e.g., electrocutions, burns, and poisonings. Upon receipt, those

death certificates which mention consumer products are coded according to the NEISS product code system. **Output:** The data base may be queried directly on-line via remote computer terminals. Search results are printed off-line in standard formats.

Agency Contact: (301) 492-6539.

S02100-015

Consumer Product Safety Commission Budget System.

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Fire and Thermal Burn Hazards; Electric Shock Hazards; Chemical and Environmental Hazards (Chronic); Chemical and Environmental Hazards (Acute); Mechanical Hazards

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act (P.L. 92-573).

Availability: Agency

Geographic Relevance: National

Purpose: The purpose of this system is to meet presidential and congressional requirements for sound fiscal and program management within federal agencies. This system covers the formulation, preparation, and justification of the Agency's budget. The intended audience includes Commission employees, the President, the Congress, and the general public. The budget highlights the hazards being addressed by the Commission and the impact of Commission action. The budget reflects this and the established priority list designed to guide Commission action. The budget also sets forth the resources required to carry out the Commission mandate to protect the public against unreasonable risk of injury. The budget document is updated as required, usually to reflect presidential and/or congressional decisions regarding resource levels. **Input:** Data come from all segments of the Commission. Major categories of data input include past year obligations and outlays; appropriation levels; program accomplishments; regulatory workload and related resource estimates; and OMB and congressional guidance. **Output:** The principal outputs are the hardcopy budget document and related materials for submission to the Office of Management and Budget and to the Congress, as required. There are three categories of output: the budget submission; technical schedules; and the budget justification.

Agency Contact: (302) 492-6529.

S02100-016

System for Tracking the Inventory of Chemicals (STIC).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Chemical Hazard Program

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act, as amended (P.L. 92-573). Federal Hazardous Substances Act, as amended (P.L. 86-613).

Availability: Agency

Geographic Relevance: National

Purpose: This system organizes the chemical documentation gathered by the Consumer Product Safety Commission and keeps track of the Commission activities and chemicals screened by the Chemical Hazard Program. The system contains one unique document or record per chemical which contains the following types of information: chemical name, Chemical Abstracts Service Registry Number, screening codes, Health Science Indication as to the chemical's association with chronic disease, documentation references, uses, current Chronic Hazards Team status, and anticipated action. The system currently includes records on about 450 chemicals. **Input:** Chemical toxicity and use information col-

S02100-017

Case Tracking (CSTR).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Product Safety (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act, as amended (P.L. 92-573).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides information on in-process cases for case management purposes and for responding to inquiries regarding Consumer Product Safety Commission (CPSC) compliance and enforcement activities from upper agency management and from the Congress. The system tracking system follows each case from the time the area office obtains a case number to the time the case is closed. Each unit handling the case is identified, as well as what action is taken and to what unit the case is then forwarded. In addition, the system provides data on the value of any goods seized and the value and units of goods corrected through voluntary actions. The system can provide information on the status of all cases involving a specific firm or a given CPSC organization and on legal actions and violation types under a given statute, within a given fiscal year, or within a given compliance program. **Input:** Initial tracking data, firm data, product data and sample numbers, and tracking data for all actions taken on the case provide the input for this system. **Output:** Case tracking information is available for on-line display at CPSC terminals. In addition, a number of detailed status reports and summary reports are available.

Agency Contact: (301) 492-6621.

S02100-020

Consumer Complaint Contact System (CONTACT).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Product Safety (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Consumer Product Safety Act, as amended (P.L. 92-573).

Availability: Agency

Geographic Relevance: National

Purpose: This data base provides information on all inquiries from the public to the Consumer Product Safety Commission (CPSC). This system contains information on how the caller found out about the CPSC, the purpose of the call, the caller's address and sex, the location of a reported injury, the sex of the victim, a description of the product involved (including NEISS code, manufacturer or brand, and serial or model number), and additional narrative material pertaining to the nature of the injury or the inquiry. **Input:** Information on all consumer contacts, including public inquiries, requests for publications, complaints about products, reports of product hazards, and injury reports, is entered into this system. **Output:** Information in this system can be retrieved using CRT terminals.

Agency Contact: (301) 492-6800.

S02100-022

Consumer Product Safety Commission Injury Cost Model (ICOST).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Product Safety (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Purpose: The Consumer Product Safety Commission Injury Cost Model estimates the cost to society of a consumer product related injury for specific types of injuries and body part affected, given the age and sex of the victim. These estimates are incorporated into the economic analysis required under Section 9 of the Consumer Product Safety Act. **Input:** Cost parameters for consumer product related injuries derived from the National Health Interview Survey, insurance claims records of the Civilian Health and Medical Program for the Uniformed Services, jury awards data, and various analytical studies and frequency and severity estimates of consumer product related injuries derived from the National Electronic Injury Surveillance System (NEISS) are categorized by victim and injury characteristics for input to this model. **Output:** Computerized estimates of the average and total costs, direct and indirect, to society for specified consumer product related injuries are generated. Costs can be disaggregated into 12 components, including medical and treatment costs, victim and visitors' transportation costs, foregone earnings of the victim and visitors, health insurance and product liability costs, pain and suffering costs, disability costs, litigation costs, and various valuations of loss of life. Estimates are generated as needed or upon request.

Agency Contact: (301) 492-6962.

S02100-023

Injury and Potential Injury Incidents.
10/77

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Product Safety and Enforcement: Hazard Identification and Analysis; Product Safety and Enforcement: Compliance and Enforcement

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act, as amended (P.L. 92-573, § 2, 86 Stat. 1207; 15 U.S.C. 2051 et seq.); Federal Hazardous Substances Act, as amended (P.L. 86-613, § 2, 74 Stat. 372; 15 U.S.C. 1261 et seq.); Flammable Fabrics Act, as amended (P.L. 83-88, § 2, 67 Stat. 111; 15 U.S.C. 1191 et seq.); Poison Prevention Packaging Act, as amended (P.L. 91-601, § 2, 84 Stat. 1670; 15 U.S.C. 1471 et seq.); Act of August 2, 1956 (P.L. 84-930, § 1, 70 Stat. 953; 15 U.S.C. 1211 et seq.).

Availability: National Injury Information Clearinghouse

Geographic Relevance: National

Purpose: The system contains records of consumer complaints and newsclips received by the Commission. The consumer complaints are received by letter and telephone and describe product-related injury or potential injury incidents known to the complainant. Newsclips are received from various clipping services which provide the CPSC with other newsclip sources identifying product-related injury or potential injury incidents. These reports form the basis for many CPSC investigations and subsequent follow-up actions including recalls, information and education campaigns and standards development. The file contains data on all incidents reported since October 1977. **Input:** Input consists of consumer complaints received from all Consumer Product Safety Commission (CPSC) offices and newsclips supplied primarily by clipping services through CPSC regional offices. **Output:** Data base may be queried on-line via remote terminals. Search results are printed either on-line or off-line, depending on volume and needs of the user.

Agency Contact: (301) 492-6539.

Human Factors Database (HMF).

OMB Funding Code/Title: 61-0100-0-1-554 / Product safety

Program: Product Safety and Enforcement: Information and Education

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Consumer Product Safety Act, as amended (P.L. 92-573, § 2, 86 Stat. 1207; 15 U.S.C. 2051 et seq.); Federal Hazardous Substances Act, as amended (P.L. 86-613, § 2, 74 Stat. 372; 15 U.S.C. 1261 et

seq.); Flammable Fabrics Act, as amended (P.L. 83-88, § 2, 67 Stat. 111; 15 U.S.C. 1191 et seq.); Poison Prevention Packaging Act, as amended (P.L. 91-601, § 2, 84 Stat. 1670; 15 U.S.C. 1471 et seq.); Act of August 2, 1956 (P.L. 84-930, § 1, 70 Stat. 953; 15 U.S.C. 1211 et seq.).

Availability: Agency

Purpose: The Human Factors Data base is an on-line system of abstracts and citations of published information in the Human Factors Discipline. Dates of coverage are from as far back as the 1920's, through 1982, with selected reference added continuously on an "OF INTEREST" basis. The earlier publications are fairly comprehensive and classic in nature, but the newer publications are more selective in terms of applicability to concerns in the design and use of consumer products as defined in the Consumer Product Safety Act. About 2,000 documents are cited on-line, and hard copy is available within the Division of Human Factors for staff use. **Input:** Abstracts of classical Human Factors data and of selective published data applicable to design and use of consumer products. **Output:** On-line and off-line search, print and edit capability.

District of Columbia

S02200-001

Financial Management System.

OMB Funding Code/Title: 20-1700-0-1-852 / Federal payment to the District of Columbia; 20-0137-0-1-852 / Loans to the District of Columbia for capital projects; 20-0144-0-1-852 / Repayable advances to the District of Columbia general fund

Program: Federal Payment to the District of Columbia (All Programs); Loans to the District of Columbia for Capital Projects (All Programs); Repayable Advances to the District of Columbia General Fund (All Programs)

Congressional Relevance: House Committee on District of Columbia; Senate Committee on Governmental Affairs; House Appropriations Committee: District of Columbia Subcommittee; Senate Appropriations Committee: District of Columbia Subcommittee

Authority: District of Columbia Self-Government and Governmental Reorganization Act (P.L. 93-198, § 502); District of Columbia Stadium Act of 1957, as amended (P.L. 85-300, § 2, 71 Stat. 621); District of Columbia Revenue Act of 1937, as amended (50 Stat. 692); Temporary Commission on Financial Oversight of the District of Columbia (P.L. 94-399).

Availability: Agency

Geographic Relevance: District of Columbia

Purpose: This system services, in one information system, all of the District of Columbia government's financial accounting needs. The system in operation processes and stores all financial data for the District. Several subsystems (purchasing, budget, revenue, and payroll) continually update the central data base. **Input:** Required data is input by each agency and department of the District government. Input documents are batched through terminal network or key-to-disk data entry. **Output:** This system produces canned and ad-hoc inquiry capability through terminal network or batch request; large inventory of standard accounting reports produced on a monthly cycle or on demand.

Agency Contact: (202) 727-0641.

S02200-002

Multi-Year Planning System (MYPs).

OMB Funding Code/Title: 20-1700-0-1-852 / Federal payment to the District of Columbia

Program: Federal Payment to the District of Columbia (All Programs)

Congressional Relevance: House Committee on District of Columbia; Senate Committee on Governmental Affairs; House Appropriations Committee: District of Columbia Subcommittee; Senate Appropriations Committee: District of Columbia Subcommittee

Authority: District of Columbia Self-Government and Governmental Reorganization Act (P.L. 93-198, § 502).

Availability: Agency

Geographic Relevance: District of Columbia

Purpose: The multi-year financial planning system of the District of Columbia government is an automated projection system designed to assist in fulfilling requirements of law with respect to forecasting future operating costs of current program commitments and proposed program

changes. System output, in the form of annual reports, is used by the Mayor, City Council, agencies, citizen groups and the general public. The system provides information on 1) the future cost implications of maintaining authorized program commitments; 2) the operating budget impact of capital projects under way and new project starts recommended in the Capital Improvements Program (CIP); 3) projected debt service payments required by all completed capital projects recommended in the CIP; 4) underlying causes of budget growth; and 5) the actual status of the city's retirement programs. **Input:** MYP input data are supplied by the City agencies and consist of funding requests proposed in the annual budget. The basic data collection points for the MYP are distinct organizational entities in an agency's chart of accounts. Data are organized by major expense categories, programs and organization. Information is also supplied by the U.S. Treasury Department. **Output:** A Multi-Year Financial Plan report is released annually with the Executive Budget; the most recent report having been released in July 1980. **Agency Contact:** (202) 727-6652.

Environmental Protection Agency

S02303-005

Federal Underground Injection Control System (FURS). (FURSX8).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Drinking Water

Congressional Relevancy: *House* Committee on Energy and Commerce; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Solid Waste Disposal Act (P.L. 89-272). Safe Drinking Water Act of 1974 (P.L. 93-523; 88 Stat. 1661; 4 U.S.C. 300h).

Geographic Relevancy: State; Territories

Purpose: This management information system will assist the states and territories by providing support for the National Underground Injection Control programs. The National Underground Injection Control program is designed to prevent underground injection and other hazardous waste management practices from contaminating water supplies. **Input:** Permit applications, permits, self-monitoring reports, inspection reports and schedules, violations, compliance schedules, and enforcement actions will supply the information used in this system. **Output:** The system, which is being developed, will produce hardcopy reports and machine-readable data for federal reporting purposes.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-5513.

S02303-008

Oil and Hazardous Materials Technical Assistance Data System (OHTADS). (CHIAXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Water Quality

Congressional Relevancy: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500; 40 C.F.R. sec. 1510 National Oil and Hazardous Substances Pollution Contingency Plan) Federal Environmental Pesticide Control Act of 1972 (P.L. 92-516). Safe Drinking Water Act (P.L. 93-523).

Availability: Agency; Interactive Sciences Corp.

Purpose: OHTADS is used to reduce the effects of oil and hazardous materials spills by providing on-line access to information on material characteristics and emergency response procedures. Field emergency teams can access information directly through terminals or by telephoning someone with a terminal. The Oil and Special Materials Control Division of the Office of Water and Waste Management and Regional Oil and Hazardous Materials personnel are the primary users of the system. The characteristics of more than 1000 materials which represent water pollution hazards are cataloged on an on-line interactive system. (Due to new legislation, plans are to expand on a regular basis in the future.) The system contains 126 possible fields of technical data on each substance. To retrieve information from the files, the user specifies a search list of terms. For example, an unknown substance that is green, floats, and smells like rotten eggs can be identified by searching for those attributes. In order to satisfy the needs for instant information in the event of spill events, the on-line system is available 24 hours per day, 7 days per week. **Input:** A contractor was employed to search the technical literature to obtain the best and newest information available on the effects of oil and hazardous materials spills. **Output:** There are no recurring reports produced by this system. The data base is queried in order to respond to a special or emergency need for information. The Scandinavian countries and Canada have been making on-line queries of this data base, as well as European countries and Japan.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-1933.

S02303-009

Storage and Retrieval for Water Quality Data (STORET). (STORXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Water Quality

Congressional Relevancy: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500). Marine Protection, Research and Sanctuaries Act of 1972 (P.L. 92-532). Safe Drinking Water Act (P.L. 93-523).

Availability: Agency

Geographic Relevancy: State; County; Water Basin, Longitude and Latitude

Purpose: The system is a nationwide repository for water quality data. It provides a systematic state, regional, and national data base for reporting trends in water quality to Congress and the public. This system also makes data handling capability available for water quality data to the states and EPA regions in order to meet their statutory planning, regulatory, and reporting requirements. STORET provides information to aid in determining cause and effect relationships of water pollution by providing information on water quality standards, waste discharge abatement needs River Reach information, NPDES Facilities, Surface Drinking Water Facilities and Flow Sites. Related systems use STORET software, e.g., fish kills, STORET maintains, at user request, historical records of water quality parametric data by sampling site. **Input:** Data are fed into STORET from over 600,000 sampling sites. These data originate from other federal agencies, local and state environmental organizations, EPA field offices. **Output:** STORET maintains, at user request, historical records of water quality parametric data by sampling site.

"utility" for maintaining more than 60 million water quality values. As such, the different offices within and outside of EPA which are interested in water quality reports use this data to develop their own reports. The annual Water Quality Inventory and State of Nation Report to Congress is made from STORET data. Output is on magnetic tape, microfilm, and is graphic in an automated format.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-7200.

S02303-011

Needs Survey System. (NEEDXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Water Quality

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500); Marine Protection Research and Sanitariness Act of 1972 (P.L. 92-532); Safe Drinking Water Act (P.L. 93-523).

Availability: Agency; NTIS

Geographic Relevance: State; Congressional District; County; City; Water Basin ZIP (FIPS 5 places)

Purpose: The system develops cost estimates for construction of publicly-owned treatment works needed to meet the 1983 goals of the Federal Water Pollution Control Act Amendments of 1972. The cost estimates developed from the survey enable Congress and the Environmental Protection Agency's Municipal Construction Division to obtain a comprehensive estimate of the total cost of meeting the goals of water legislation. State-by-state costs are used as a basis for allocating construction grants funds. State and local governments and private industry are interested in types of water treatment and various types of effluent data. **Input:** Every two years a needs survey of waste water treatment facilities is required. A 34-page questionnaire is mailed to 17,000 water treatment facilities for obtaining data on all new or existing facilities required to achieve the effluent limitations prescribed by the Federal Water Pollution Control Act of 1972. **Output:** A report to Congress summarizes the cost estimates of the collected data.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-7251.

S02303-012

Federal Reporting Data System (FRDS). (FRDSXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Drinking Water

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Safe Drinking Water Act (P.L. 93-523).

Availability: Agency

Geographic Relevance: National

Purpose: FRDS is a federal reporting data system which processes data accumulated by the states and Environmental Protection Agency regions in order to facilitate the monitoring and enforcement of water quality standards for public water systems on a national scale. FRDS is a national data system used by both Headquarters and Regional personnel. All information reflects Headquarters only. **Input:** The states and Environmental Protection Agency regions provide the information used in this system to meet annual reporting requirements. **Output:** Various analytical reports on regulatory compliance, enforcement follow-up, etc.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-5513.

S02303-013

Permit Compliance System (PCS). (PCSCXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Water Quality

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500); Marine Protection Research and Sanitariness Act of 1972 (P.L. 92-532); Safe Drinking Water Act (P.L. 93-523).

Availability: Agency

Geographic Relevance: State; Congressional District; County; City; Regions

Purpose: The system was developed to carry out the requirement of the Federal Water Pollution Control Act Amendments of 1972 which authorized EPA to establish effluent limitations on the discharging of pollutants by facilities into navigable waters. EPA establishes an effluent discharge limit for each of these facilities by issuing an effluent discharge permit. A number of states also issue these permits. Facilities in turn periodically report their compliance to EPA and the states with the effluent restrictions stated in each permit. The Act prohibits any person from discharging pollutants into a waterway from a point source unless the discharge is authorized by a permit issued either by the EPA or by an approved state agency. The PCS system is a management tool to track these reporting requirements. By providing the users a list of reports that will be due during a specified time period, enforcement action can begin against permittees who are delinquent. **Input:** EPA regional offices are responsible for extracting input data from applications and permits submitted by water discharge permittees to the EPA and/or the state enforcement offices. Major categories of data are city, county, and basin codes; name of facility; and date permit issued and expired. **Output:** The two monthly reports are "Forecast of Compliance Schedule Reports Due" and "Forecast of Discharge Monitoring Reports Due;" they can cover any period of time. The other two main reports are generated at users' discretion: "Quick Look Report" with one line of information displayed for each facility on file, and "Facility Report" which lists all information contained on the data file about the specific facility selected. Reports are prepared in hardcopy. Upon request, a direct query capability by low and high speed terminal is available.

Agency Contact: Office of the Assistant Administrator for Water. (202) 475-8323.

S02303-014

Adjudicatory Hearing System (ADHS). (ADHSXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Water Quality

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act, as amended (P.L. 92-500, § 517); Safe Drinking Water Act, as amended (P.L. 93-523).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides information on facilities which have requested hearings pursuant to the issuance of National Pollutant Discharge Elimination System (NPDES) permits containing specific limitations as to the allowable amounts of effluent wastes which they can empty into a waterway. **Input:** Material is entered into the system using low speed computer terminals. **Output:** The four major products of this system are listings of all adjudicatory hearings in the system, of all pending hearings, of all settled hearings, and of all facilities which were denied hearings.

Agency Contact: Office of the Assistant Administrator for Water. (202) 475-8323.

S02303-015

Additives Information System (ADDIT).

1982

Program: Drinking Water

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Public Health Service Act, as amended (P.L. 78-410, § 1412, as amended by P.L. 93-523, § 2(a); 42 U.S.C. 300g-1 et seq.).

Availability: Agency

Purpose: The system contains a listing of approximately 1500 additives in drinking water. **Input:** Input consists of an index to the drinking water's additives advisory files. The files contain all information compiled by the Environmental Protection Agency, the U.S. Public Health Service, and the Food and Drug Administration on chemical additives to public water supplies. **Output:** Output includes a cross-reference list of additives.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-2799

S02303-016

Surface Impoundment Assessment.
1978

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Drinking Water

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Public Health Service Act, as amended (P.L. 78-410, § 1412, as amended by P.L. 93-523, § 2(a); 42 U.S.C. 300g-1 et seq.).

Availability: Agency

Purpose: The Surface Impoundment Assessment contains inventory information on 181,000 surface impoundments. The information was collected pursuant to a one-time study. **Input:** No new information is entered. **Output:** Output includes various analytical reports.

Agency Contact: Office of the Assistant Administrator for Water. (202) 382-2799.

Office of the Assistant Administrator for Air, Noise and Radiation

S02304-003

Office of Air Quality Planning and Standards Air Modeling (CRSTER). (MCRSXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Air Quality

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Clean Air Act Amendments of 1977 (P.L. 95-95).

Purpose: This model is used to simulate atmospheric dispersion processes for the purpose of calculating the ambient concentration levels of atmospheric pollutants based on gaussian assumptions and applicable to nonreactive pollutants emitted from well-defined point sources. The Single Source (CRSTER) Model is used to simulate dispersion processes for the purpose of calculating ambient concentration levels of atmospheric contaminants based on Gaussian assumptions and applicable to nonreactive pollutants from well-defined point sources. **Input:** Meteorological data and pollutant data at the source provide the information for the performance of the model. **Output:** The model results in tables giving concentration estimates for each receptor. Annual concentrations and highest 1-hour, 3-hour, and 24-hour concentrations are standard output. Calculations for the highest and second highest concen-

tration Radiation (919) 541-5635.

S02304-005

Storage and Retrieval of Aerometric Data (SAROAD). (SAROXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Air Quality

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Resource Recovery Act of 1976 (P.L. 91-512). Clean Air Act Amendments of 1970 (P.L. 91-604). Resource Conservation and Recovery Act of 1976 (P.L. 94-580).

Availability: Agency; NTIS

Geographic Relevance: State; County; City; Air Quality Control Region

Purpose: SAROAD is a centralized data bank containing aerometric (ambient air) data collected at monitoring sites throughout the Nation. SAROAD data are used to identify the levels of air pollution, to analyze the effects of implemented control strategies, and to evaluate trends of pollutant concentrations in the atmosphere. EPA headquarters groups use the SAROAD system extensively for planning and strategy evaluation purposes. All EPA regional offices have terminal access to SAROAD and utilize the data reports and summaries to monitor the status of air quality and to support their enforcement and air quality monitoring activities. The system also provides a variety of summary reports and bulk data to other EPA groups and the scientific community outside the Agency. The SAROAD system contains over 350 million raw data values, each of which represents a discrete measurement of pollutant concentration in the atmosphere at a given monitoring site over a given period of time. The system contains data for more than 16,000 inactive and active monitoring sites throughout the Nation; approximately 5,000 sites are currently operational. **Input:** By federal regulation, state agencies must submit SAROAD data to EPA every three months. The submitted data (approximately 35 million values per year) are screened manually and by computer to remove erroneous or suspicious values. In addition, the sampling and analysis methods used to generate the data must conform to EPA requirements before the data will be accepted into the data base. **Output:** The data base is being constantly queried in order to prepare special, national, and interregional reports (approximately 800 requests per year).

Agency Contact: Office of the Assistant Administrator for Air, Noise and Radiation. (919) 621-5694.

S02304-006

National Emissions Data System (NEDS). (NEDSXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Air Quality

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Resource Recovery Act of 1970 (P.L. 91-512). Clean Air Act Amendments of 1970 (P.L. 91-604). Resource Conservation and Recovery Act of 1976 (P.L. 94-580).

Availability: Agency; NTIS

Geographic Relevance: State; County; City; Air Quality Control Region

Purpose: NEDS is a centralized data bank containing engineering data (i.e., annual emission and operating characteristics) on sources of air pollution throughout the United States. The system is used to identify and locate emitting sources for enforcement purposes and to monitor the progress of states in meeting their emission-reduction time schedules. EPA headquarters groups use the NEDS system extensively for planning and national strategy evaluation purposes and for analyzing trends in conjunction with the national aerometric data bank

(SAROAD). The regional offices use this data to monitor states' progress and to support their enforcement and surveillance activities. Emission summaries and bulk data are also supplied to other EPA groups and to the scientific community outside the Agency for their use and analysis. The system contains approximately 80 items of technical data for more than 100,000 individual pollution sources throughout the Nation. Approximately the same number of area-source data items are kept for each of the 3,200 counties or equivalents in the United States. Annual emissions for each individual point source are automatically calculated from the source's operating characteristic and pollution control efficiencies. **Input:** All states are required by federal regulations to submit NEDS data semiannually to EPA regional offices. Data are then transmitted to the National Air Data Branch (NADE) and automatically processed through the edit and validation programs; rejected data are returned to the state agencies for correction. The total number of emitting sources in NEDS has stabilized at 100,000 point sources; the technical data for these sources, however, are continually changing and are incorporated into NEDS on a regular basis. **Output:** Reports upon request are prepared from the NEDS data bank (approximately 600 requests per year).

Agency Contact: Office of the Assistant Administrator for Air, Noise and Radiation. (919) 629-5694.

S02304-009

Compliance Data System (CDS). (CDSYXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Air Quality

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Clean Air Act Amendments of 1970 (P.L. 91-604). Toxic Substances Control Act (P.L. 94-469).

Availability: Agency

Geographic Relevance: State; County; City

Purpose: State Implementation Plans (SIPs) regulate the amount of airborne pollutants which may be discharged into the atmosphere from stationary point sources. EPA has the responsibility to monitor the state programs in order to insure that the SIPs are adequately enforced. CDS is used to track the completion of the actions for major sources of five primary air pollutants. Regional offices of EPA use the system to monitor state and local activity. Headquarters uses the system to monitor the regions and prepare special reports. Throughout the nation, there are 250,000 stationary sources of significant air pollution, each discharging 25 or more tons of pollutants per year into the air. The air enforcement effort has focused on the 20,000 major sources (each emitting over 100 tons of pollutants per year) that account for 80-85 percent of all pollutant emissions. The states develop implementation plans designed to bring sources of air pollution within specified discharge limits. After the plan is developed, the states enter the compliance schedule dates comprising these plans into CDS. Schedules include dates for completion of planning, engineering, start of construction, and end of construction. **Input:** Event completion data are reported by the states and entered into the system by EPA. **Output:** Weekly reports are provided to the regions of scheduled events to be monitored. Each month, the states receive listings of events scheduled, overdue actions, and pre-printed questionnaires on current air quality for those sources scheduled to come into compliance.

Geographic Relevance: National

Purpose: The EADS is a system of four computerized data bases that contain test results from measurement activities conducted on multimedia environmental discharges from industrial and energy process streams. The four operational data bases are the Fine Particle Emissions Information System (FPEIS), Gaseous Emissions Data System (GEDS), Liquid Effluents Data System (LEDS), and the Solid Discharge Data System (SDDS). Data reported may include source descriptors, process and control technology design and operating parameters, analyses of fuels and feedstocks, descriptions of sampling activities, and characterization of the sample collected in terms of chemical, physical, and radiological properties, and biological responses. The EADS is currently operational on the SPERRY system at the NCC/RTP and is applicable to any multimedia point source monitoring activity. **Input:** This system accepts data from IERL/RTP contractors routinely. Other sources of input data have included OAQPS, OWRS, OSW, DOE, EPRI, and private industry, on a voluntary submission basis. **Output:** The output consists of reports produced on demand for information requestors. Information produced include data tabulations, statistical analyses, data summaries, etc.

Availability: Agency; NTIS

generalized for application to different geographic and climatic conditions. Various groups in EPA and the National Oceanic and Atmospheric Administration, as well as universities and contractors, participate in data collection and use the data generated by RAPS in validation of air quality models. The ultimate users of the system are those people responsible for air quality implementation planning and land use planning in the state and local agencies. The RAPS program was initiated in fiscal year 1973 as a 5-year research program. Its overall objective is the development of mathematical simulation models of air pollution processes. The models will be quantitative formulations of all the atmospheric processes of pollutants, dissipation of pollutants through diffusion, advection and other processes, transformation of pollutants through chemical reactions, and removal of pollutants. With this tool, the results of pollutant control actions and strategies can be predicted. An emission/source inventory methodologies for RAPS have now been completed. The application of these techniques for data collection is now underway and will continue throughout fiscal year 1977. **Input:** Data are obtained from an extensive ground-based network of air measurement equipment located in the St. Louis Air Quality Control Region. **Output:** No recurring reports are prepared.

Authority: Air Pollution Control Act, as amended (P.L. 84-159, title 42, § 103, as amended by P.L. 95-95; 42 U.S.C. 7403). Act of April 7, 1968 (P.L. 90-229, § 2(d); 94 Stat. 327; 42 U.S.C. 4363a).

Availability: Agency; NTIS

Purpose: The Environmental Operations Branch makes available a quality dispersion models through its system UNAMAP. UNAMAP in two forms: (1) EPA users access UNAMAP on EPA's UNIVAC 1100 computer at Research Triangle Park, North Carolina, and (2) users outside EPA can purchase a magnetic tape containing the FORTRAN source codes and test data from the National Technical Information Service so that the specific models of interest can be installed and executed on the user's computer. UNAMAP (Version 5) is the latest UNAMAP update and became available August 25, 1983. It contains FORTRAN source code for 31 air quality simulation models. The tape is furnished in ASCII, 9 track, 1600 bits per inch, odd parity. User guides are furnished with each file. A print file of the print-out resulting from execution of the models using the test data is included as a file on the tape. **Input:** Since 1973 the User's Network for Applied Modeling of Air Pollution (UNAMAP) has served as a source of AQSM's in computer compatible form. These models input emission and meteorologic data to calculate projected air pollutant concentrations. UNAMAP basically state-of-the-art dispersion research algorithms. These represent air quality models that were funded by the Environmental Protection Agency in their development or are recommended by the Office of Air Quality Planning and Standards for environmental impact analysis. **Output:** Outputs from these models provide estimates of pollutant concentrations from a variety of source types for averaging times of 1 hour to 1 year.

*Office of the Assistant Administrator for Pesticides and
Toxic Substances*

S02306-003

Pesticides Document Management System (PDMS). (PDMSXX).
1979

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Pesticides

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Pesticide Act of 1978, as amended (P.L. 95-396). Federal Environmental Pesticide Control Act of 1972 (P.L. 92-516).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides a data base of technical chemical information from published and unpublished sources for use in creating generic standards by chemistry to be used in the registration of pesticide products. The system provides information to create generic standards by chemical to be used in the registration of pesticide products. **Input:** Contractors prepare complete bibliographic citations which are produced on tapes for input into this system. The data is updated twice weekly. **Output:** The system generates a set of subject sequence bibliographies for pesticide chemicals, one chemical per week.

Agency Contact: Office of the Assistant Administrator for Pesticides and Toxic Substances. (202) 557-3240.

S02306-005

Pesticide Product Information System (PPIS). (PPISXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Pesticides

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Environmental Pesticide Control Act of 1972 (P.L. 92-516). Federal Insecticide, Fungicide, and Rodenticide Act (P.L. 94-140). Safe Drinking Water Act (P.L. 93-523).

Availability: Agency

Purpose: The Office of Pesticide Programs is responsible for registration of all pesticides used in the nation. This system provides a centralized source of information on all registered pesticides. Data are used for analysis, research, and reporting by the technical personnel engaged in the pesticide registration effort. (This system was formerly known as the Pesticides Analysis Retrieval and Control System.) Information on 36,000 pesticides handled in interstate commerce is in this system. Data are highly encoded for ease and manipulation, and all new data requests are controlled by the one central office. The system is used to retrieve information about pesticides on a variety of categories and maintains information on the name and address of producer, ingredients (both active and inert), and the usage category of all pesticides. Data can be extracted, analyzed, and formulated. Accident investigation information is also maintained as a separate part of the system. **Input:** Input is from the information in each application for the registration of a new pesticide product which is submitted to the Office of Pesticide Programs. **Output:** Major report types are site pest retrievals, usage category of all pesticides, and ingredients of pesticides (both active and inert). The output is in hardcopy and microfilm.

Agency Contact: Office of the Assistant Administrator for Pesticides and Toxic Substances. (202) 382-7777.

S02306-007

Chemicals in Commerce Information System (CICIS). (CICAXX).

Senate Committee on Environment and Public Works; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee **Authority:** Toxic Substances Control Act (P.L. 94-469, § 10, 90 Stat. 2031; 15 U.S.C. 2609).

Availability: Agency; NTIS

Geographic Relevance: National; State; EPA Region; Zip Code

Purpose: CICIS is an online data base of information on chemicals in commerce in the United States after 1977. It lists chemicals manufactured or imported for commercial purposes, amount of production or import in 1977, and location of production. This will be augmented by new information on production use, exposure, and health and environmental effects as reporting requirements are issued under TSCA. Currently the system contains over 58,000 chemicals in commercial production. The system supports selection of candidates for testing and regulation. **Input:** Industry submissions, some on forms designed for collecting the information, some on magnetic tape, are received from manufacturers, importers and producers of any chemical commercially produced. These reports are required under Section 8(b) of the Toxic Substances Control Act. **Output:** Reports by chemical, chemical class, manufacturing site, importer, geographic region, or production category are currently available. Additional kinds of reports will be developed as the information is added to the system. Tape, printouts and COM are produced.

Agency Contact: Office of the Assistant Administrator for Pesticides and Toxic Substances. (FTS) 382-3755

S02306-009

Chemical Substances Information Network (CSIN). (CSINXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Toxic Substances

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Toxic Substances Control Act (P.L. 94-469, § 25(b), 90 Stat. 2046; 15 U.S.C. 2624).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system is a network of other systems connected via a central management computer. Chemical Substances Information Network links chemical substance data bases enabling users to retrieve and relate chemical data from widely dispersed and independently operated online computer systems. The system is operational. **Input:** Descriptions of data contained in network accessible systems, their access protocols, and operational requirements are maintained and supported by the management computer. **Output:** Online retrieval from networked systems, according to design protocols, may result in hardcopy reports.

Agency Contact: Office of the Assistant Administrator for Pesticides and Toxic Substances. (FTS) 395-7285.

S02306-012

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and Toxic Substance Control Act (TSCA) Enforcement System (FATES). (FATEXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Pesticides; Toxic Substances

CFDA NO.: 66.700

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Energy and Commerce; *Senate* Committee on Agriculture, Nutrition and Forestry; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Insecticide, Fungicide, and Rodenticide Act (P.L.

Purpose: The FIFRA and TSCA Enforcement System (FATES) is an integrated information management system which supports all enforcement activities conducted under the FIFRA and the TSCA. **Input:** Primary sources of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA) Enforcement System consist of registrations of pesticides producing establishments and their associated reports of pesticide production, FIFRA and TSCA investigations, sample collections and analyses, and enforcement actions and cooperative agreements with states for enforcement of FIFRA and TSCA. **Output:** Major output types include current lists of registered pesticides producing establishments, weekly update reports, quarterly, semi-annual and annual status reports of FIFRA and TSCA investigation, cooperative agreement output projections and accomplishments, case milestones, and reports and mailing documents for annual solicitation of Pesticides Production Reports.

Office of the Assistant Administrator for Solid Waste and Emergency Response

S02307-001

Spill Prevention Countermeasures and Control System (SPCCS). (SPCCXX).

OMB Funding Code/Title: 68-0108-0-1-304 / Abatement, control, and compliance

Program: Hazardous Waste

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500), Marine Protection Research and Sanctuaries Act of 1972 (P.L. 92-532), Safe Drinking Water Act (P.L. 93-523).

Availability: Agency

Geographic Relevance: State; County; City

Purpose: SPCCS is a tracking and reporting system used to monitor and report on compliance deadlines and actions to be taken for the prevention of spills from facilities storing oil and hazardous materials. Personnel from the Oil and Special Materials Control Division (OSMCD) and technical specialists in the regional offices use data in the automated file to initiate spill prevention plan reviews, compliance inspections, and penalty assessments. The system is also used by the Coast Guard to obtain information on oil spills which have been reported to EPA but which fall under the purview of the Coast Guard for penalty assessment. Nontransportation related facilities storing oil are required by law and federal regulations to prepare spill prevention control and countermeasure plans and to report oil spills to EPA or the Coast Guard. EPA has been empowered to amend facility SPCCS plans which are not successful at preventing spills, perform compliance inspections, request information pertinent to spill control, and rule on extensions of plan preparation and implementation deadlines. Approximately 5,000 oil storage facility records are expected to enter the system annually. Examples of the specific types of technical information coded into the file are: Type, amount, cause and date of the spill, the body of water where the spill occurred, type of violation, and type of spill removal method used. **Input:** The data base is being created from the input data being encoded by regions from information about oil storage facilities, spill reports, and enforcement reports. **Output:** The specific types of reports which are prepared monthly from the data base are: description of spills which initiate the SPCCS Plan review and amendment process, list of facilities whose SPCCS Plan Reviews are pending; the status by region and facility of amendments in progress; a list of violations by facility and type of violation; a list of facilities required to respond to a Section 308 letter and who have not complied by the due date; and ad hoc reports listing by region the number of extensions granted, inspections performed, spills occurring, the causes of spills, the sources of spills, and spill descriptions.

Agency Contact: Office of the Assistant Administrator for Solid Waste and Emergency Response. (202) 382-7933.

S02307-002

Emergency and Remedial Response Information System (ERRIS). 09/82

OMB Funding Code/Title: 20-8145-0-7-304 / Hazardous substance response trust fund

Program: Superfund (Hazardous Waste Site Inventory)

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works, House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (P.L. 96-510, title I, § 111, 94 Stat. 2788; 42 U.S.C. 9611). Federal Water Pollution Control Act, as amended (P.L. 80-845, title III, § 311, as amended by P.L. 95-576, § 1(b), 33 U.S.C. 1321).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City; Congressional District, Longitude and Latitude

Purpose: The Emergency and Remedial Response Information System is an automated inventory of all uncontrolled hazardous substance sites in the United States which are known to the Environmental Protection Agency. It contains data on the names and locations of these sites, summary response status information, alias names and locations, comments and optional Regional event and site characteristic data. **Input:** Input consists of CERCLA Section 103(c) Inventory, RCRA Section 300I Inventory, state and local governments, and public notifications and Agency management reports. **Output:** Output consists of inventory listings and standard monthly statistical reports.

Agency Contact: Office of the Assistant Administrator for Solid Waste and Emergency Response. (202) 382-2237.

S02307-003

Project Tracking System (PTS).

10/82

OMB Funding Code/Title: 20-8145-0-7-304 / Hazardous substance response trust fund

Program: Superfund (Management and Support)

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (P.L. 96-510, title I, § 111; 94 Stat. 2788; 42 U.S.C. 9611). Federal Water Pollution Control Act, as amended (P.L. 80-845, title III, § 311, as amended by P.L. 95-576, § 1(b); 33 U.S.C. 1321).

Availability: Internal Use Only

Geographic Relevance: State; County; City; Congressional District

Purpose: Project Tracking System (PTS) provides detailed data on costs, progress and schedules for each of the operational activities and tasks being performed at all of the 500-plus sites on the National Priority List. Users of PTS are expected to be Office, Division and Branch level management in the Environmental Protection Agency, Office of Emergency and Remedial Response, Regional Superfund Coordinators, and Regional Administrators. **Input:** Input consists of obligation source documents, contractor work plans and vouchers, Environmental Protection Agency-state cooperative agreements, and internal Agency work plans. **Output:** Output is comprised of monthly national status, summary and log reports, in addition to ad hoc reports as requested.

Agency Contact: Office of the Assistant Administrator for Solid Waste and Emergency Response. (202) 382-4667.

Office of the Assistant Administrator for Administration

S02308-001

Personnel Management Information System (PMIS). (PMISXX).

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses

Program: Management and Support

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee;

Senate Appropriations Committee: HUD-Independent Agencies Subcommittee
Authority: Department of Housing and Urban Development-Independent Agencies Appropriations Act of 1979 (P.L. 95-392).
Availability: Agency
Geographic Relevance: National
Purpose: This system provides comprehensive information on personnel resources for use by management. The system includes information on position management, executive development, awards, employee training, minorities, and personnel evaluation and also provides management analysis data. **Input:** Data are gathered internally and are entered into the system by staff in the personnel office. **Output:** Products, which are generated on demand, include 175 reports in each of 14 management areas.
Agency Contact: Office of the Assistant Administrator for Administration. (202) 382-2403.

S02308-002

Contracts Information System (CIS). (CISYXX).

06/74

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses; 68-0107-0-1-304 / Research and development

Authority: Resource Conservation and Recovery Act of 1976 (P.L. 94-580), Clean Air Act Amendments of 1970 (P.L. 91-604), Safe Drinking Water Act (P.L. 93-523), Noise Control Act of 1972 (P.L. 92-574).

Availability: Agency

Geographic Relevance: State; Congressional District; County; City

Purpose: The CIS tracks the status of procurement requests and provides summary information on all Agency procurements other than small purchases. Also, assistant administrators, as allowance holders, ascertain the status of their commitments and obligations by their use of CIS' output. The master file contains over 700 active contracts, plus modifications and over 10,000 historical contract records plus other ancillary records. Annually, 3,000 procurement actions are entered into the system. Twice each month, data are updated. **Input:** Over twenty contract milestones are entered into the system for each contract, from the initiating commitment through the retirement of the contract. Significant information collected for each contract includes title of contract, period of performance, estimated cost and obligated amounts, type of program effort, and geographical location. **Output:** Reporting is accomplished mainly through 40 standardized recurring reports, 90 percent of which are run biweekly. The only regular report made external to the Division is the monthly status report to allowance holders. A large number of special reports are produced upon request.

Agency Contact: Office of the Assistant Administrator for Administration (202) 475-8286.

S02308-003

Grants Information and Control System (GICS). (GICSXX).

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses; 68-0103-0-1-304 / Construction grants

Program: Management and Support; Waste Treatment Works Construction

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Public Works Employment Act of 1976 (P.L. 94-369), Federal Water Pollution Control Act of 1972 (P.L. 92-500).

Availability: Agency; GPO

Geographic Relevance: International/Foreign; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The system is required to track the processing of all EPA grant applications, unsolicited contract proposals, prospective wastewater treatment construction projects, and active grant projects in the Agency. Activities of both headquarters-processed and regional office-processed grant programs are monitored by the system. Office of Water Programs personnel in regional offices and Grants Administration personnel in headquarters offices use GICS for operational control. The headquarters offices of Legislation, Planning and Management, Office of Water Program, Research and Development, and others also use the system for summary analysis and reporting of agencywide activity. GICS is a EPA-wide grant tracking and reporting system used to describe and monitor the scheduled events in the life cycle of a grant project in any of the EPA grant programs. This national system is updated biweekly. **Input:** Data are from state, regional, and headquarters offices. These data indicate such activities as inclusion of waste-water treatment construction projects on approved State Project Priority Lists (Public Law 92-500); application processing steps; grant awarded or denied; project work started; project completed; and numerous general data items such as geographic locations, funding amounts, and project work descriptions. Information is principally obtained from state planning documents, grant applications and award documents, and payment requests. **Output:** The administrative areas within headquarters, the regions, and the laboratories generate reports to meet their own needs. The headquarters office of Grants Administration produces monthly and quarterly listings of funded grant projects for publication to the general public. Special reports can be programmed on a request basis to retrieve grant data to meet specific user requirements.

Agency Contact: Office of the Assistant Administrator for Administration. (202) 382-5309.

S02308-004

Financial Management System (FMS). (FMSYXX).

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses

Program: Management and Support

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: (Reorganization Plan 3 of 1970).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: This centrally operated system serves the financial information needs of all elements of the Agency. The purpose is to allow a manager to monitor commitment activity against authorized obligations. It is used by financial managers at the division level or higher in all headquarters offices, regions, and laboratories. FMS is a tracking and reporting system which provides an automated capability for monitoring commitments versus obligations in the expenditure of funds throughout EPA. Although the FMS is located on a central computer, 15 independent files are maintained for the 15 accounting areas of the Agency. **Input:** is transmitted directly from the headquarters offices or regions over teleprocessing lines, the input is verified on a periodic basis, and the update program is run weekly to create a new master file for report production. Each of the users has access to a wide range of reports which can be run using any of the 15 accounting area data files. **Input:** Data are obtained from a variety of financial documents prepared by the headquarters and regional offices. **Output:** Primary output is status and summary reports. These reports depict appropriations by object class and obligations by program element and sub-object class.

Agency Contact: Office of the Assistant Administrator for Administration. (202) 382-5107.

S02308-005

Time Sharing Services Management System (TSSMS). (TSSMXX).

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses

Program: Management and Support

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate

Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Reorganization Plan 3 of 1970.

Availability: Agency

Purpose: TSSMS summarizes the time sharing computer expenditures of all Agency offices. EPA project and system managers and staff offices at the Deputy Assistant Administrator and Assistant Administrator level use the system to monitor computer costs for their projects and systems. Costs are reported by supplier, EPA organizational level, financial program element, and computer project. This information is summarized monthly. Notices of expenditures against ceilings are prepared for all EPA suballowance holders. **Input:** All major EPA computer vendors supply accounting data on actual computer usage.

Output: Cost information is provided to each computer project user and suballowance holders in hardcopy.

Agency Contact: Office of the Assistant Administrator for Administration. (919) 541-4013.

S02308-008

Sample File Control (SFC). (SFCMXX).

OMB Funding Code/Title: 68-0107-0-1-304 / Research and development

Program: Research and Development (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Clean Air Act Amendments of 1970 (P.L. 91-604). Federal Water Pollution Control Act of 1972 (P.L. 92-500). Federal Environmental Pesticide Control Act of 1972 (P.L. 92-516). Safe Drinking Water Act (P.L. 93-523).

Availability: Agency; NTIS

Geographic Relevance: State; County; City

Purpose: The purpose is to improve the productivity and accuracy of laboratory operations in the Environmental Protection Agency (EPA) by developing laboratory automation systems. The laboratory automation systems were developed at EPA's Cincinnati Environmental Monitoring and Support Laboratory and at the Region V laboratories through an interagency agreement with the Lawrence Livermore Laboratory. Development was continued by EMSL-Cin. after the end of the interagency agreement. Data from the test instruments are analyzed by minicomputers and converted into a format suitable for input into other Agency systems, such as STORET. In addition, the computers monitor error drifts in the test equipment and make numeric or other adjustments to insure more accurate test results. The minicomputers, which are used for surveillance and analysis purposes, also maintain an audit trail of samples to insure that data which were accumulated for eventual courtroom use satisfy judicial "chain of evidence" requirements. **Input:** Data generated by laboratory equipment are automatically transmitted to minicomputers for conversion into formats suitable for further use. Sample and project information is keyed in at sample receipt time. **Output:** Output is a large series of laboratory test data values in machine-readable format which can be, in turn, input to such EPA systems as the Storage and Retrieval of Water Data (STORET). Many printed reports are also available.

Library Management System (LIMS). (LIBHXX).

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses; 68-0107-0-1-304 / Research and development

Program: Management and Support; EPA Research and Development (All Programs)

Congressional Relevance: House Committee on Agriculture; House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Resource Conservation and Recovery Act of 1976 (P.L. 94-580). Clean Air Act Amendments of 1970 (P.L. 91-604). Federal Water Pollution Control Act of 1972 (P.L. 92-500). Economy Act of 1932 (P.L. 72-213)

Availability: Agency

Geographic Relevance: State; City

Purpose: The system provides the 28 EPA libraries with a management and retrieval system for their hard-bound book, journal, EPA reports and document collections. The system provides an inventory record by title, subject, and author of any book held by any of the EPA libraries and information on journal holdings of cooperating federal agencies.

Note: The LIMS is made up of four systems: (1) Hardbound Book System, (2) Document Control System, (3) Journal Holdings System, and (4) EPA Reports System.

Input: Data is comprised of information on the holdings of EPA libraries and cooperating federal agencies. **Output:** A monthly cumulative index on COM is produced of hardbound books and documents. The Journal Holdings Report is produced annually in hardcopy. The EPA Reports Bibliography is produced quarterly on COM and in hardcopy.

Agency Contact: Office of the Assistant Administrator for Administration. (202) 382-5929

S02308-006

Resources Management Information System (RMIS). (RMISXX)

OMB Funding Code/Title: 68-0200-0-1-304 / Salaries and expenses

Program: Environmental Protection (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; House Committee on Science and Technology; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Reorganization Plan 3 of 1970. Energy Reorganization Act of 1974 (P.L. 93-438). Air Pollution Control Act (P.L. 84-159). Water Pollution Control Act (P.L. 80-845). Public Health Service Act (P.L. 78-410). Solid Waste Disposal Act (P.L. 89-272). Federal Insecticide, Fungicide and Rodenticide Act (P.L. 80-104). Toxic Substances Control Act (P.L. 94-469).

Availability: Agency

Purpose: The system supports the Agency's programming, budgeting, and budget execution process by maintaining an automated file containing EPA's resource plans. The Office of Resources, Administration, and Management, headquarters, regional planning offices, and the OMIs are the primary users of RMIS. Data are organized by program budget structure, Allowance Holders, Appropriation Authorizations, and National Program Managers. The current master file used by RMIS contains about 1,200 records and has up to 168 data elements per record. **Input:** Data involve funding and manpower requirements by fiscal year, program subelement, and appropriation authorization. RMIS also maintains archival files for multiple-year analysis. **Output:** Includes monthly issuance of updated "Advices of Allowance" (documents which represent the agency's internal mechanism of funds control). Standard computer reports on available resources are included with the other issuance and distributed to all allowance holders. In addition to specific outputs designed to meet OMI, congressional, GAO, and internal EPA information requests, a report generator subsystem (Budget Analysis Resource System-BARS) was also developed to meet on-going ad hoc analytical reporting requirements during the agency's operating plan and budget process.

Equal Employment Opportunity Commission

S02400-006

Employer Information Report EEO-1.

OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses

Program: Legal Program; Enforcement and Affirmative Action; Development and Planning

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*
Authority: Civil Rights Act of 1964 (P.L. 88-352; 78 Stat. 253; 42 U.S.C. 2000E).

Availability: Agency

Geographic Relevance: National; State

Purpose: The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). The system is to ascertain whether unlawful employment practices have been or are being committed by employers. Employment data are collected by race/ethnic and sex categories, by nine occupational categories, and by Standard Industrial Classification codes. Data are reported for any pay period in January through March. Geographic coverage is nationwide. The survey is conducted annually.
Input: Data are provided by all private employers with 100 or more employees and government contractors with 50 or more employees and a contract of \$50,000 or more. **Output:** Several output reports are provided. Photographed copy of EEO-1 on 16mm film is used with reader/printer machines. There is also a computerized output of EEO-1 data with basic format of EEO-1 reports with additional summarizations: Employment Analysis Report Program (EARP), both hardcopy and microfilm, Multiyear Employment Analysis Report Program (MYEARP), hardcopy, displays data for two selected years with absolute change and percent change in employment for the two years. Trend Analysis Report Program (TARP) shows minority employment participation for three selected years and minority promotional trends for those years in each occupational category. Only one minority group at a time can be shown. Histogram shows industrial progress spanning two selected years for a geographic area as well as average minority percent to total employment in an industry. EEO-1 aggregate or nonconfidential data are displayed in the same format as the EARP. Employment data are summarized by industry and geographic area.

S02400-007

Apprenticeship Information Report EEO-2.

OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses

Program: Legal Program; Enforcement and Affirmative Action; Development and Planning

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Civil Rights Act of 1964 (P.L. 88-352; 78 Stat. 253; 42 U.S.C. 2000E).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The system is to determine whether unlawful employment practices have been or are being committed by Joint Labor-Management Apprenticeship Committees. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). Apprenticeship data are collected by trade or craft. Apprentices are reported by race/ethnic category and sex and by year of apprenticeship. Data are also collected on graduates, dropouts and applicants by race/ethnic category and sex. Information is also obtained on the operation of the apprenticeship programs. Data are reported annually for any calendar week in August or September. The survey is conducted nationwide. **Input:** Data are collected from each Joint Labor-Management Apprenticeship Committee (JAC's) with five or more apprentices in its program, at least one employer sponsoring the program who has 25 or more employees, and at least one union sponsoring the program which operates a hiring hall or has 25 or more members. **Output:** Principal output includes, but is not limited to, aggregate file--prepared on demand with data being aggregated geographically by trade/craft; and statistical tables reflecting total and minority group apprentices by sex, by year of apprenticeship; and total minority group applicants, graduates, and dropouts.

S02400-008

Apprenticeship Information Report EEO-2-E.

OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses

Program: Legal Program; Enforcement and Affirmative Action; Development and Planning

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Civil Rights Act of 1964 (P.L. 88-352; 78 Stat. 253; 42 U.S.C. 2000E).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system's purpose is to determine whether unlawful employment practices have been or are being committed by respondents. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). Apprenticeship data are collected by trade or craft, by race/ethnic group and sex category, and by year of apprenticeship. Data are also collected by graduates, dropouts, and applicants by race/ethnic category and sex. Information is also obtained on the operation of the apprenticeship programs. Data are reported annually on a nationwide basis, for any calendar week in August or September. **Input:** Data are provided by all employers who conduct and control employer-operated apprenticeship programs and have total company employment of 100 or more employees. Reports are filed by these employers for each establishment with 25 or more employees which has at least five apprentices. **Output:** The output is hardcopy forms and statistical tapes. The output reflects total and minority group apprentices by sex, by year of apprenticeship, and total minority group applicants, graduates, and dropouts. Data depicted cover the period 1970-76, excluding 1975. Output is arrayed and aggregated geographically as well as by trade or craft.

Geographic Relevance: National; State

Purpose: The system is to determine whether unlawful employment practices have been or are being committed by respondents. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). Data are collected on membership in referral unions by race/ethnic and sex categories. Data are also reported for referrals and applicants for membership by race/ethnic and sex categories. Referrals are reported for a 2-month period between August and November. Applicants for referral are reported for a 2-month period, and applicants for union membership are reported for the past year. **Input:** Data are provided by all local unions with 100 or more members. Referral unions (unions which operate hiring halls or in a similar manner refer persons for employment) file a detailed report. **Output:** Output is primarily statistical tapes and hardcopies. Output principally displays the total and minority group membership, referrals, applicants for membership and referral, and sex. In addition, geographic and trade identification are reflected.

State and Local Government Information EEO-4.

OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses

Program: Legal Program, Enforcement and Affirmative Action; Development and Planning
Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Civil Rights Act of 1964 (P.L. 88-352, 78 Stat. 253, 42 U.S.C. 2000E)
Availability: Agency
Geographic Relevance: National; State
Purpose: The system is to ascertain whether unlawful employment practices have been or are being committed by state or local governments. The requirements for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Act of 1972). Employment data are collected by race/ethnic and sex categories by eight job categories and eight salary intervals for full-time employment. In addition, data are collected by race/ethnic and sex categories by the eight job categories for other than full-time employment as of the June 30 payroll period and new hires between July 1 and June 30. All data are reported by function. Data are reported for the payroll period which includes June 30 of each year. Geographic coverage is nationwide. The survey is conducted on an annual basis. **Input:** Data are provided by all state and local governments with 100 or more full-time employees annually. In addition, data are provided by a statistical sample of local governments with 15-99 full-time employees. **Output:** Output is in the form of computer listings and an annual publication. Computer generated output is arrayed: 1) Nationwide by function, by job category, by salary, showing race/ethnic group by sex; and 2) by state, by function, by job category, by salary showing race/ethnic group by sex, and special aggregations for research purposes. The annual publication depicts the minorities and women in state and local governments (both national and regional volumes are prepared from summary statistical tapes).

OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses
Program: Legal Program, Enforcement and Affirmative Action; Development and Planning
Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Civil Rights Act of 1964 (P.L. 88-352, 78 Stat. 253, 42 U.S.C. 2000E)
Availability: Agency
Geographic Relevance: National
Purpose: The system is to determine whether unlawful employment practices have been or are being committed by respondents. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). Employment data are collected for 18 job categories by race/ethnic category and sex. Data are also collected on a limited number of job categories by race/ethnic groups and sex for part-time employees and new hires. Data are reported annually by all school districts with 100 or more employees (enrollment equivalent), school districts with fewer employees are required to submit the report on a less than annual frequency on a rotating basis, in such a manner that the smaller the district the less the frequency with which it is required to report. Data are provided for the payroll period closest to October 1 of the survey year on a nationwide basis. **Input:** Data are provided by all elementary and secondary school districts with 100 or more employees (enrollment equivalents are used) and a sample of the smaller school districts. Reports are filed for each school within the covered districts. **Output:** Output is a photocopy of an EEO-5 report produced on 16mm film, which is usable with reader/printer machines. It provides computer output hardcopy: EEO-5 aggregate or nonconfidential data are arranged by geographic area with four pages of data for each area: 1) total employment by sex, by race/ethnic group, by job category; 2) total employment by sex within race/ethnic group by job category; 3) participation rates of full-time staff by sex within race/ethnic group by job category;

and 4) occupational distribution by race/ethnic group and sex. Special summaries show sex/ethnic identity of school principal and enrollment size

S02400-017

Complaint Statistical Reporting System (CSRS).
OMB Funding Code/Title: 45-0100-0-1-751 / Salaries and expenses
Program: Development and Planning
Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Civil Rights Act of 1964 (P.L. 88-352, 78 Stat. 253, U.S.C. 2000E).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County

Purpose: The CSRS is an agencywide system to provide program managers with information on the charge workload by district office, including the volume of charges, the status of charges in the compliance process, and the disposition of charges resolved. The data identify the person(s) filing the complaint (charge), the person(s) against whom the complaint is made, receipt and filing dates for the charge, basis(es) and issues of the charge, geographic locations, and various significant stages in the complaint processing. The system can produce geographical data on selected keys utilizing Standard Metropolitan Statistical Area (SMSA), Standard Industrial Classification (SIC), state and county codes. Other selected data on charging party and respondent identity embedded in the data file are available for selective analysis. **Input:** Records emanate from EEOC district offices when a complaint is filed and at each step in the compliance process. Information is maintained on the nature of the charge, on the charging party and respondent, and actions taken by EEOC. **Output:** Reports consist of various arrays and/or totals crossfooted by major data elements such as: basis(es) of charge, issues, type respondent, respondent name, date charge received, filing date, charging party name and charge number (selected by charge jurisdictional location). Through application of other programs, the system can produce such information as average elapsed time between major EEOC actions as well as average time required for 706 deferral agency action.

Farm Credit Administration

S02600-002

Farm Credit Administration Financial and Statistical Reports.

OMB Funding Code/Title: 78-4131-0-3-351 / Revolving fund for administrative expenses

Program: Administrative Expenses

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee

Authority: Farm Credit Act of 1971 (P.L. 92-181; 85 Stat. 622; 12 U.S.C. 2252(3)).

Availability: Agency

Geographic Relevance: National

Purpose: The Farm Credit Act of 1971 prescribes that the FCA will report annually to Congress on the activities of the Farm Credit System. FCA also uses financial and statistical data in performance of its supervisory activities. The system reports the financial condition of the Federal Land Banks and Federal Land Bank Associations, the Federal Intermediate Credit Banks and Production Credit Associations, and the Banks for Cooperatives. Standard financial information is provided by the banks of the Farm Credit System to the Farm Credit Administration. **Input:** The Farm Credit Institutions are the source of all system input. **Output:** Loans are reported monthly; all other standard financial information such as statements of condition, earnings statements, operating expenses, and various supporting schedules are submitted semi-annually.

Export-Import Bank of the United States

S02600-001

Loan/Guarantee Master File.

OMB Funding Code/Title: 83-4027-0-3-155 / Export-Import Bank of the United States

Program: Loan Guarantee and Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee

Authority: Export-Import Bank Act of 1945 (P.L. 79-173; 12 U.S.C. 635).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Bank was organized in 1934. Its programs are authorized under the Export-Import Act of 1945, as amended. The purpose of the Bank is to aid in financing and to facilitate U.S. exports and imports. The major functions of this system are to provide accounting control of the Bank's operations, provide a data base from which statistical reports can be generated, and produce fiscal accounting and program activity reports. The master file consists of a master record of all loans and guarantees authorized by the Board of Directors. The major basic data are the credit or guarantee number, country and name of borrower, guarantor, product, and Eximbank interest rate and terms. The file reflects such accounting data as contract value, cash payment, and exporter and commercial bank participation in each transaction. It also includes financial data on the Exim loan or guarantee, i.e., cancellations, disbursements, repayments, accrued and paid fees, and interest. Some statistical data are updated daily; the accounting data are updated at the end of each month. **Input:** The data are derived from actions taken by the Bank's Board of Directors on loan, guarantee, and insurance applications and from data such as disbursements and repayments produced in the process of servicing the approved loans, guarantees, and insurance. **Output:** Some of the reports are monthly; others are on different time schedules such as quarterly. The principal output is the loan and guarantee statements, balance sheet and income statements, and various internal accounting and control reports.

Federal Communications Commission

S02700-007

Monitoring Observations System (EMT).

06/78

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Science and Technology

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system is the means by which the FCC collects statistics from surveillance of the air waves by its field office monitoring stations and by stations of domestic based international communications systems, such as RCA and ITT. The data are gathered by monitoring stations' surveillance of the air waves. They are mailed to the FCC from all FCC monitoring stations, compiled, and added to the master file. The data are then listed and mailed to Geneva for publication by ITTB (International Frequency Registration Board). The data base is updated monthly. **Input:** The stations record information including the frequency band, date, and time when a call sign is heard, and the observations are mailed to the FCC on FCC Form 955. **Output:** The principal output of this system is the monthly validation report, the quarterly data base listing, and the monthly Geneva (monitoring observations) listing.

Agency and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Communications Act of 1934 (P.L. 73-416).
Availability: Agency
Geographic Relevance: National
Purpose: Docket 18261 defines the action to manage seven lower UHF TV frequencies allocated to Land Mobile Radio Services on a shared basis and relieve frequency congestion in the top 13 urban areas of the United States. The data base contains name of applicant, address of applicant, address or location of principal station, type of applicant, class of station, number of mobile radios, location of control points, number of systems, output power, antenna characteristics, site elevation, and the engineering data. Data are submitted by applicants throughout the continental United States on a daily basis. A normal update cycle occurs three times a week. **Input:** The data are derived from the Application for Radio Station Authorization, FCC Form 400 as of September 1, 1980, submitted by all businesses or Individuals requesting a license. Certain supplemental technical engineering data are completed and returned on an information sheet. **Output:** Output includes application status, license status, statistical data, license identification, notices, and systems inventory.
Agency Contact: (202) 254-5410.

Restricted and Commercial Operators Permits System (FRC).

04/79

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Field Operations

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee:* Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate Appropriations Committee:* Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: NTIS

Geographic Relevance: National

Purpose: This file contains all Commercial and Restricted Operator permit holders approved by the Federal Communications Commission. Individual name, birth date, grant date, process date, and serial number of equipment (Commercial only) are the only elements resident in the file. The data file is updated monthly. Annually, the aged permits are stripped and merged with a historical file. **Input:** Input is derived from FCC Forms 756-B, 753, 755, and 756, submitted by individuals desiring permits. **Output:** Statistical reports are produced monthly. A microfiche master file is listed semiannually with supplements produced monthly. In addition, a microfiche master of the historical data is produced annually.

Agency Contact: (202) 254-5410.

Activity Report System (FAR).

03/78

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Support Activities

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee:* Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate Appropriations Committee:* Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416)

Availability: Agency

Purpose: The system provides a method whereby the manpower costs of FCC programs, services, and activities can be accurately determined. The reports provide data for a continuous analysis of the distribution of man-hours among organization units, communications services, and programs for productivity measurement and analysis and for related budget and management purposes. The data reflect a summary of all time expended by organizational entity program and activity code. These data are accumulated for 12 months semiannually. The file is updated semiannually; reports are produced monthly. **Input:** Employees of designated bureaus and Offices prepare individual forms semiannually depicting what specific programs and activities their time is used for. FCC Form A-315, Individual Activity Report, is the primary input. The past 12

months are produced monthly in hardcopy. Primary reports are the Bureau Summary of Activities by Organization, Monthly Activity Report Summary, Division Detail by Activity/Subactivity, Bureau Summary of Programs by Organization, Monthly Program Report Summary, and Division Detail by Program.

Program: Support Activities

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee:* Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate Appropriations Committee:* Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency

Purpose: The system is an integrated budgeting, accounting, reporting, and financial management system. The primary purpose is to monitor actual expenditures by budget line item against the planned/established spending pattern of the Federal Communications Commission. Major categories of data processed by the system include, but are not limited to, budget allocation by program by function, expenses, expense targets, obligations, accrued expenditures, and disbursements. The system copies all facets of the Commission including all field offices expenditures. Updates are accomplished three times weekly and the month-end processing begins when all current month transactions are encoded. **Input:** All data are accomplished by the Finance Branch via use of coded transaction by obligation account number and expense element. Additionally, an automated interface with the payroll system permits input of compensation and benefits expenditures. **Output:** Reports produced are the RMS Monthly Management Report, which depicts for each operating budget account number by expense element, the actual expenditures versus planned expenditures for a given quarter and to-date; Expense Element Totals Report, which lists the status of each expense element by operating budget account number; RMS Detail Report, which lists all transactions that have occurred to date against each operating budget account number; and RMS Document Total Report which lists for each operating budget account number, by expense element, those transactions which are incomplete or not finalized. In addition, the obligations, expenditures, commitments, encumbrances, balances, and targets for each expense element are totaled and reported.

Equal Employment Opportunity System (BEE).

06/72

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Mass Media

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Communications Act of 1934 (P.L. 73-416, title III, V, § 301, 501; 48 Stat. 1081, 1100; 47 U.S.C. 501 et seq.; 47 U.S.C. 301 et seq.).

Availability: Agency; NTIS

Geographic Relevance: National

Purpose: The system was designed to create and maintain an EEO data base which contains statistical data reflecting the distribution of employees, by sex and selected minority groups, in commercial and noncommercial broadcasting stations. The major function of the system is to generate various statistical reports which are indicative of overall minority employment trends over a 5-year period. The reports, which are published annually, are used to review the fair employment practices in the broadcast industry and are available to the public. The data cover annual employment statistics for total employees, total male and female employees, minority group employees, male and female in designated job categories, i.e., officials and managers, professionals, technicians, sales workers, office and clerical, craftsmen, operatives, laborers, and service workers. These data are reported separately for full-time paid and part-time paid employees. The data are accumulated by year and the most recent five years are included in annual reports which provide employee statistics, in total numbers and/or percentages, by either market and/or state. **Input:** The data are derived from the Annual Employment Report, FCC Form 395, which is submitted by licensees and permittees of commercial and noncommercial broadcasting stations. **Output:** Hardcopy reports are produced annually. These reports, which are categorized by market or state, community code, and class of station, depict current and previous years statistics for minority employment. The statistics are summarized by either full-time higher and lower

employees.

Availability: NTIS

Geographic Relevance: National

Purpose: The system is designed to maintain and update the AM engineering data base which is used to support the AM Channel Studies. Data is maintained for all AM stations by frequency, location, latitude and longitude. Technical engineering data for daytime and nighttime operations are maintained with this system. The data cover the operating parameters of AM stations and are used as input to interference channel studies performed by the AM Channel Study System. Data are maintained for all stations by frequency, location, latitude, and longitude. **Input:** The data are derived from FCC Form 301; notification change lists supplied under Canadian Region 2 and Mexican agreements; public notices; etc. **Output:** Updates are performed on demand. Hardcopy reports are working papers showing results of update.

Agency Contact: (202) 254-5410.

Availability: Agency

Geographic Relevance: National

Purpose: This is a batchmode system to provide a full technical engineering capability for the proponent to perform a wide range of channel interference studies between proposed new or changed AM stations and already existing stations. Included is the capability to initiate the North American Radio Broadcasting Agreement (NARBA), Canadian Radio Broadcasting Agreement, Region 2 Radio Broadcasting Agreement, and Mexican Radio Broadcasting Agreement (MEXICAN) Foreign Channel Studies. The system is confined to nighttime AM radio stations. The data covers the operating parameters of the AM stations, e.g., frequency, transmitter location, and power. The engineering data of the stations are compared against the data of all stations of the same operating frequency for possible interference with each other. **Input:** The data are derived from FCC Form 301, Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station, submitted by all AM licensees/permittees and notification lists submitted under Canadian, Region 2, and MEXICAN agreements. **Output:** The system report is generated on demand. The report lists the operating engineering data of all stations of the selected operating frequency.

Purpose: The Alien Amateur System was created to process applications for amateurs licensed in their home countries who wish to operate as amateurs, temporarily, in the United States. The system produces permits which are valid for one year. Input is from FCC Form 610A, Alien Amateur Radio Licensee Permit Application, submitted and entered from the FCC's Gettysburg, Pennsylvania office. The system is run once a month, producing permits, statistical and historical data reports, and licensee reports. This system's monthly cycle produces licenses, as well as transaction error listings and an update transaction tracking list. Work is continuing on improving the efficiency of this system in order to expedite processing. **Input:** Input data are taken from Form 610A, Alien Amateur Radio Licensee Permit Application. **Output:** Monthly hardcopy system outputs include transaction listings, licenses, and a statistical report.

Purpose: This system provides the FCC with a data base of financial information for each cable television operator. Financial reports are stored on a tape in sequence by financial unit identification. Each record contains the communities that belong to a financial unit and balance sheet information for that unit. **Input:** FCC form 326 is used to collect the data for this system from cable television operators. **Output:** The following reports are generated: CATV financial data by entity, AF1002R1; CATV industry by state, AF1003R1; CATV industry by number of subscribers, AF1004R1; and CATV industry averages and ratios (by state, region, and nationwide), AF1005R1.

Agency Contact: (202) 254-5410.

S02700-056

Cable Television Employment System (AEE).

05/79

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Mass Media

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title III, V, § 301, 501; 48 Stat. 1081, 1100; 47 U.S.C. 501 et seq; 47 U.S.C. 301 et seq.).

Availability: NTIS

Geographic Relevance: National; State

Purpose: This system provides the FCC with employment data for each cable television employment unit. Employment records are stored on tape in sequence by employment unit identification. Each record contains the communities belonging to an employment unit; a breakdown of part-time and full-time employees according to sex, ethnic background, and job type; and a breakdown of part-time and full-time employees receiving on-the-job training by ethnic background and sex. **Input:** Data for this system are extracted from information on FCC form 395 which is filed by the cable television operators. **Output:** The following reports are generated on an as-needed basis: employment statistics reports (AEE001-01, AEE001-02, AEE001-03, AEE001-04, and AEE001-05); employment master file (AEE002T1YR); transaction report (AEE002-01); and full record print (AEE003-01).

Agency Contact: (202) 254-5410.

S02700-058

Personnel System (DPS).

06/76

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Support

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416)

Availability: Internal Use Only

Purpose: This system provides an automated data base on all employees of the Federal Communications Commission. The basic file is used to generate data on personnel needs, vacancies, strengths, losses, and general personnel trends. The systems transactions feed an automated payroll system. Personnel locations are uniquely defined by geographic location and organizational structure codes. The data base is updated three to four times biweekly preceding payroll cut off. An automated SI-50 is produced during each update cycle. The system includes a unit personnel document subsystem and a historical subsystem. The system interfaces with the Office of Personnel Management Central Personnel Data File (CPDF). **Input:** Data for this system are derived from personnel accessions, standard form 52, personnel actions, and personnel action code sheets. **Output:** Most of the output is hard copy, Xerox 9700 and fiche report data consisting of statistical data, minority reports, input to the CPDF, rosters and listings for staff members, personnel staffing documents, vacancy reports, personnel action SI-50s, and demand-type reports. Query capability is limited to utility packages (statistical data and related personnel data) and Data Automation Report Extraction (DARE).

Agency Contact: (202) 254-5410.

S02700-058

Fees Refund System (DFE).

07/79

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Support

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides public licensed holders of communication devices a capability for obtaining refunds for all fees paid to the Federal Communications Commission between August 1970 and December 1976. This phase of the refund program processes all fees greater than \$20. The system covers all fees in excess of \$20 and is for individual application type refunds. The maximum file size is about 300,000 360 character records. The file is updated on demand. **Input:** Claims forms submitted by public licensed holders of communication devices will be entered into this system. **Output:** The system will generate various statistical reports, listings, and control documents in printed formats and a check tape for the Treasury Department Disbursement Center. The system does not include an on-line query capability.

Agency Contact: (202) 254-5410.

Violations Notification System (FVN).

06/81

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Field Operations

CFOA NO.: 32.001

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Internal Use Only

Geographic Relevance: National

for tracing and accounting for sanctioned Communications Act violation notices and notices of apparent liability (forfeitures) issued. This system improves efficiency and accuracy by automating the existing manual file maintenance and statistical report compilation. All field operations installations are included in the system. The file is updated daily. **Input:** Data for this system are derived from violation information submitted by field offices on FCC forms 793, official notice of violation, FCC form 793L, notice of violation, notice of apparent liability to monetary forfeiture, and FCC form 790, notice of radio station conditions. **Output:** The following hardcopy reports are produced: referral daily list, follow-up daily list, violations report by service (monthly list), violations report by rule, and violations report by office (quarterly list). A forfeitures report and various other reports lists are produced on Xerox. **Agency Contact:** (202) 254-5410.

S02700-064

Application Tracking System (SWP, APTS).
01/82

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Private Radio

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency

Geographic Relevance: National

Purpose: The purpose of the program is to handle the logging and tracking of radio station applications received in the Licensing Division of Private Radio Bureau. The applications tracking system consolidates four current application tracking operations into a single centralized operation. **Input:** The input consists of data from the following Private Radio Bureau systems applications: aviation, marine, land mobile, microwave and amateur. **Output:** The output consists of statistical and management reports.

Agency Contact: (202) 254-6540.

S02700-065

Federal Communications Commission Decisions Retrieval System (GLS).
06/80

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Support

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: NTIS

Purpose: The purpose of the system is to allow the Agency's personnel interested in communication law access to the latest Federal Communications Commission decisions, U.S. Codes, and other Federal Law Libraries via on-line computer access mode. FCC's data consist of decisions from 1965 to present date. File is updated monthly to NTIS. The system resides on Mead Data Central computer facility and is commonly referred to as LEXIS. **Input:** Input consists of tape containing FCC Decisions, byproduct of photocomposition contract. **Output:** Printed output is produced via terminal in response to user inquiry.

Agency Contact: (202) 254-5410.

S02700-067

Emergency Communications On-line Mailing System (DEC).
06/79

Purpose: Data reflect name, address, county, group, and state code. The file is updated on-line as required by the user. The on-line access mailing label system provides the capability of maintaining a file without involvement of the Computer Applications Division. The system will provide the user the means to selectively create labels and to maintain all items on a master file. Computer produced labels are processed on the Cheshire addresser machine and used for mailing information to the public. **Input:** Input is name and address data entered on-line by user. **Output:** Principal output is mailing labels and a data base listing.

Agency Contact: (202) 254-5410.

S02700-070

International Frequency System (IFF).
06/77

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Science and Technology

Congressional Relevance: *House Committee on Science and Technology; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416, title III, § 301; 48 Stat. 1081; 47 U.S.C. 301 et seq.).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The International Frequency System provides a way to query and extract reports from the International Frequency List (IFL) received on magnetic tape semiannually from the ITU at Geneva, Switzerland through NTIA. **Input:** The International Frequency List is entered semiannually. **Output:** A query report of frequencies, country, and other technical information about the frequency is produced on request.

Agency Contact: (202) 254-5410.

House Appropriations Subcommittee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee
Authority: Communications Act of 1934 (P.L. 73-416, title III, § 301; 48 Stat. 1081; 47 U.S.C. 301 et seq.).
Availability: Agency
Geographic Relevance: National
Purpose: The Radio Equipment List, containing historic entries for transmitting equipment considered acceptable for licensing by the Federal Communications Commission (FCC), is published as required. The determination of additions or deletions is a function of the Office of Science and Technology. The data cover the parameters pertinent to transmitting equipment which the manufacturer submits to the FCC for licensing. Radio stations may use equipment that the FCC has listed. See FCC System EIA for further information. **Output:** The Radio Equipment List System generates the Grey Book as required and monthly Public Notices for certain radio services.
Agency Contact: (202) 254-5410

Low Power TV Lottery.
 10/83

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses
Program: Mass Media

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416, title III, § 301, 48 Stat. 1081; 47 U.S.C. 301 et seq.). (GFN Docket 81-768)

Availability: Agency

Purpose: This system was designed to facilitate the awarding of a low power television construction permit to one applicant in an MX case. An MX case is composed of two or more eligible applicants for a low power television station in an area of mutual exclusivity. Construction permits are awarded from a lottery selection process of intervals determined by the Mass Media Bureau. Each eligible applicant in an MX case is assigned a number of chances in the lottery based on preference factors such as minority and ownership. The system data files are organized in a DMIV data base structure with two areas, five data records, and three set relationships. All user updates of data to the data base and retrieval of data from the data base are performed in an interactive online environment. The users of this system are the Low Power Television Branch of the Mass Media Bureau. **Input:** Input consists of applications for the construction of low power television stations filed with the Mass Media Bureau of the Federal Communications Commission. **Output:** Output includes reports and mailing labels, internal preference "B" list, public notice of lottery date and associated preference "B" list, public notice of amended lottery date and associated corrected preference "B" list, public notice of tentative winner, and public notice of final winner.

Common Carrier Bureau

S02706-001

International 214 System (CIS).

10/76

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State

Purpose: This system provides information on the processing status of applications for facilities used in international traffic filed under Section 214 of the Communications Act of 1934, as amended, and provides an inventory of approved international circuits. The system includes data on the status of applications, carriers, circuits, and conditions of approvals. About 300 to 400 applications are filed annually. The data base is updated daily. **Input:** Information for use in this system is derived from applications, petitions to deny, amendments, and Federal Communications Commission orders. **Output:** The system generates listings of pending applications, recently approved applications, and authorized international circuits.

Agency Contact: Common Carrier Bureau. (202) 254-5410.

S02706-003

Earth Station Applications Processing System (CES).

03/78

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: NTIS

Geographic Relevance: State; City

Purpose: This system is designed to maintain the data necessary to support the processing of earth station and other satellite radio applications. The data base contains information about all domestic satellite earth station applications accepted for filing with the Federal Communications Commission (FCC). The data include the status of the applica-

tion, station identification, technical information, particulars of operation such as frequencies emitted, and special conditions attached to the authorization to construct and/or operate the satellite. The data base is updated semiweekly. **Input:** Data are extracted from applications for authority to construct and/or operate earth station or satellite radio facilities by applications processing staff who enter the data into the system. **Output:** The system generates licenses, construction permits, public notices, press releases, and applications file jackets semiweekly in hardcopy formats. A station history list, pending applications list, and the McFarland report are issued monthly in hardcopy formats.

Agency Contact: Common Carrier Bureau. (202) 254-5410

Interconnection Registration Program System (CIC).

01/77

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency

Geographic Relevance: State, City

Purpose: The program is a shared system between the Laurel Labs, Office of Science and Technology, and the Common Carrier Bureau. The automated system will capture application data via a key-to-disk entry system. These data will be used to produce public notices when an application is filed and when action is taken and to produce an up-to-date list of registered equipment for reference use and public inspection. The system will be capable of searching for and retrieving all the trade name and model numbers under which a given piece of equipment is marketed so that if, after registration, the equipment is found to be defective, all units can be readily identified and disconnected from the network. Additionally, the system will generate a current inventory of pending applications for use in providing timely and accurate responses to public inquiries as well as providing statistical and internal management control information. These data cover ownership, type of equipment, type of applicant, trade name, and model number of equipment. **Input:** The data are derived from Application for Equipment Authorization, FCC Form 730, submitted by all Interconnection Equipment Owners, or Manufacturers seeking authorization of equipment. **Output:** Principal system output is public notices and the Registered Equipment List.

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency; NTIS

Geographic Relevance: National; State, City

Purpose: A remote data entry system (Entrax-based) automates most clerical functions in applications processing for Microwave Radio Service from common carriers. The system generates construction permits, licenses, and other processing documents. It maintains an accurate data base which provides a capability for evaluating application data and providing a variety of management information reports. Data contained in this file cover administrative and technical engineering information. Specifically, there is frequency path information, receive station information, transmitter information, antenna information, and transmit station information concerning the station covered by the application. **Input:** The data will be derived from Application for Common Carrier

Microwave Radio Station Construction Permit, FCC Form 435, and Application for Common Carrier Microwave Radio Station License, FCC Form 436, submitted by all common carrier radio station licensee/permittees. The data base is updated weekly. **Output:** System output includes construction permits and licenses.

Agency Contact: Common Carrier Bureau. (202) 254-5410.

S02706-006

Land Mobile Individual Processing System (CIL).

05/77

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency; NTIS

Geographic Relevance: State; City

Purpose: This license processing system is an automated system for processing individual subscriber applications for Land Mobile Radio Services. The system maintains current data on all individual air and ground mobile authorizations, produces the license document, and provides a monthly listing of all valid license holders by call sign and by name. The coverage includes the data that appear on individual subscriber licenses: Owner, address, carrier, frequency, power, model of transmitter, and area of operation. The data base is updated semiweekly. **Input:** Data are derived from the Application for License, FCC Form 401, submitted by owners of transceivers to be used for private use in automobiles and aircraft. **Output:** Principal output includes licenses, master listing of data base, and a deletion report.

Agency Contact: Common Carrier Bureau. (202) 254-5410.

S02706-007

Land Mobile Base Station Processing System (LMB).

08/76

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416).

Availability: Agency; NTIS

Geographic Relevance: National

Purpose: This system processes applications for Domestic Land Mobile Radio Service from Wire and Radio Common Carriers. The system will generate required public notices, construction permits, licenses, modifications, and station file jackets. It also will provide positive control over the entire processing procedure and maintain a record of all transactions. With a complete data base, which will provide access to information on any current authorization, the system will be capable of providing a comparison and evaluation of engineering data, management reports, information reports, workload statistics for the Division, and McFarland Reports. These data describe Land Mobile Communication Service provided by common carriers. Data are categorized by three processing stations: pending phase, under construction, and licensing. Each communication system is described according to ownership, location data, antenna data, common transmitter data, and their interrelationship. The data base is updated semiweekly. **Input:** The data are derived from the Application for Construction, FCC Form 401, and Application for Modification of Construction Permit or License, FCC Form 403, submitted by users of "Common Carrier Land Mobile Spectrum."

S02706-008

Common Carrier Annual Statistics System (CAS).

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201-222; 48 Stat. 1070-1080; 47 U.S.C. 201-222).

Availability: GPO

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system contains annual financial and operational costs data for major common carriers needed for the regulation of the communications common carrier industry by the Federal Communications Commission (FCC). **Input:** Information supplied on FCC Form 901, Monthly Telephone Report; FCC Form 903, Monthly International Record Carriers Report; FCC Form 905, Monthly Domestic Record Carriers Report; forms M, O, R, Annual Financial Reports; and Tariff filings provide the input for this system. **Output:** This system produces statistics relating to communications common carriers.

Agency Contact: Common Carrier Bureau. (202) 632-7084.

S02706-012

Common Carrier Monthly Statistics System (CMS).

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201-222; 48 Stat. 1070-1080; 47 U.S.C. 201-222).

Availability: Agency; NTIS

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area

Purpose: The Common Carrier Monthly Statistics System is used to collect and report monthly financial and operation costs for major communications common carriers. **Input:** Federal Communications Commission (FCC) Form 901, Telephone Operations Report, FCC Form 903, International Record Carrier Report, and FCC Form 905, Domestic Record Carrier Report are used to collect the data used in this system. **Output:** This system is used to produce monthly financial reports on the telephone and telegraph industry. Quarterly summaries are also generated.

Agency Contact: Common Carrier Bureau. (202) 632-7084.

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201-222; 48 Stat. 1070-1080; 47 U.S.C. 201-222).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system uses data on the busy season busy hour traffic on toll networks, including information on trunk group size, trunk group termination location, and related parameters to analyze toll network loading. **Input:** Annual busy season trunking or circuit data from AT&T and the local Bell Operating Companies provide the input for this system. **Output:** This system provides summary reports on the annual busy season toll network, affecting switching and toll boards. Mechanized data sorting capability is available on an as needed basis.

Agency Contact: Common Carrier Bureau. (202) 634-1856.

S02706-014*Common Carrier Plant Mortality Depreciation System (CPL)*

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201-222; 48 Stat. 1070-1080; 47 U.S.C. 201-222).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Common Carrier Plant Mortality Depreciation System is used to perform statistical analyses of carrier plant mortality and salvage data, to develop life tables and depreciation curves, and to evaluate and determine common carrier plant depreciation rates. **Input:** Mortality and Salvage Data submitted by carriers are used in this system. **Output:** This system is used to develop depreciation curves, life and salvage factors, and depreciation rates for common carrier plant accounts.

Agency Contact: Common Carrier Bureau. (202) 634-1731.

S02706-015*Cellular Radio Applications System.*

10/82

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201, as amended by P.L. 97-35; 48 Stat. 1070; 47 U.S.C. 201 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area

Purpose: The purpose of the Cellular System is to provide the Common Carrier Bureau of the Federal Communications Commission with an on-line application tracking system for the Cellular Radio Service. The file contains administrative and technical data concerning the applications. The system also produces authorizations after the application is granted. **Input:** Sources of input are Cellular Radio applications. **Output:** Both output products, authorizations, and in-house worksheets are produced on demand. Each authorization is a five part printed report.

Agency Contact: Common Carrier Bureau. (202) 254-7163.

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201; 48 Stat. 1070; 47 U.S.C. 201 et seq.)

Availability: Agency

Geographic Relevance: State

Purpose: This system consists of a model which estimates the effects of several Commission policy decisions, structural changes within the Bell system, and increased toll usage upon local residential telephone subscriber rates. **Input:** Input consists of various factors which affect telephone subscriber rates, such as intra/inter state allocation factors, non-traffic sensitive revenue requirements, rates of return, depreciation expenses, numbers of access lines, local and toll service revenues, and various revenue requirements. **Output:** Output includes monthly and annual residential revenue requirements per main station by state by year for each of the various policy decisions studied.

Agency Contact: Common Carrier Bureau. (202) 634-1731.

S02706-017*Formal Complaints Tracking System.*

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201; 48 Stat. 1070; 47 U.S.C. 201 et seq.).

Availability: Internal Use Only

Purpose: This system inventories all of the formal complaints filed against a telephone carrier for improper conduct under the scope of the Communications Act. The system tracks workload and output. **Input:** Input consists of formal complaints filed by the public. **Output:** Output includes internal workload tracking reports and statistical reports on the types of complaints received.

Agency Contact: Common Carrier Bureau. (202) 632-6934.

S02706-018*Informal Complaints Tracking System.*

10/01/83

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Common Carrier

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201; 48 Stat. 1070; 47 U.S.C. 201 et seq.).

Availability: Internal Use Only

Purpose: This system inventories all correspondence received by the Common Carrier Bureau from the public. It is used to track workload and output. **Input:** Input consists of letters from the public and status tracking sheets from the staff. **Output:** Output includes tracking reports and higher-level management information reports, and various statistical reports on the type of letters received and the issues involved.

Agency Contact: Common Carrier Bureau. (202) 632-6934.

S02706-019*Pole Attachment Tracking System.*

House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Communications Act of 1934 (P.L. 73-416, title II, § 201; 48 Stat. 1070; 47 U.S.C. 201 et seq.).
Availability: Internal Use Only
Purpose: This system inventories all pole attachment complaints received by the Common Carrier Bureau. It is used to track workload and output. **Input:** Input consists of complaints from the carriers, utility companies, cable companies, etc. **Output:** Output includes workload tracking documents and statistical reports on the type of complaints received.
Agency Contact: Common Carrier Bureau. (202) 632-6934.

Office of Science and Technology

S02707-002

Allocation History Retrieval System (EHIS).

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Science and Technology

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934, as amended (P.L. 73-416, title I, § 4; 48 Stat. 1066; 47 U.S.C. 154).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the Allocation History Retrieval System is to provide an on-line query capability for the staff of the Spectrum Management Division to solve Spectrum Allocation problems. The Retrieval System presently contains information on past Federal Communications Commission decisions concerning Spectrum Allocation Rule Makings for the last 15 years. The staff uses this system for determining past precedents involving Spectrum Allocation problems. The data base may be queried on docket number, rule making number, time range within 1 year when action took place, service, rule parts, and key words. **Input:** Data extracted from reports and orders, orders, notices of proposed rule makings, and memorandums of opinion and order are used to update the system as required. **Output:** Hard copy outputs are produced in response to ad hoc queries.

Agency Contact: Office of Science and Technology. (202) 653-8148.

S02707-003

New Radio Equipment List.

04/82

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses

Program: Science and Technology

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Communications Act of 1934 (P.L. 73-416, title I, § 1; 48 Stat. 1064; 47 U.S.C. 151 et seq.; FCC Rule Part 15).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the system is to automate and track the processing of FCC Form 731, Application for Equipment Authorization--Radiofrequency Devices. **Input:** Daily input is from Federal Communications Commission (FCC) Form 731, Application for Equipment Authorization. **Output:** FCC ID code list is provided weekly. Grants of authorization, file jackets, etc. are produced as required. Monthly Grey Book (Radio Equipment List) Supplement generated.

Agency Contact: Office of Science and Technology. (202) 254-5410.

Private Radio Bureau

S02708-001

Aeronautical Frequency Processing System (AFPS). (AFPS).

11/01/83

OMB Funding Code/Title: 27-0100-0-1-376 / Salaries and expenses
Program: Private Radio
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Communications Act of 1934 (P.L. 73-416; 48 Stat. 1081; 47 U.S.C. 501 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; City

Purpose: The Aeronautical Frequency Processing System processes Cable TV system operators' proposals to utilize frequencies which range from 108-136 MHz and 225-400 MHz with peak power levels of 10 milliwatts or greater. System determines whether proposed frequencies will be in conflict with aeronautical users under the limits specified in Section 76.610 of FCC Rules. Data base of complete aeronautical history and correspondence of cable systems is maintained under DMIV Honeywell's DBMS. **Input:** 1. Letters of notification of intent to use frequencies. 2. Tapes of Federal Aeronautical Administration (FAA)-approved aeronautical frequencies which are supplied to Federal Communications Commission (FCC) at monthly intervals by National Telecommunications Information Agency (NTIA) and by Aeronautical Radio, Inc. (ARINC). **Output:** Letters authorizing or disapproving use of frequencies are generated automatically and mailed to cable owners.

Agency Contact: Private Radio Bureau. (202) 254-5410.

Federal Deposit Insurance Corporation

S02600-001

Bank Structure Information System (BSDB).

OMB Funding Code/Title: 51-8419-0-8-371 / Federal Deposit Insurance Corporation

Program: Administrative and Operating Expenses

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: Federal Deposit Insurance Act (P.L. 81-797).

Availability: Agency

Geographic Relevance: National; State; City; County; (SMSA) Standard Metropolitan Statistical Area

Purpose: The system processes and provides for the entry, edit, index, and tabulation of information regarding the structure of the banking industry. The system also provides for the retention of historical information on each bank in the nation so that the history of the progression of any bank can be obtained on demand. Data include both current and historical records for each banking office. Specific data include bank name and address, establishment date, physical location codes, such as state, county, and standard metropolitan area; characteristics of the bank such as insurance status, type of charter, trust powers, and holding company affiliation. **Input:** Input is derived from correspondence with FDIC insured commercial and mutual savings banks, Office of the Comptroller of the Currency, Board of Governors of the Federal Reserve System, Federal Home Loan Bank Board, and state banking authorities. **Output:** Products of the system include tables for a series of annual publications. Annual publications generated are Change Among Operating Banks and Branches, Bank Operating Statistics, and FDIC Annual Report.

Agency Contact: (202) 389-4602.

S02600-002

Report of Condition and Income System.

OMB Funding Code/Title: 51-8419-0-8-371 / Federal Deposit Insurance Corporation

Program: Administrative and Operating Expenses

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Alfairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Deposit Insurance Act (P.L. 81-797).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system provides for the entry, edit, and tabulation of bank financial condition, income generated, and other supporting schedules of information. The system contains detailed breakdowns of a bank's assets, liabilities, and capital accounts. The breakdowns include categories of security investments, types of loans, kinds of deposits, and nature of capital. The system also contains information on an insured bank's income and expenses, taxes, net profit, and changes in capital accounts. The system contains breakdowns regarding insured and noninsured deposits as of the second reporting quarter only. **Input:** Input is derived from FDIC insured commercial, mutual, and stock savings banks and from institutions not federally insured who voluntarily submit data. **Output:** An annual Publication, Bank Operating Statistics, contains various statistics based on reports of income and reports of condition of banks by nationwide totals, by individual states and other areas, and by market areas. Quarterly, each insured bank receives a series of tables which relate the bank's performance to the performance of banks in the same state and peer group. Also available quarterly are national and state aggregations of each reported data element (all Aggregation Tables).

Agency Contact: (202) 389-4602.

S02600-003

Summary of Deposits System.

OMB Funding Code/Title: 51-8419-0-8-371 / Federal Deposit Insurance Corporation

Program: Administrative and Operating Expenses

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Deposit Insurance Act (P.L. 81-797).

Availability: Agency

Geographic Relevance: National; State; City; County; (MSA/PMSA)

Purpose: The system provides for the entry, edit, and tabulation of detailed information on the deposit volumes and categories in each banking office. For each banking office, data include detailed breakdowns of deposit volumes by categories, such as savings, time, demand, and public funds. For selected years the data also include breakdowns of deposit volumes by size of account in each category and number of accounts in each size group within each category. **Input:** Input is derived from commercial and mutual savings banks. **Output:** A set of books (Banks and Branches Data Book) is produced. In addition, individual reports are available on the basis of various demographic selection criteria.

Agency Contact: (202) 389-4602.

Federal Home Loan Bank Board

S03000-001

The FHLBB Budget.

OMB Funding Code/Title: 82-4035-0-3-371 / Federal Home Loan Bank Board revolving fund; 82-4037-0-3-371 / Federal Savings and Loan Insurance Corporation fund

Program: Federal Home Loan Bank Board Revolving Fund (All Programs); Federal Savings and Loan Insurance Corporation Fund (All Programs)

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Home Loan Bank Act of 1932 (P.L. 72-304). National Housing Act (P.L. 73-479).

Availability: Internal Use Only

Purpose: The Federal Home Loan Bank Board (FHLBB) budget is authorized by the Congress and includes the limitation amounts on administrative and nonadministrative expenses of the Federal Home Loan

Bank Board and the Federal Savings and Loan Insurance Corporation. The Board formulates policies for and supervises the operations of the 12 Federal Home Loan Banks and the Federal Savings and Loan Insurance Corporation. It is also responsible for the examination and supervision of all savings and loan institutions insured by the Federal Savings and Loan Insurance Corporation. Accordingly, this system monitors both budget estimates and expenditures of the entities under the Board's jurisdiction. Information includes program highlights, summary of agency expenses, positions by organizational units, functions and responsibilities of organizational units, and historical and financial background. **Input:** The input is estimates from office directors and cost data from the FHLBB accounting section. **Output:** The output is FHLBB Justification for (Budget) Estimates and the Budget Variance Report.

Agency Contact: (202) 377-6173.

S03000-002

Financial and Operating Data Reporting System (FSLIC)--Insured Savings and Loan Associations.

OMB Funding Code/Title: 82-4035-0-3-371 / Federal Home Loan Bank Board revolving fund; 82-4037-0-3-371 / Federal Savings and Loan Insurance Corporation fund

Program: Examination and Supervision of Federal and State Chartered Thrift Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Home Loan Bank Act of 1932 (P.L. 72-304; 12 U.S.C. 1931). National Housing Act (P.L. 73-479).

Availability: Agency; Internal Use Only

Purpose: The system provides the Federal Home Loan Bank Board with financial and operating data on Federal Savings and Loan Insurance Corporation (FSLIC)-insured savings and loan associations for monitoring the savings and loan industry. The Monthly Report includes a balance sheet, savings flow, mortgage lending activity, and loan commitment data; June/December Semiannual Report includes assets, liabilities, and net worth, income and expenses, slow loans and scheduled items, and various supplemental lending data for fiscal year end and six month; and March/September Semiannual Report includes cash and investment securities, interest/dividend rates on savings, savings account structure federal income tax information, and savings capital by home and branch office. **Input:** The input is monthly and semiannual reports from FSLIC-insured savings and loan associations. **Output:** The output is aggregate data from Monthly Report, June/December Semiannual Report, and March/September Semiannual Report; financial evaluation system; management information system; and Highlights Report.

Agency Contact: (202) 377-6106.

S03000-003

Cost Comparison System.

OMB Funding Code/Title: 82-4037-0-3-371 / Federal Savings and Loan Insurance Corporation fund

Program: Assets Acquired from Insured Institutions; Loan to Insured Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act (P.L. 73-479; 88 Stat. 1503; 12 U.S.C. 1724).

Availability: Internal Use Only

Geographic Relevance: (MSA) Standard Metropolitan Statistical Area

Purpose: The cost comparison models provide the Federal Savings and Loan Insurance Corporation (FSLIC) with means for evaluating the costs of various alternative actions which may be used to prevent the default of a financially troubled savings and loan association. The cost comparison models form the basis of the cost comparison analysis which the FSLIC is required to undertake on each problem institution before

worth, income statements, cashflow, cashflow from receivership to FSLIC, and total cost of receivership to FSLIC in response to user inquiries.

Agency Contact: (202) 377-6633.

Federal Maritime Commission

S03100-001

Financial Management System.

OMB Funding Code/Title: 65-0100-0-1-403 / Salaries and expenses

Program: Regulation of the Shipping Industry

Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Shipping Act of 1916, as amended (P.L. 64-260).

Availability: Internal Use Only

Purpose: The Financial Management System is concerned with the overall financial management of the Federal Maritime Commission. It is comprised of two major systems involving budget and fiscal accounting. The budget system includes the formulation of budget policies and programs; the preparation and justification of agency budget estimates; and budget execution. The fiscal accounting system is concerned with the administration of fiscal plans and the control and accountability of agency funds. Allotment accounting functions are performed by the General Services Administration under its integrated payroll and allotment accounting system. The budget system is reviewed monthly in conjunction with quarterly fiscal plans and allotment reports to determine the need for reprogramming available resources. The fiscal accounting system is reviewed monthly in conjunction with automated accounting history and allotment status reports furnished by the General Services Administration for transactions processed during the month. Data are furnished on an accrued cost basis for each cost account entered into the system. **Input:** Data for the budget system are based on an annual call for budget estimates and reflects the budgetary requirements of the agency in support of its programs and functions for the current and budget years. Estimates are supported with detailed narrative justifications, projected workload data, and objectives for each program and function. The data for the fiscal accounting system are derived from fiscal plans, apportionments, allotments, and various obligation and expenditure documents (payrolls, contracts, purchase orders, requisitions, travel orders, invoices, vouchers, etc.). **Output:** The frequency of the system output is biweekly and monthly, and the following reports are involved: Computerized Payroll Listing (biweekly); Computerized Allotment Status Report (monthly); Computerized Accounting History (monthly); Computerized Listing of Undelivered Orders, Accruals, and Open Commitments by Detail Activity; Status of Appropriation (monthly), and Report on Budget Execution (monthly).

Agency Contact: (202) 523-5770.

Federal Mediation and Conciliation Service

S03200-001

Agency's Budget System.

OMB Funding Code/Title: 93-0100-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

interstate commerce, and interstate rail and air transportation, whenever in its judgment such disputes threaten to cause a substantial interruption of commerce. Under the authority of Executive Order 11491 of October 29, 1969, as amended by Executive Orders 11616, 11636, and 11838, the Service also makes its mediation and conciliation facilities available to federal agencies and organizations representing federal employees in the resolution of negotiation disputes. The approved budget is published in the appendix of The Budget of the United States government each Fiscal Year. Budget coordination and finalization are prepared at the National Office level. **Input:** The budget is based on estimates of expenditures required to carry on the functions of the Agency. Internal resource requirements input are received from the National Office and the Regional Offices. External input on cost of Workers' Compensation and medical benefits is received from the Labor Department, and estimated cost of FTS and space rental is provided by the General Services Administration. **Output:** The budget output is once a year.

Agency Contact: (202) 653-5209.

S03200-002

Arbitration Case Tracking System (ARBIT).

OMB Funding Code/Title: 93-0100-0-1-505 / Salaries and expenses

Program: Arbitration Services

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101). National Labor Relations Act (P.L. 93-360).

Availability: Internal Use Only

Geographic Relevance: State; National

Purpose: ARBIT is the information storage and retrieval system used for locating appropriate people within the file and for arbitration case tracking. Requests are made for panels of arbitrators by private parties throughout the country. The Office of Arbitration Services formulates panels, produces letters to the parties, and tracks cases from inception through completion. The content includes individual arbitrator experience data; case data, including grievance information; and organization data, including requesting parties' addresses and representative's names. These are submitted and updated daily. This information covers the entire United States. The information dates from 1949. **Input:** 1) Arbitrator biographical sketches; 2) Requests for panels of arbitrators. **Output:** The principal output consists of letters containing panels of arbitrators sent to requesting parties.

Agency Contact: (202) 653-5220.

S03200-003

Mediation Caseload Statistics System.

OMB Funding Code/Title: 93-0100-0-1-505 / Salaries and expenses

Program: Mediation Program

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101). National Labor Relations Act (P.L. 93-360).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: In addition to being used for monitoring mediation caseload statistics, the system is used for storing descriptive information on the parties to the dispute, the issues, and the final resolution. The system contains information on disputes, technical assistance, and public information case data covering the entire United States. Items include the

number of meetings held, strike reports, and cases closed. This information is updated monthly. **Input:** FMCS Final Reports of the mediation of labor-management disputes is the input. **Output:** The principal output consists of caseload statistics broken down by region, duty station, and individual mediator.

Agency Contact: (202) 653-5220.

S03200-004

Arbitration Awards Statistics System (ARBSTATS).

OMB Funding Code/Title: 93-0100-0-1-505 / Salaries and expenses

Program: Arbitration Services

CFDA NO.: 34.001

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: National Labor Relations Act (P.L. 93-360, 29 U.S.C. 173).

Availability: Internal Use Only

Geographic Relevance: National, State

Purpose: This system is used to administer arbitration cases where the arbitrator was awarded the cases as a result of Federal Mediation and Conciliation Service intervention with the parties. The files are updated monthly. **Input:** Reduced and coded data are extracted from the Arbitrator's Report and Fee Statement. A 10 percent sampling of additional data is extracted for statistical analysis of time-lapse information. **Output:** The system generates a series of reports for statistical or management studies of the arbitration process.

Agency Contact: (202) 653-5220.

Federal Reserve System

S03400-001

Bank/Branch Structure Data.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Internal Use Only

Geographic Relevance: State; County; Federal Reserve District; MSA/PMSA

Purpose: The file makes available complete structure information with underlying records necessary to prepare summary statistics or provide individual bank historical data. These records contain bank identification information needed for statistical, regulatory, supervisory, legal, and economic research purposes. Included are all institutions defined as banks, branches, and banking facilities at military and other government establishments located in the 50 states, the United States' possessions, and certain other areas controlled by the United States. Data include the bank name and address and related geographic information and characteristics of the bank/branch office, such as charter class and holding company affiliation. **Input:** Information is provided by the Federal Reserve Banks, Comptroller of the Currency, and the Federal Deposit Insurance Corporation, as well as independent sources for selected geographic information. **Output:** The principal reports are the Q.4.5 Monthly Federal Reserve Board Release, the Federal Reserve Bulletin (quarterly), and the Annual Statistical Digest.

Agency Contact: (202) 452-3866.

Report of Income Data Files (RCRI).

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; County; Federal Reserve District

Purpose: The data are used for supervision and regulation functions to analyze the performance of commercial banks. The income report contains information on the sources of an insured bank's income, expense, taxes, profits, and changes in capital. Effective March 1976, data are collected from large banks (\$300 million or more in total assets on a quarterly basis. These banks also submit a large bank supplement to the report of income on a quarterly basis. Beginning with June 1976 through December 1982, data are available semiannually on all insured banks. Beginning with March 1983, data are available quarterly on all insured banks. The series begins in 1969. Beginning March 1984, four sets of report forms were implemented and the specific reporting requirements applicable to each bank depend upon the size of the bank and whether it has any foreign offices. **Input:** The data are reported quarterly by all insured commercial banks. **Output:** The principal report is the Annual Statistical Digest and the individual hardcopy of reports.

Agency Contact: (202) 452-2665.

S03400-003

Consolidated Report of Condition (RCRI).

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; County; Federal Reserve District

Purpose: The purpose is to monitor the financial condition of all commercial banks. The tapes contain detailed assets, liabilities, and capital accounts data for all insured commercial banks and their significant domestic subsidiaries. The detailed data include information on loans, investments, deposits, and capital accounts. March 1976 through December 1983, banks with total assets of \$300 million or more submit quarterly large bank supplements to the Report of Condition. Beginning March 1984, four sets of report forms were implemented and the specific reporting requirements applicable to each bank depend upon the size of the bank and whether it has any foreign offices. **Input:** Data is reported quarterly by all insured commercial banks. **Output:** The principal reports are the Federal Reserve Bulletin, the Annual Statistical Digest, the E.3.4 Statistical Release, and the individual hardcopy of reports.

Agency Contact: (202) 452-2665.

S03400-004

Flow of Funds National Accounts System.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Purpose: The purpose is to collect information about sources and uses of funds pertaining to a broad cross-section of the U.S. economy. Quarterly and annual tables are published which include a full set of sector statements of savings and investment and a full set of transaction accounts that give net borrowing and lending in individual types of claims. Published current quarterly tables and the annual tables are contained in separate Federal Reserve Board publications. Credit market summary tables appear monthly in the Federal Reserve Bulletin. Once each year a more extended set of tables appears in the Annual Statistical Digest. **Input:** The data base is drawn from separate structures like corporate finance, government finance, balance of payments, money and banking activities, residential finance, and security market activity. These elements are integrated with information from income and product accounts on saving and capital formation. **Output:** The base data are

published as tables of year-to-date flows from 1946 to the present and year-end outstanding claims from 1945 to date. Current data are published in a quarterly report of seasonally adjusted and not seasonally adjusted flows for the most recent 6 quarters. These tables are available in printing press hardcopy format. Longer runs of quarterly flows or levels are available in xerox copies or in special computer printouts. The entire data set is also available to the public as a computer data tape.

S03400-006

Report of Commercial and Industrial Loans Outstanding by Industry/FR2416-1 (Revised as of 79/01/03).

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Purpose: The commercial and industrial (C and I) loan series is a short run indicator of the strength of business loan demand in the banking community. It serves as a basis for estimating total bank business loans. The information may be used to gauge the broad loan picture as well as the effects of special situations and seasonal patterns by industry. The information is also useful in projecting future loan demand. The information requested is the volume of outstanding domestic commercial and industrial loans classified by business of the borrower and of the non-domestic C and I loans classified as one of the following: 1) Bankers acceptances, 2) foreign commercial and industrial loans, and 3) not classified. The series begins in January 1964. Revised as of January 1979 to include volume of outstanding domestic, commercial and industrial loans classified by business of borrower excluding bankers acceptances. **Input:** The data are provided by a sample of 159 of the nation's largest commercial banks. Business loans are reported as of the close of business every Wednesday. Term loans by industry are reported on the last Wednesday of each month. **Output:** The principal reports are Commercial and Industrial Loans Outstanding by Industry and G.27 Federal Reserve Statistical Release. Revised January 1979 to include 134 commercial banks with total domestic assets of one billion or more as of December 1977. Business loans are reported as of the last Wednesday of the month basis.

S03400-006

Money Supply: Bank Reserves, Monetary and Banking Aggregates Data Files.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Purpose: These data are used in the conduct of monetary policy to monitor and analyze the influence of monetary policy on employment, prices and production, and to analyze the cost and availability of bank reserves and bank credit. The money supply (M-1) consists of data on demand deposits of commercial banks other than domestic interbank and U.S. government, less cash items in process of collection and Federal Reserve float; foreign demand balances at Federal Reserve Banks; and currency outside the Treasury, Federal Reserve Banks, and vaults of commercial banks. Data for more inclusive definitions also exist. The banking reserves data consist of seasonally adjusted levels of total reserves, required reserves, and excess reserves. **Input:** Aggregate data as well as selected information from other nonbank financial institution sources. **Output:** The principal reports are the Annual Statistical Digest, the Federal Reserve Bulletin (monthly), and the H.1.6 and H.3 Statistical Release (weekly).

Agency Contact: (202) 452-3018.

S03400-007

Weekly Report of Condition (2416) Data File.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Geographic Relevance: National; Federal Reserve District

Purpose: The file provides the capability to monitor the financial condition of the largest commercial banks in the Nation on a weekly basis. This reporting series began in July 1959. Individual bank data and bank names given on request of respondent banks are confidential. Therefore, only summary data are published. **Input:** The file consists of a detailed balance sheet prepared for approximately 171 of the largest commercial banks and significant domestic subsidiaries in the Nation. Data pertaining to balances in asset and liability accounts as of the close of business each Wednesday are voluntarily reported by these banks. Prior to December 1978 the file contains information for approximately 330 banks with total deposits in excess of \$100 million. As of January 1979 the file includes 171 banks with total domestic assets in excess of \$750 million. As of January 1984, the file includes 168 banks with domestic assets in excess of \$1.4 billion. **Output:** Federal Reserve district and national totals of the balance sheet items are published each Wednesday in the Federal Reserve Statistical Release H.4.2 and, in a slightly different format, in the Federal Reserve Bulletin. Earlier data are published in the Annual Statistical Digest. Balance sheet items for 171 banks with total domestic assets in excess of \$750 million and historical data for the 171 commercial banks are available for the period 1972 to 1978 inclusive. Historical data for 168 banks with domestic assets in excess of \$1.4 billion are available for the period 1979 to 1983, inclusive.

S03400-008

Industrial Production Index Systems.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Purpose: The purpose is to measure the trends and cyclical fluctuations in industrial activity at the sector and aggregate levels. The data base contains indexes on the components of the four major industrial production series--total, consumer goods, business equipment, and materials--1976 revision. Estimates are published monthly for industrial production during the preceding month--total output of factories, mines, and utilities. The seasonally adjusted industrial production indexes are published monthly in the Federal Reserve Bulletin and in the Annual Statistical Digest. **Input:** Industrial production is a value-added weighted average of 235 individual series representing manufacturing, mining, and utility industries. These series are constructed from monthly data from various sources. Physical product data are from various trade associations and government agencies such as Bureau of the Census and Bureau of Mines; production worker man-hours (Bureau of Labor Statistics) and kilowatt hour data by SIC (Federal Reserve) are both adjusted for output. **Output:** The principal reports are the G.12.3 Federal Reserve Statistical Release (a monthly report in hardcopy format) and the Federal Reserve.

Agency Contact: (202) 452-3152.

S03400-009

Report on Foreign Branch Assets and Liabilities (FR2502 and FR2502S). 1970

OMB Funding Code/Title: 99-0000-9-9-000

Program: Supervision and Regulation of Financial Institutions

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs*

Authority: Federal Reserve Act (P.L. 63-43; 38 Stat. 251).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The reports cover the assets and liabilities of foreign branches of member banks of the Federal Reserve System, of Edge Act Corporations, and of non-member banking institutions in the United States owned by foreign banks. Monthly 2502 data show breakdowns for several U.S. and foreign customer categories and breakdowns by dollar and foreign currency denomination. Published data are aggregates for all branches in the United Kingdom and for branches in the Bahamas and Cayman Islands. Quarterly 2502-S data show total claims and liabilities by the country of the branches' customers. **Input:** Form F.R. 2502 (monthly) and Form F.R. 2502-S (quarterly) are filed with District Federal Reserve Banks by member banks of the Federal Reserve System, by Edge Act Corporations, and by non-member banking institutions in the United States owned by foreign banks for branches with total assets of \$150 million or more (\$50 million in the case of "shell" branches). **Output:** FR 2502 data are reported in table 3.14 "Foreign Branches of U.S. Banks" in the Federal Reserve Bulletin, published monthly. Aggregates of FR 2502S data are reported in the quarterly E-11/121 statistical release, Geographic Distribution of Assets and Liabilities of Major Foreign Branches of U.S. Banks. Also produced in the Annual Statistical Digest. Aggregates of FR 2502-S data are also included in table 3.21 "Claims on Foreign Countries Held by U.S.-Chartered Banks" in the Federal Reserve Bulletin.

Corporate Patterns Report (CPR) (P512002)

OMB Funding Code/Title: 29-0100-0-1-376 / Salaries and expenses

Program: Economic Activities

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Federal Trade Commission Act (P.L. 63-203)

Availability: Agency

Geographic Relevance: National

Purpose: The principal purpose of the CPR 1972 is to provide the Commission with data on industrial concentration, integration, and diversification among the 1,000 leading manufacturing companies. The data are useful in enforcement activities, economic studies, and policy planning. Included are companies not primarily engaged in manufacturing but which have sufficiently large manufacturing activities to have ranked among the 1,000 largest manufacturers of 1972. Also included are companies which ranked among the 1,000 leading manufacturers of 1950 but which were not ranked in the 1,000 largest in 1972. Data available include the following: company name and number, acquired company name and acquisition number, net sales and total assets for 1967 and 1972; value of shipments by domestic manufacturing establishments by 5-digit product class code for 1972, number of 5-digit activities in manufacturing; total non-manufacturing establishment sales, non-manufacturing sales by 2 digit SIC code for 1972 for activities with sales of \$10 million or more, number of non-manufacturing activities, number of acquired companies; number of minority interests; number of joint ventures. Also available for minority interests of the CPR companies are the following: name of the company in which the CPR company held a minority interest; the percentage of ownership; the value of the investment; net sales and total assets for the year 1972, and SIC classification for principal business activity. Available for joint ventures in which CPR companies participated are the data items listed above for the minority interests of CPR companies. In addition, data as to joint ventures include the following: number of owners of the joint venture; the name of the owning or controlling company, if any; and purchases and sales between the joint venture and any of its participating companies. **Input:** This is a special report submitted by approximately 1,000 leading manufacturers of 1972. **Output:** The output consists of computer runs that present data alphabetically by companies and numerically by product class numbers.

Correspondence Control System (CCS)

OMB Funding Code/Title: 29-0100-0-1-376 / Salaries and expenses

Program: Maintaining Competition; Consumer Protection

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Federal Trade Commission Act (P.L. 63-203)

Availability: Agency

Geographic Relevance: National

Purpose: The system is used to maintain an automated index of consumer complaints and citizen petitions. The information is used to produce reports of violations and products. The CCS data base contains one record for each piece of consumer correspondence which is controlled. Each record contains: control number, author's name and address, company's name and address, violation, product, and significant data. At present, correspondence routed through headquarters is being input in this system, plus mail order rule complaints from regional offices. The system will expand during the spring of 1984 to accommodate all correspondence received in regional offices and headquarters. **Input:** The information is compiled by paralegals from consumer complaints. **Output:** Reports of consumer complaints and a list of petitions are produced by this system.

Agency Contact: (202) 523-3567.

S03500-013

Prenter Notification System. (P610001).

OMB Funding Code/Title: 29-0100-0-1-376 / Salaries and expenses

Program: Maintaining Competition

CFDA NO.: 36031

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: National Energy Conservation Policy Act (P.L. 95-619). Federal Trade Commission Act (P.L. 63-203)

Availability: Internal Use Only

Purpose: This program is designed to permit antitrust evaluation of mergers and acquisitions involving large "persons." Parties to covered transactions must file notification and provide relevant data to the Department of Justice and the Federal Trade Commission prior to consummation of those transactions. **Input:** Data for the system are extracted from questionnaires completed by acquired and acquiring companies. **Output:** The system provides for antitrust evaluation of mergers and acquisitions involving large "persons."

S03500-014

Federal Trade Commission Management Information System (MIS).

03/02/81

OMB Funding Code/Title: 29-0100-0-1-376 / Salaries and expenses

Program: Consumer Protection; Maintaining Competition; Economic Act

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Federal Trade Commission Act (P.L. 63-203; 38 Stat. 719; 15 U.S.C. 45 et seq.).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Federal Trade Commission (FTC) Management Information System (MIS) is a comprehensive computer system designed to process, update, and report Commission data efficiently and reliably. The MIS is made up of two interdependent systems: the actual flow of special forms and memoranda through the Commission and the processing of this information by the computer. The external flow of information to MIS is the responsibility of the managerial, administrative, legal and technical staffs in the bureaus, regions, General Counsel, Office of the Secretary, and Data Processing and Information Systems. Subsystems that comprise MIS are: STAR and Matter Tracking. **Input:** The MIS captures two kinds of data. Professional staff time and actively expended against pending matters and/or programs within the Commission are reported and processed in the subsystem called Staff Time and Activity Reporting (STAR) which interfaces with the Federal Trade Commission (FTC) Financial Management System. Another subsystem called Matter Tracking uses a defined set of historical events to track initial and full phase investigations, compliance, internal court litigation, external court litigation rules/guides, and projects. **Output:** The FTC Financial Management System and STAR produce management reports on staff time and activities and Commission-wide reports on program budget resources (planned and expended). Reports and matter profiles are produced from the Matter Tracking subsystem.

General Services Administration

S03700-010

Public Buildings Service Information System (PBS/IS) Fair Annual Rental (FAR) Appraisal Rate Module.

OMB Funding Code/Title: 47-4542-0-4-804 / Federal buildings fund

Program: Rental of Space; Real Property Operations

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Public Buildings Amendments of 1972 (P.L. 92-313).

Availability: Internal Use Only

Geographic Relevance: State; Territory

Purpose: The Fair Annual Rental (FAR) Appraisal Rate Module of the PBS/IS provides PBS with a data base of rates, by type of space, which is based on appraisals for each government owned and leased building in the PBS inventory. These rates will be used beginning in fiscal year 1978 for production of the Standard Level User Charge billings. The module is updated nightly. The data base, which contains all government owned and leased buildings for which PBS is responsible, covers all 50 states and territories and is on-line and queryable. There is one file in the data base. It contains the appraisal rates for each building that are presently in effect as well as future rates. **Input:** The data are input by the Office of Space Management as a result of appraisal

the completeness of the data base; a query capability is available.
Agency Contact: (202) 566-1652.

S03700-011

Public Buildings Service Information System (PBS/IS) Space Management Module.

OMB Funding Code/Title: 47-4542-0-4-804 / Federal buildings fund

Program: Rental of Space; Real Property Operations

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works, *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Public Buildings Amendments of 1972 (P.L. 92-313).

Availability: Internal Use Only

Purpose: The Space Management Module of the PBS/IS provides managers and technical personnel with an automated inventory of buildings for which OSA is responsible, both federally owned and leased, and information on agency assignment square footage, leases, and agency requests for space. The module is updated nightly. Reports are produced on ad hoc, monthly, quarterly, and yearly bases. The data base is updated daily. The system is comprised of five major files. The Space Request File contains data on type and amount of space requested by agency location and key dates. The Building File serves all modules of the PBS/IS as the basic inventory of government owned and leased buildings and contains for each building: Name, address, amount and type of space. The Space Assignment File contains data on all assigned/occupied space, by agency, by type of space, location, time frame, and number of personnel. The Lease Project File contains data on all leasing projects in progress. Each record contains data pertaining to the schedule and accomplishment of certain key events. The Lease Contract File is an inventory of all leases in effect, the terms of the lease, lessor/payee, and other pertinent data concerning the lease. The data base is queryable and on-line. The Building and Assignment files also serve as input to the Standard Level User Charge (SLUC) Billing Module of PBS/IS. SLUC is basically an application program which operates from this data. **Input:** The data contained in the system are input by Office of Space Management personnel as a byproduct of their space assignment, leasing, and other space management activities. **Output:** The module provides a number of periodic hardcopy reports concerning the inventory of space, assignments, buildings, and leases. Ad hoc queries are produced as required.

Agency Contact: (202) 566-1652.

S03700-016

Automated Quality Control Management Information System (AQCMS). (3520).

OMB Funding Code/Title: 47-0116-0-1-804 / Personal property, operating expenses

Program: Supply

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Purpose: The system (QCMIS) is primarily designed to provide regional quality assurance and Contract Administration personnel with a workload management and planning system to facilitate their day-to-day activities. The AQCMS is a nationwide system, updated daily in the five Contract Management zones. Each week is listed with all active FSS suppliers in the region and their corresponding open purchase orders. Also produced weekly is a listing of the previous week's accomplishments, i.e., purchase orders shipped, released, rejected. A monthly summary of accomplishments is produced at the end of each report month (23rd). No accomplishment data are stored or saved in the AQCMS past the monthly cycle. Supplier performance data are collected and saved for a 4-year period. These data summarize on a contract-

order line item data are obtained from regional and central buying and inventory management offices. Other input consists of work assignments made by regional quality assurance branches. These assignments include complaint investigations, plant facility visits, quality assurance surveillance visits, and contract administration actions. **Output:** The principal reports of the system are weekly reports of planning, schedules, and work accomplishments. A monthly cumulation of work accomplished is also produced.

Agency Contact: (703) 557-3488.

S03700-016

Federal Specification Reference System (FSRS). (3510).

OMB Funding Code/Title: 47-0110-0-1-804 / General management and administration, salaries and expenses

Program: Executive Direction

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Agency

Purpose: The FSRS is a computer system designed for use in the implementation of the federal standardization program. It provides specification managers with statistical data related to the program and assists operating personnel in the development and maintenance of federal standardization documents. The system contains: 1) identification of Government and industry specifications/standards and regulatory requirements referenced in each federal specification/standard; 2) provision of statistical data on the number and type of government and industry documents referenced within the federal documents; 3) retention of audit trail on all federal specifications/standards that have been superseded or cancelled; and 4) provision for single entry for selected/random/total record feed out. **Input:** Principal sources for input are bibliographic data of standardization documents, both federal and non-federal. **Output:** Annually and biennially produced publications and printed cards of primary references and indexes to federal specifications are produced.

OMB Funding Code/Title: 47-0116-0-1-804 / Personal property, operating expenses

Program: Transportation

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Geographic Relevance: GSA regions

Purpose: TRIPS is a comprehensive integrated system to perform financial and management functions relating to transportation of material. TRIPS features an analysis of shipments from FSS Supply Distribution Facilities (SDF) by points of origin and/or destination and by carrier. Further, TRIPS provides a means of measuring carrier performance on shipments from SDF's and a method of determining the volume of parcel post shipments and charges due the United States Postal Service for such shipments. The information produced indicates for each SDF: the destination, weight, carrier, GSA number, and transportation cost of each shipment from that SDF. Also, the system indicates similar information on shipments from vendors and others to an SDF or a consignee other than an SDF. Destinations are coded by state/city codes. **Input:** The basic data source is the FSS Project 19 system with additional input of information from Government Bills of Lading prepared to cover shipments from vendors and others to the SDF's and other consignees.

S03700-026

National Personnel Records Center Registry File System.

OMB Funding Code/Title: 47-0300 0-1-804 / National Archives and Records Service, operating expenses

Program: Records Centers

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Purpose: The registry is maintained to better control and retrieve personnel files when service requests are received. The National Archives and Records Service operates the National Personnel Records Center, St. Louis, MO, which receives, appraises, arranges, stores, preserves, maintains, and disposes of the national collection of records on separated military and civilian personnel. The Military Personnel Records Center holds records pertaining to former service personnel from all branches of service. Records of Army personnel separated from duty on or after November 1, 1912, Air Force personnel separated from duty on or after September 25, 1947, and records covering service of former members of all other branches of service with a separation date of January 1, 1964, or later are contained in this file. The Civilian Personnel Records Center holds Official Personnel Folders of separated civilian personnel, personnel locators (SF-50), and military entrance and separation X-rays. Records arriving at the Center are assigned registry numbers. All inquiries directed to the Registry Number File System at these centers require that the registry number be secured through use of the computer system, in order to locate a record. **Input:** Input is internal from the military and civilian personnel files once they are received by the Center for storage. **Output:** Output is in the form of index "pull slips" to indicate the place of storage of a given personnel file.

Agency Contact: (202) 724-1614.

S03700-027

National Archives and Records Service Automated System for the Control of Federal Records Centers Records (NARS-5).

OMB Funding Code/Title: 47-0300-0-1-804 / National Archives and Records Service, operating expenses

Program: Records Centers

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Purpose: The system is to control and retrieve records stored in Federal Records Centers. This system contains the necessary information for identification, control, and retrieval of records stored in the Federal Records Centers (FRCs) by federal agency. It also provides information pertaining to current month activity and year-to-date activity. The system is updated continuously as new records are moved into the FRC's. **Input:** Input for this system is internal after federal agencies have moved their records to the Federal Records Centers. **Output:** Reports are made on current month activity and year-to-date activity.

Agency Contact: (202) 724-1614.

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Purpose: The Center is intended to record transactions related to the preview, loan, rent, and sale of audiovisual materials by the Center. Distribution Branch and provide appropriate data for each title. Reports are to be used for management purposes and trend analysis. The database contains data elements identifying the type of customers, their regions, the audiovisual's title, format, ID number, and sponsoring agency, as well as the type and number of transactions and related costs. **Input:** Data are provided via customer orders and the required coding is accomplished by the Center's personnel. **Output:** The major output is inventory report on computer printout hardcopy printed monthly and activity reports on computer printout hardcopy as requested, usually quarterly. Searching is accomplished by selecting the type of report desired, i.e., income or distribution of sales, rentals, loans or previews by title number, sponsoring agency, or media.

Agency Contact: (301) 763-1872.

S03700-033

National Electronic Accounting and Reporting (NEAR) System.

OMB Funding Code/Title: 47-4542-0-4-804 / Federal buildings fund

Program: Federal Buildings Fund (All Programs)

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of June 14, 1946 (P.L. 79-413, § 9; 60 Stat. 259; 48 U.S.C. 296). Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Agency

Geographic Relevance: GSA regions

Purpose: The system was established shortly after enactment of the Federal Building Fund. The basic purpose of the system is to establish and maintain records and accounts of financial transactions to provide: 1) Full disclosure of the financial results; 2) a means of complying with legal and administrative limitations on commitments, obligations, disbursements, and investments in property and other assets; and 3) effective financial control over, and accountability for, all funds, property and other assets for which each fund manager is responsible. The NEAR System is a single integrated system that supports the operation of a daily accounting cycle for each of the 10 GSA regions and the central office. The system operates on the Federal Teleprocessing Network which provides remote access to a central computer. The system may be considered as consisting of three major operational functions and one support function. The first major function is the acceptance of input from the finance divisions or the internal generation of financial accounting entries and related transactions. The second is the processing and storing of the financial data. Last comes the function of reporting results of this processing to managers within GSA and to other government agencies. Supporting these operational functions is the maintenance of address files and other necessary nonfinancial data. The system includes data on income and retained earnings; transactions; obligations; appropriation account; receipt account; cost centers; status of allotments; status of recurring services; billings and receivables; cash disbursements; general ledger; and errors indicated from system edits. **Input:** The internal sources of information include a list of all GSA services, staff offices and Presidential commissions. Major categories of input are allotments, undelivered orders, accruals, payments and billing. **Output:** Regular financial reports needed to satisfy the requirements of the Senate and House Committees on Appropriations, OMB, and the Treasury Department are produced in hardcopy.

Agency Contact: (202) 566-0568.

S03700-034

Centralized Accounting System (DAC).

OMB Funding Code/Title: 47-0116-0-1-804 / Personal property, operating expenses

Program: Supply; Transportation; Property Management

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Geographic Relevance: GSA regional offices

Purpose: This system is composed of many subsystems which capture, control, and generate reports for all GSA regional offices and consolidate them for the central office. Reporting is accomplished to meet the financial and management information required for GSA services and staff offices. External reporting is produced either automatically or from feeder reports generated in the system. The principal subject matter area is the accountability of funds for GSA. Information includes purchase orders, travel, transportation payments, certified invoices, accounts receivables, billings, and utility payments. The major master files maintained at various levels, depending upon the reporting and control requirements, are Allotment Ledger Master, General Ledger Masters, Subsidiary Ledger Masters, Payment History Master, Accounts Receivable Master, and External Reporting Masters. **Input:** The internal sources of information are: Federal Supply Service, Information Resource Management Service, and staff offices. The major categories of input are: undelivered orders, accruals, payments, and billings. **Output:** Both hardcopy and magnetic tape output is produced daily, monthly, and annually to satisfy various agency needs.

Agency Contact: (202) 566-0568.

S03700-035

Federal Register Privacy Act Index System.

OMB Funding Code/Title: 47-0300-0-1-804 / National Archives and Records Service, operating expenses

Program: Archives and Related Services

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: GPO

Purpose: The system has been developed to maintain agency records published in the Federal Register. The system contains descriptions of records maintained by federal agencies which are covered by the Privacy Act of 1974, Public Law 93-579, 5 U.S.C. 522 a(g). The act requires executive agencies to publish in the Federal Register notice for all systems of records as defined in the act. Descriptions identify by agency the records systems and categories of individuals on whom records are maintained. Publication of systems in the Federal Register by agency varies throughout the calendar year. The compilation is as of December 31, beginning with 1979 issuances, and is produced by the Register for use as a locator. Specific information on privacy systems should be obtained from agencies. **Input:** System data on Privacy Act records are obtained from agency submissions to the Federal Register. **Output:** The last complete compilation published was the five-volume 1981 set, Systems of Record, as submitted for publication by the agencies, are described in the Federal Register.

Agency Contact: (202) 523-5240.

S03700-036

Public Buildings Service Information System (PBS/IS) Repair and Alteration and Construction Automated Tracking System (IRACATS).

OMB Funding Code/Title: 47-4542-0-4-804 / Federal buildings fund

Program: Construction and Acquisition of Facilities; Alterations and Major Repairs; Purchase Contract Payments, Rental Property Operations; Program Direction

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Public Buildings Amendments of 1972 (P.L. 92-313).

Availability: Internal Use Only

Geographic Relevance: National; Regional

Purpose: This system is designed to satisfy the reporting requirements of several Public Building Service (PBS) major organizations at the regional and national levels. The system is comprised of three major subsystems in addition to the Edit/Input and Output Subsystems. The subsystems are designed to support the following requirements: 1) provide the PBS Repair and Alteration organizations with an inventory of building work items and their status, estimated cost, and planned schedule for accomplishment and automatically generate Project and Work Authorizations with authorized amounts for design, supervision, and construction costs; 2) provide PBS design and construction personnel with an automated analysis of how time is being spent by discipline/function/design and construction, both in the aggregate and for specific projects; and 3) provide PBS managers and technical personnel with information on the scope, schedule, costs, and status of all projects. The system operates under a distributed data base concept which is updated on an as-required basis in and by each of the 11 PBS regions. The data base contains the following major data files that are on-line and queriable for immediate one time information reports if desired by users: 1) work item file; 2) prospectus file; 3) Project and Construction Services Fund (CSF) and 4) Contract and Contract Change Order File. **Input:** The data are input by the PBS Construction Management, Repair and Alteration, and Space Management personnel at regional and Central Office levels as a by-product of their daily activities. **Output:** Several hardcopy reports are produced on as needed, monthly, quarterly, biannual, and annual schedules. They are generally project status reports, project authorization reports, public building work status reports, work measurement reports, program management reports and schedules, and Construction Service Fund reports. The on-line data base provides for ad hoc queries as desired by users.

Agency Contact: (202) 566-1652.

S03700-037

Common Data Base.

12/82

OMB Funding Code/Title: 47-0300-0-1-804 / National Archives and Records Service, operating expenses

Program: Archives and Related Services

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Agency

Purpose: The system is to collect data concerning audiovisuals produced or funded by federal agencies. This information is provided to government agencies and the public via brochures, catalogs, reference letters, and telephone conversations. The system provides for mandatory title checks for federal agencies prior to starting new productions to reduce duplication of agency products. **Input:** Data are provided by the external agency responsible for the audiovisual productions through formal reporting on Standard Form 202 to the Information Branch. **Output:** Computer-generated reports will be produced to satisfy agency needs.

Agency Contact: (301) 763-1872.

S03700-040

Federal Supply Service Management Information System (FSSMIS).

OMB Funding Code/Title: 47-0116-0-1-804 / Personal property, operating expenses

Program: Supply

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*
Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Internal Use Only

Geographic Relevance: National; GSA region

Purpose: The Federal Supply Service Management Information System is a small timesharing system which permits mechanized retrieval of summary regional program data including fill rates, inventory levels, lines received and released, items received and shipped, and other various workload volumes. The system is updated monthly at Central Office by individual program offices using summary reports sent in each month by the regions. Various ad hoc reports are designed for review of major elements of performance as well as for project tracking. **Input:** All input is from Federal Supply Services organizational elements (manual). **Output:** Utilizing timesharing software, various inquiries and reports are provided in accordance with the operator's own instructions.

Agency Contact: (703) 557-8672

S03700-041

Equal Employment Opportunity Information System (EEOIS).

OMB Funding Code/Title: 47-0110-0-1-804 / General management and administration, salaries and expenses

Program: Executive Direction

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152, title I, II, § 101, 106, 208; 63 Stat. 379, 381, 391; 40 U.S.C. 751, 754, 758).

Availability: Internal Use Only

Purpose: Equal Employment Opportunity (EEO) reports contain data for the majority of GSA employees and are used to determine progress in the implementation of the GSA Affirmative Action Plan. Reports are received by EEO officials for transmittal to operating officials. EEO reports contain data for the majority of GSA employees, and have many uses, including but not limited to the following: monitoring personnel actions, training opportunities, and the status of minorities, women, and disabled persons in the agency workforce; establishing and monitoring progress of affirmative action goals; and reporting to the Congress, Equal Employment Opportunity Commission, Office of Management and Budget, Office of Personnel Management, and others as appropriate. **Input:** The primary sources of input are: (1) the Manpower and Payroll Statistics System, which consists of a basic record for each individual employee covering informational items of payroll; (2) the Personnel Information Retrieval System (PIRS), which consists of a basic record for each individual employee covering information items of personnel; (3) Standard Form 181, Race and National Origin Identification, which each employee completes through self-identification; and (4) the Training Data Information System, which contains information on training received, purpose, and cost. Information is entered in the system through General Services Administration (GSA) Form 3076, Request, Authorization, Agreement, and Certification of Training, completed by the trainee's organizational unit. **Output:** Output is machine-readable copy. Since data on individuals are confidential, the system can be queried only by EEO officials, or other appropriate individuals as authorized by the Director of Civil Rights. The principal output includes the Minority Statistics Report (quarterly), the EEO Job Series Report (semiannually), the Handicap Analysis of Workforce (Blue Collar, White Collar, Type by Occupation) Report (quarterly), and the Merit Pay Report (annual).

Automated Data and Telecommunications Service

S03701-002

Automated Data Processing Management Information System (ADP/MIS).
OMB Funding Code/Title: 47-0900 0-1-804 / Operating expenses, Office of Information Resources Management

Program: Federal Information Resources Management

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949, as amended (P.L. 89-306).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The ADP/MIS is to assist GSA and other federal agencies in carrying out their management responsibilities for the most effective and efficient use of ADP. The system provides a perpetual, worldwide inventory of the government's ADP equipment. The system contains information concerning ADP equipment and its acquisition. **Input:** The primary providers of information are federal agencies except the House, Senate, Architect of the Capitol, CIA, and DC government. **Output:** An Inventory of ADPE in the U.S. government and a Summary of Federal ADP Activities are published each fiscal year. A generalized retrieval system provides reports tailored to users' requirements. Magnetic tapes are produced.

Agency Contact: Automated Data and Telecommunications Service, (202) 523-4968.

Federal Supply Service

Program: Supply

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Property and Administrative Services Act of 1949 (P.L. 81-152).

Availability: Agency

Geographic Relevance: GSA regions

Purpose: Agency requisitions and internal stock replenishment requests are filled. By using master contract files, basic item and item contract files, and constant data files, a complete delivery (purchase) order is generated at the same time procurement transaction reporting data are automatically generated for input into the Procurement Transaction Reporting System. This system is used by all 11 GSA regions and the central office. It also produces automated requests for quotations. Three basic files are maintained: 1) Contract Master File containing the contract number, the beginning and ending dates of the contract, the general conditions of the contract, such as discounts, inspection points, delivery items and the contractor's name and address; 2) Item File containing the stock number, unit of issue, description, etc., of the item covered by a contract; it also contains the contract number, beginning and ending dates, item number, price, price breaks, and the zones the prices are applicable to; and the 3) Constant Data File containing address codes, buyer names and telephone numbers, notes, and all other data that are always constant but required to print a purchase order.

Input: Data are provided by the 17 procurement functions of the GSA regions and central office. Data provided consist of items covered by contract, contract number, vendor, prices, zones prices, and the codes necessary to complete Procurement Transaction Reporting. **Output:** The principal reports produced are: 1) Daily; 2) Purchase Lines Demand Report Showing demand for each stock number; 3) ADO Demand by Agency and Delivery Zone; and 4) Semiannual ADO by Vendor identifying the vendor recipient of orders. Additional summary

S03702-002*Procurement Transaction Reporting System (PTR).***OMB Funding Code/Title:** 47-0116-0-1-804 / Personal property, operating expenses**Program:** Supply**Congressional Relevance:** *House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee***Authority:** Federal Property and Administrative Services Act of 1949 (P.L. 81-152, title II, § 201).**Availability:** Agency**Purpose:** PTR takes data on socioeconomic categories, procurement methods and contractor information for all contracts and orders issued and provides reports to the Directors of these Divisions and to the Assistant Commissioner, Office of Contracts. Information in the files is limited to contract/grant/purchase order number, effective date, issuing office, contractor's identification, principal place of performance, principal product or service code, type of contract or modification, extent of completion, negotiation authority, type of business, total dollar value per transaction, and kind of procurement action. **Input:** Input of award data is by all 17 procurement offices in the regions and the central office. Purchase order data is usually generated automatically by the orderwriting system (03702001). **Output:** Several hardcopy and magnetic tape output reports are produced to satisfy GSA and other agency reporting requirements, including Federal Procurement Data System.**Agency Contact:** Federal Supply Service. This system is mechanically responsive to the stock and nonstock requirements of the federal government (military and civilian) worldwide. Subsystems are located in each of the 11 GSA regions which have primary responsibilities for receiving requisitions from customers in those geographic areas, processing to the national system for supply decisions, maintaining stock for assigned items in effecting the decisions made in the national system, and shipping stock from their depot facilities. Cycles are repeated on a daily (5-day weekly) basis in both the regional and national integrated portions of the system. **Input:** Federal agency requisitions are the external input. Internal input reflects plans and decisions of FSS for maintaining appropriate levels of depot stock for meeting the anticipated supply needs of these customers. **Output:** Produced are daily status reports to customers in printed and/or machine-readable form, daily reports to regions for FSS operational use in effecting shipments or ordering from vendors, daily reports for regional managers who direct and control the ultimate supply actions, and weekly/monthly reports to national and regional managers for assuring the efficiency of the total supply system.**Agency Contact:** Federal Supply Service. Content is categorized in the four cycles of fleet management--acquisition, operations and utilization, maintenance and repair, and disposal. Subcategorization is in the form of utilization by customer, financial reporting, and cost accounting. Geographic coverage is by individual motor pool (currently 97), individual customer, regional consolidation of data (11 regions), and nationwide consolidation. The system is updated monthly. Information is reported on a monthly and year-to-date accumulation basis. **Input:** Individual motor pools and drivers of motor vehicles periodically transmit raw data to regional motor equipment offices and finance centers for automated data processing. **Output:** Monthly printed reports identify operating expenses by fleet and major categories of vehicles, vehicle utilization, and changes to the vehicle inventory. Quarterly printed reports identify customer utilization and age and mileage data on individual fleets. Annual printed reports identify capitalized value of equipment by vehicle classification and present nationwide operational and cost data for publication in the Annual Motor Vehicle Report. There is no inquiry capability.**Agency Contact:** Federal Supply Service. Geographic Relevance: National

Purpose: This system assists in the formulation of a series of reports on all modes of the surface transportation industry depicting their individual and collective status within the industry. The system includes accounting, financial claims, and costing data provided by the industry which, when stratified, will display certain economic trends influencing the various sectors of the surface transportation industry. **Input:** System input is derived from carrier supplied data. **Output:** A full complement of financial and operating statistical reports is published and made available to members of the industry and the public. These reports enable carriers to better manage their industry; the regulatory agencies and one bureau to oversee the industry; and the economists to perform accurate forecasting and budgeting. Specifically, major system output includes, but is not limited to, the following: a series of publicly available pamphlets providing full financial disclosure for investment and financial analysis; summaries of revenue trends by carrier, region or mode; case-related information regarding determination of carrier revenue needs; and equipment and service statistics. The reports are prepared annually and are in the form of printed pamphlets compiled from intermediate hardcopy computer printouts and from manual external calculations.

Agency Contact: (202) 275-7538.

S04000-006

Rail Abandonments Information and Case Status System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Proceedings

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee

Authority: Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system is to respond to inquiries regarding actual and possible impact on communities, economics, servicing requirements, etc., resulting from rail abandonment proceedings. The system provides, on a case-by-case basis, information related to rate increases, construction, additional rail service, and the like. The system maintains a record for each rail abandonment proceeding. An initial record is created when a case is filed, and the record is subsequently updated as the case moves through adjudication and is decided. All records, active and pending, are always available for retrieval and reporting. The major data captured are docket number assigned (prefix and subnumber), case status, filing date, environmental review status, hearing designation, designation date, hearing decision, decision date, railroads involved, and states involved. **Input:** Input is derived from internal files of the Proceedings area of the Commission. **Output:** The output includes pending rail abandonment proceedings; summary of cases by selected status, including

number of cases, average file-to-decision time, average designation-to-decision time computed to days and months; summary of cases by year of decision; and recapitulation tables by state and railroads. The output is in text format displayed on a CRT video display unit, is produced as required, and is of a transient nature.

Agency Contact: (202) 275-7538.

S04000-008

Internal Management and Administration System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Proceedings; Compliance and Consumer Assistance; Planning and Analysis

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104).

Availability: Internal Use Only

Purpose: The system is to provide management support systems for the Office of the Managing Director. The internal systems include 1) Position Management--monitors all positions, including grade ranges and incumbent personnel within each position. This system is used for forecasting future position requirements and consistently displaying authorized versus actual position strengths. In addition to position information, the data base contains several items of importance regarding the specific type of individual needed for the position. 2) Status of Funds--shows up-to-date status of appropriated funds, and all obligations applied to them, for all organizations within the Commission. Included are funding of personnel services, benefits, awards, and contract support services. **Input:** Several integrated systems and subsystems are used to support internal management and administration. These include comprehensive computer support for Position Management, Status of Funds and Budgets; Number of Complaints; Investigations performed by ICC's Field Staff; and various related applications. **Output:** System output includes several subsidiary reports relating to funding status: Current Monthly Financial Accounting Transactions; Monthly Obligations and Disbursements List month by month; Overdue Transaction Registers; and Monthly Travel Statements; Field Staff Complaints, Investigations, Inspections--lists chronology of complaints against ICC regulated transport agencies (e.g., services, overcharges, damages, losses). It includes all juris and non-juris related complaint and inspections data reported to ICC by its investigators.

Agency Contact: (202) 275-7538.

S04000-009

Transportation Movement Information for All Rail Shipments.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Planning and Analysis

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is the single most comprehensive data base which supports the Commission's objectives in making available all pertinent statistical data on freight transportation and commodities transported for rail shipments. The data grouping contains virtually all information regarding types of commodities hauled, origins and destinations, carriers and equipment, costs per hundred-weight and carload, interchange and terminal data, line miles, and in-depth freight car and commodity data. The major data elements include billed weight, carload rate, car-miles, commodity group and class, forwarder traffic, line haul data, mileage blocks, multiple-car movements, origins and destinations, revenues, short-line miles, territories, and related commodity statistical data. **Input:** Input is from two other major system areas: Freight Commodity Statistics, produced by the ICC, and Carload Waybill Statistics, produced by the Department of Transportation. Added to this combination

of sources are data on terminal information, movement information, and car specifications. **Output:** Although no major recurring reports are generated by the system, it does support the following Commission requirements: investigation of railroad freight-rate structure, economic projections through modeling; reporting equipment and service statistics and summaries of revenue trends; and annual reports to Congress.

Agency Contact: (202) 275-7538.

S04000-010

Economic Projection Through Modeling System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Planning and Analysis

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is to provide, through econometric modeling, projections of operating revenue and expense trends and the basis for future rate increases. The system is used to compare anticipated rate increases with the forecast of inflationary trends in the economy and to show interdependence between transportation patterns and regional growth. This system exercises several complex algebraic formulae, containing real and hypothetical values, which will provide forecasting data necessary to the ICC and its related regulatory functions. **Input:** The system utilizes carrier supplied cost and rate data. **Output:** Output includes: 1) Revenue Forecasts--The projection of freight revenues is linked to the economic forecast of the model. Traffic movement is correlated with production actually in the economy. In turn, this traffic movement is translated into dollars to derive the revenue forecast. 2) Expense Forecast--The projection of expenses distinguishes between the price and constant dollar trends for labor, fuel, materials, and supplies. The projections among these are combined with quantity projections of each component to derive the forecast of expenses. 3) Rate Increase Forecasts--The projection of rate increase needs is derived from the relationship between forecasted revenues and expenses. Anticipated needs for a rate increase hinges on the extent to which these inflated expenses are outpacing projected revenue growth.

Agency Contact: (202) 275-7538.

S04000-011

Master Regulated Carrier Inventory System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Proceedings; Planning and Analysis; Compliance and Consumer Assistance

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Master Regulated Carrier Inventory System, or Carrier Address and Information System (CAS), is designed primarily to record all information pertinent to a carrier's reporting history, e.g., types of reports filed, dates of receipt, revenues, all ICC identities, and carrier address. The system establishes a central point of responsibility for control of all name and address information to provide the Commission with a single and current source of communication data to track status and progress and to monitor all mandatory response cycles. The system maintains a carrier history record on all carriers responsible for submitting data to the Commission within a prescribed period of time. **Input:** The record contains such elements as carrier ID, community code, prime type of operation, statistical region, ICC region, carrier status, and mailing address. **Output:** The system provides mailing labels for all

reports going out to the various carriers, control of receipt of reports, and a control of Master Information File processing in addition to augmenting many of the Commission's systems by virtue of its comprehensive data base.

Agency Contact: (202) 275-7538.

S04000-012

Rail Net Investment Base Computation System--Depreciation Analysis.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Planning and Analysis

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system provides computerized and statistical methods for evaluating the validity of the railroads' accumulated depreciation accounts and applies various formula criteria to applicable account items whose life characterizations, service life, ledger values, and related depreciation considerations will yield a realistic series of figures when computed to rates of investment returns. Carriers are required to submit actuarial or simulated data to include equipment type, account group, installation year, number of units, ledger value, gross salvage value, cost of removal, and various codes signifying additions, transfers, and/or retirements. The data are manipulated to provide a variety of output reports. **Input:** Data are derived from carrier supplied data files. **Output:** Output includes reports on dollars surviving vintage-original investment in assets remaining in services, life of a group of assets in addition to the manner in which the property is being retired, and retirement Rate Method--a systematic actuarial method for calculating property survivor curves that is based on property retired and property remaining in service.

Agency Contact: (202) 275-7538.

S04000-014

Fixed and Variable Cost Computations System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Planning and Analysis

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Agency

Geographic Relevance: National

Purpose: The primary objectives are to provide the Commission with information on motor and rail carrier costs for use in its regulatory functions; to make available to the public cost information useful to carriers, rate bureaus, and traffic organizations; and to enhance the accuracy of cost estimates which directly influence carrier rate structures. The system captures and processes data pertaining to the amounts and types of transport equipment and days operational. The categories of data collected and processed are amounts and types of commodities hauled and distances, interline traffic of commodities, wage and overhead expenses applied to commodity hauling, peddle-rip data, and intercity freight revenues. **Input:** The system applies automated correlation of carrier report data to carrier supplied costing data contained on Rail Form A and Highway Form A, providing computations of fixed, variable, and/or total costs of single or multiple movements of commodities. **Output:** The system generates unlimited statistical and costing data. The output from the computer is intermediate listings, graphics, or on CRT screens and is used as feeder data for formal ICC statements by the bureau, offices, and the Commission.

S04000-015

Complaint Assistance Report System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Proceedings; Compliance and Consumer Assistance

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation;

House Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104). Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides a tool for improved management control and evaluation of the field compliance program, and an information source for monitoring the responsiveness to public complaints by field components. The data base contains a history of all complaints filed by the public, alleging violations or improper practices by any carrier, broker, forwarder, rate bureau, or individual involved in interstate transportation. Data are entered into the system on a daily basis from each of the Regional Offices and Headquarters. The system maintains all records on-line on a calendar year basis. Subsystems include linkage to the Commission's "Carrier Control File". Records average 50,000 per year. **Input:** Input data is extracted from the ICGP-1-9 (Complaint Assistance Report Form). The forms are submitted to ICC National Office. Major categories of input data are: complaint and respondent name, address and type; nature and reason for complaint; and action taken. **Output:** Outputs consist of listings and summaries of complaint information such as type, nature, and reason for complaint. Reports are produced as needed and/or requested and are in hardcopy format.

Agency Contact: (202) 275-7538.

S04000-016

Bureau of Investigations and Enforcement Case Tracking System.

OMB Funding Code/Title: 30-0100-0-1-401 / Salaries and expenses

Program: Compliance and Consumer Assistance

CFDA NO.: 41.002

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation;

House Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Interstate Commerce Act (P.L. 49-104; 49 U.S.C. 1).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides a centrally located data base which records the major status steps, and the dates associated with those steps, of every ongoing investigation and enforcement action within the Interstate Commerce Commission. The system enables the Commission to track and record all investigatory and litigatory actions taken and to determine how long a particular case has been at a particular processing stage. The system records pertinent information relating to the respondents in any case. The system enables management to determine the efficiency of procedures for handling cases, to control pending cases, to establish effective workload control over cases, and to maintain a history of compliance activity against respondents. **Input:** System data are derived from activity reports submitted by attorneys and investigators. **Output:** The system generates management reports detailing pending workloads by attorneys and investigators and status reports of individual cases listing the processing stages within each case.

Status of Approved Programs.

OMB Funding Code/Title: 80-0108-0-1-253 / Research and development; 80-0105-0-1-253 / Space flight, control, and data communications; 80-0107-0-1-253 / Construction of facilities; 80-0103-0-1-253 / Research and program management

Program: Research and Development (All Programs); Space Flight, Control and Data Communications (All Programs); Construction of Facilities (All Programs); Research and Program Management (All Programs)

Congressional Relevance: *House* Committee on Science and Technology; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Aeronautics and Space Act of 1958 (P.L. 85-568, title II, § 203; 72 Stat. 429; 42 U.S.C. 2473).

Availability: Agency

Purpose: The system provides a mechanism for maintaining a record of congressional authorizations to NASA and the issuances of these authorizations to the various NASA field installations. The data base contains congressional control amounts and NASA program plans. Resources authority is shown at the unique project level by budget line item and program year and is updated monthly. **Input:** The primary source of data is the approved Agency budget plan wherein each program office is issued resources authorizations. Further authorizations are issued by the program offices to the installations, and funding is provided in the form of allotments. The resources authority is categorized by budget line item and unique project by program year. **Output:** The report for Research and Development and Construction of Facilities Appropriations is produced monthly for the current year and the immediate prior year and less frequently for all other prior years. The report for the Research and Program Management Appropriation is produced monthly for the current year only.

Agency Contact: (202) 453-2207.

House Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Aeronautics and Space Act of 1958 (P.L. 85-568, title II, § 203; 72 Stat. 429; 42 U.S.C. 2473)

Availability: Agency

Purpose: The Agencywide coding structure establishes a uniform method of identifying and classifying all NASA financial activity for planning, programming, budgeting, accounting, and reporting purposes. Additionally, the AWCS provides the official reference for the classification and coding of all financial activity. The system is updated monthly for purposes of monitoring the identification and classification of NASA financial activities. Each of the financial transactions submitted monthly by each installation to the financial unit contractual status system is compared to the Agencywide coding structure. This structure is applicable at NASA headquarters and field installations and sets forth the official reference for the classification of all financial transactions pertaining to the appropriations of NASA. **Input:** Input is from NASA program offices. The establishment of new codes and changes and deletions of old codes are instituted by programmatic and budgeting activities within NASA. **Output:** Principal output is a Financial Management Manual (FMM 9100) by word processing and computer generated AWCS Appendix A & B listings (hardcopy and microfiche) created from an Appendix A & B Master File used by various automated systems.

*Accounting System.***OMB Funding Code/Title:** 59-0100-0-1-503 / National endowment for the arts: Grants and administration**Program:** Promotion of the Arts**Congressional Relevance:** *House*: Committee on Education and Labor; *Senate*: Committee on Labor and Human Resources; *House*: Appropriations Committee; Interior Subcommittee; *Senate*: Appropriations Committee; Interior Subcommittee**Authority:** National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).**Availability:** Agency; U.S. Budget**Purpose:** The accounting system maintains all of the essential accounting information required by law and administrative procedure. It controls the commitment, obligation, and expenditure of funds and other assets; it also provides the financial management data and analyses which program officials at all levels need to plan, execute, and evaluate their programs. This system contains financial data on allotments, obligations, unobligated balances, accrued expenditures, and disbursements for 1) each organizational unit of the Foundation; 2) each agency program listed in the Catalog of Federal Domestic Assistance; and 3) each state, county, and city (cities exceeding 25,000 in population) receiving grants. **Input:** The system is typical of federal government accounting systems and contains information such as standard obligation and expenditure documents and budget data. **Output:** This manual accounting system provides the data necessary to prepare the standard external reports--SF 133, SF 224, SF 220, and the monthly internal financial management reports.**Agency Contact:** (202) 682-5400.

S04300-002

*Grant Management System.***OMB Funding Code/Title:** 59-0100-0-1-503 / National endowment for the arts: Grants and administration**Program:** Promotion of the Arts**Congressional Relevance:** *House*: Committee on Education and Labor; *Senate*: Committee on Labor and Human Resources; *House*: Appropriations Committee; Interior Subcommittee; *House*: Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee**Authority:** National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).**Availability:** Internal Use Only**Geographic Relevance:** International/Foreign; National; State; City; U.S.A. Worldwide Identification code**Purpose:** The Grant Information System is a central file in the Arts and the Humanities Office. It is used to enable some analysis of application/grant patterns and to respond to external requests for information. The system contains grant information on each grant from the National Endowment for the Arts. It covers the National Endowment for the Arts Sub-programs, including Name, Grantee City and state, Grantee Type, Grant Type, Type of Funds, Total Obligation, Description of Activities, and Special Characteristics. **Input:** Includes applications, advisory panels, National Council grants information. **Output:** The output includes annual report.**Agency Contact:** (202) 682-5400.**OMB Funding Code/Title:** 59-0100-0-1-503 / National endowment for the arts: Grants and administration; 59-8040-0-7-503 / Gifts and donations; 59-8040-0-7-503 / National endowment for the arts: Grants and administration**Program:** Promotion of the Arts; Administration; Promotion of the**Authority:** National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).**Availability:** Internal Use Only**Geographic Relevance:** National; State**Purpose:** The purpose of this system is to meet Presidential and congressional requirements regarding the processes of budget formulation, budget presentation and justification, and budget execution. This system contains historical analyses of previous budget experience, support data for budget request, current year appropriation and allotment data, and information concerning the allocation and use of funds at the program level. **Input:** In order to meet the requirements imposed by the President and the Office of Management and Budget (OMB), program offices provide the budget staff with four levels of program accomplishment. The budget staff then converts this data into a "zero-base" format which is reviewed by the National Council on the Arts, which makes recommendations to the Chairman of the Endowment. The Chairman of the Arts Endowment determines the final levels of the budget request as it is forwarded to OMB. Subsequent action by OMB is reflected in a budget submission to Congress. **Output:** This system provides the information necessary to generate regular budget schedules as prescribed by OMB Circular A-11, and appropriation schedules.**Agency Contact:** (202) 682-5478.

National Labor Relations Board

Authority: National Aeronautics and Space Administration Act of 1958 (P.L. 85-568, title II, § 203; 72 Stat. 429; 42 U.S.C. 2473).

Availability: Agency

Purpose: The system provides on a monthly basis an automated data base of general ledger data which includes NASA installations and the central offices. Also, included are SF 224 data and allotment data from which automated and manual reports can be extracted for the NASA Headquarters' Financial Management and Budget offices, the Office of Management and Budget (OMB) and the U.S. Treasury. The master file averages about 10,000 records per month for the fiscal year. **Input:** The sources of the data are the general ledger accounts of the National Aeronautics and Space Administration (NASA) installations and the allotment issuances of the Headquarters Budget Office. **Output:** The outputs are monthly automated trial balances with supporting schedules, allotment and outlays reports, and the automated SF 133 for OMB.

S04200-001

Federal Credit Union Management Information System.

OMB Funding Code/Title: 25-4056-0-3-371 / Operating fund; 25-4468-0-3-371 / Credit union share insurance fund

Program: Examination Program; Supervision Program; Chartering Program; Administration of Insurance Program; Payment to Operating Fund; Insurance Program Expenses

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Credit Union Act (P.L. 73-467, as amended by P.L. 91-468).

Availability: Internal Use Only

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District

Purpose: The system provides financial, operational, and management

information as a federal regulatory agency. The system covers all federal credit union and federally insured state chartered credit unions. The content is financial data such as amount of shares, loans, assets, (for each credit union) management data such as delinquent loan rating, problem codes, and other codes, and statistical reference data such as state, county, congressional district, SMSA, and economic area codes. The system is updated each four weeks. Some segments have monthly updates. **Input:** The system input comes from federal credit unions or NCUA employees (largely credit union examiners) at the regional level. **Output:** The output is cyclic reports (computer printouts). Reports deal with financial and management condition of federal credit unions. An example is the Adverse Condition Report which compares certain financial and management data and prints messages when certain predefined thresholds have been exceeded.

Agency Contact: (202) 357-1275.

S04200-002

Fiscal Accounting and Report System (FARS).

OMB Funding Code/Title: 25-4056-0-3-371 / Operating fund; 25-4468-0-3-371 / Credit union share insurance fund

Program: Operation Fund (All Programs); Credit Union Share Insurance Fund (All Programs)

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Credit Union Act (P.L. 73-467). Federal Credit Union Act, as amended (P.L. 91-468).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is designed to provide agency management with sufficient, accurate, and timely information concerning the fiscal status of the agency so that its programs can be efficiently managed. The system contains fiscal information covering income and expenses for the current fiscal year. It is updated daily. **Input:** External sources of input include bills for services and material fees and premiums from credit unions. Internal inputs include claim forms prepared by liquidating agents' budget information. **Output:** Weekly, monthly, and annual reports are produced on computer printouts indicating activity and status of the NCUA operating fund, share insurance fund and budget reports are also produced.

Agency Contact: (202) 357-1025.

S04200-003

Complaint Handling Information Program (CHIP).

OMB Funding Code/Title: 25-4056-0-3-371 / Operating fund

Program: Supervision Program

CFDA NO.: 44.001

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Federal Credit Union Act (P.L. 73-467; 48 Stat. 1216; 12 U.S.C. 1761).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This management information system provides information on consumer complaints against credit unions filed with the National Credit Union Administration and on how the complaints are handled. This computer-based management information system reports on consumer complaints against credit unions and on how these complaints are handled by the National Credit Union Administration (NCUA). **Input:** Complaint letters from credit union members, investigation reports, and agency correspondence provide the information used in this system. **Output:** The system generates monthly hardcopy reports for internal use.

Agency Contact: (202) 357-1080.

S04300-001

Accounting System.

OMB Funding Code/Title: 59-0100-0-1-503 / National endowment for the arts: Grants and administration

Program: Promotion of the Arts

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).

Availability: Agency; U.S. Budget

Purpose: The accounting system maintains all of the essential accounting information required by law and administrative procedure. It controls the commitment, obligation, and expenditure of funds and other assets; it also provides the financial management data and analyses which program officials at all levels need to plan, execute, and evaluate their programs. This system contains financial data on allotments, obligations, unobligated balances, accrued expenditures, and disbursements for 1) each organizational unit of the Foundation; 2) each agency program listed in the Catalog of Federal Domestic Assistance; and 3) each state, county, and city (cities exceeding 25,000 in population) receiving grants. **Input:** The system is typical of federal government accounting systems and contains information such as standard obligation and expenditure documents and budget data. **Output:** This manual accounting system provides the data necessary to prepare the standard external reports--SF 133, SF 224, SF 220, and the monthly internal financial management reports.

Agency Contact: (202) 682-5400.

S04300-002

Grant Management System.

OMB Funding Code/Title: 59-0100-0-1-503 / National endowment for the arts: Grants and administration

Program: Promotion of the Arts

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Interior Subcommittee; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State; City; Zip, GSA Worldwide Identification code

Purpose: The Grant Information System is a central file in the Arts Grants Office. It is used to enable some analysis of application/grant characteristics and patterns and to respond to external requests for information. This system contains grant information on each grant from FY 1966 to present. It covers the National Endowment for the Arts Programs and the National Endowment for the Arts Sub-programs. Data include: Grantee Name, Grantee City and state, Grantee Type, Geographic Coverage, Type of Funds, Total Obligation, Description of Project, Project Goal, Activities, and Special Characteristics. **Input:** The system input includes applications, advisory panels, National Council on the Arts, and grants information. **Output:** The output includes typed lists and an annual report.

Agency Contact: (202) 682-5400.

S04300-004

Budget System.

00/83/08

OMB Funding Code/Title: 59-0100-0-1-503 / National endowment for the arts: Grants and administration; 59-8040-0-7-503 / Gifts and donations (arts); 59-0100-0-1-503 / National endowment for the arts: Grants and administration

Program: Promotion of the Arts; Administration; Promotion of the Arts

Senate Committee on Labor and Human Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: National Foundation on Arts and the Humanities Act of 1965 (P.L. 89-209).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The purpose of this system is to meet Presidential and congressional requirements regarding the processes of budget formulation, budget presentation and justification, and budget execution. This system contains historical analyses of previous budget experience, support data for budget request, current year appropriation and allotment data, and information concerning the allocation and use of funds at the program level. **Input:** In order to meet the requirements imposed by the President and the Office of Management and Budget (OMB), program offices provide the budget staff with four levels of program accomplishment. The budget staff then converts this data into a "zero-base" format which is reviewed by the National Council on the Arts, which makes recommendations to the Chairman of the Endowment. The Chairman of the Arts Endowment determines the final levels of the budget request as it is forwarded to OMB. Subsequent action by OMB is reflected in a budget submission to Congress. **Output:** This system provides the information necessary to generate regular budget schedules as prescribed by OMB Circular A-11, and appropriation schedules.

Agency Contact: (202) 682-5478.

National Labor Relations Board

S04400-001

Casehandling Information Processing System.

OMB Funding Code/Title: 63-0100-0-1-505 / Salaries and expenses

Program: Field Investigation

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101, § 7-10).

Availability: Agency

Geographic Relevance: County; City; NLRB regions

Purpose: The purpose is to provide an accounting of all cases processed in the Agency. The case data tracking system captures pertinent case tracking data from source documents onto machine-readable formats via terminals. Computer reports are generated showing various stages of case handling, case volume statistics, and the applicability of case stage to constituent elements of the National Labor Relations Act and its amendments. Tables for the Agency's Annual Report are obtained from the system's data base. **Input:** The data are acquired from source documents of case actions. The data are transferred via terminals from regional and headquarters casehandling offices. **Output:** Output consists of tables which are generated containing totals of cases received, closed and/or pending. These are summaries by: the different case stages; those cases decided by Regional Directors; types of cases; types of elections; cases transferred to the Board for adjudication, etc. A report of all case statistics is published annually.

Agency Contact: (202) 633-6785.

S04400-002

Executive Secretary's Management Information System.

OMB Funding Code/Title: 63-0100-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101, § 7-10).

Availability: Agency

Geographic Relevance: NLRB regions

Purpose: The case tracking system was devised to expedite the processing of cases before the Board. Terminals in the Executive Secretary's Office provide monthly statistical reports on volume of cases handled by each Board Member's legal staff. Periodic reports show which cases are overdue according to established time standards and the responsible individuals. Statistics on the number of cases handled by each Board Member's legal assistant are printed out periodically. This system is operated with data keyed into terminals located in the Executive Secretary's Office. Computer reports are generated. **Input:** The primary source of data is case processing. The information derived from this system is input to the on-line computer. **Output:** The system provides reports on stages of case processing, overdue cases, case statistics, and volume of cases. These reports are periodic printouts from the computer.

Agency Contact: (202) 254-9430.

S04400-003

Legal Research System.

OMB Funding Code/Title: 63-0100-0-1-505 / Salaries and expenses

Program: Securing Compliance with Board Orders

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101, § 10).

Availability: Agency

Purpose: The purpose is to classify case information for legal research. When subject matter is codified, outlined, indexed, and updated, it is published. On-line communications terminals are utilized for copy preparation to process data files for publication and the cumulative updating of classification outlines for subject matter classification and classified indexes on those outlines for publications covering Board decisions and related court decisions. **Input:** The data are cases processed by the agency. **Output:** Output includes classified indexes on Board and related court decisions and the classification of subject matter outlines. The output is magnetic tape data files. These tapes are input to GPO photo-composition process.

Agency Contact: (202) 254-9350.

S04400-004

Budget System.

09/51

OMB Funding Code/Title: 63-0100-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor Management Relations Act of 1947 (P.L. 80-101, § 7-10; 61 Stat. 140, 143, 146; 29 U.S.C. 157-160).

Availability: Agency

Geographic Relevance: National

Purpose: In order to meet Presidential and congressional requirements, three steps are employed in the Budget System: Budget Formulation, Budget Presentation/Justification and Budget Execution/Review. The budget staff develops and obtains approval of the budget, and implements and monitors agency operating plans. The agency's performance budget shows the relationship between the amount of work expected to be accomplished and the cost of that work. It provides comprehensive information to OMB, Congress, and Agency operating officials about the relative size of the work program and the extent to which economy and efficiency are effected. **Input:** Data come from all segments of the Agency. The budget staff manually gathers these data and systematically processes them to fill Agency needs and meet Presidential and congressional reporting requirements. **Output:** Output is Manpower Report, Agency's Budget Report, and Performance Budget Report. The monthly reports are manually produced paper copies; the Agency's Budget Report, however, is produced annually.

Agency Contact: (202) 254-9040.

S04500-002

Budget/Fiscal System.

OMB Funding Code/Title: 95-2400-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Railway Labor Act of 1936 (P.L. 74-487, § 3-10, 201-207).

Availability: Agency

Geographic Relevance: National

Purpose: The administrative system includes the following functions: budget and financial management, personnel management, procurement, contract administration, and property and space management. The administrative system consists of the budget and financial management of the National Mediation Board (budget estimates, justification, and execution); quarterly apportionments and reports on budget status. The function of personnel management includes recruitment of personnel and salary and wage administration. The procurement function involves the administration of contracts for furnishing supplies, equipment, and other materials. Property and space management functions are carried out in accordance with GSA regulations. **Input:** Data in this system are in accordance with requirements of the Office of Management and Budget, Department of the Treasury, Office of Personnel Management, General Services Administration, and the General Accounting Office. **Output:** The frequency of system output is monthly, quarterly, and annually, as required by the Office of Management and Budget, Department of the Treasury, Office of Personnel Management, and the General Services Administration.

Agency Contact: (202) 523-5950.

National Science Foundation

S04800-001

Proposal Application-Award Information System (PAIS/AIS).

OMB Funding Code/Title: 49-0100-0-1-251 / Research and related activities

Program: Research and Related Activities (All Programs)

Congressional Relevance: *House* Committee on Science and Technology; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Science Foundation Act of 1950, as amended (P.L. 81-507, § 3; 64 Stat. 149; 42 U.S.C. 1862).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; City; Institution

Purpose: The system exists mainly to support NSF's principal functions and includes the receipt, evaluation, approval, or declination of proposals and applications for grants and contracts and the administration of awards, contracts, and grants related to the proposals received and the maintenance of history data regarding prior year proposals and awards. The information contained in proposal master records includes items such as proposal title, fields of science, fields of application, requested amounts, effective dates, and status information. Award master records contain similar information: awarded amounts, dates of awards, split funding, status, and checkpoint data. Proposal processing and award processing are separate subsystems of the MTS, but they are closely related in supporting the NSF mission. Proposals and awards are national in scope and coverage. Administrative processing is accomplished on a fiscal year basis, but updating is done continuously on a daily basis. **Input:** The data used for this system are derived from applications filed by individuals and institutions and may be found on various forms used for

S04800-002

Financial Accounting System (FAS).

OMB Funding Code/Title: 49-0100-0-1-251 / Research and related activities

Program: Research and Related Activities (All Programs)

Congressional Relevance: *House Committee on Science and Technology; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: National Science Foundation Act of 1950 (P.L. 81-507).

Availability: Agency

Geographic Relevance: State

Purpose: The system provides the operating officials of the NSF with the financial data needed to assist in the planning, programming, control, and evaluation required for the effective accomplishment of the NSF's goals. The system controls funds and other assets to insure that the budget execution is accomplished in accordance with the provisions of the law, administrative procedures, and policies. The information contained in the financial files includes such items as financial ending structure (appropriation, organization, program, object class, operating plan, allotment, etc.), institution, transaction amount, transaction identification (letter of credit number, registry number, voucher, etc.), posting date, and general ledger accounts updated. Master records summarize the amounts by such cuts as general ledger account, operating plan and allotment available balances, year-to-date obligations, and outstanding commitments (by operating plan, budget activity, allotment, and object class). **Input:** Applications filed by institutions and individuals, training requests, travel authorizations, purchase orders, and other financial documents are the sources of system input. **Output:** The principal reports include: 1) Budget Execution Reports, hardcopy, daily; 2) Operating Plan Summaries, terminal display, on request; and 3) Federal Cash Transactions Report, hardcopy, quarterly.

Agency Contact: (202) 357-9423.

Budget Line Item Plan (BLIP).

OMB Funding Code/Title: 49-0100-0-1-251 / Research and related activities

Program: Research and Related Activities (All Programs)

Congressional Relevance: *House Committee on Science and Technology; Senate Committee on Environment and Public Works; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee*

Authority: National Science Foundation Act of 1950 (P.L. 81-507)

Availability: Agency

Purpose: The principal functions of NSF are to support and fund basic and applied research, science and technology, policy research, science education improvement activities, and related scientific programs. This system exists mainly to support those functions. The information contained in the budget file includes items such as salaries, equipment costs, travel costs, computer costs, and number of man-months. Administrative processing is accomplished on a fiscal year basis, but updating is done continuously. **Input:** The data used for this system are derived from budgets filed by Program Offices of the National Science Foundation when an award is recommended. **Output:** The principal reports are: 1) Budget Summaries by Program, hardcopy, annually and on request; 2) Budget Summaries by Institution, hardcopy, annually and on request; 3) Academic Year Salaries Report, hardcopy, on request; 4) Summer Salaries Report, hardcopy, on request; and 5) File Listings, hardcopy, annually and on request.

Agency Contact: (202) 357-9423.

Docket System.

OMB Funding Code/Title: 95-2100-0-1-554 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 12).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system is to provide management with an up-to-date status of timing and spending in every object class. This system also provides information by vendor. This system provides the following information: Allotments, obligations, and unobligated balances. Accrued expenditures and disbursements are accumulated by cost center, major object class, and subobject class under the major budget activities of the Agency. **Input:** The primary source of input is internal. The Administrative Division of this Agency provides purchase order information to the Budget Division for entering into the system. **Output:** Schedule of payments, transactions by vendor object class, entry date, and purchase order number. These reports are generated in hardcopy; the frequency is upon request.

Agency Contact: (202) 634-6621.

S04700-002

Docket Tracking System.

OMB Funding Code/Title: 95-2100-0-1-554 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 12).

Availability: Agency

Purpose: The system is to track the flow of cases from assignment to this Agency, through review, decision, and in the Court of Appeals. This system identifies the status of individual Commission cases, provides listings of cases at various levels of adjudication and appeal, and generates letters to parties as well as other reports. The system covers cases from beginning to end and contains all active cases as well as cases that were closed within the previous three to six months. **Input:** Data are obtained from various offices of the Commission and generally include the various dates and assigned offices. **Output:** Output consists of weekly and monthly reports listing cases, letters to parties, and other reports.

Agency Contact: (202) 634-6621.

Panama Canal Commission

S04900-002

General Accounting System.

OMB Funding Code/Title: 95-1203-0-1-403 / Operations and facilities

Program: Panama Canal Commission (All Programs)

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Armed Services; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Panama Canal Act of 1979 (P.L. 96-70, title 1, § 1101; 22 U.S.C. 3611 et seq.).

Availability: Internal Use Only

Geographic Relevance: Panama Canal Operating Area

Purpose: This is an integrated system which includes general ledger accounting, accounting for plant items, job order cost accounting, control

ple, the Job Order Cost Accounting System provides a means whereby costs can be controlled on an individual job order basis in any bureau needing to control its workload in this manner. This system pulls together all the financial transactions for the Panama Canal Commission. The General Accounting System accumulates and maintains financial and budget information for approximately 8,000 Operating Accounts and 650 Balance Sheet Accounts. This information is used to provide financial reporting based on operations for every level of management showing monthly and year-to-date information. This information is used to prepare required financial reports for the United States government, including the U.S. Treasury and OMB. The input data is processed into the system approximately weekly, and financial reports are prepared monthly. **Input:** The primary sources of system input are internal and consist of: 1) Journal Vouchers; 2) Vouchers Payable; and 3) Interface data from the following systems or subsystems: Storehouse System, Payroll, Plant Accounting, Job Order Cost Accounting, and Accounts Receivable. **Output:** The principal hardcopy reports are: 1) Source Journals and Controls, each processing cycle; 2) Job Order Reports, weekly and monthly; 3) Plant Accounting Reports, quarterly; 4) Financial Operating Reports, monthly; and 5) Financial Balance Sheet, monthly. Top Statements are prepared manually utilizing computer reports on a monthly basis.

Agency Contact: (202) 724-0104.

S04900-003

Storehouse Inventory System.

OMB Funding Code/Title: 95-1203-0-1-403 / Operations and facilities
Program: Panama Canal Commission (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Armed Services; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee

Authority: Panama Canal Act of 1979 (P.L. 96-70, title 1, § 110); 22 U.S.C. 3611 et seq.).

Availability: Internal Use Only

Geographic Relevance: Panama Canal Operating Area

Purpose: This system assists in controlling the materials and supplies required in the operations of the Panama Canal Commission. This system includes the computation of the desired level of stock, establishing reorder points for replenishing the stock level of such items, preparation of purchase orders to procure items, and provision of numerous other elements of information used by personnel within the General Services Bureau in managing this inventory. The Storehouse Inventory System maintains detailed information on each of 40,000 stock items. The information includes a detailed description of the item, the unit price, quantity on hand at various warehouse locations, total inventory value, usage data by organization, usage data by time period, and quantity on order. Twice per month the system produces a listing of items which have reached their reorder points, along with recommended order quantities. Management reviews the list and initiates the printing of purchase orders. An intransit file keeps records of outstanding orders and payments. The system interfaces with a General Accounting System to automatically update the inventory account, freight account, intransit account, and user end accounts. **Input:** User organizations create the material issues, returns to stock, reservation requests, and reservation orders. Inventory management personnel generate the purchase orders, material transfers, payments, and adjustments. Warehouse personnel input the stock receipts and inventory counts. Input transactions are updated to the computer files on a daily basis. **Output:** The principal hardcopy reports are: 1) Stock Catalog, annual; 2) Order Guide, biweekly; 3) Purchase Orders, biweekly; 4) Stock Status, daily; 5) Stock Activity, monthly; 6) Stock Usage, monthly; 7) back orders and reservations, monthly. The system provides on-line query capability reflecting daily updated file status.

Agency Contact: (202) 724-0104.

S04900-004

Financial Planning System.

OMB Funding Code/Title: 95-1203-0-1-403 / Operations and facilities

Seience, and Transportation; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Panama Canal Act of 1979 (P.L. 96-70, title 1, § 1101; 22 U.S.C. 3611 et seq.).

Availability: Internal Use Only

Geographic Relevance: Panama Canal Operating Area

Purpose: This system is used to formulate and revise the budget, provide budget information for internal use and external reporting requirements, and integrate the budget and accounting information for comparative reporting purposes. It is used for the operating budgets of all units and activities of the Panama Canal Commission. The system maintains a multiyear budget file and a current year budget file. The multiyear budget file contains the following data at the operating account level: actual last fiscal year; current fiscal year budget amount; revised current year estimate; budget amount next fiscal year; revised budget amount next fiscal year; and budget amount fiscal year after next. The current year budget file contains the current year budget amounts for each of 12 months, at the operating account level. There are approximately 10,000 operating accounts. **Input:** Input is from lowest level managers with financial control and responsibility. For the multiyear budgeting process, input consists of revised current year estimates, revised budget amounts for the next fiscal year, and budget amounts for the fiscal year after next. For the current year budget process, input consists of budget amounts for each month of the current fiscal year. **Output:** The principal outputs of this system are: base organization reports, summary organization reports, functional reports, Panama Canal Commission services performer reports, and periodic surveys. The reports are produced as required during the annual budget cycle in hardcopy form.

Agency Contact: (202) 724-0104.

S04900-005

Ship Data Bank System.

OMB Funding Code/Title: 95-1203-0-1-403 / Operations and facilities
Program: Panama Canal Commission (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Armed Services; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee

Authority: Panama Canal Act of 1979 (P.L. 96-70, title 1, § 1101; 93 Stat. 456; 22 U.S.C. 3611 et seq.).

Availability: Internal Use Only

Geographic Relevance: Panama Canal Operating Area

Purpose: This system maintains a library of statistical data on ships that have transited the Panama Canal or called at Canal ports. Daily reports are provided pilots and other operating personnel for use in transit and port operations, and summary reports are made to management on tolls revenue, time in Canal Waters, and other measures of Canal operating performance. In addition, data on types and quantity of cargo transited, trade routes, ship types, and related information are accumulated and reported for statistical analysis. This system contains information on approximately 13,500 ships involving 30,000 transits. This library includes 145 items of data on each ship's attributes and 95 items on each transit, including type and amount of cargo carried. This information is utilized to prepare reports based on ships' attributes, transit data, and cargo carried for operational, financial review, economic analysis, financial forecasting, and long-range planning. The data are also available for use in preparing reports on Canal capacity, tolls, and other special studies. **Input:** The primary sources of system input are internal and consist of documents prepared for each ship's arrival at the Panama Canal. The input consists of ship attributes and transit data and is prepared by the following operating units: Admeasurer's Office, Port Captains' Offices, Transit Operations Division, Customer Deposit Section, and Tolls Billing Section. The ship attributes consist of: identification and general information, size, dimensions, tonnage capacities, operating characteristics, transit requirements, Port Captains, and Marine Traffic Control remarks. The transit data includes Boarding Officers, Customs and

Quarantine information, actual transit information, Pilot's Ship Condition report, tolls, and supplementary charges and cargo declaration. **Output:** The principal reports are: (1) Information Reports for Daily Operations (daily, reports); (2) Tolls Revenue Reports (daily, reports and chart); (3) Information Reports for Current and Future Planning (daily/monthly, reports); (4) Performance Reports (daily/monthly, reports); and (5) Analysis Reports (daily/monthly, reports). **Agency Contact:** (202) 724-0104.

Railroad Retirement Board

S05100-001

Railroad Retirement, Disability, and Survivor Benefit Payment System (Including Medicare).

OMB Funding Code/Title: 60-8011-0-7-601 / Rail Industry Pension Fund

Program: Retirement, Disability, and Survivor Benefit Payments

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Railroad Retirement Act of 1974 (P.L. 93-445).

Availability: Internal Use Only

Geographic Relevance: National; State; Agricultural Product Regions

Purpose: The system adjudicates claims, both automatically and manually, for retirement, disability and survivor benefits payable under the provisions of the Railroad Retirement Act of 1974. The system pays regular retirement, supplemental, spouse, widow(er), children, student, and parent monthly benefits; it also pays one-time lump sum death benefits usually used for burial expenses and residual payments to qualified railroad retirement beneficiaries and lump sum applicants. The system also enrolls and collects premiums from qualified railroad retirement beneficiaries for Medicare. The benefit payment operation is comprised of four main subsystems that operate on a daily, semiweekly, monthly, and annual basis. The system provides for the accumulation and maintenance of records necessary for the issuance of payments under the Railroad Retirement Act and the Social Security Act. **Input:** The system utilizes input from the individual applicant in the form of specific applications and supporting evidence (proof of birth, marriage, last person service, medical evidence). Wage and service month certification is received from other intra-agency files. The Social Security Administration supplies wage and possible benefit information through telecommunication transfer, and proofs and medical evidence documentation through manual paper exchange. **Output:** The principal output includes: Check Issue File (tape, produced daily); Tax Credit File (tape, produced monthly); Supplemental Annuity File (tape, produced monthly); Various Microfilm Reference Files (tape, produced monthly); and Various Referral Files (hardcopy, produced daily).

Agency Contact: (312) 751-4600.

S05100-002

Railroad Unemployment and Sickness Insurance Benefit Payment System. 1940

OMB Funding Code/Title: 20-8042-0-7-504 / Unemployment trust fund **Program:** Processing of Rail Unemployment Insurance Claims; Processing of Rail Sickness Claims

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Railroad Unemployment Insurance Act (P.L. 75-722; 52 Stat. 1094; 45 U.S.C. 351).

Availability: Internal Use Only; Agency

Geographic Relevance: State; City; ZIP Code

Purpose: The Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.) established a national railroad unemployment and sickness benefit system. The system receives, adjudicates, and pays claims for daily benefits from unemployed, sick, and injured railroad employees. Unemployment and sickness benefit applications and claims for employees of the nation's railroad industry are processed on a master computer

record which is updated daily producing a payment tape for release to the Treasury Department for the issuance of benefit checks. Records are maintained for individual claimants and contain information about reasons for unemployment and descriptions of illness and injury and are geocoded by city, state, and zip code. A record for each claimant contains identification of the claimant, information establishing qualifications for benefits, identification of railroad employer, reason not working, description of illness or injury, claim record, adjudication record, benefit payment or denial record, and record of recoverable and recovered amounts. **Input:** Sickness benefit claimants furnish information on an application, a statement of sickness completed by an attending physician, and claim forms for 14-day periods. Unemployment benefit claimants furnish information on an application, on claim forms for 14-day periods, and in some cases in a personal interview. Qualifying wage and service information for both unemployment and sickness benefit claimants is received from files maintained within the agency. **Output:** The system produces a daily unemployment and sickness benefit payment list from which the Treasury Department issues checks to individuals. The system can be queried by pinheard for a hardcopy printout of individual records. Daily and monthly hardcopy financial reports are produced.

Agency Contact: (312) 751-4800.

S05100-003

Railroad Employees' Creditable Compensation Recording System.

OMB Funding Code/Title: 60-8011-0-7-601 / Rail Industry Pension Fund; 20-8006-0-7-601 / Federal old-age and survivors insurance trust fund

Program: Rail Industry Pension Fund (All Programs); Payment to Railroad Retirement Account

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Railroad Retirement Act of 1974 (P.L. 93-445).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system maintains for each covered railroad employee a record of creditable compensation and service months from January 1, 1937 to date, and adjusts such record, as necessary. It is used to prepare each year, on an individual employee basis, certificates of reported creditable service and compensation showing the amounts reported for the previous year and a total of such service and compensation from 1937 to date and to send such certificates to employees. The system certifies an employee's service and compensation credits to the Bureau of Retirement Claims, the Bureau of Unemployment and Sickness Insurance, and the Social Security Administration as needed for adjudication of claims for benefits. The system provides for the accumulation and maintenance of individual employee's service and compensation records since January 1, 1937 to the current year, with an annual update. It also provides the daily certifications required to pay benefits and the annual issuance of the certifications of service months and compensation. **Input:** The system utilizes from employers' reports of individual employee service and compensation and establishes new accounts. Personal identification is verified from Social Security Administration-supplied wage and possible benefit information through telecommunication transfer and proofs of identification when required. **Output:** The principal reports are: 1) Daily report--Certification of Service and Compensation--basic amount, average monthly compensation, and primary insurance amount determinations, hardcopy; 2) Daily report--Certification of Compensation--hardcopy; 3) Daily report--through telecommunication transfer to the Social Security Administration, certified service months and compensation, jurisdictional determinations, and gross residual amount, magnetic tape; 4) Annual--Certificate of Service Months and Compensation--hardcopy.

Agency Contact: (312) 751-4968.

S05100-005

Financial Interchange/Gross Earnings System.

OMB Funding Code/Title: 60-8011-0-7-601 / Rail Industry Pension Fund

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Railroad Retirement Act of 1974 (P.L. 93-445)
Availability: Agency
Geographic Relevance: National
Purpose: The financial interchange/gross earnings system provides data for estimating the additional social security taxes, benefits, and administrative expenses there would have been if railroad employment after 1936 had been covered by the Social Security system. Transfers of funds between the Railroad Retirement Account and the Old Age and Survivors, Disability, and Health Insurance (OASDI) Trust Funds under section 7(c)(1) of the Railroad Retirement Act of 1974 are based on these estimates. Tape file data include annual financial interchange benefits (amounts payable based on combined railroad and social security covered earnings) with associated pension, annuities and insurance claims, monthly rates, similar information with respect to actual social security benefits, related beneficiary data, and codes and factors used in the estimating process. Folder records are also maintained for sample beneficiaries. **Input:** One-percent sample data are obtained from intragency and Social Security Administration files. SSA concurrence is obtained for disability determinations in sample cases and, where needed, family composition data are obtained by including cases in the Board's policing operations. **Output:** Annual tabulations used to develop figures needed for the determination and certification of transfers between the Railroad Retirement Account and the OASDI Trust Funds, and for the annual soft cover volume "RRB-SSA Financial Interchange Calculations for Fiscal Year XX with respect to OASI, DI and HI Trust Funds, Summary and Documentations." Data are also developed for use in the triennial valuation of the railroad retirement system and for irregularly issued research and actuarial notes and reports.
Agency Contact: (312) 751-4915.

S05100-008

Milwaukee Railroad Restructuring Act Payment System.

OMB Funding Code/Title: 60-0108-0-1-603 / Milwaukee railroad restructuring, administration
Program: Administrative Expenses
Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Transportation Subcommittee
Authority: Milwaukee Railroad Restructuring Act (P.L. 96-101; 93 Stat. 736; 45 U.S.C. 901 et seq.)
Availability: Internal Use Only
Geographic Relevance: State; City
Purpose: The Milwaukee Railroad Restructuring Act authorizes the Railroad Retirement Board to pay supplementary unemployment insurance benefits and new career training assistance to former Milwaukee Railroad employees. The Board also is authorized to settle disputes between the Milwaukee Road and its employees regarding benefit claims under the Employee Protection Agreement of December 14, 1979. **Input:** Employees claiming supplementary unemployment insurance furnish information on applications and monthly claim forms. Qualifying wage and service information comes from files maintained within the agency, based on payroll data furnished by the Milwaukee Road. For new career training assistance, employees furnish information about educational expenses on application forms. **Output:** Benefits are adjudicated and computed manually and manually-prepared vouchers are sent daily to the Treasury Department for issuance of checks to individual claimants. Daily and monthly hardcopy reports of payments are issued. Qualifying wage and service data are accessed by CRT display. The Restructuring Act requires the Board to issue four reports on its activities to the Congress on these dates: May 4, 1980, November 4, 1980, May 4, 1981, and November 4, 1981.
Agency Contact: (312) 751-4800.

Regional Rail Reorganization Act--Title VII Benefit System.

04/82

OMB Funding Code/Title: 60-0707-0-1-603 / Conrail labor protection
Program: Conrail Labor Protection (Sec. 701)
Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Regional Rail Reorganization Act of 1973, as amended (P.L. 93-236, Title VII, § 701, as amended by P.L. 97-35; 45 U.S.C. 797).
Availability: Internal Use Only
Geographic Relevance: State; City
Purpose: The system contains identifying information, such as: (1) name, address, social security number, date of birth, occupational code, and employer code; (2) information pertaining to the payment or denial of a claim under Title VII of the Regional Rail Reorganization Act, including protection under Title V of the Regional Rail Reorganization Act, last rate of pay, reason not working, application and claims filed, information as to the amount of separation allowance, subsistence allowance, health-welfare premiums, erroneous payment investigations, and benefit recovery information; (3) information addressing new career training assistance and dates paid; and (4) moving expenses. For new career training assistance, information includes the schools attended, courses taken and proof of payment of expenses. For moving expenses, market value, and sale price of residence is also in the system. **Input:** Input consists of applications and claims for benefits, and written and oral information from ConRail. **Output:** Output consists of daily vouchers for payment to the Department of the Treasury and various listings including: (1) employees entitled to health and welfare benefits; and (2) employees who have received a separation allowance.
Agency Contact: (312) 751-4800.

Securities and Exchange Commission

S05300-002

Broker-Dealer, Investment Adviser Directory (BDA).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Supervision and Regulation of Securities Markets; Regulation of Investment Companies and Investment Advisers
Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291)
Availability: Internal Use Only
Geographic Relevance: International/Foreign; State; City; Regional
Purpose: The BDA system has been designed to create and maintain a data file of selected profile information with respect to broker-dealer and investment adviser firms registered with the Commission. This system is also used as a source for pertinent data interfaced with the broker-dealer examination (BDX) system. The data file consists of a record for each registered broker-dealer and investment adviser. The record contains such profile data as name, address, exchange membership, and other business related data. The data file is updated weekly. **Input:** Basic data are derived from forms submitted by broker-dealers and investment advisers. **Output:** The system produces periodic directories and supplements in hardcopy format. Specifically, they include a Broker-Dealer Directory, Investment Adviser Directory, Broker-dealer monthly supplement, Investment Adviser monthly supplement, Regional Office Listings, and Statistical Listings. Ad hoc requests for specified data are also obtainable.
Agency Contact: (202) 272-2169.

S05300-004

Broker-Dealer Examinations (BDX) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Supervision and Regulation of Securities Markets

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Geographic Relevance: Regional
Purpose: The RDX system coordinates and compiles data on broker-dealer examinations conducted by the Commission and self-regulatory agencies. Data are compiled monthly. A record is maintained to reflect examinations conducted against individual brokerage firms. The file is used to monitor the scheduling of examinations. **Input:** Data for this system are obtained from reports of examinations conducted by the Commission and other regulatory agencies (e.g., securities exchanges and the National Association of Securities Dealers). **Output:** Monthly scheduled reports are produced in hardcopy format. Specifically, they are the Cumulative Maintenance Register, Broker-Dealer Examinations, Jurisdictional Report, Exception Report, S.I.P.C. Directory, and N.A.S.D. District Listings.
Agency Contact: (202) 272-2169.

805300-005

Broker-Dealer Location System (BDL).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Supervision and Regulation of Securities Markets

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: National, State

Purpose: The system was designed to process data on the location and movement of brokerage offices, national, regional, and local. The system is used primarily in economic-research studies connected with the monitoring of brokerage offices. The data file contains a record for each brokerage firm which reflects its location, main branch offices, and additional statistics. The file is updated quarterly. **Input:** Raw data are obtained from the National Association of Securities Dealers. Data are submitted in machine-readable format. **Output:** The system produces various analytical reports in hardcopy format, on a quarterly schedule. They include: Main office location, Classification of National regions--state and local, Master Location List, and Broker-dealer office Movement List.

Agency Contact: (202) 272-2169.

505300-006

Financial Management System (FMS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: The Financial Accounting system was designed for the (1) formulation of budget estimates; (2) apportionment, allocation, and control of funds; (3) accounting systems and operations, including payroll, leave, and administrative audit; (4) preparation of financial statements; (5) position management; and the (6) compilation of required reports in accordance with current regulations. The data file contains individual company, agency or employee names, the object or service provided, the cost or periodic rental charge, and all necessary contractual language, and agency employee names, identification number, hours worked, compensation data, work activity classifications, leave records, history records, and authorized positions. **Input:** Raw data are obtained from standardized government forms, bills and vouchers from private companies and/or individuals, private correspondence concerning the

underlying of specific actions, and internally generated forms used as input sources to several computer based data files. **Output:** All output is on hardcopy on a biweekly, monthly, quarterly, or annual frequency, as required by appropriate rules and regulations or by proper request. Major report types include: Agency budget and accounting data, as required; payroll data, biweekly to all individual employees, monthly or quarterly to state and federal tax authorities and yearly to all employees and appropriate tax authorities; and cost analysis data by agency, division, and office weeks.

Agency Contact: (202) 272-2150.

505300-007

Corporate Index (CIA) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; State

Purpose: The Corporate Index System was designed to facilitate the production of two directories and provide other listings used by the staff as reference tools. The data file consists of a separate record for each filing entity. The file is updated weekly. The file is used as a source for producing mailing address labels for the Automated Mailing System (MAL). **Input:** Data are derived from registration statements and exchange listing applications filed with the Commission. **Output:** Two principal directories are produced in hardcopy format for reproductive printing: Corporate Index Directory and Companies Filing Annual Reports. Other listings are provided to the state securities administrators on request.

Agency Contact: (202) 272-2169.

505300-009

Complaint Processing (CMP) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Regulation and Securities Markets; Prevention and Suppression of Fraud

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: State; Regional

Purpose: The CMP system maintains data on complaints received from the investing public. A major objective is to compile and analyze data on "top-ten" brokers receiving the most complaints each month. A similar report is produced for complaints against mutual funds. Data are processed and updated to the master file daily. Complaint data are categorized by type of entity and type of complaint. **Input:** Data are compiled from complaints received from the investing public and processed in the headquarters and regional offices. **Output:** Regularly scheduled monthly reports are produced in hardcopy format. They include Complaints Against Broker-Dealers, Complaints Against Mutual Funds, Unit Workload Report, and Summary Complaints by Type and Entity. Special reports are available on terminal screens.

Agency Contact: (202) 523-3952.

506300-009

Committee on Uniform Security Identification Procedures (CUSIP) Numbering System-(CIP).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Banking, Housing, and Urban Affairs;

House Appropriations Committee; Commerce, Justice, State, and Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: CUSIP Service Bureau
Purpose: The CUSIP Numbering System was adopted to provide a common method of identifying issuers and issues. The CUSIP number was conceived by the Committee on Uniform Security Identification Procedures. The CUSIP system is used in connection with the ownership reports, proposed sale of securities and the market oversight surveillance system data files. The CUSIP is comprised of a CUSIP master file and a SEC file number index. Both are adapted to cross-reference certain other computer files containing issuer-issue data. The file is updated on a 10-day cycle. **Input:** The CUSIP numbering system derives basic data from CUSIP data tapes obtained from the CUSIP Service Bureau. **Output:** The CUSIP Directory and transaction register are available in both machine-readable and hardcopy format.
Agency Contact: (202) 272-2169.

S05300-010

Delinquency Reports System (DEL)

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Full Disclosure
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Purpose: The Delinquency Reports System (DEL) was designed to identify issuers who, based on certain criteria, have not filed specified report(s) with the Commission as required by the Act(s) under which the corporate entity is registered. This system is used to support the staff in the enforcement of rule compliance. The data file for this system contains a record for each reporting entity which is alleged to be delinquent in filing a report(s). The record reflects the entity's file number, type report, due date, fiscal year, and report period. **Input:** Data for DEL are derived by extracting pertinent data from several computer based data files--namely, Central Index, and Workload Filing Requirements. **Output:** The system produces regularly scheduled hardcopy listings on a monthly basis. They are Enforcement Exchanges, NASDAQ, NQB over \$1.00, NQB under \$1.00, Corp FIN-Active, Corp FIN-New DEL, Invest MGT-Active, OARS Overall Active Monthly, OARS Overall Active Master.
Agency Contact: (202) 272-2169.

S05300-011

Financial and Operational Combined Uniform Single Report System (FOCUS)

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Supervision and Regulation of Securities Markets
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Purpose: FOCUS was designed to process certain financial data submitted by broker-dealers and exchange members. The system consolidates data previously collected and processed on four separate systems prior to calendar year 1976. The system is structured to provide for a more timely and uniform method of reporting by the brokerage industry. The data file consists of a record for each reporting entity filed on a quarterly basis. Monthly reports are reviewed manually to spot potential financial difficulties. Records reflect broker-dealer financial status and capture assets, liabilities, net capital requirements, and ownership equity. **Input:** Raw data are derived from X-17A-5 reports. Report data filed with the national securities exchanges and the National Association of Securities Dealers are processed and submitted in machine-readable format in accordance with a qualified plan under section 17 of the Securities Exchange Act of 1934. **Output:** The system generates hardcopy

reports which reflect statistical analyses and special requests.

Agency Contact: (202) 272-2169.

S05300-012

Investment Statistical Laboratory System (ISL)

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Economic and Statistical Analysis
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Purpose: ISL was designed to provide stock performance and volume data on equity securities traded on the New York and American Stock Exchanges and NASDAQ over-the-counter securities. The system utilizes the Committee on Uniform Security Identification Procedures numbering scheme to facilitate interfacing the master file with other data file systems. The file contains a series of records for each issue traded. Data elements consist of: stock price, volume, earnings, dividend factors, closing prices, and other base market information. The datafile is updated quarterly. **Input:** Data contained in the file maintained by this system are received on magnetic tape from Interactive Data Services, Inc. **Output:** Regularly scheduled reports, produced in hardcopy format, are Issuer Status Register, Price-Volume Register, and Alphabetic Listing.
Agency Contact: (202) 272-2169.

S05300-013

Investment Company Data File System (IVT)

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Regulation of Investment Companies and Investment Advisers
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Purpose: This system was designed to maintain a data base of salient information on investment company and investment company complexes (e.g., principal underlying companies, sponsors, etc.). This system is structured to interface with other data files in order to generate related data pertaining to the total universe of investment company information. A master file is maintained to reflect organization data on registered investment companies. Up-to-date data consist of name, address, status, assets, and company complexes. **Input:** Data are derived from various public use forms filed under the Investment Company Act of 1940. **Output:** The system produces regularly scheduled reports and listings in hardcopy format. They include: Investment Company Index Book, Overall Register of Investment Companies, Name-Address Register, 40-Act Investment Company Report, and Small Business Investment Companies.
Agency Contact: (202) 272-2169.

S05300-017

Municipal Securities Dealers (MSD) Data File

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses
Program: Supervision and Regulation of Securities Markets
Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).
Availability: Internal Use Only
Geographic Relevance: International/Foreign; State

Purpose: This is a data file of municipal securities dealers which are banks or divisions of banks registered with the Commission. The data file contains a separate record for each registrant. The record reflects name, address, filing date, and other profile information. **Input:** Data are derived from Form MSD applications and amendments. **Output:** Directories and supplemental listings are generated quarterly in hard-copy.
Agency Contact: (202) 272-2169.

S05300-016

Name Relationship Search (NRS) File.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Prevention and Suppression of Fraud

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; State

Purpose: The system is a comprehensive index file of name information on corporate entities and individual persons who have had or have a current relationship with the Commission. Volatile name information is maintained as to corporate entities, principal persons, investigations, witnesses, and other related individuals having had some relationship with the Commission. **Input:** The NRS file contains a separate record for each name, corporate and individual, indexed to an SEC stockholder file. Names and related data are derived from public use forms, as well as from internally generated documents. **Output:** Regularly scheduled reports are produced daily and on special request. Reports described are in hardcopy format. In addition, some reports are also on microfiche. Examples of output are: Name Relationship Search, Alphabetic and Numeric cumulative Registers, Enforcement Register, Administrative Proceeding Rule 2(c) Register, Broker-Dealer Accountants Register, Broker-Dealer SECO Firm Register, Broker-Dealer-Investment Adviser Firm Register, and Overall Index Register. Data can also be displayed on computer terminals.

Agency Contact: (202) 272-2169.

S05300-021

Ownership Reports (ORS) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Agency

Purpose: The system was designed primarily to automate and expedite the publication of the official summary of security transactions and holdings. The system verifies share balances and is programmed to detect short-swing profits. The data file is updated monthly. A unique record is maintained for each officer, director, and beneficial owner who has filed Forms 3 and 4 pursuant to section 16(a) of the Securities Exchange Act of 1934, section 30(f) of the Investment Company Act of 1940, and section 17(a) of the Public Utility Holding Act of 1935. Generally, the data captured include insiders holding securities, shares acquired, shares disposed of, and balance of holdings. **Input:** Data are taken from Forms 3 and 4 filed with the Commission. **Output:** Regularly scheduled reports are produced in hardcopy and microfiche on a monthly basis and include Control Register, the Official Summary, History Report, Purged History Report, Late Insider Register, and 16-B Short-swing Trading.

Agency Contact: (202) 272-2169.

S05300-022

Over-the-Counter Market Surveillance System (OTC).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Prevention and Suppression of Fraud

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: OTC is designed to process market-maker data on over-the-counter stocks. Price quotation history is generated on selected stocks. The system is programmed to produce graphic representations of stock-price movements. The system monitors the price movement on selected stocks to detect unusual fluctuations in prices quoted and in dealer interest. The file is updated weekly with data on type of security, broker identification, date of bid, bid price, and asking price. **Input:** Data are received in magnetic tape format from the National Quotation Bureau. **Output:** The system generates weekly reports in hardcopy as follows: OTC Surveillance, OTC Special Surveillance, and OTC Price History. Queries are answered on an individual basis.

Agency Contact: (202) 272-2169.

S05300-025

Proposed Sale of Securities (PSS) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Agency

Purpose: The system was designed to facilitate the timely processing of Form 144 reports filed under the 1933 Act. Processed information programmed by this system assists the Commission in its regulatory and enforcement functions. The data file contains a record for each security proposed for block sales that otherwise would require formal registration. Each record contains pertinent data describing the proposed transaction. The file is updated weekly. Integration of this file with other data files allows cross-referencing of data in connection with enforcement and informal inquiries. **Input:** Data from Form 144 reports filed pursuant to the 1933 Securities Act. **Output:** The system produces regularly scheduled hardcopy reports on a weekly and monthly basis. Typical reports are Monthly Transaction Listing, Weekly Master Listing, and Broker-Dealer Verification Listing.

Agency Contact: (202) 272-2169.

S05300-028

Regulation A Time Lapse System (RAT).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: The Regulation A Time Lapse System (RAT) was designed to compile and generate statistics on elapsed time during the processing cycle for Regulation A offerings. The data file contains a separate record for each Regulation A filing. The record incorporates various dates and status items representing the processing cycle. The file is updated monthly. **Input:** Data are derived from Regulation A offering statements filed pursuant to the Securities Act of 1933 and from clearance memoranda. **Output:** Hardcopy reports are produced monthly and annually. The major reports are Regulation A Time Lapse report and Regulation A Time lapse chart.

Agency Contact: (202) 272-2169.

S05300-029

Registration Offering Statistics (ROS) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Economic and Statistical Analysis

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Purpose: The ROS system was designed to maintain statistical data pertaining to registrations and offerings filed by corporate entities. The data file contains a unique record for each registration filing. Each record incorporates a variety of data elements which reflect the characteristics of a registration filed with the Commission. The file is updated monthly. **Input:** Data are derived from various registration statements and offerings filed with the Commission. The system also uses the privately placed securities data base (PPS) as a source for selected data. **Output:** The system produces monthly reports in hardcopy format, including: Estimated Gross Proceeds, Federal Reserve Board Report, and Monthly Maintenance Register.

Agency Contact: (202) 272-2169.

S05300-030

Registered Transfer Agent Directory (RTA).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Supervision and Regulation of Securities Markets

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: State; Regional

Purpose: This system was designed to maintain a data file of transfer agents, both bank and nonbanks, which have registered under section 17A(c) of the Securities Acts Amendments of 1975. This system is used to assist the Commission staff in carrying out its regulatory functions related to the securities handling process. A principal objective is to identify qualifying securities registered under the 1934 Act and the transfer agent servicing them. The data file consists of a record for each registered transfer agent. Each record contains name, address, organization profile, and the identity of issuers and issues for which it is conducting service. The data file incorporates transfer agents registered with the Commission and other bank regulatory agencies. The data file also contains dates of examinations of transfer agents conducted by the Commission. **Input:** Form TA-1, application for registration as a transfer agent, and amendments thereto are the source documents from which data are derived. **Output:** A Transfer Agent Directory is produced in hardcopy format.

Agency Contact: (202) 272-2169.

S08300-031

Statistical Bulletin Series (STB) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Economic and Statistical Analysis

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Statistical Bulletin

Purpose: The STB system is comprised of six subsystems files. These files contain data items which are used separately and collectively to compile statistics on securities market activities, for economic studies, and research purposes. Raw data are collected monthly. System contents include stock and option market data, new securities, registration data, and financial institution trading data and securities industry data. **Input:** Data for this system are derived from several periodic sources and reports submitted voluntarily by the New York and American Stock

Exchanges. **Output:** The STB system produces periodically scheduled reports which are published in the Statistical Bulletin
Agency Contact: (202) 272-7131.

S05300-032

Securities Traded on Exchanges (STK) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: This system was designed primarily to produce data containing descriptions and statistics on issuers and issues of securities traded on exchanges. The data file contains a record for each issuer and issue of securities traded on a national securities exchange. The file is updated on a quarterly basis. **Input:** Data for this system are collected from exchange listing applications filed pursuant to the 1934 Act. **Output:** Regularly scheduled reports are generated in hardcopy format and include Consolidated Stock List, Consolidated Stock List by Exchange, and Securities Traded on Exchanges

Agency Contact: (202) 272-2169.

S05300-037

Workload Filing Requirements (WFR) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: The WFR system is designed to process data regarding the receipt, assignment, and disposition of registration statements, periodic reports, applications, proxy statements, and similar material filed under various acts. The system is used for inventory control and management planning. A record is maintained for each document. A current active file reflects forms and filings in a pending status. Inactive records are written to a history file on a periodic basis. The WFR file is used in connection with the delinquency reports system (DEL). The major categories of data maintained include name of reporting entity, file number, receipt date, branch assignment, and disposition action. **Input:** Original data are derived from approximately 125 public use documents filed with the Commission under various acts. Supplemental disposition and status data are furnished by the assigned organizational unit. **Output:** The WFR system produces both hardcopy and microfiche reports on a weekly, monthly, and annual cycle. The reports are: Branch Unit Workload, Pending Unit Workload, Master History, prepunched cards, Form 8-K Items Listing, Post-effective Amendments, and Preliminary Pending Unit Workload. Hardcopy index listings and COM tapes to support micrographic validation and reproduction are also produced. The principal media for update and retrieval is CRT terminals. Paper-copy reports are also produced.

Agency Contact: (202) 272-2169.

S05300-038

Central Index System (CIS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Purpose: The Central Index System is designed to support the Commission's micro-graphic film storage and retrieval system. Its main objective is the assignment of a unique identifier to each reporting entity. The Central Index System (CIS) consists of a record for each entity who has filed under the act(s) and to which a docketed file is maintained in hard-copy or micro-film media. The Central Index file system is a hierarchical system to which other data systems using common data elements will be subordinate. Currently, the Central Index System is coupled to the workload filing requirements (WFR) system. The file is updated daily. **Input:** Data are derived from various public use documents filed pursuant to the act(s). Internal control data are generated under program control. **Output:** The principal media for update and retrieval is CRT terminal equipment in an on-line environment.

Agency Contact: (202) 272-2169.

S05300-039

Financial Accounting Programs System (FAP).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Supervision and Regulation of Securities Markets

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: The Financial Accounting Programs System (FAP) is designed to process and maintain a current record on the status and receipt of annual audited form X-17A-5 reports filed by registered broker-dealers. The system maintains a record for each active registered broker-dealer. Each record contains data elements related to the firm's designated certified public accountant, its annual audit date, type of contract, and receipt date of the filed audited report. **Input:** Data are derived from the brokerage firms' notification of designated accountant and form X-17A-5, annual audited report. **Output:** Ten separate reports are produced in hardcopy format. Basically, these reports reflect each brokerage firm's reporting status and related accountant data arranged in several major-sort sequences. Preliminary reports are generated monthly. Final reports are generated quarterly.

Agency Contact: (202) 272-2169.

S05300-041

Broker Dealer Service Bureau System (BDS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Supervision and Regulation of Securities Markets

CFDA NO.: 58.001

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system maintains a file consisting of a separate record for each broker-dealer service bureau registered with the Securities and Exchange Commission (SEC). Each record contains relative data about each broker-dealer firm for whom the service bureau maintains books and records. The file is updated quarterly. **Input:** Basic data for this system are derived from letters submitted by the service bureaus in compliance with SEC rules regulations. **Output:** The system generates listings of broker-dealers in alphabetical order referenced to their respective service bureaus and listings of the names and addresses of the service bureaus.

Agency Contact: (202) 272-2169.

S05300-042

Beneficial Ownership System (BOS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

CFDA NO.: 58.001

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: This system will provide for computer processing of certain data submitted by institutional investors who are required to file acquisition statements for equity securities in which their beneficial ownership of a particular class exceeds 10 percent. Institutional investors, who are required to file acquisition statements for equity securities in which their beneficial ownership of a particular class exceeds 10 percent, will submit data for processing by this computer-based management information system. **Input:** Data for this system will be derived from Schedules 13G, 13D, and 14D-a filed pursuant to the Securities Exchange Act of 1934, as amended. **Output:** Output for this system will be designed in the near future.

Agency Contact: (202) 272-2604.

S05300-043

Investment Disclosure System (IDS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

CFDA NO.: 58.001

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Agency

Purpose: This system maintains data on investment managers who exercise investment discretion over accounts having in the aggregate more than \$100 million in exchange-traded or NASDAQ-quoted equity securities. A separate record is maintained for each 13(f) security reported on the form 13F filed by institutional investors. Principal data elements include Issuer name, issue description, CUSIP number, market value, shares or principal amount, identification of investment managers, and voting authority and investment discretion possessed. The file is updated quarterly. **Input:** Data maintained in this system are extracted from 13F reports filed with the Securities and Exchange Commission. **Output:** The system generates a listing sequenced by individual security reflecting shares managed by each investment manager and an abbreviated listing showing the number of shares of each security managed by each investment manager.

Agency Contact: (202) 272-2112.

S05300-044

Privately Placed Exemptions (PPE) System.

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Full Disclosure

CFDA NO.: 58.001

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: The Privately Placed Exemptions System is designed to process basic data on exemptions for offerings and sales of securities by an issuer involving a public offering. Data maintained for each form 146 report includes the name of the issuer, the title and class of securities, the amount of offerings, the type of business, and the names of the principal persons involved in the offering. The file is updated monthly. **Input:** Data for this system are derived from form 146, a report filed in compliance with rule 146 of section 4(2) of the Securities Act of 1933. **Output:** The system generates an edit listing, a list of organizers and

their capacity in the organization, a statistical listing by type of business, and a listing of chief executive officers. All reports are produced monthly.

Agency Contact: (202) 272-2169.

S05300-045

Case Tracking System (CATS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Prevention and Suppression of Fraud

CFDA NO.: 58.001

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: Regional

Purpose: This system will use teleprocessing facilities to process information relating to investigative, administrative, and litigative actions initiated by the Securities and Exchange Commission (SEC). The system will include case names, events, and dates relative to all investigations, litigation, and administrative actions initiated by the SEC. The System will provide for update access and inquiry capabilities using computer terminals. **Input:** Data for the system will be derived from internal use enforcement memoranda and related court litigation documents. **Output:** Various management information reports will be available via terminal screen displays and in hard copy.

Agency Contact: (202) 272-2169.

S05300-046

Random Access Personnel Information Disseminator System (RAPIDS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Program Direction

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Purpose: This system facilitates and implements the processing of personnel and position-related transactions using teleprocessing equipment. The file contains a record for each SEC employee which includes identification job class, education, and work experience information. The file is updated daily using computer terminals. **Input:** Data for this system are extracted from standard form SF-171 and official personnel file documents for employees of the Securities and Exchange Commission. **Output:** The system generates SF-50 and various management information reports on regular schedules and on an ad hoc basis. Data can be obtained in hardcopy or displayed on terminal screens.

Agency Contact: (202) 272-2519.

B05300-047

Staff Time and Activity Tracking System (STATS).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Program Direction

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291).

Availability: Internal Use Only

Geographic Relevance: State; SEC Regional

Purpose: The system facilitates the review of staff allocation and utilization data and supports the planning, budgeting, and control functions of the SEC. Files are updated on a weekly basis. Employee time expenditures are recorded by OMB program/objective, specific function

performed, and activity/project for which time was expended. **Input:** Employees are responsible for recording time expenditures on SEC Form 1693a (2-79). The forms are collected on a weekly basis and input via computer terminals. **Output:** Reports are generated on individual employees utilization and on aggregations of utilization for each office on expenditures within OMB program/objective function, special activity/project. Reports reflect hours expended during report week and quarter-to-date. Reports are produced weekly, monthly, quarterly, and annually.

Agency Contact: (202) 272-2142.

S05300-048

Securities and Exchange Commission Docket Index (SDI).

OMB Funding Code/Title: 50-0100-0-1-376 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Securities Exchange Act of 1934, as amended (P.L. 73-291, as amended by P.L. 94-29; 15 U.S.C. 78a). Investment Advisers Act of 1940 (P.L. 76-678, as amended by P.L. 94-29; 15 U.S.C. 78a).

Availability: Agency; GPO

Geographic Relevance: International/Foreign, National

Purpose: The SEC Docket Index is an on-line retrieval system consisting of Securities and Exchange Commission docket release numbers, rules, and orders. It has been designed so the data base can be accessed by subject, alphabetical sequence, volume number, or release number, and contains data beginning with January, 1973. **Input:** Data for the system are obtained from releases, rules, and orders mentioned in the Commission's minutes and delegated actions from Divisions and Offices throughout the Commission. **Output:** Retrieval of information is possible on an ad hoc basis via terminals and formatted displays, as well as in hard copy reports.

Selective Service System

S05400-001

Automated Accounting System. (NBO--(1-999)).

OMB Funding Code/Title: 90-0400-0-1-054 / Salaries and expenses
Program: Salaries and Expenses (All Programs)
Congressional Relevance: *House* Committee on Armed Services; *Senate* Committee on Armed Services; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee
Authority: Selective Service Act of 1948, as amended (P.L. 80-759; 62 Stat. 604).
Availability: Internal Use Only
Geographic Relevance: National
Purpose: This system is designed for the efficient monitoring of the status and utilization of appropriated funds to accomplish the Agency mission as established by the Military Selective Service Act and Selective Service Regulations. This system contains information on allotments, obligations, unobligated balances, accrued expenditures, and disbursements (all accumulated by cost center), and major object class and subobject class under the major budget activities of the Agency. **Input:** Warrants, allotments, obligating documents, invoices, schedules of payments, computer tapes from the automated payroll system, and journal vouchers comprise system input. **Output:** The Financial Plan is the basic financial management report for monitoring the status of funds throughout the fiscal year. It is produced monthly and is available on demand at critical times (near yearend). The Budget Activity Report accumulates cost information for monitoring the utilization of appropriated funds in accordance with program levels established by the Congress. It is quarterly and can be produced on demand.
Agency Contact: (202) 724-0844.

S05400-002

Reserve Officers Information Bank (ROIB). (ROIB-1-3 1-42).

OMB Funding Code/Title: 90-0400-0-1-054 / Salaries and expenses
Program: Special Programs
Congressional Relevance: *House* Committee on Armed Services; *Senate* Committee on Armed Services; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee
Authority: Selective Service Act of 1948, as amended (P.L. 80-759; 62 Stat. 604).
Availability: Internal Use Only
Geographic Relevance: National
Purpose: The system provides data on currently assigned officers and warrant officers of the Reserve and National Guard assigned to the Selective Service System and former officers and warrant officers. This system contains a variety of information relating to selection, placement, and utilization of military personnel. The system also contains information about members, such as name, rank, social security account number, date of birth, physical profile, residence and business addresses, and telephone numbers. Information is also recorded on unit of assignment, occupational codes, training, cost factors, efficiency ratings, and mobilization assignments and duties. **Input:** The data are compiled

and furnished by the members themselves, and the results of correspondence courses. **Output:** ROIB reports fall into eight major categories, with several specific reports within each category: Information input, strength reports, mobilization reports, financial reports, inspection reports, exception reports, locator reports, and miscellaneous. All reports are computer printouts. The physical reports are the Monthly Strength Report, the Quarterly Financial Summary, the Quarterly Unit Report, the Quarterly Drill Attendance Report, the Unit Commanders' Reports, the Military Correspondence Course Report, and the Mobilization Location Roster.

S05500-002

Portfolio Financing Report Information System (SBA Form 1031). (SBA 1031).

OMB Funding Code/Title: 73-4154-0-3-376 / Business loan and investment fund
Program: Financial Assistance; Investment Company Assistance
Congressional Relevance: *House* Committee on Small Business; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Small Business Act (P.L. 85-536). Small Business Investment Act of 1958 (P.L. 85-699).
Availability: Agency
Purpose: The purpose of this system is to measure the amount and characteristics of the financial assistance provided to small business by Small Business Investment Companies (SBIC's) on a monthly basis. This system contains information that is supplied daily to SBA from SBIC's and is compiled and analyzed monthly and annually. Data are coded by Industry (4-digit), state, age of business, type of financing, interest rate, terms, etc. Each report includes prefinancing financial and economic data on the individual small business which is the recipient of the assistance. **Input:** Data are provided to SBA by all licensed and regulated SBIC's on SBA Form 1031, Portfolio Financing Report. There were 492 such operating SBIC's as of December 31, 1982. The form includes descriptive data on the small business concern and information

monthly compilations and data issued to key management personnel in SBA and yearly compilations and analyses which are printed and issued to key agency personnel and made available for the public on an as-requested basis.

Agency Contact: (202) 653-6672.

S05500-003

Loan Accounting System.

OMB Funding Code/Title: 73-4154-0-3-376 / Business loan and investment fund; 73-0100-0-1-376 / Salaries and expenses; 73-4153-0-3-453 / Disaster loan fund

Program: Financial Assistance; Investment Company Assistance; Management Assistance; Physical Disaster Loans

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Small Business Act (P.L. 85-536, § 7(b)(7)). Small Business Investment Act of 1958 (P.L. 85-699).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of this system is to provide information on business loans, investment and development, company assistance activities, and section 8(a) procurement contract activity and to liquidate certain RFC business and disaster loans. This system contains data files on loans to small business. Data collected on loans include: loan program and type, geographical location, SIC code, name of borrower, and amount approved and disbursed. Periodic reports are prepared summarizing the status of loan activities. Also, the system maintains accountability on contracts let--contract number, name and address of contractor, time limit of contract, and dollar amount of contract. **Input:** The data are derived from filing applications of small business. **Output:** The output is quality-control computer printouts to maintain the system integrity. The frequency varies to the particular need. Some are monthly, quarterly, semiannually, and annually.

Agency Contact: (202) 653-6506.

S05500-004

Management Assistance Control Record (SBA Form 1062). (SBA 1062).

OMB Funding Code/Title: 73-0100-0-1-376 / Salaries and expenses

Program: Management Assistance

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Small Business Act, as amended (P.L. 85-536).

Availability: Internal Use Only

Geographic Relevance: National; State; City; SBA Office

Purpose: This form provides essential data concerning SBA clientele receiving management and technical assistance. It allows us to key in on an individual client by use of an identification code and obtain a thorough history of client experience in the Agency. It is intended to provide statistical counts for use by headquarters in target setting, congressional and outside inquiries, and is to be used by staff to track. This system contains a complete history of SBA clientele receiving management and technical assistance. Data include geographic coverage, type of assistance, type of loan, type of business, minority code, veteran status--hours required, date completed, as well as other information. **Input:** Each Management Assistance Officer (MAO) at the local level is responsible for submission of 1062 data to the Central Office (CO). All appropriate data are recorded by MAO to cover his needs for client tracking and program administration while CO is furnished the statistical data for national input. The client provides the detailed data required. **Output:** The output is 1) Management Assistance Monthly Report--printout; 2) Management Information Summary--monthly printout; 3) Management Assistance Client List--biweekly printout; 4) MA Client History--printout on request; 5) Borrower Client List--borrowers only, monthly printout; and 6) Special Sorts or Runs--printouts as required.

Agency Contact: (202) 653-6337.

Procurement Automated Source System (PASS). (RCN 471).

OMB Funding Code/Title: 73-0100-0-1-376 / Salaries and expenses

Program: Procurement Assistance

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Small Business Act (P.L. 85-536).

Availability: Agency

Geographic Relevance: National; State; City

Purpose: The Procurement Automated Source System provides a computerized inventory of small business productive capabilities. It fulfills the requirement for establishment of a small business facilities inventory required by P.L. 85-536 (the Small Business Act) and P.L. 95-89. It is used on a continuing basis to assist small concerns to obtain government contract opportunities either at the prime or subcontract level. The Procurement Automated Source System identifies small business concerns by name, address, telephone number, type of business, capability, and export interest. It is updated periodically and is used nationally. **Input:** The data are derived from application forms filled out by small business firms which are potential suppliers of goods and services needed by the federal government. **Output:** Hard copy is provided to federal and prime contracting offices as required.

Agency Contact: (202) 653-6586.

S05500-006

Management Information System. (RCN 470).

OMB Funding Code/Title: 73-0100-0-1-376 / Salaries and expenses; 73-4153-0-3-453 / Disaster loan fund; 73-4154-0-3-376 / Business loan and investment fund; 73-4156-0-3-376 / Surety bond guarantees revolving fund

Program: Procurement and Technical Assistance; Management Assistance; Physical Disaster Loans; Financial Assistance; Investment Company Assistance; Guarantee Surety

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Small Business Act (P.L. 85-536, § 7(b)(7)). Small Business Investment Act of 1958 (P.L. 85-699).

Availability: Internal Use Only

Geographic Relevance: National; District; Regional

Purpose: This system contains significant information for overall management evaluation on the various types of assistance provided by the Small Business Administration (SBA). This system generates significant information for overall management evaluation. It includes national summary highlights on all loan programs for current and past fiscal year, status of loan portfolio, loanmaking by category and other output, loan applications pending at end of month, comparison of loan approvals FY to date, status report of procurement and management assistance, percentages of trouble loans and accounts by programs by month (SBA dollars), investment division activities, Small Business Investment Company data, and status report on prime contracts. Similar information is included for regional offices. **Input:** The data are derived from applications and originals of assistance from small business. **Output:** Reports are produced monthly in a hard copy book type publication.

Agency Contact: (202) 653-6391.

S05500-007

Surety Bond Accounting System. (RCN 470).

OMB Funding Code/Title: 73-4156-0-3-376 / Surety bond guarantees revolving fund

Program: Guarantee Surety

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Availability: Internal Use Only

Geographic Relevance: National; State; County; City

Purpose: The system was established to finance guarantees to surety against loss as a result of the breach of terms of a bid bond, payment bond, or performance bond by a principal on a contract. This system contains name and address of contractor, amount of contract, geographic location, and type of contract. **Input:** The data are derived from filing applications of small businesses. **Output:** The principal report is a consolidated fee billing report that goes to surety companies.

Agency Contact: (202) 653-6821.

S05500-008

Program Evaluation System (SBA Form 684). (SBA 684).

OMB Funding Code/Title: 73-4154-0-3-376 / Business loan and investment fund

Program: Investment Company Assistance

Congressional Relevance: House Committee on Small Business; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Small Business Investment Act of 1958 (P.L. 85-699).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: The purpose of this system is to measure the effects of the program assistance on the financed small business concerns. This system tracks on an annual basis the firms financed and eventually will provide time series on the progress of the financed firms. Data include location codes to county level, SIC codes to 4-digits, age of business, form of business, refinancing data on financial and economic attributes, and current financial data on a continuing basis. Information codes are provided for outcome of financing and reasons for unsuccessful businesses if appropriate. **Input:** Data are provided to SBA by SBIC's on a sample of financed businesses on an annual basis. Sample size is now 700 with the earliest data being from firms financed in 1973. Data are reported to SBA annually by SBICs on the Program Evaluation Report (SBA Form 684) as of March 31st of each year. **Output:** The 684 Data Collection System is self liquidating and should terminate in the near future.

Agency Contact: (202) 653-6672.

Smithsonian Institution

S05600-002

Financial Management System.

OMB Funding Code/Title: 33-0100-0-1-503 / Salaries and expenses; 33-0102-0-1-503 / Museum programs and related research (special foreign currency program); 33-0129-0-1-503 / Construction and improvements, National Zoological Park; 33-0133-0-1-503 / Construction; 33-0132-0-1-503 / Restoration and renovation of buildings; 33-0102-0-1-503 / Museum programs and related research (special foreign currency program); 33-9971-0-7-251 / Smithsonian Institution trust funds; 33-0400-0-1-503 / Salaries and expenses, Woodrow Wilson International Center for Scholars

Program: Administrative and Support Activities; Grants for Museum Programs and Related Research in Natural and Physical Sciences and Cultural History; Planning, Design, and Construction; Museum Support Center; Planning, Design, and Construction; Payments to the Moccasin Salvage Effort; Canal Zone Biological Area Fund; Research and Scholarship

Congressional Relevance: House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Smithsonian Institution Act of 1846, as amended (P.L. 29-378; 20 U.S.C. 41).

Availability: Internal Use Only

and review of the activities of over 60 museums, art galleries, research laboratories, auxiliary activities, and supporting administrative and technical offices funded from federal appropriations and the Institution's trust funds. The system provides for the gathering and assembling of programmatic and financial data for budget formulation purposes, the posting of approved budgets on the accounting records of the Institution, the preparation of reports for internal review and monitoring of actual and projected results against budget, the distribution of prescribed reports and other materials to the Office of Management and Budget, U.S. Treasury, and other agencies, and for audit capability by internal and outside auditors. The system includes data arranged by appropriation or fund, fiscal year, organizational unit (which defines the principal subject matter), object classification, and function classification. **Input:** Rearranged system input includes the program plans of the Institution's organizational units, staffing plans, and data resulting from payroll, purchase orders, contracts, cash disbursements, and other financial transactions. **Output:** Monthly financial reports in hardcopy form are issued to all Smithsonian organizational units for management purposes. Other reports include Smithsonian Year, the Institution's annual report on its operations and finances to the Congress, and the annual budget documents to the Office of Management and Budget and the Congress.

Agency Contact: (202) 357-2962.

Tennessee Valley Authority

S05700-001

Bookkeeping System.

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund; 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Area and Regional Development; Power Program: Power Supply and Use

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Purpose: The system accumulates accounting data and prepares internal reports for accounting and for management in plan, monitor, and control expenditures. The system provides information that is necessary to prepare and support balance sheets and income statements for TVA on a monthly basis. **Input:** All internal organizations provide source data. Major input data are distribution of receivables and payments. **Output:** Output includes statement of expenditures by organizations--fiscal year budget allocations are included; financial statement, volume I--corporate type balance sheet and statement of operations and funds and supporting schedules; and financial statement, volume II--budget and related fiscal information. Output is hardcopy and prepared monthly.

Agency Contact: (615) 632-2201.

S05700-002

World Fertilizer Market Information System.

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: National Fertilizer Development

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Agency

Purpose: The system provides the world fertilizer industry with data and analyses of fertilizer market trends and new developments. This system consists of two files: The first is World Fertilizer Production Capacity

ty which is a worldwide inventory of current and future fertilizer production units cataloged by company name, location, product and capacity, current plant status, and scheduled years of operation for projected new units. All major fertilizer materials are included along with raw materials essential for the manufacture of fertilizers. The time period is 1967-90 and the file is updated weekly. The second is Annual World Fertilizer Production, Consumption, and Trade which includes world fertilizer production, consumption, export, and import statistics by product and country for the years 1962-83. This file is updated annually. **Input:** Data on fertilizer production units and distribution and marketing facilities are collected from published and unpublished sources. Data collected by other agencies, such as USDA, Bureau of Mines, Trade Commission, Bureau of Census, and FAO, are included for analysis and interpretation. **Output:** The principal output of this system is two biennial publications--Fertilizer Trends and World Fertilizer Market Review and Outlook. Data can be punched card, tape, hardcopy, or CRT display.

Agency Contact: (205) 386-2823.

S05700-003

Planning and Budgeting System.

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Power Program: Power Supply and Use; Area and Regional Development

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Purpose: The purpose of the system is to plan, fund, and control the implementation of TVA program operations. The planning and budgeting system encompasses the entire TVA program operations. The time cycle is on an annual basis with a 5-year future projection. Major categories of data include program goals, objectives, accounts, amounts, and fiscal years. **Input:** All internal organizations provide source data. **Output:** The principal output is the Tennessee Valley Authority Program Budget and Budget Estimates Submission to OMB.

Agency Contact: (615) 632-6109.

S05700-004

Electricity Sales Statistics.

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Power Program: Power Supply and Use

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Agency

Geographic Relevance: State; Distributor and TVA Power Service Areas

Purpose: This information is utilized in planning and management of the TVA power system. Primary uses are power load forecasting, TVA power rate analysis, and internal reporting. This system contains electric power sales statistics that aid in the management of the TVA electric power system. These statistics are also used by the power distributors for management purposes. The following types of information are maintained: Sales by rate and class, use by residential and commercial and industrial users by levels of energy use, and TVA sales by delivery points to the 160 power distributors and 50 industries and federal agencies. **Input:** Data are from accounting records of TVA power distributors and TVA financial records. **Output:** A variety of monthly statistical summaries (hardcopy, magnetic tape) are produced.

Agency Contact: (615) 751-7036.

S05700-005

Radiological Laboratory Information System.

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Purpose: The system is used by the Radioanalytical Laboratory to track samples and schedule analyses. As the analysis is completed, the results are entered into the system and maintained for reporting upon completion of the sample analyses. When a sample is received by the Lab, it is logged in and analyses assigned. These analyses are scheduled by type. As analysis is completed, the results are entered into the system and maintained until the sample is completed. A final sample report is prepared by the system for return to the requesting individual. Weekly, monthly, and quarterly reports are prepared showing the status of all samples and printing activity summaries for the period. In production now is an enhancement to the system which is in this application area. It provides an inventory of each portable instrument and its calibration history by instrument number. **Input:** Input to the system is by video display terminals and includes logging of incoming samples and entry of test results. **Output:** Daily hardcopy and display scheduling reports, as well as hardcopy weekly and monthly work status reports and quarterly activity summaries are produced.

Agency Contact: (205) 386-2534.

S05700-006

Radiation Personnel Dosimetry System.

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Geographic Relevance: Plant Location, TVA

Purpose: This system provides legal recordkeeping for historical and present dosimetry data and generates appropriate reports for the Nuclear Regulatory Commission (NRC). It utilizes two data bases. One data base contains calibration history for thermoluminescent dosimeter (TLD) cards and personnel badge status. The second data base contains NRC Form 4 data, data from the TLD processing cycle, termination data, and data recorded at the operating nuclear plants. The system functions mainly on a monthly basis. **Input:** Data is entered from TLD badges, whole body counting equipment readings, Form 4 reports, and TVA payroll termination files. **Output:** Monthly, quarterly, and annual hardcopy reports of radiation exposures for personnel monitored by TVA are produced. Real time inquiry is available for retrieving exposure data.

Agency Contact: (205) 386-2981.

S05700-007

Radiological Environmental Monitoring Data Base.

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Availability: Tennessee Valley Authority Act of 1933 (P.L. 73-17).
Geographic Relevance: State; City; Plant Location, TVA
Purpose: The system provides a means of safeguarding operating personnel of nuclear facilities and residents of the surrounding area. It provides the capability to produce required Nuclear Regulatory Commission reports for nuclear plants. The system contains data from sample analysis for nuclear facility monitoring stations. Sample collection begins two years before plant operation and continues for the life of the plant. The base level of the sample sites prior to plant operation can then be compared to current radioactivity levels. Long-term studies can be made which chart trends in radioactivity levels for nuclear plants and the surrounding area. **Input:** Environmental samples are analyzed for radioactive isotopes and the findings entered into the system. **Output:** Periodic hardcopy reports are produced to meet Nuclear Regulatory Commission requirements for nuclear plants.
Agency Contact: (205) 386-2981.

S05700-008

Work Injury and Illness System (WIIS)

01/80

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Geographic Relevance: State; City; Plant Locations

Purpose: The system is intended to help in safeguarding the health and safety of TVA employees. It contains information on all work-related accidents and injuries of TVA employees. The information is used internally by TVA for accident prevention and reporting. The system contains information on employee job-related accidents and illnesses. The master file contains approximately 50,000 records with monthly updates to add, change, or delete information. Monthly reports are produced by the system to identify accident trends to aid in accident prevention programs. **Input:** The Report of Injury or Illness, TVA forms 1890 and 1809s, are completed by the employee and/or his supervisor and input into the system. **Output:** Monthly hardcopy reports of types and severity of accidents and occupational illnesses are produced.

Agency Contact: (205) 386-2893.

S05700-010

Employee Information System (EIS)

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Tennessee Valley Authority Fund (All Programs)

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Purpose: The Employee Information System (EIS) is an automated personnel record system which contains records for all TVA employees. It is designed to provide essential personnel information and services for all levels of management throughout TVA as an aid in planning, staffing, developing, and utilizing human resources. Also, through the use of these data, external reporting requirements of Office of Management and Budget (OMB) and U.S. Civil Service Commission (USCSC) pertaining to manpower ceilings and the composition of the TVA work force are fulfilled. Data are also used to measure progress under the equal employment opportunity program. Items of information for each

employee are grouped as follows: basic and personal, identifying control numbers; job, organization, and salary; service dates, job history; and education. Well-defined responsibilities for the preparation, processing, and use of this personnel information are included in the system. Essential data about the work force are made available to all levels of management throughout TVA. **Input:** All types of personnel actions, e.g., accessions, promotions, transfers, separations, and additions to or changes in selected personal data, e.g., veterans' preference and education, are initiated by all offices and divisions, through employment and personnel offices, and updated in the automated record. **Output:** Reports containing various types of personnel information are generated in hardcopy primarily on a monthly, quarterly, semiannual, and annual cycle. Specific items of information on an employee basis (individual or group) or on an organizational basis are presented in the form of statistics or status reports, summaries, alphabetical or chronological listings, tabulations and comparisons, and personnel activity. EIS query capability is online using CICS and S2K.
Agency Contact: (615) 632-6910.

S05700-011

Geographic Information System (GIS) (X24)

10/81

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: Natural Resources

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17)

Availability: Agency

Geographic Relevance: County

Purpose: The system is designed to enable resource analysts to digitize, store, retrieve, analyze, and display data about the spatial arrangement of land features and resources. The system is intended to support resource development planning in the Tennessee Valley, but is not limited to local use. Intended users are TVA resource analysts, state and local planners, and other federal agencies. The system includes digital map information about natural resources, physical features, and socioeconomic characteristics for regional and local resource development projects. Files are constructed and updated separately and vary in size and content for each specific project. **Input:** Geographic data about the distribution of land features and resources is digitized from maps or aerial photos or acquired from existing digital data files. Data is provided by TVA personnel, local cooperators, and other federal agencies. **Output:** Computer-generated maps from line printer and CalComp plotter, magnetic tape or disc files, and technical reports on resource analysis projects are produced.
Agency Contact: (615) 632-6450.

S05700-012

Fisheries Monitoring and Reporting System (X11)

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: Natural Resources

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Agency

Purpose: Allows capture, correction, storage, retrieval, and analysis of fisheries data from a variety of sources to support division, agency, and external decision processes including fisheries management, power plant siting, and power plant licensing. The system currently manages approximately 200M bytes of data residing in approximately 40 logical files. Most files are being updated at least once per month and, in several cases, daily. Information consists primarily of numbers and weights of

methods and a variety of time, space, and other biological and physical variables. Data are stored, for the most part, in fixed length records organized sequentially or in special direct access files on disk and tape. **Input:** Most input is internal consisting of forms filled out by fisheries biologists and aides in the field laboratory. Approximately ten different forms are being processed at this time. **Output:** Tabulation and simple statistical analysis are produced as needed for fisheries management and environmental impact assessment. Reports of various types are being produced continuously.

Agency Contact: (615) 632-6450.

S05700-016

Woodland Resource Analysis Program (WRAP). (X26).

02/81

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: Natural Resources

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Agency

Geographic Relevance: State; County

Purpose: WRAP is designed to help landowners identify appropriate strategies for managing and improving their woodland property. It seeks to identify personal ownership goals and then uses these goals to set resource management priorities. These goals are then integrated with specific resource and economic data to produce management recommendations. WRAP provides the landowner with assistance in determining his/her land use goals and personalized resource management recommendations. WRAP consists primarily of two phases. One consists of a forester-landowner interview, data gathering and (after the data processing phase has been completed) interpretation of the results. The data processing phase is primarily the determination of appropriate harvest ages for woodlands. These harvest ages are based on many factors: species composition, site quality, market conditions, management costs, taxes, and inflation and interest rates. Also considered are the landowners objectives for the land, including non-financial benefits. The program is designed to be run once time per property. However, as landowner objectives change and new technology is incorporated into the program, it is anticipated that the program will be rerun. The optimization procedure utilized is a non-linear goal programming system that uses several simulators to estimate resource levels under various alternatives. **Input:** Data is submitted by foresters (TVA, state, consultants, industry) who interview landowners and gather field data on forested properties. **Output:** Schedule of woodland management activities, including harvest volumes and values. Management summaries for various woodland resources are also produced. Hardcopy output is produced daily.

Agency Contact: (615) 632-6450.

S05700-016

Forest Industry Surveys. (X17).

10/80

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: Natural Resources

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Geographic Relevance: State; County

Purpose: The purpose of the system is to deliver a large array of forest industry and related information by grouping or geographic location to

policy formulation. Data is derived from field canvasses of forest industries at regular intervals for 125 Tennessee Valley counties, and less regularly, the entire state of Tennessee (157 counties total). Information is for TVA managers, resource analysts, forest industries, and cooperators. The 1975 Forest Industry Survey included industrial data, wood use data, and residue data for 125 counties. The report covered all primary wood-using industries of 400 MIP annual production and all secondary wood-using industries of four or more employees. Plant level data was provided. The master file (disk) contains 1,000-2,880 byte records. The three detail files (tapes) contain 60,000-80 byte records, a total of 32 record types and 481 data elements. The 1973 Loggers Survey covered 125 counties and provided mill level data. The file contains 2,000-747 byte records and 205 data elements. Industry surveys for 1970, 1974 and 1979 are also available. **Input:** Most input is from in-house field canvasses of forest industries, usually in cooperation with U.S. Forest Service and staff agencies. Ownership, mill type, employment, wages, products manufactured, wood used, energy consumed, and similar data is collected via questionnaire. Complementary data on forest industry characteristics are derived from Bureau of Census, published directories and reports, and other similar sources. **Output:** Approximately 50 standard reports of periodic Tennessee Valley and Environs Forest Industry Surveys are produced. After initial processing, archival files yield a variety of reports concerning forest industries, as specified on demand. These include totals by industry type or location—including wood use, residue, employment, and other factors.

S05700-018

Automated Records Management System (ARMS). (L02).

01/02/79

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Power Program: Power Supply and Use

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Geographic Relevance: Tennessee Valley Area

Purpose: ARMS will be used to store an index to documents originated or received by the Office of Power. ARMS will allow users to query an active data base to locate needed documents rapidly and with assurance that required documents can always be located. ARMS will store a computer index which will add approximately 20,000 documents to the data base each month. Updates to the data base will be performed daily through a batch update process. The system will utilize System 2000 software with CICS being the teleprocessing monitor. The system will utilize an automated thesaurus for data entry and retrieval. The index to stored documents will be retrieval on-line for a maximum of three years, depending on reference activity of the particular document. **Input:** The majority of data input is internal to the Office of Power. When Power organizations originate a document, a copy is sent to ARMS for microfilming and data entry. These internally generated documents will account for approximately 60 percent of the data base. Copies of pertinent documents sent to Power offices from non-Power organizations will also be input to the data base. Major categories of input data include: documents relative to site selection, licensing, construction and operation of generating plants; documents relative to research activities of the Office of Power (TVA); documents pertinent to construction, maintenance, planning and operation of the transmission system; and documents pertinent to contractual commitments of distributors of TVA power. **Output:** An index to documents which are stored on microforms (microfiche and 16 mm cartridge microfilm) will be produced. Additional recurring reports are used for review of data entry and analysis of correspondence entered into the system.

S05700-021

Automated Medical Records System (AMRS).

1978

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Purpose: Medical information on Tennessee Valley Authority (TVA) employees is maintained in a computerized data base for online access, batch reporting, and data retrieval. Disk storage of 207 million bytes and 50-75 tapes with over 1 billion bytes of data are regularly used by AMRS. **Input:** Input is derived from various TVA medical forms in a daily update cycle. **Output:** Various management information reports, ad hoc requests, and online data retrieval by medical facilities are produced.

Agency Contact: (615) 858-2091.

S05700-022

Industrial Hygiene Automated Data System (IHADS).

10/81

OMB Funding Code/Title: 64-4110-0-3-452 / Tennessee Valley Authority fund

Program: General Services

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933 (P.L. 73-17).

Availability: Internal Use Only

Geographic Relevance: Power Plants

Purpose: The purpose of the Industrial Hygiene Automated Data System (IHADS) is to maintain all industrial hygiene-related data in a single system. The system includes several subsystems and will meet regulatory recordkeeping and reporting requirements. It provides data to assist in design of engineering and administrative controls of various workplace hazardous agents. It provides data for evaluating and assessing workplace exposure against regulatory limits and guidelines for internal action. **Input:** System operation will be accomplished via remote terminal operation (45 percent), desktop computer operation (25 percent), batch operation with input from remote terminal (25 percent), and punched card input (5 percent). **Output:** Hard copy management reports and online inquiry will be available.

Tennessee Valley Authority Transmission Construction Management Information and Control System (TMICS). (IE 81-7).

1983

OMB Funding Code/Title: 64-4110-0-3-271 / Tennessee Valley Authority fund

Program: Power Program: Power Supply and Use

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Tennessee Valley Authority Act of 1933, as amended (P.L. 73-17, § 4, 9a, 11-12, 15d, as amended by P.L. 74-412; 68 Stat. 60, 64-65; 16 U.S.C. 831c, 831h-1-831k, 831n-4).

Availability: Internal Use Only

Purpose: This system merges two older management systems into an improved, fully integrated management information and control system that includes guidelines and detail procedures on the most effective construction methods, short and long range job planning, and follow-up actions. The system provides various management levels with the information needed to estimate and control labor, material, and equipment resources. The system consists of a data base containing records showing the various job segments of approximately 100 current jobs. The system prepares schedules, computes man hours, and gives feedback. **Input:** Data from field activities are fed into the system. **Output:** The system produces trend charts and progress reports. The trend charts track the cost of each job, and the progress reports show percentage of completion for each job.

Arms Control and Disarmament Agency

S05800-001

Budget and Fiscal System. (ACDA-1).

1962

OMB Funding Code/Title: 94-0100-0-1-153 / Arms control and disarmament activities

Program: Arms Control and Disarmament Activities

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Arms Control and Disarmament Act (P.L. 87-297, § 46; 22 U.S.C. 2551).

Availability: GPO

Geographic Relevance: International/Foreign

Purpose: The ACDA Budget and Fiscal System is designed to produce the Agency's annual budget request, facilitate and control the legal management of all funds appropriated to the Agency, and provide fiscal data revealing current condition, trends, etc., of Agency activities to top management. Subject matter includes all activities and functions of the Agency which involve the projected and actual expenditure of funds: travel, salaries and related expenses, supplies and materials, rent, equipment, communications, printing, and other services. Data/Information coverage includes support of the Strategic Arms Limitation Talks (SALT), negotiations on Mutual and Balanced Force Reductions in Europe, nuclear test limitations, nonproliferation of nuclear weapons, conventional arms transfers, world military expenditures, and other arms control policies, measures, and negotiations. Time reference is the fiscal year, October 1 through September 30. Geographic coverage is Washington, DC, Geneva, Switzerland, and other possible negotiating or conference sites. Accounting and budget data are maintained under agreement with the General Services Administration. Analyses, internal

reports, budget preparation, and presentation are handled by a small agency staff. **Input:** Sources of information are obligating and expenditure documents of all types, including payrolls and external research contracts. **Output:** Annual ACDA, OMB, and congressional budget requests in hardcopy and miscellaneous internal fiscal and budget reports are produced.

Agency Contact: (202) 632-6322.

S05800-003

Arms Control and Disarmament Agency Contract and Reimbursable Agreement Retrieval System. (ACDA-3).

OMB Funding Code/Title: 94-0100-0-1-153 / Arms control and disarmament activities

Program: Arms Control and Disarmament Activities

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Arms Control and Disarmament Act (P.L. 87-297, § 48; 22 U.S.C. 2551).

Purpose: The ACDA Contract and Reimbursable Agreement Retrieval System is designed to produce reports on pertinent information on Agency contracts and reimbursable agreements. Specific information can be retrieved to respond to various quarterly, biannual, and annual government procurement reporting requirements. Reports are produced to respond to congressional hearings, Freedom of Information requests, and various agency requirements. The content includes names and addresses of each contractor and government agency, title of project, date of award, agency research or other category, fiscal year, amount of contract or agreement obligated; agency bureau or office; size of completeness; type of contract; type of organization; labor surplus area information; large, small, or minority business data; negotiation authority; industrial security program; extent of competition; equipment to be delivered; and applicability to Cost Accounting Standards. In addition, the Reimbursable Agreement System includes data on work being performed in-house or by government agency external contractors. **Input:** Sources of information are furnished by Agency contractors, contracts, reimbursable agreements, procurement regulations and laws, and Agency derived data. **Output:** The principle reports are: (1) biannual information on labor surplus areas and small, large, and minority business concerns (query capability, machine-readable); (2) as requested, alphabetical and chronological reports for congressional hearings (machine-readable); (3) as requested, research category reports for congressional hearings and OMB requests (machine-readable); and (4) not less frequently than bimonthly, alphabetical and chronological reports for internal Agency use.

Automated Examining Support Systems/EAES, KEES, Schedule C, IPAP-DEP.

09/81

OMB Funding Code/Title: 24-0100-0-1-805 / Salaries and expenses

Program: General Administration; Assuring a Merit Work Force

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Act of October 11, 1967 (P.L. 90-105).

Availability: Agency

Purpose: These systems maintain automated personnel registers for most federal competitive service examinations. Schedule C positions and Interagency Placement Assistance and Displaced Employee Program (IPAP-DEP) applicants. Data elements include: names, address, availability, education, test scores (if any) numerical/experience ratings (if any) and statistical items. Examining offices (OPM area offices and agency Special Examining Units) either submit optically scannable test

answer sheets and/or occupational supplements to a centralized service center or key enter applicant or Schedule C position data locally. These inputs produce listings, reports for submitting office use and/or Notices of Results which are mailed to the applicants. Offices use computer terminal/printers to maintain their files, to search for eligible applicants to fill federal job vacancies, certify top rated eligibles, to audit agency selection results and to obtain incumbency and/or statistical information. **Input:** The input consists of optically scanned or key entered applications for federal employment, written test answer sheets (if any), Schedule C position data sheets, or applications for IDAP/DEP. **Output:** The principal outputs are Notices of Results, certificates of eligibles, reports on the status of inventories/registers, work activity and other management information.

Authority: Intergovernmental Personnel Act of 1970, as amended (P.L. 91-648, § 202; 84 Stat. 1909; 42 U.S.C. 4711-4772); Civil Service Reform Act of 1978 (P.L. 95-454, § 903; 92 Stat. 1224; 5 U.S.C. 5509 note); Government Organization and Employees Act (P.L. 89-554, § 1304).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This financial management system provides effective financial, accounting, and payroll support to Office of Personnel Management (OPM) activities. Payments and obligations are recorded by object class and geographic location. Expenditures are recorded in accordance with CSA geographic location codes. **Input:** Data sources include time and attendance cards, work reports, obligations, accrual, and cash disbursements reports from 10 regional budget and accounting offices and the central office. **Output:** A computer-generated payroll data and Treasury tape is produced each two weeks. Every four weeks, the system produces automated reports which disclose obligations, costs (including payroll costs), and income by activity, function, appropriation, and other pertinent categories.

Program: Compliance and Investigations

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Employees Part-Time Career Employment Act of 1978 (P.L. 95-437, § 3(a); 92 Stat. 1056; 5 U.S.C. 3402 et seq.). (OMB Bulletin 79-11). (OMB Circular A-64 (Revised)). (OMB Circular A-11).

Availability: Agency

Purpose: The information system is based on the "Monthly Report of the Full-Time Equivalent/Work-Year Civilian Employment" (SF 113-G). It contains data by agency on the number of work years used during a given reporting period, cumulative work years, and the percent of allocated work years that have been used through the current reporting period. The purpose of the information system is to provide information to the Office of Management and Budget, the Office of Personnel Management, the White House, and the Cabinet Council on Management and Administration regarding the utilization of assigned work years by agencies during the fiscal year. The report generally covers two biweekly reporting periods. **Input:** Input consists of the "Monthly Report of Full-Time Equivalent/Work-Year Civilian Employment" (Standard Form 113-G). **Output:** Monthly outputs are by agency showing the number of employees utilizing straight time hours, the full-time equivalent workforce, the work years for the current period, and work years to date.

S05925-003

Monthly Report of Federal Civilian Employment.

OMB Funding Code/Title: 24-0100-0-1-805 / Salaries and expenses

Program: Compliance and Investigation

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554). (OMB Circular A-11).

Availability: Agency

Geographic Relevance: National

Purpose: The monthly reporting system provides a continuing and consistent tracking mechanism for monitoring agency employment and expenditures for salaries and wages. It is the reporting system which supports the Office of Management and Budget in issuing ceiling controls. It also serves the Congress and many other users, including the media and the general public, as a source for government-wide strength statistics on the federal civilian workforce. Approximately 120 agencies and bureaus with subelement codes report to the Office of Personnel Management by the 15th of each month. The input form is the Standard Form 113-A (Monthly Report of Federal Civilian Employment). This report offers the most up-to-date coverage on federal civilian employment and payroll. There are 31 line entries on the report, covering work schedules, pay systems, noncitizens, payroll, turnover, and ceiling employment. These data are reported for all areas, territories, and foreign countries, as well as inside and outside the Washington, DC, metropolitan area. **Input:** Agencies provide a summary report form SF-113-A "Monthly Report on Federal Civilian Employment" to the OPM for processing (editing, compilation, summarization, and dissemination). **Output:** This system produces monthly reports on counts of total and full-time employees with permanent appointments which are provided to the Office of Management and Budget. Periodic new-releases of the status and major changes are issued. A monthly release publication is produced summarizing strength and turnover dynamics of the government civilian workforce by agency and government-wide.

Central Personnel Data File (CPDF).
07/72

OMB Funding Code/Title: 24-0100-0-1-805 / Salaries and expenses

Program: Compliance and Investigation

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Government Organization and Employees Act, as amended (P.L. 89-554, as amended by P.L. 97-35; 80 Stat. 401, 417; 5 U.S.C. 3301; 5 U.S.C. 2951-2954; 5 U.S.C. 4301-4507; 5 U.S.C. 5110-5112). Civil Service Reform Act of 1978 (P.L. 95-454, title V, § 501; 92 Stat. 1180-1183; 5 U.S.C. 5401-5405).

Availability: Agency

Purpose: The Central Personnel Data File (CPDF) is a government-wide statistical personnel data file containing current status and employment dynamics data on the federal civilian workforce. The data element content includes: 1) such items as employee social security number, name, date of birth, race and national origin identification, sex, and veteran preference; 2) position data such as agency, pay plan code, occupational code, pay grade, step or rate, salary, and location code of duty station; and 3) the effective date, nature of action code, and legal authority code(s) for employee personnel actions. Current status data describing workforce employment characteristics as of a given month are available as of the close of each month for the most recent 24 months and by calendar quarter since December 1972. Employment dynamics data describing personnel action characteristics are available with varying coverage since December 1972. The CPDF supports the statistical workforce information needs of the headquarters and regional offices of the Office of Personnel Management, other federal agencies, the Congress, and the public. **Input:** Federal agencies submit copies of applicable employee personnel actions or automated equivalents to the CPDF monthly or more frequently. **Output:** Statistical reports are produced on an ad hoc and periodic basis on hardcopy and magnetic tape. These reports describe the demographic characteristics of the federal

workforce (e.g., employment by occupation, sex, race and national origin, age) and employment dynamics (e.g., accessions, separations, promotions, reassignments).

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system is designed to serve Agency management needs for financial information to support budget presentation and funds allocation and control. The structure provides uniform and consistent categories which identify, within the organization, points of responsibility for the activities that are conducted, the types of resources that are utilized, and the sources of fund support. The specific information contained in each entry in the system provides appropriation code, the fiscal year, the organizational and cost center entity, the geographic reference, the major activity and functions, and the resource code (object classification and specific type of expense). Allotments are issued to each cost center within an organizational entity (e.g., by country for each geographic area) and provide for the obligational and apportionment authority. The system is designed for cross-referencing. Hence, information can be obtained by country by area, or by activity across country and area lines. All information is designed to provide a functional activity breakdown that is the basis for the Agency's congressional budget presentation. **Input:** Input consists of financial information within each cost center and organizational entity. **Output:** Allotments issued to overseas locations are processed manually or processed in an automated system by a regional finance office of the Department of State. In both cases, reports are generated monthly and provide a detailed accounting for each allotment issued to an overseas cost center by function and resource codes within each function. The reports also provide current month and cumulative fiscal year totals for obligations and expenditures. Domestic allotments are processed on a centralized automated system. Reports are hardcopy. The reports are as follows: 1) weekly - Detailed Transaction Register and Status of Allotments; and 2) monthly - Status Allotment, Program Obligations (by resource code for each function within a cost center) and open Document Listing (listing of unpaid obligations).

S06100-004

Radio Frequency Reporting System.

OMB Funding Code/Title: 67-0201-0-1-154 / Salaries and expenses

Program: Overseas Missions; Exchange of Persons; Broadcasting Service; Communication Programs (Other); Program Management; Administrative Support

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcom-

Purpose: The major functions are to provide relay stations with a summary of their operations, to allow long-range planning of radio frequencies, to make adjustments to the broadcast schedule, and to report on seasonal broadcast effectiveness. A data communications link between Voice of America, Engineering and Technical Operations, located at 25 M Street SW, and the Automatic Data Processing Division, 1750 Pennsylvania Ave. NW, provides the Division with the capability of receiving data observations by teletype from relay and monitoring stations worldwide. These data, totaling over 100,000 observations per month, provide the input via terminal to the computer. Procedures for processing observations from relay stations and monitor posts are similar, but separate files are maintained. Observations with errors are rejected. Acceptable observations are converted to individual transactions, using as sources the data input itself and VOA Transmission Schedule. Each transaction therefore becomes a complete profile on a single transaction. Acceptable transactions then are merged with the records on the master file which contains all observations for a season. During the merging process, the file is analyzed and trend reports are produced. **Input:** Systems input is remote via terminal and is derived from information received from radio broadcasting relay stations and broadcast monitoring stations worldwide. **Output:** The system's output consists of 12 hardcopy reports. Four reports are processed daily, four monthly, two quarterly, and two as-requested. These reports include: IFRB Master File Update Audit Trail, Monitor Observation Validate, Relay Station Observation Validate, Trend Analysis, VOA Language Report, VOA Frequency Report, VOA Relay Report, VOA Supplemental Relay Report, VOA Transmission Schedule, IFRB Frequency Distribution Report, IFRB Acceptable Transaction Merge Duplicate Change Report, and IFRB Transaction Sheet. The agency is now developing an RJE medium for delivering reports via communications circuits to a VOA terminal.

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: This system helps maintain protective and administrative control over exhibit property, including loaned, rented, purchased, and donated items. The exhibit property ADP records consist of a Master File Inventory of Items at various locations worldwide. The system is updated as required to incorporate property acquisitions and disposals into the records. **Input:** The Exhibit Service of the Bureau of Programs is responsible for controlling the exhibit property and for supplying input data for the Exhibit Property Inventory System. **Output:** The system output provides the Exhibits Service with a transaction register of all changes. A monthly warehouse inventory report is printed as well as a quarterly worldwide inventory (in various data sequences), a quarterly location listing, and opening and closing exhibit property inventory reports on an as-requested basis. All reports are hardcopy.

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: This is a continuing program in which donated books are ordered and distributed as requested to USIA and Peace Corps posts. Approximately 3 million books are made available annually to USIA for donations abroad through the ordering posts. Requests for donated books are limited to titles on the Donated Books Lists. The requests must be submitted to reach the Bureau of Educational and Cultural Affairs date noted on the front cover of each list. The number of books in stock is given as a guide in placing orders. When total orders from the field exceed the quantity in the warehouse, adjustments are made by the Bureau of Educational and Cultural Affairs as equitably as is possible. Certain publishers have restrictions on the distribution of their books; therefore, each post is required to check the restrictions prior to ordering books. **Input:** The data contained in the data file for this system are derived from post orders submitted to the Bureau of Educational and Cultural Affairs. **Output:** The system provides the following reports: Inventory Proof List, Donated Book Order Proof List, and Consolidated Donated Book List.

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The major function of this system is to produce statistical reports for the Voice of America on radio script usage. Script Menu records are maintained on a magnetic tape file which is updated monthly by the addition of new script titles and by the deletion of script titles which no longer are current. The system has been expanded recently to include statistics relating to Language Service (in-house) originated scripts. Additionally, it has been revised to include air time for each script broadcast, and other data elements have been added to increase the usefulness of reports as a management tool for VOA officials. **Input:** System input is internal. Data contained in the data file for this system are derived from copies of content reports of daily broadcasts. Script title data are combined with script usage data to produce the required statistical reports. **Output:** The system produces six hardcopy reports, five monthly and the sixth as requested. The reports are Script

Title, and Area/Country List, Language List, and Script Type List Report.

Agency Contact: (202) 485-2300

S06100-008*Periodical Subscription Operation.*

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: This system assists the Bureau of Educational and Cultural Affairs with the annual procurement activity required to maintain nearly 25,000 subscriptions to approximately 1,000 different titles for use in overseas information centers, binational centers, reading rooms, and presentations. The system also assists the Agency Library in maintaining about 5,100 subscriptions to magazines and newspapers for approximately 1,000 titles for the library and for staff use in 400 Agency offices worldwide. The Bureau of Educational and Cultural Affairs and the Agency library receive analyses of the statistics concerning the procurement and use of these periodicals and newspapers by domestic elements and on a worldwide basis by overseas posts. ADP reporting consists of statistical data, in various arrays, of the procurement order for budget presentation; analysis and review; and selective reporting of subscription use for management purposes. Reports are prepared semiannually. Data are updated constantly to introduce changes in subscriptions, titles, and usage into the system. **Input:** Information in the data file for this system is taken from request for subscriptions from USIA overseas posts and the library. **Output:** Frequency of system output is annual. A total of 17 hardcopy reports are issued, including the following: Cost by Title, List by Location, Number of Subscriptions by Title, Net Price List, Subscriptions for Staff Use Report, Summary of Staff Use Periodical, Master Address/Location Report, and Master Title Report.

S06100-009*Resource Management System (RMS).*

OMB Funding Code/Title: 67-0201-0-1-154 / Salaries and expenses

Program: Overseas Missions; Exchange of Persons; Broadcasting Service; Communication Programs (Other); Program Management; Administrative Support

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Reorganization Plan 2 of 1977. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Cultural Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The Resource Management System (RMS) was developed to expand the Country Public Affairs Officer's (CPAO) control over the responsibility for his/her country's program by allowing him/her to affect directly the level and nature of Washington activities supporting his/her program. The Resources Management System informs the Country Public Affairs Officer (CPAO) what it costs the Agency to supply his/her

to that country and which can be reprogrammed. The Agency's RMS Control Branch provides centralized receipt and routing of all overseas posts' orders for Agency products and services under RMS and the maintenance of RMS/DSA accounts. **Input:** RMS uses a computer to input data, edit the data, update the RMS files, and produce reports. The edit process consists of seeing if valid entries are present in certain data fields. Invalid entries are rejected and appear in a daily error report used for correction of those transactions. **Input** is from internal sources. **Output:** The system produces six hardcopy monthly reports: Resource Code Number by Area, Status of Direct Support by Allocation by Country, Status of Direct Support Allocation by Organization, Transaction Listing, Outstanding Orders Referred to Media for Information - by Country, and Outstanding Orders Referred to Media for Information - by Organization.

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The Bureau of Broadcasting, Television and Film Service is engaged in supplying films and TV programs to USIA posts throughout the world. Each year about 500 new titles are acquired for distribution. The computer system is designed to collect, inventory, and catalog data concerning these titles and their distribution and to retrieve it in useful listings and catalog formats. Each post receives an up-to-date listing annually. The inventory shows all titles owned by the post except those of a "dated" or "restricted" nature. The post is responsible for reporting any changes in its inventory and the reasons for the change. Post catalogs are produced on the same schedule. Each post catalog contains all titles in the post inventory except those which have been retired by the Agency. A master catalog, containing all titles available for use abroad, except those which are "dated" or "restricted," is produced annually as soon as possible after the close of the fiscal year. The retired title file is updated annually with titles which the Agency retired during the preceding year. A Master Retired Catalog, Special Catalog, Loan Catalog, and a Budget Back-up Catalog are produced annually for agency use. **Input:** The data contained in the data file are derived from internal sources. Information to update the system is sent to the Automatic Data Processing Division in batch from Television and Film Service terminals. **Output:** The system produces 22 hardcopy reports on a monthly, annual, and as-requested basis. Principal reports include the following: Post Inventory Listing, Post Catalog Subject Matter, Listing and Subject, Annual List of "Dated Titles," Retired and TV Inventory, Retired Title Report, Master Catalog Alpha Report, B/TVF Product Distribution Report, Master Title Report, and B/TVF Country/Language Tables.

Geographic Relevance: International/Foreign

Purpose: This system is used by the U.S. Information Agency's Press and Publications Service to locate articles in non-Agency publications and as a reference file of all Agency-produced (or reprinted) articles which are kept in the Press and Publications morgue. The P/P Catalog System contains 5,496 entries from which are produced two catalogs for use of the Press and Publications Service: the Article Alert Catalog and the Centralized Text Catalog. The Article Alert Catalog is used to draw attention to articles in non-Agency publications while the Centralized Text Catalog contains all Agency-produced (or reprinted) articles which are kept in the Press and Publications morgue. Both catalogs list the respective articles alphabetically by title along with a synopsis of the article, author(s), word count, number and type of illustrations, and the date and title of the publication(s) in which the article has appeared. Two cross-references also are produced in order to locate articles by subject areas or by author. Each catalog is issued every two years in its entirety. Supplements containing articles appearing since the previous issuances of a catalog or supplement are released every 4 to 6 months. Other extract reports are produced as requested. **Input:** The system input is internal. The file is updated by the Press and Publications Service on input forms provided by the Automatic Data Processing Division. **Output:** This system produces hardcopy reports, as requested, of listings of articles in non-Agency publications, with cross-referencing by author, and listings of all Agency-produced (or reprinted) articles by subject, author, word count, illustrations, and dates.

Authority: Executive Order 12356. Reorganization Plan 2 of 1977.

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system assists the U.S. Information Agency by keeping control of its own classified documents and officers with classifying authority. It is also a record of classification actions and an index to secret and confidential documents in selective categories approved by the Information Security Oversight Office (ISOC) as having sufficient historical value appropriate for preservation. DIS also contains a small percentage of material produced by the State Department which relates to the Agency's operation or is of particular importance to USIA officials. The file contains over 70,000 entries. **Input:** System input is internal. Information is sent to the Automatic Data Processing (ADP) Division by the Classified Documentation Collection of the Agency Library and the Office of Security on input forms provided by ADP. **Output:** This system produces three hardcopy reports. The "Report of Authorized Classifiers" is produced monthly and quarterly, while a review list and declassification list are produced annually.

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system assists the U.S. Information Agency by providing listings of speakers available at professional seminars and other gatherings at overseas posts. The system also keeps track of speakers offered and programmed to posts. The Overseas Speakers Program is administered by the Office of Program Coordination and Development which has program responsibility in the arts and humanities, economics, foreign policy, political and social processes, and science and technology. The purpose of the program is to provide posts with qualified speakers on a variety of subjects. The speeches are delivered at professional seminars or other gatherings and may be in the local language or in English. The system provides a file of available speakers with information concerning the speakers. It also keeps track of those offered and programmed to overseas posts. From this file, updated weekly, are produced monthly and quarterly reports for use of Agency officers with programming responsibility. The file contains about 25,000 records. **Input:** Information is sent to the Automatic Data Processing Division by the Office of Program Coordination and Development on input forms provided by the Automatic Data Processing Division. **Output:** This system produces hardcopy listings of speakers by major and minor fields, as well as those offered and programmed for speaking engagements at overseas posts.

79-724; 22 U.S.C. 801-1158). U.S. Information and Educational Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: The American and foreign grantee recording system was originally established in 1952 to meet the reporting requirements under the Fulbright Act and the Smith Mundt Act. Its purpose was also to assist in meeting the objectives of the Department's exchange program in such fields as management of program planning, budget planning, reporting, legislative liaison, public information, and program evaluation. Information for both American and foreign grantees from 1952 to the present includes biographic information such as name, address, and institution; grant information by category, type, authorization numbers, and dates; and funding information, when available. The geographic span of this system covers all states and U.S. territories and approximately 150 countries and foreign territories. Additional records will be input on a schedule determined by the number received. Recurring reports will be produced annually. Nonrecurring reports and evaluative studies will be published as needed. **Input:** The initial source of information on each grantee is provided by the Bureau of Educational and Cultural Affairs and/or contract agencies administering certain categories of grants on either a form identified as DS-961-Grantee Permanent Record Card or by magnetic tape. **Output:** Output from this system may be either structured or unstructured and of a statistical or biographical nature. It can be produced on- or off-line, dictated by size and complexity. Statistical reports include field of interest; geographical data by country, area, or state; and types and status of grants. Name lists are alphabetical, printing all information available, either in code or in English, by country or state, by category, or by selected field of interest or occupation.

S06100-020

Exchange Visitor Information System (EVIS).

OMB Funding Code/Title: 67-0201-0-1-154 / Salaries and expenses

Program: Overseas Missions; Exchange of Persons; Broadcasting Service; Communication Programs (Other); Program Management; Administrative Support

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Reorganization Plan 2 of 1977. Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). U.S. Information and Educational Exchange Act of 1948 (P.L. 80-402; 22 U.S.C. 1474).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system was mandated by a National Security Council decision which required the development and operation of a central information system on exchanges from all agencies. The system is designed to collect information on the foreign component of the exchange program. It provides reports on all foreign nationals who are sponsored by government agencies and/or private organizations, institutions, or businesses and permits coordination of the overall exchange visitor program. The system will also provide name lists for a central locator system of exchange visitors. Approximately 60,000 exchange visitors enter the United States yearly. Information on each visitor includes: biographical information, including name, sex, birthdate, country of residence, and position (primary occupation at home); program information; program number which identifies the sponsoring institution; length of stay in United States under program sponsorship; visitor category, such as student trainee; subject/field of activity of visitor while in United States; funding information, including sources and amount(s) of support provided; and program status including date of entry, extension, or transfer (INS stamp-date). This system currently reports foreign nationals from Western Europe, Eastern Europe, East Asia, Near East, South Asia, American Republics, and Africa. There is no U.S. geographic recording of states beyond identification of program sponsor and its address. It is anticipated that new documents will be input seven times a year, with it possible streamlining to five times a year. **Input:** The primary source of information is the program sponsor through the use of a visa document identified as the DSP-66. These sponsoring agencies and organizations represent government programs (G Series) and international organiza-

about 1,800 program sponsors throughout the United States. **Output:** Reports are produced periodically or on an ad hoc basis. Reports are either statistical or biographical and may be produced on-line or off-line. Statistical reports include country analysis; program sponsor types; field of activity (by country, sponsor, or area); and occupation (by country, sponsor, or area). Name lists include lists by program sponsor, by country, and by year. The DSP-66 hardcopy will be copied to microfiche to speed up file searching and greatly reduce the storage of hardcopy documents.

Geographic Relevance: International/Foreign

Purpose: This computerized system automates some 10,000 to 12,000 mailing addresses used to distribute all official correspondence of the U.S. Information Agency and a number of publications. The system contains 27 major group codes and 29 subcodes, making it possible to provide a wide variety of mailings. **Input:** Data contained in the master file are updated from information submitted to the Automatic Data Processing Division on prepared input sheets. **Output:** The master mailing lists and mailing labels are produced as requested. About 100,000 mailing labels are produced annually.

Locator and Telephone Directory System (L.O.T.D.)

OMB Funding Code/Title: 67-0201-0-1-154 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Foreign Service Act of 1946 (P.L. 79-724; 22 U.S.C. 801-1158). Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256; 22 U.S.C. 2451). Foreign Relations Authorization Act of 1979 (P.L. 95-426). U.S. Information and Educational Exchange Act of 1948 (P.L. 80-402).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This is an on-line system used to record and make available on an immediate-access basis appropriate location file data for all domestic employees of the U.S. Information Agency. The system is used to locate domestic employees on a day-to-day basis, to prepare the agency telephone directory, to provide the addresses necessary for the preparation of wage and tax statements, and to prepare other statistical forms and reports as necessary. The system consists of the employee locator master file, the agency functional file, and the agency organizational file. **Input:** Data in the employee locator master file is updated on the basis of a locator card furnished by the employee. Information received from the Mail and Telephone Branch is used to update the organizational and functional files. **Output:** A daily transactions register, a weekly locator report, and other reports as requested are produced in hard copy. Quarterly proof lists of the functional and organizational sec-

Availability: Internal Use Only

Purpose: The system provides for the evaluation of Agency production on priority issues in international relations. It is a system for displaying production to assist managers and policymakers in evaluating the adequacy and relevance of media products. The system also serves to convey to producers the issues of priority concern to Agency management. **Input:** System input is internal. Data on production is entered directly into the record daily by the Program Evaluation Staff. **Output:** This system provides a weekly hardcopy printout of two weeks' production (indexed by subject, product type and dates) to be used as a tool for evaluating Agency media output on priority subjects. The printout is distributed to the Office of the Director and the Associate Director/Deputy Associate Director for Programs as well as the heads of major producing elements.

Nuclear Regulatory Commission

S06200-004

Nuclear Materials Management and Safeguards System (NMMS).

1968

ment Subcommittee
Authority: Energy Reorganization Act of 1974 (P.L. 93-438, title 11, § 204-205; 88 Stat. 1245-1246; 42 U.S.C. 5844-5845; US/IAEA SG Agreement, Canadian and Australian Bilateral Agreements, [NFCIRC 207].
Availability: Internal Use Only
Geographic Relevance: International/Foreign; National; Local
Purpose: This system supports national and international safeguards and nuclear material management goals by maintaining an inventory of nuclear source materials, special nuclear materials, and other materials controlled by the U.S. government. The system contains detailed information relating to transfers of materials between domestic facilities, transfers of materials into and out of the United States, and foreign retransfers of materials in which the United States has a continuing interest. The system contains about 5 million records. Inventories are updated bimonthly or semiannually; transfers are updated continuously. Reports provide such information as summary data on transfers and inventories over time, by location, and by material type. **Input:** Information on the location and quantities of special nuclear material in the possession of Department of Energy and Nuclear Regulatory Commission licensees is obtained primarily by report from such facilities or organizations. **Output:** Over 100 different standard reports are available, many of which are printed and distributed on a regular basis. Ad hoc reports are prepared almost daily.

Postal Service-Wide Contract System.

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Capital Investment; Building Occupancy; Administration and Regional Operations; Supplies and Services; Servicewide Expenses

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides a quarterly updated listing of all postal equipment and supply and service contracts (except those for real property acquisition and for mail transportation). The data generated by this system are intended for use by all levels of postal contracting management. The purpose of the data presented is to provide contracting managers with an overview of procurement activities and statistical summaries within their sphere of management control. The data elements include the postal facility awarding the contract; the contract number, including the fiscal year of award; the method of award (formally advertised, negotiated price competition, negotiated design or technical competition, follow-on to competition, sole source, intergovernmental commercial source, or intergovernmental noncommercial source); the item being purchased; the value of the contract; a code to identify the contractors as a large business, small business, or minority business; the award date of the contract; the completion date of the contract; the status of the contract (active, termination in process, physically complete, or closed out); the contract type (cost reimbursable, time and material/labor hours, or firm fixed price); the identity of the contractor; the requiring activity (for USPS headquarters Office of Contracts awards only); the contracting officer (for USPS headquarters Office of Contracts awards only); and the value of contract modifications. **Input:** Data are input by means of contract registers maintained by each postal contracting facility and forwarded to the U.S. Postal Service Western Area Supply Center, Topeka, KS, at weekly intervals. **Output:** Output includes computer printed listings of contract awards by postal contracting facility and computer printed summaries by methods of awards, commodities, number of contracts, total dollar amounts of awards, as well as random selections of certain data elements.

Mail Fraud and Prohibited Mailings System. (JDE01).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system maintains information pertaining to the type, frequency, and location of various occurrences of mail fraud and prohibited mailing schemes. It enables the Inspection Service, USPS, to give prompt investigative attention where needed. Reports are produced to indicate the details of investigations in progress and investigations completed. Data are broken down under federal judicial district or non-federal judicial district to indicate the number and date for presentations, prosecution declined, indictments, arrests, dismissals, acquittals, or convictions. The kind of sentence and length of sentence and the amount of fines or restitution also appear. In addition, fraud cases data contain the amount of public loss or public savings, and prohibited mailing cases data contain the amount of dealers' gross annual receipts. The system contains information pertaining to mail fraud and prohibited mailing schemes on a nationwide basis. It is updated as data are submitted. **Input:** Data are derived from USPS Form 536--Source Data--Fraud and Mailability (prepared by USPS Inspection Service). **Output:** Closed Case Reports are printed monthly and quarterly. Mail fraud and prohibited mailings data are available by query.

Agency Contact: (202) 245-4142.

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: ODIS is an information system by which mail volume data, service analysis data, and other characteristics of mail data are collected, developed, and presented in a variety of report formats for use by all levels of postal management in such areas as: 1) design and development of bulk and preferential mail centers; 2) development of forecasts of mail volume for planning purposes; 3) measurement of overall service performance through the National Service Index Report; 4) measurement of service standard achievement; and 5) forecasting, budgeting, fiscal control, and manpower planning operations. Reports include class of service achievement, service analyses, national and interregional distributions, mail characteristics, and ZIP code usage. The system collects information on mail volume data and service analysis. Information consists of statistically selected samples in a nationwide basis. **Input:** USPS Form 1300, a data collection form for recording origin destination service performance information, is the source of information. Data are collected at selected sample post offices. **Output:** The following printed reports are produced quarterly: Service Analysis Data for First-Class Letter Mail Between Major ODIS Areas in The United States; National Service Index Report; Bulk Mail Facility (BMF) Report; and Mail Characteristics Report. The First-Class Mail Standard Achievement Report is printed biweekly and for accounting periods.

Agency Contact: (202) 245-4142.

Revenue History Report. (ADN).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides an annual historic revenue report of selected revenue accounts for use by the Economic Analysis Division, USPS, in monitoring revenue patterns nationwide starting with fiscal year 1973. It contains annual revenue data for all post offices within each 3-digit postal ZIP code area. The system contains data used to monitor USPS historical revenue patterns. Information is updated annually. **Input:** Data are derived from selected revenue accounts from the General Ledger System. **Output:** Annual Revenue Data for All Post Offices is printed and generated on magnetic tape.

Agency Contact: (202) 245-4142.

S06300-014

Revenue/Cost Analysis System (RCAS). (ALA00).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The revenue portion of the system estimates revenue and pieces and weight of mail by class, subclass, and type of mail service. It is called the Revenue, Pieces and Weight System. The domestic and foreign probability estimates account for about 85 percent of all revenues. The domestic nonprobability estimates (publishers second-class, controlled circulation, third-class bulk rate, and fourth-class catalogs) account for the remaining 15 percent and are derived from samples at destination points in post offices. The data collected and estimates made are used to prepare the Annual Revenue and Cost Analysis Report and the Postmaster General's Annual Report. The cost portion is primarily based upon the In-Office Cost System. This system samples the work of employees in all categories of post offices, except the smallest offices, to estimate within-office direct labor costs of handling mail by class and subclass and other postal services. This system deals with about 60 percent of all wage and salary costs. The revenue and cost estimates by class of mail and type of service are used as a basis for rate proposals prepared for review by the Postal Rate Commission. This is the statistical analysis system utilized by the USPS to estimate revenue and costs by class of mail. It is based upon designated samples collected on a nationwide basis. **Input:** Revenue and cost data are derived from statistically selected probability samples. **Output:** The following reports are

printed: Domestic Mail Estimates of Revenue, Pieces and Weight by Class (accounting period, quarterly); Congressional Franked Mail Estimates of Pieces and Weight (quarterly); Volume of Registered and COD (quarterly); Penalty Mail (quarterly); and Bulk Mail Estimates of Pieces and Weight (annually).

S06300-016

National ZIP Code System. (HZA02).

1962

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system maintains records of ZIP codes assigned to post offices throughout the United States and its possessions. Data are arrayed to indicate class or type of unit. In addition, records are maintained for multi-ZIP coded cities which indicate post office box numbers, rural routes, stations and branches, buildings, firms having unique ZIP codes, hospitals, apartments, hotels, motels, government buildings, colleges, universities, military installations, and named and numbered streets. The data are used to produce the Directory of Post Offices and the National ZIP Code Directory, which are updated quarterly. County data are updated annually. ZIP-a-list master tapes and ZIP-a-list change tapes are produced quarterly and are available for loan to postal customers from postal data centers. The system is used to maintain ZIP codes assigned to post offices nationwide. It is updated quarterly and annually. **Input:** Data are derived from Form 1362--Report of Change in Post Office Status and Form 1061--Changes to Street Master File. Source data are prepared by the Customer Services Department. **Output:** The following reports are printed annually: GPO Formatted State List; GPO Formatted Numeric List Tape; GPO Formatted Alphabetic List Tape; GPO Formatted County List Tape; GPO Formatted National ZIP Code Directory; and Postmaster ZIP Code List. ZIP-a-list master tape and a directory of post offices file are generated quarterly on magnetic tape.

Concentration Bank Analysis Program. (AJA01).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations; Administration and Regional Operations

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The system is to enable the Banking Division, USPS, to analyze earnings, expenses, and profitability of concentration bank operations in order to make needed monthly adjustments to deposits in each of the 11 concentration banks. Data on the analysis of concentration bank operations are maintained in the system. They are updated monthly and cover nationwide operations. **Input:** Input is prepared by the USPS Banking Division from concentration bank data. **Output:** A monthly USPS Concentration Bank Analysis is printed.

U.S. Postal Service Financial Reporting System. (ABV06).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations; Administration and Regional Operations

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system is used by the USPS management to control costs. It is designed to compare both the current and year-to-date actual revenue and expense with the plan for the same period last year. Reports provide a condensed revenue and expense statement and average productive hourly rates by employee category for each of the 5,000 largest post offices as well as summaries for all sectional centers, districts, regions, and the Nation. Summaries are also produced for individual headquarters organizational units such as departments and groups. The system provides condensed revenue and expense statements for the largest 5,000 post offices in the Nation. **Input:** Data are derived from General Ledger Revenue and Expense Accounts (USPS Accounting System) and USPS Budget Planning System (USPS Operating Financial Units). **Output:** A 1-page financial statement for each USPS organizational unit for each accounting period is printed.

Agency Contact: (202) 245-4142.

506300-019

Budget and Reporting System. (AMA00).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations; Transportation; Supplies and Services; Administration and Regional Operations; Research and Development; Servicewide Expenses

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The system provides financial plan data to managers in the Postal Service for the purpose of comparing approved budget authorizations against actual data. Reports produced by this system are distributed to organizations by finance number, departments, and groups. This system for financial operating plans is updated annually, quarterly, and as required. Special updates are usually necessitated as a result of contract negotiations. **Input:** The National Budget System is an interactive computerized system which is processed through computer terminals for post offices, MSC, Districts, and Regional Headquarters. These processes are all established through one Data Center, where all Regions

are consolidated and are combined with Headquarters and Inspection Service to create a National Budget. **Output:** A financial plan for each accounting period is printed. Initial report cycle provides all accounting periods and a fiscal year total, prior to incorporation with postal service financial report.

Agency Contact: (202) 245-4142.

506300-020

Government Fiscal Year Revenue System. (ADG00).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The system is designed to collect revenue data reported on postmasters' statements of accounts and to compile such data into various revenue categories and cost groupings. Reports produced identify each post office's revenue in dollars, its cost ascertainment, revenue units, and other pertinent information. The system contains data on the collection of postal revenue by class of office and type of revenue. **Input:** Data are derived from General Ledger Revenue Accounts, automated data collected from the USPS Accounting System. **Output:** Statements of Revenue by Class of Office and Type of Revenue are printed for accounting periods and fiscal years.

Agency Contact: (202) 245-4142.

Management Operating Data System. (HSM00).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The system is designed to provide postal management with essential information on the relationship between workloads and actual and planned work hours. The system is not designed to compare one installation with another but to provide local management with information needed for planning and control. Management summary type reports are produced identifying by post office the work hours by division, mail volume, detailed breakout by operation, volume transactions by time, work hours by operation/tour, station/branch operation breakouts, letter sorting machine performance, and trend analysis. The system contains information that provides local post office management a basis for planning and control. **Input:** Data are derived from mail volume recorded at first distribution handling (data captured via Postal Source Data System scales and meter readings from piece handling equipment at largest post offices). Work hours are recorded from the post office's time and attendance system. **Output:** A management report (summaries of work hours) is printed daily.

Depot Supply Management System. 12/74

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Capital Investment; Building Occupancy; Administration and Regional Operations; Supplies and Services; Servicewide Expenses

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to control inventories of postal equipment, general supplies, and mechanized equipment (repair parts stocked, stored, and issued by area supply centers at Somerville, NJ, and Topeka, KS, to post offices, bulk mail centers, and vehicle maintenance facilities. Data on requirements forecasts, stock levels, and issue quantities are made available to supply managers at the supply centers, USPS headquarters, and financial managers at the postal data centers and USPS headquarters. The system identifies each supply center inventory item by stock number or post office item number, by descriptive name, quantity on hand, quantity due in, unit of issue, unit price, and the factors related to computation of stockage quantities, such as usage rates, lead times, safety levels, operating cycle times, and economic order quantities. Items of equipment repair parts are also identified to their

center. **Output:** Output is from the computer located at the U.S. Postal Service Western Area Supply Center, Topeka, KS, and includes automated stock item status printout notices to supply managers; automated inventory item quantity and value report printouts; and accounting period (4-week interval) reports on the items issued, by dollar value, to postal facility. This report is transmitted by the Topeka computer directly to each postal data center computer for use in financial reports.

S06300-026

Rural Route Evaluation System. (AAQ00).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee*

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to evaluate the workload on rural routes for determining carrier compensation and/or possible adjustments of workload and areas served. The system is nationwide in scope and used by Postal Service management in evaluating rural mail delivery and collection operations and administering these functions efficiently. Content includes individual route workload characteristics such as mile volume, route mileage, mailboxes served on routes, actual carrier work hours, and carrier daily work schedule. The information is recorded at post offices for a 2-week period during the year (normally in September) and submitted to USPS data centers for computer conversion to route evaluated work-hours. Adjustments are made in rural routes a rural carrier compensation based on the results of the mail count. Rural routes at all post offices are included in the system and affected by the system guidelines. **Input:** The primary source of the data is actual mail counts taken on rural routes annually or more frequently when required by instructional formula. The mail count operation is internal; data are gathered by Postal Service personnel for application to Postal Service mail delivery operations. **Output:** Output is individual hardcopy sheet

for each rural route evaluated in the system. A hardcopy listing of all routes, by region and nationwide, where mail counts were conducted and routes evaluated, is also provided. Reports are produced annually (more frequently for certain routes). The system is on tape and can be queried.

National Maintenance Information and Control System (NMICS). 12/74

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: The National Maintenance Information and Control System (NMICS) gathers fundamental maintenance information at the local site level and generates maintenance management reports which are used by all levels of USPS management. The designation of NMICS offices is the responsibility of the Regional Postmasters General. Information consists of preventive maintenance activities and equipment inventories. **Input:** Input is derived from Form 4789, Equipment Inventory Record, and Form 4788, Preventive Maintenance Inventory Record. **Output:** The system produces the following reports: the corrective maintenance backlog report, produced weekly; the route sheet register and the plant maintenance cost report, produced each accounting period; and the plant equipment operation/maintenance by exception report, produced quarterly. NMICS inventory data is transmitted to the Depot Supply Management System where local NMICS inventory files are up-dated and initiates the information required for the depots automatic reorder system.

Express Mail System Performance Reporting System. (CEC01). 1978

OMB Funding Code/Title: 18-1001-0-1-372 / Payment to the Postal Service fund

Program: Public Service Costs; Free and Reduced-Rate Mail

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides the Postal Service management with information pertaining to Express mail service agreements, including revenue, volume, weight, and on-time service performance. Service agreement and revenue subsystems are updated each accounting period. Service performance data are updated weekly. **Input:** Service agreement data are extracted from PS Form 5637. Revenue information is extracted from PS Form 5687, and service performance data from PS Form 5662. Data are also obtained from express mail address labels forms. **Output:** Major hardcopy reports include sales goals versus actual revenue, detailed revenue, permit account shipments, government agency billing, and weekly service performance.

Vehicle Management Accounting System (VMAS). (AEF).

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375; 84 Stat. 720, 724; 39 U.S.C. 404; 39 U.S.C. 201).

Availability: Agency

Geographic Relevance: National; Region

Purpose: The Vehicle Management Accounting System (VMAS) is a data collection system that collects, edits, stores, transmits, and reports U.S. Postal Service vehicle and vehicle parts usage, maintenance, and inventory. VMAS accumulates data to support General Ledger entries for expense and income items, such as gasoline, vehicle parts and supplies, warranty expense and reimbursements, vehicle depreciation, vehicle sales expense, and vehicle sales income. Microcomputers installed in each VMF collect relevant data elements for VMAS and provides an inventory control method. VMAS addresses vehicle maintenance and utilization activities, spare parts, inventory control, management analysis, and information reporting requirements. **Input:** Input is derived from Motor Vehicle forms prepared at the post office and Vehicle Maintenance Facility (VMF) level containing information on gasoline, vehicle parts and supplies, warranty expenses and reimbursements, vehicle depreciation, vehicle sales expense, and vehicle sales income input into microcomputers. **Output:** The system produces various reports for inventory control, vehicle use, maintenance file(s) processing, and local reporting capability to provide a facility for relevant management analysis at the local level. Further processing of the collected VMAS data through communication links to the PDCs produce summarized reports for different management levels, i.e., location, districts, regions, and national headquarters.

S06300-032

National Workhours Reporting System (NWRs). (AMC).

1981

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375; 84 Stat. 720, 724; 39 U.S.C. 404; 39 U.S.C. 201).

Availability: Internal Use Only

Geographic Relevance: National; Region

Purpose: The system captures employee T&A through clock rings of large post offices and regular time cards in all other offices. T&A data are accumulated in terms of the appropriate Labor Distribution Codes (LDCs). Throughout the fiscal year this workhour data enables the sys-

tem to record and report the following: hours worked; leave taken; hours paid; and salaries and benefits paid by functional category. There are two major reports generated from this collected data: Workhour and Labor Utilization. These reports provide headquarters, regions, districts, sectional centers, and large postal facilities with timely information on: (1) how manpower resources are being functionally used; and (2) the relationship of manpower resources to planned expenditures. **Input:** Data are derived from payroll Time and Attendance (T&A) records covering all field employees (in order to identify all hours worked within budgetary categories and within specific Labor Distribution Codes). Clock rings are used for recording T&A at large post offices, and time cards are used for all other post offices. **Output:** Pay period and accounting period reports are printed reflecting labor distribution information and actual labor expenditures.

S06300-033

Transportation Management System (TMS). (LATOO, LECOO, LAROO). 1977

OMB Funding Code/Title: 18-4020-0-3-372 / Postal Service

Program: Postal Field Operations

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Postal Reorganization Act of 1970 (P.L. 91-375; 84 Stat. 720, 724; 39 U.S.C. 404, 39 U.S.C. 201).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The Transportation Management System serves as the primary data source for efficient routing of mail. It provides: (1) dispatch, routing, labeling and transfer instructions for all classes of mail; (2) the tracking of railvan and mail transport equipment status for all postal facilities; and (3) automated assistance in transportation contracting procedures. The system requires large on-line files. **Input:** Input consists of the following: (1) airline schedule information directly from an airline guide company; (2) local trucking/rail information from area transportation management offices; and (3) equipment status information from large postal facilities. **Output:** Output, when requested, provides complete logistics information and reports concerning all aspects of postal management.

Agency Contact: (202) 245-4142.

United States International Trade Commission

S06400-001

U.S. International Trade Commission Accounting System.

OMB Funding Code/Title: 34-0100-0-1-153 / Salaries and expenses

Program: Research, Investigations, and Reports

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Antidumping Act of 1921 (P.L. 67-10); Traffic Act of 1930 (P.L. 71-361); Trade Act of 1974 (P.L. 93-618).

Availability: Internal Use Only

Purpose: The system provides various statistical records and activity data for the purpose of comparing approved budget and work plan authorizations against actual workload and assessing the need for management actions. The files contain current period (month or 4-week period) and year-to-date data on agency obligations, disbursements, and activity statistics. Personnel costs are maintained on both an organizational component and activity basis. **Input:** Source documents are prepared internally from financial transaction documents and from information received from organizational components within the Agency. **Output:** Principal output is monthly and annual reports on budget execution and the financial status of the Agency and activity time and cost reports

based on 13 4-week periods. Output is hardcopy and no capability currently exists for on-line query of the system.

Veterans Administration

S06600-002

Construction Management Information System.

OMB Funding Code/Title: 36-0110-0-1-703 / Construction, major projects; 36-0111-0-1-703 / Construction, minor projects

Program: Replacement and Modernization; Nursing Homes; Research and Education; Domiciliaries; Cemetery; Nursing Homes; Research and Education; Cemetery; General Administration

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Veterans Benefits Act (P.L. 85-857).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City; Congressional District

Purpose: This system and its related subsystem data files are used to develop the annual VA hospital and cemetery construction program obligation plan, monitor and control the status of individual projects making up the plan, and process payments on selected projects costing more than \$1 million. The system tracks a project from its inception, at budget formulation through final financial payment. More than 2,500 projects updated monthly are monitored through a critical path of 15 major milestones. Projects range in size from \$50,000 to more than \$100 million. Milestone progress monitored includes project submission, award of design contract, completion of design, issue of bids, construction contract award, and completion. **Input:** Input is received from numerous agency sources during the project life cycle, including field stations, architect/engineer firms, and construction contractors. Source data forms include monthly project progress reports from stations, cost estimates from Estimating Service, project submissions from Health Care Facility Service, and assignments of minor projects to DM and S from project supervisors. **Output:** Monthly reports are generated in several formats displaying individual project status in terms of schedule and costs. Individual project status is reported by major and minor programs, by VA region and by Office of Construction region. Separate reports on cemetery projects status are generated. Also available from the system is a comprehensive prediction of project and program performance for the current fiscal year.

S06500-021

Benefits Payable Under the Veterans' Benefits Act (TARGET).

10/80

OMB Funding Code/Title: 36-0120-0-1-701 / Veterans insurance and indemnities; 36-0137-0-1-702 / Readjustment benefits

Program: Compensation, Pension, Burial; Education and Training

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits Act (P.L. 85-857; 38 U.S.C. 301, 401, 501).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system will compute benefits payable under provision of Title 38 U.S.C. chapters 11, 13, and 15 to veterans and eligible survivors based on a service connected disability or death or non-service connected disability. In addition, it will provide for payment of readjustment and rehabilitation benefits to veterans authorized by U.S.C. 38 (chapters 31, 32, 34, 35, and 36). The system includes the following information: payee's name and unique file number, codes for benefits awarded, monthly benefit amount, payment status, educational data, and military service data. **Input:** Input data are received from claimants, service departments, veterans service records, and school and training facilities for determination of eligibility and entitlement to benefits. **Output:** Output from this system will be on-line interactive prod-

lets. The system will replace the present batch compensation, pension, and education system.

Agency Contact: (202) 389-5052.

Budget and Finance

SG6501-001

Automated Budget System (ABS).

OMB Funding Code/Title: 36-0151-0-1-715 / General operating expenses

Program: General Administration

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1114; 38 U.S.C. 210 et seq.).

Availability: Internal Use Only

Purpose: The Automated Budget System (ABS) provides budgetary data for the internal administrative budget processes. Data also is used for submission of the Agency's budget request to the Office of Management and Budget (OMB). Information is maintained for seven budget years (one past year, current year, budget year, and four out-years). All accounts appearing in the Budget Appendix for the Veterans Administration are included in this system. **Input:** Input consists of Department of the Treasury data and Agency accounting records. Departmental budget offices provide the sources of data. **Output:** Output appears in hardcopy, magnetic tape (to OMB) and CRT display. Frequency is irregular.

Purpose: CALM was established in 1971 to accomplish administrative accounting, voucher audit, and payment activity for the Veterans Administration. The accounting records and the payment activity for all VA facilities served by CALM are centralized at the Veterans Administration Data Processing Center (VA DPC), Austin, TX. Voucher audit is also centralized for selected facilities which are identified as FULL CALM. The remainder are designated MOD CALM (modified CALM). CALM is a VA-wide system which maintains files of 1) vendor

is received from: (1) VA facilities (code sheets transmitted via GSA Advanced Record System); (2) VA DPC Austin, TX, finance activity (code sheets key-entered on magnetic tape); (3) VA payroll system (magnetic tape linkage); and (4) VA fee basis payments (magnetic tape linkage). **Output:** The principal output is processed input, rejected input, control points, status of funds, journal reports, cost reports, and obligations reports. The frequency of these reports is daily, monthly, and annual. The output media are teletype, print, microfiche, and magnetic tape.

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County

Purpose: CASC was established in 1972 to accomplish administrative accounting, voucher audit, and payment activity for the Construction Program in the Veterans Administration. The accounting records, voucher audit, and payment activity for VA facilities served by CASC are centralized at the Veterans Administration Data Processing Center (VA DPC) Austin, TX. CASC is a VA-wide system which maintains files of (1) general ledger data, (2) subsidiary data, and (3) project miscellaneous descriptive data. CASC is processed daily for report production and file updates. **Input:** CASC input is received from (1) VA facilities (code sheets are transmitted via GSA Advanced Record System); (2) VA Central Office of Construction (code sheets are transmitted via GSA Advanced Record System); and (3) VA DPC Austin, TX (code sheets are key-entered on magnetic tape). **Output:** Reports produced (on teletype, hardcopy or microfiche) include: 1) Daily--Input, Rejects, Statistics on Input, Journal, Cash Disbursements, Account Balances; 2) Weekly--Status of Funds, Status of Accountability, General Ledger Updates; 3) Monthly--General Ledger (Reconciliation, Update, Trial Balance), Status of Funds Obligations, Reimbursements to Supply Funds, Project Reserves, Transfer History, Accrued Expenditures, Subaccount and Payroll Analysis, Status of Appropriations, Project Status, Cash Disbursements, Capitalized Overhead Cost Accounting for General Administration; and 4) Annual--Trial Balance, fiscal year closing entries, cumulative obligations and accrued expenditures, and projects financially complete.

Purpose: This system provides data on all research and development activities supported by the Veterans Administration (VA) for use in program planning and in implementation and evaluation of VA research and development activities. This system provides scientific information for use in internal program administration and evaluation and for reports to the Congress and other interested parties. Subsystems for retrieving data include investigators, program areas, medical centers, selected disease systems, and other factors. Longitudinal data are available in selected categories for a five-year period. Information is updated at least annually. **Input:** The primary sources of information are the annual research and development information system reports submitted by VA medical centers, notices of research projects submitted by VA investigators, and VA central office research and development budgetary and management data. **Output:** Computer generated printouts provide aggregated data on all ongoing VA-sponsored research and development activities for each VA medical center.

Geographic Relevance: National; State; City; VA Medical District/Region

Purpose: The Space and Functional Deficiency Identification (SFDI) System is a health care facility evaluation and management information system which identifies facility deficiencies by comparing existing facilities against established criteria. The SFDI System provides an inventory of facility deficiencies and corrective projects and permits the development of systemwide construction priorities to support the planning and budgeting processes. The SFDI System provides a profile of facility problems that exist at each medical center in the VA system. The system also includes data on planned or funded construction projects and on facility staffing and workload. The data base is updated continuously as changes occur at the facilities. In addition, a complete resurvey of all

facilities of patients to determine space in use, space required to meet fire and life safety codes, and data on funded or planned construction projects. The majority of the input is provided by hospital and medical district personnel. The remainder of the data is obtained from other agency information systems. **Output:** Reports are produced on an annual to an ad hoc basis in a variety of media with on-line query capability. There are two major types of reports: various reports on facility deficiencies at Veterans Administration Medical Centers and various reports for program planning and construction budgeting.

Geographic Relevance: National

Purpose: The system provides data on the number of beneficiaries enrolled in the program; the cost of providing health care (hospital, physician, dental, and prescription); number of bed days, physician visits; and number of prescriptions for the purpose of detailing current activity levels, as well as forecasting costs and activity levels. The report is for the total United States on a monthly cumulative basis by year of service, and by year and month of payment by CHAMPUS to the billing party. **Input:** Input is provided by patient medical records, hospital, and physician bills. This system is operated for the VA by DOD CHAMPUS located at Denver, CO. **Output:** This system generates the following reports: Number of beneficiaries on rolls, monthly cumulative (hardcopy); report on year of service and month, and year bill is paid by CHAMPUS. This system also includes reports on hospital cost, physician and dental cost, number of visits, and cost of prescriptions.

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system's purpose is to secure the latest retrospective information for numbers of all types of health trainees; names of cooperating institution, if applicable; and certain trainee attributes noted below. It is intended to cover centrally stipended and unstipended trainees who receive all or part of their clinical experience in VA health care facilities. Information encompasses identification of numbers of trainees for each fiscal year, from all health facilities involved, their affiliated institutions, and the following attributes regarding both programs and trainees: identification of each training program, number of and academic/occupational level of trainees (grouped) per institution, and pay and veteran status of trainees (grouped). **Input:** The primary source of data is each health facility engaged in education and training activities. **Output:** Principal annual output (machine-readable listing)

city; numbers and types of trainees (and attributes) by training programs; numbers of allied health trainees and academic affiliations within each program by reporting facility; and detailed identification of each program with respect to reporting facility, numbers of trainees, and cooperating institution. Query capability beyond that above requires the development of a system.

Program: Maintenance and Operation of VA Facilities

Congressional Relevance: *House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee;* HUD-Independent Agencies Subcommittee; *Senate Appropriations Committee;* HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-587; 72 Stat. 1243; 38 U.S.C. 4101).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: PTF is a system for inputting, maintaining, and presenting personal, demographic, and clinical data related to care and treatment episodes of individuals who are patients or members in VA hospitals, domiciliarys, and nursing home care units or who are provided care or treatment under VA auspices in a non-VA hospital or nursing home. It provides facility indexes required for JCAH accreditations, ad hoc reports for clinical research studies, source of patient load information, length of stay information, and demographic and clinical information regarding care furnished to veterans by the VA. The major categories of input data are personal identification, demographic information, admission and disposition information, and diagnostic and surgical information coded according to the International Classification of Diseases. **Input:** The primary source of the data is the individual's medical record maintained for each episode of care in a health care facility. **Output:** The output from this system may be a record printout for a specific episode of care; a report in machine-readable form, either punched cards or tape, hardcopy, or microfiche. The medium is selected in accord with the needs of the user. Periodic reports are prepared monthly, quarterly, semiannually, or annually as required by the user. There is no real-time query capability in this system.

Veterans Appeals Records Management System (VARMSS).

06/76

OMB Funding Code/Title: 36-0151-0-1-705 / General operating expenses

Program: Veterans Benefits

Congressional Relevance: *House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee;* HUD-Independent Agencies Subcommittee; *Senate Appropriations Committee;* HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857).

Availability: Internal Use Only

Purpose: This system maintains records on appeals involving veterans' benefits and controls the record through the several steps of the appellate process. The system contains about 63,000 appeals records serving the regional offices and the central Board of Veterans Appeals. The file is updated weekly in a batch environment which includes new additions, changes, deletions, and update transactions. **Input:** Regional offices provide code sheets or turnaround cards containing data on new appeals and update information on existing records. **Output:** Weekly reports include the edit/update message, the updated veterans appeal master list, and a quality control report in hardcopy format and the turnaround record in punched card format. A monthly master/suspense list is printed in hardcopy. A quarterly summary report is also generated.

Program: Death Claims

Congressional Relevance: *House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee;* HUD-Independent Agencies Subcommittee; *Senate Appropriations Committee;* HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1148; 38 U.S.C. 101).

Availability: Internal Use Only

Purpose: The files were established in 1917 with the beginning of the War Risk Term Insurance Program. The major function of this file is to house, in systematic order, applications, correspondence, and evidence of various actions taken on these accounts. Each folder contains the veteran's original application for insurance along with all correspondence and documentation of policy actions considered to be of record value. Also, any applications for reinstatement, loans, cash surrenders, disability benefits, beneficiary changes and Total Disability Income Provisions are filed in the insurance folder. **Input:** New folders are established as applications are approved in the Service-Disabled Veterans Insurance Program. This is the only government life insurance program still issuing new policies. Other material being added to previously established folders under all of the insurance programs includes correspondence, documentation of various policy actions and applications for loans, cash surrenders, reinstatements, disability benefits, Total Disability Income Provisions, and beneficiary changes. **Output:** Individual files are pulled and reviewed where necessary to respond to correspondence or to accomplish necessary policy actions.

S06606-004

Veteran GI Loan ADP Reporting System (GLI).

06/70

OMB Funding Code/Title: 36-4025-0-3-704 / Loan guaranty revolving fund

1801 et seq.).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County

Purpose: The system was established to provide an automatic data processing facility to monitor the origination of GI loans in the 50 field stations authorized to guarantee loans. The major functions of this system are to validate all input data, add new loans to the master record file, change the status of the previously established master records when the loan is paid in full or a claim is paid on the loan, and produce various statistical reports. The master record is updated monthly and consists of a state and county code, purpose of the loan, date of the loan, credit information, an assigned loan number, the origination procedure, the type of lender making the loan, the amount of the loan guaranteed, the amount of the loan, the term of the loan, the office originating the loan, year of birth of the veteran, the purchase price of the loan, the relationship of the purchase price to the value established by the appraisal, race of the veteran, the monthly shelter expense, the military status of the veteran, and the interest rate of the loan. **Input:** The data are derived from a veteran's application for loan benefits and the lender's certification of loan disbursement. **Output:** The following hardcopy reports are produced: 1) Monthly cumulative GI loan operations by regional office (home and manufactured home loans), lender distribution (home and manufactured home loans), class of veterans and servicemen (home and manufactured home loans); 2) Quarterly financial characteristics (home and manufactured home loans); and 3) Semi-annually contingent liability report (home and manufactured home loans). Also, tapes are sent to Community Service Administration annually.

Portfolio Loan System (PLS).

06/71

OMB Funding Code/Title: 36-4025-0-3-704 / Loan guaranty revolving fund; 36-4024-0-3-704 / Direct loan revolving fund

Program: Guaranteed Loans; Direct Loans to Veterans

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1203; 38 U.S.C. 1801 et seq.).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The system provides an automated integration of input and output for statistical workload and accounting data regarding the Veterans Administration portfolio of direct loans, vendee loans (loans established through the sale of property), and acquired loans. The system maintains the payment records, tax and insurance transactions, and necessary servicing information for each account in the VA portfolio, as well as statistical and workload information regarding the portfolio as a whole. The master record contains property location codes, name and address, social security number, age, military status and entitlement of the borrower, and purchase price loan amount, term, type of security instrument, purpose, date of closing, type of loan and identification data for the original loan transaction; current principal, and tax and insurance balances; amount of principal, interest, and tax and insurance payments due monthly; annual and daily interest rate of the loan; taxing authority, special assessment and insurance identification and amounts; and delinquency or default information. **Input:** The data are derived from direct loan applications and the closing documents of direct, vendee, and acquired loans. **Output:** The principal output includes suspended credit lists, cumulative history list, automatic transfer of trusts, loans in trust totals report, accrued interest report, default list, direct loans sold, direct loan activity, direct loans by entitlement, and direct loans by county analysis. These reports are generated in hardcopy on a monthly and annual basis.

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County

Purpose: LCS provides for the operational control, servicing, and reporting of defaults, liquidations, and claims on outstanding GI loans and VAR 4600 loans. The system monitors the progress of servicing efforts from the time VA receives notification that the loan is in default until the default is cured or the loan is liquidated. The master record, which is updated daily, contains the following information for each loan in default: codes identifying the loan, the station of jurisdiction, property location, the mortgagee; dates concerning the notice of default, notice of intention to foreclose, cure, foreclosure sale; and dollar amount for cost of foreclosure debt, upset price, appraised value at foreclosure, original reasonable value, original loan amount, holders computation of total indebtedness, liquidation expenses, balance on tax and insurance account, proceeds of liquidation, advances made, interest to cut on date, and other information. **Input:** Sources of data include notice of default, notice of intent to foreclose, report of supplemental servicing, summary of basis for liquidation procedure, deed-in-lieu, notice of cure, and claim analysis. **Output:** Reports produced include alpha/numeric index of active LCS records, indebtedness on GI loan defaults classified by insoluble, indebtedness on GI loans pending, number of liquidated loans by original loan, term vs. life of loan, and average life of loan by original loan term. These reports are generated in hardcopy and tape monthly and annually.

Insurance Master Record.

OMB Funding Code/Title: 36-4012-0-3-701 / Service-disabled veterans insurance fund; 36-4010-0-3-701 / Veterans reopened insurance fund; 36-8132-0-7-701 / National service life insurance fund; 36-8150-0-7-701 / United States government life insurance fund; 36-8455-0-8-701 / Veterans special life insurance fund

Program: Death Claims

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1148, 38 U.S.C. 701 et seq.).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State

Purpose: The system was established in 1959 to provide an electronic data processing facility to maintain records of government life insurance accounts. The master record contains data on each active government life insurance account. Individual records contain information such as insured's name and address, insurance file number, policy number, plan and amount of insurance, effective date, premium rate and payment information, and dividend information, as well as other information. **Input:** New records are established on the system only as policies are issued under the Service-Disabled Veterans Insurance Program or lapses of accounts are reinstated. Records currently in the system under all of the insurance programs are updated daily. **Output:** The system generates a variety of statistical reports monthly, semiannually, and annually. Used internally for managerial and actuarial purposes, these reports contain information such as number of policies and amount of insurance in force by program and plan, number of lapses, loans, dividend information, policies on waiver of premiums, death claims, and policies issued. In addition, certain types of correspondence to insured veterans

are automatically generated such as tapes and status notices, cancellation notices, loan payment receipts and bills for loan and premium payments. Record printouts are also generated to obtain complete status on individual accounts.

Agency Contact: Department of Veterans Benefits. (215) 951-5721.

S06506-008

Compensation and Pension (C&P).

06/68

OMB Funding Code/Title: 36-0120-0-1-701 / Veterans insurance and indemnities

Program: Compensation; Pension; Burial

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State

Purpose: The system primarily serves as the basis for issuing all benefit payments. Recurring monthly benefits, when approved, are issued based on payment data retained in the system. The individual records in the system also contain limited historical payment information, no more than nine past payment rates and effective dates, with priority assigned to retention of most recent historical information. The individual records in the system also include identification data, beneficiaries' names and addresses and statistical data. The latter data are used both for auditing payment propriety and compiling reports. Beneficiary records include those for veterans, their dependents receiving apportioned veterans' benefits, and their survivors. The records are for benefits payable under Title 38 and reflect only benefits which are paid under Part II, Chapters 11, 13, 15, and 23. The system also is used to control certain individual case reviews and to select special groups for reviews. In addition, the system produces recurring reports and may be used to produce special demand reports. **Input:** Input consists of payment, identification and statistical data submitted from the VA regional offices (58). Limited identification and statistical data are also processed from other VA systems and other federal data bases. Such input does not alter payment conditions but may cause manual review leading to payment status changes. **Output:** Output consists of payment notices to the Treasury Department; updated records reflecting changes processed on a cycle basis; and review messages, including audit messages, scheduled review notices, and reports. Output media primarily are magnetic tape records and paper notices/reports. Frequency of cycle processing varies but generally is twice per week. Certain recurring reports are produced during each cycle. Other reports have monthly, quarterly, semiannual or annual frequency.

Financial Benefits System--Education.

OMB Funding Code/Title: 36-0137-0-1-702 / Readjustment benefits

Program: Education and Training

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans Education and Employment Assistance Act of 1976 (P.L. 94-502, title IV, § 404; 90 Stat. 2393; 38 U.S.C. 1601). Veterans Readjustment Benefits Act of 1966 (P.L. 89-358, § 2; 80 Stat. 12; 38 U.S.C. 1651). Act of October 23, 1968 (P.L. 90-361, § 2(a)(1); 82 Stat. 1331; 38 U.S.C. 1700).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system is used for the payment of readjustment to or on behalf of veterans as authorized by law (38 U.S.C. chapters 31, 32, 34, 35, and 36). This system and its related data file contain identification of the beneficiary, his address, amount of payment, his children or dependency status, military service, age, type and location of education facility, course objective, delimiting date, his absence record, education background, and dollar amounts contributed by the Service Branch and the serviceperson/beneficiary. The file contains over eight million tape

records and participants in the program (active and inactive). Payment award transactions and other transactions updating the master record are processed against the education master file. Subsystem files such as the training facility file are updated as necessary. **Input:** The primary sources of information are benefits claims applications, veterans' service records, service branch finance and personnel records, schools and training facilities, and data otherwise furnished by applicants and beneficiaries. Payment awards are processed against master record data by the regional office having jurisdiction. **Output:** Payment tapes are produced, which are utilized by the Department for the issuance of checks. Computer generated information letters are produced and mailed to beneficiaries. Extensive in-house reports are generated periodically or by special project (e.g., List of Active Institutions under Chapters 32, 34, and/or 35, Title 38, U.S.C.).

Agency Contact: Department of Veterans Benefits. (202) 389-3138.

S06606-010

Veterans Assistance Discharge System (VADS).

06/69

OMB Funding Code/Title: 36-0137-0-1-702 / Readjustment benefits

Program: Education and Training

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans Education and Training Amendments of 1970 (P.L. 91-219; 84 Stat. 84; 38 U.S.C. 240-243).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: The system provides each eligible veteran as soon after discharge as possible with a general letter concerning benefits, a Notice of Eligibility for Education benefits, a Certificate of Eligibility for Loan Guaranty benefits, and an application for Veterans Group Life Insurance. The names and addresses of educationally disadvantaged veterans are provided to VA regional offices so personal contact can be made. The master record contains sufficient data to determine eligibility for benefits in most cases. It includes personal data and service information.

Input: The data in VADS are taken from DD Form 214, Report of Separation from Active Duty, and DD Form 215, Correction to Report of Separation from Active Duty, from Department of Defense and Coast Guard separation centers; from PHS-1867, Statement of Service--Verification of Status of Commissioned Officers of the U.S. Public Health Service, from Public Health Service; and from ESSA Form 56-16, Report of Separation/Discharge, from National Oceanic and Atmospheric Administration. **Output:** Once weekly processing produces outreach mail to veterans and magnetic tape input transactions to the automated index file, Beneficiary Index, and Records Locator System (BIRLS). Monthly processing produces the educationally disadvantaged listing, the hospital specialty discharge listing, selected name and address lists, production reports, and three magnetic tape copies of the monthly file are sent to: DOD Manpower Center; VA Education Chapter 32 System; VA Office of Controller, Reports and Statistics Section.

Vocational Rehabilitation and Counseling Master Record.

10/24/84

OMB Funding Code/Title: 36-0137-0-1-702 / Readjustment benefits

Program: Special Assistance to Disabled Veterans: Vocational Rehabilitation

CFDA NO.: 64.116

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans Benefits, as amended (P.L. 85-857, as amended by P.L. 93-508, title I, § 101(1); 72 Stat. 1171; 38 U.S.C. 1501 et seq.). Veterans' Readjustment Benefits Act of 1966, as amended (P.L. 89-358, § 3(a)(5), as amended by P.L. 92-540, title IV, § 403(1); 80 Stat. 20; 38 U.S.C. 1770 et seq.).

pects of training activity for veterans in the Veterans Rehabilitation and Counseling program (38 U.S.C. chapter 31). This system contains identification of the beneficiary; VA rating data; military service records; age; a training termination date; a record of participation in various aspects of the rehabilitation program process from the time of application; and, in certain cases, the veteran's address, the type and location of the educational facility, and current pay data. **Input:** The primary sources of information are benefits claims applications, Veterans Administration rating data, service records, payment subsystem file interface, program participation actions processed by the regional office having jurisdiction over the veteran's record, and data otherwise furnished by the applicant. **Output:** Computer generated informational letters are produced and mailed to the veteran. Extensive in-house reports are periodically generated; some on a recurring basis and others on an as needed basis. **Agency Contact:** Department of Veterans Benefits. (202) 389-3935.

Authority: National Cemeteries Act of 1973 (P.L. 93-43; 87 Stat. 75; 38 U.S.C. 1000 et seq.).

Availability: Agency

Geographic Relevance: National

Purpose: The network is used to periodically provide statistics and other information for historical, budgetary, and other management purposes. The network's major function is to compile and produce various statistics, reports, and records. The burial register contains names and grave locations of approximately 1,500,000 decedents. The gravesite reservation data bank includes names of about 76,000 survivors of decedents. The headstone/marker files are retained on active status for a two year period and contain approximately 500,000 individual records at all times. **Input:** Input Data are obtained from: Record of Interment (an internal document prepared at the national cemetery level), application for headstone or marker (a document prepared externally), Record of Gravesite Reservation (an internal document prepared at the cemetery level). The principal data contained from these sources are: the number of decedents interred in the national cemeteries, the number of headstones and markers purchased for graves in national and private cemeteries, and gravesite reservations maintained. **Output:** This system provides source data for the following workload categories: Interments Made, Headstone and Marker Applications Received, and Orders Placed for Headstones and Markers.

Geographic Relevance: International/Foreign; National; State

Purpose: AMIS is the Agency's management information system. The primary mission is to provide reports for central office management. As a byproduct of the primary function, some reports are produced for field station management. This system contains data that cover a broad range of Agency operations. Some significant areas are: 1) quantitative data (patient care, radiology, pharmacy, dental, surgical, mental health, prosthetics, nursing, social work, dietetics, audiology, speech pathology and laboratory supply crime) for each VA medical center and outpatient clinic; 2) productivity data for veterans benefits programs (compensation, pension, education, insurance, loan guaranty and supporting functions); 3) summary personnel statistics and pay category data for all field stations; 4) financial information by appropriation and account for all VA appropriations; 5) summary of all cemetery actions and personnel workload statistics; and 6) productivity data for the General Counsel. **Input:** The primary sources of input are all VA field stations (hospitals, regional offices, clinics, domiciliary, record processing center, and subelements of these stations) and direct linkages from VA's other computer systems. **Output:** Reports are for use throughout the Agency. Frequencies vary by individual output report. Printed reports and graphs, teletype, and magnetic tapes for use by other computer systems are produced.

Program: General Administration

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1114; 38 U.S.C. 210 et seq.). Inspector General Act of 1978 (P.L. 95-452; 92 Stat. 1101; 5 U.S.C. App. 1-6).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the Office of Inspector General Management Information System (OIGMIS) is to provide management with information relative to planned/ongoing audits/investigations, budget, personnel, travel, hotline, and time and attendance. The OIGMIS was developed beginning with October 1981 data. The MIS is in a timesharing environment with Computer Sciences Corporation. It currently contains COBOL programs, and others written in MANAGE procedural language and the QUERY report writer. **Input:** Data are captured in various forms submitted by Inspector General central office personnel and field office employees to the ADP/MIS staff. Through the use of the appropriate form, data are categorized whether they pertain to audit, investigations, personnel, travel, hotline, or time and attendance. **Output:** The principal output of the OIGMIS is in the form of report printouts, produced on either a recurring or ad-hoc basis. Recurring reports may be generated weekly, bi-monthly, monthly, or quarterly.

Board of Veterans Appeals

S06511-001

Veterans Appeals Control and Locator System (VACOLS)

OMB Funding Code/Title: 36-0151-0-1-705 / General operating expenses

Program: General Operating Expenses (All Programs)

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1106; 38 U.S.C. 210(b)).

Federal Information Systems and Sources

Availability: Internal Use Only

Purpose: VACOLS has two main segments—a docket tracking system and a statistical record system. The former provides automated tracking of appeals from the time they arrive at the Board of Veterans Appeals (BVA) through steps of appellate processing to BVA decision. The latter provides data for work measurement and productivity evaluations of attorneys and board sections and for support of the BVA budget. It contains statistical profiles of decisions entered by BVA on appeals against adverse actions taken on claims for benefits under laws administered by the Veterans Administration. **Input:** Data are derived from information contained in veterans' claims folders and from actions taken during appellate processing at the Board. **Output:** The docket tracking functions of VACOLS has on-line query capability to determine location and status of appeals in process. The statistical function provides automated hardcopy output monthly, quarterly, and annually. Monthly tables include production by attorney and section and disposition of appealed cases. Quarterly printouts list dispositions by field station and average processing time by station and by category appeal. Annual tables show representation in appealed cases and dispositions by period of service. Computer output provides statistical data for a number of derivative manual reports.

Appellate Index and Retrieval System (AIRS)

OMB Funding Code/Title: 36-0151-0-1-705 / General operating expenses

Program: General Administration

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Veterans' Benefits (P.L. 85-857; 72 Stat. 1106; 38 U.S.C. 2106). Freedom of Information Act (P.L. 93-502, § 1; 88 Stat. 1561; 5 U.S.C. 552). Privacy Act of 1974 (P.L. 93-579; 88 Stat. 1896; 5 U.S.C. 552a).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to meet the requirement of the Freedom of Information Act that the Board of Veterans Appeals publish an index of its decisions and make that index and the decisions available to the public on demand. Part I of this two-part system is an alphabetical subject index produced on quarterly and cumulative annual bases. The indices use a thesaurus of about 2,000 entries to categorize each decision by the type of benefit or disability involved. The entries include a synopsis of the case, disposition, period of military service of the veteran, and microfilm locator number. Part II of the system is a microfilm file of the Board's decisions that has been edited to remove all personal identifiers and numbered to agree with the index. **Input:** The indices are derived from information contained in the Board's decisions. The indices and the decisions comprise the information entered into this system. **Output:** The indices are produced quarterly on microfiche. Decisions requested under the Freedom of Information Act are reproduced in hardcopy from microfilm. The system has no query capability against names or other personal identifiers.

Advisory Commission on Intergovernmental Relations

S00600-001

Advisory Commission on Intergovernmental Relations Financial Accounts

OMB Funding Code/Title: 55-0100-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Availability: Internal Use Only

Purpose: The objective of the system is to provide ACIR with current records of financial transactions. Each file in the system contains all the records pertaining to a given account, fund, and type of transaction for the current fiscal year. A new file is established for each transaction involving a new entity or type of transaction. Information includes allotments, obligations, unobligated balances, accrued expenditures, and disbursements. These categories are accumulated and reported by major object class and subobject class. **Input:** The system is made up of the processed financial documents used by suppliers, etc., as well as federal financial standard forms, officials, newspapers, and rosters of officials. **Output:** The output consists of monthly fiscal reports, SF 132, SF 133; all forms and reports required under OMB Circulars A-11 and A-34; as well as additional fiscal reports required or requested by Congress and other government agencies. All are hardcopy. **Agency Contact:** (202) 653-5640.

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee. **Authority:** Advisory Commission on Intergovernmental Relations Act of 1959 (P.L. 86-380, § 1; 73 Stat. 703; 42 U.S.C. 53)

Availability: Internal Use Only

Purpose: This system is to provide ACIR with current addresses of those people who are defined as the prime audience of ACIR reports, activities, and programs. The system was established to provide accurate targeting of ACIR policy implementation and reports as determined by the recipients' functional area and interests and by the contents of the report or policy effort. The audience includes federal, state, county, city, regional, and special district executive and legislative officials as well as important professional staff. The records may be pulled by functional code, interest code, publication code, alphabetical listing, ZIP code, or a combination of these fields. The system is updated monthly. This is believed to be the most complete and up-to-date mailing list on state, county, and city officials available. The list is broken out into 999 functional codes, 99 interest codes, and 9 publication codes. The listings are in a name, title, organization, address format. The system covers the entire nation, and a foreign subsystem is incorporated. Currently undergoing a Privacy Act compliance review, the list is normally updated monthly. **Input:** The data for this system are derived from federal publications, the Secretaries of State of the various states, national public interest groups of government officials, newspapers, and rosters of officials. In addition, correspondence can provide input into the system. **Output:** Mailing labels in ceshire (4-up), or pressure sensitive mode, or roster format are the main output. Query capability is through OCR 1043 optical scanning.

Congressional Relevance: House Committee on Interior and Insular

Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Water Resources Planning Act of 1965, as amended (P.L. 89-80, § 101; 79 Stat. 253; 42 U.S.C. 1962(b)).

Availability: Internal Use Only

Purpose: This system is composed of many subsystems which capture, control, and generate reports, and consolidate them for the Council. Reporting covers the financial and management information needs of the Council. External reports are produced either automatically or from feeder reports generated in the system. The principal subject matter area is the accountability of funds for the Council. The data information coverage includes purchase orders, travel, transportation payments, certified invoices, accounts receivables, billings, and utility payments. The major master files maintained at various levels include Allotment Ledger Master, General Ledger Master, Subsidiary Ledger Masters, Payment History Master, Accounts Receivable Master, External Reporting Masters, and Management and Statistical Masters. Data are processed daily, semi-monthly, monthly, quarterly, semi-annually, and semi-annually. **Input:** All sources of information are internal. The major categories of input are allotments, undelivered orders, accruals, payments, and billings. **Output:** Principal output consists of: Treasury Payment Tape (magnetic tape, daily), Disbursement Listing (hardcopy, daily); Status of Allotments (hardcopy, daily); General Ledgers (hardcopy, monthly); Management Reports (hardcopy, monthly or by request); Vendor Payment History (microfilm, monthly); SIBAC and non-SIBAC Documentation (hardcopy, tapes, and cards, semi-monthly); SF-224 Cash Report (hardcopy, monthly), and other reconciliation reports (various output media, monthly).

Agency Contact: (202) 254-6448.

S07400-002

National Assessment Data Analysis System (1975) (NADAS 75).

OMB Funding Code/Title: 85-0100-0-1-301 / Water resources planning

Program: National Assessment

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Water Resources Planning Act of 1965, as amended (P.L. 89-80, § 102, 103, 104; 79 Stat. 253; 42 U.S.C. 1962(e)).

Availability: GPO; NTIS

Geographic Relevance: National; State; Agricultural Product Regions

Purpose: NADAS 75 was developed to support the 1975 Assessment of Water and Related Land Resources, a three and one half year, \$6.5 million effort designed to identify and describe the Nation's severe water problems from both national and state-regional viewpoints. The 1975 assessment was initiated in early 1974 and was completed in Fiscal Year 1979. The 1975 assessment was conducted by the U.S. Water Resources Council as a function assigned to it by the Congress in the Water Resources Planning Act of 1964. Information was supplied for actual and projected socioeconomic factors, water usage requirements, and associated parameters for the years 1975, 1985, and 2000. Data were supplied both from federally derived information and from information accumulated by river basins commissions and other regional sponsors in conjunction with the states to better reflect projected future conditions. All data are entered geographically. The geographic unit utilized is an assessment subarea (ASA), which is a political boundary chosen to closely approximate a natural hydrologic boundary. **Input:** Information was supplied by numerous federal departments and agencies, as well as by states and regional representatives. **Output:** Results of the 1975 assessment were published in Fiscal Year 1979. Results of the NADAS system volumetric analysis and tabular displays of other data will be included in that report. The data file and program library for the NADAS system will reside at the Water Resources Council.

Agency Contact: (202) 254-6352.

S07400-003

Policy Options Study Data Analysis System (POSODAS) for Section 80(c) Study (Public Law 93-251).

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee*

Authority: Water Resources Planning Act of 1965, as amended (P.L. 89-80, § 101, 79 Stat. 253; 42 U.S.C. 1962d(b)).

Availability: GPO

Purpose: The POSDAS system was developed for use in a Presidential study-- Planning and Cost Sharing Policy Options for Water and Related Land Programs. Primary data elements include ultimate expected total costs of each project, fiscal year 1974 costs of each project and program, non-federal cost-sharing information, and all legal authorizations relating to each project or program. Information on the applicable discount rate, cost-sharing provisions, and reimbursement provisions are also included for each project and program. The most significant feature of the data file is that all costs were further identified as to their end-product function. Thirty-two water resources related purposes were defined, and all costs were allocated to these specific purposes at the program and project level. **Input:** Information was supplied by 7 departments, 18 agencies within those departments, and by 7 independent agencies. Information was supplied for virtually every federal and federally assisted program or project authorized by Congress that involved the planning, implementing, or operating and maintaining of water-related activities. The information was based on fiscal year 1974 as a base and included 70 different appropriation accounts. **Output:** The technical report of the section 80(c) study was published in 20 volumes and is available from GPO. Full documentation of the POSDAS system is available as Part 8K, Volumes I, II, and III of Study Program and Data System Documentation.

Agency Contact: (202) 254-6352.

National Railroad Passenger Corporation (AMTRAK)

SO7600-001

Financial Planning and Control General Ledger System (FinPac).

OMB Funding Code/Title: 69-0704-0-1-401 / Grants to National Railroad Passenger Corporation

Program: Grants to National Railroad Passenger Corporation (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Rail Passenger Service Act of 1970 (P.L. 91-518). AMTRAK Improvement Act of 1975 (P.L. 94-25). Rail Transportation Improvement Act (P.L. 94-555). Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides management with monthly financial operating results and a basis for short and long term policy decisions. Also, it provides a comparison of budget and actual cost and a base for resource management and cost analysis. The total corporate accounting and financial management reports, as they relate to the following reports, are generated by the system: Income Statement, Balance Sheet, Responsibility Reports, General Ledger, Subsidiary Ledgers, Trial Balances, and Transaction Journals. The system is composed of three basic modules: the reference maintenance file, input validation and control, and ledger and report preparation. The system requires continual enhancements and maintenance caused by changing accounting requirements and changes in the number and type of input data from other feeder systems. **Input:** Input data is from payroll, material management, and similar feeder systems. **Output:** Outputs include the Corporate Statement of Income and Loss, the Corporate Balance Sheet, and cost management reports by responsible location.

Agency Contact: (202) 383-3939.

OMB Funding Code/Title: 69-0704-0-1-401 / Grants to National Railroad Passenger Corporation

Program: Grants to National Railroad Passenger Corporation (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Rail Passenger Service Act of 1970 (P.L. 91-518). AMTRAK Improvement Act of 1975 (P.L. 94-25). Rail Transportation Improvement Act (P.L. 94-555). Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35). Emergency Jobs Appropriations, 1983 (P.L. 98-8).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides project construction and long range planning management information; satisfies information requirements of contractual obligations; and provides project estimating and baseline accounting and change control to facilitate project completion within constrained available resources. The system provides summary/detail data for all capital projects on a weekly/monthly/cumulative basis and provides project status reports showing variance from the plan, as well as current and outstanding commitments. **Input:** Input includes all material receipts and issues transactions from field locations and labor accounting transactions. **Output:** Project costs reports are produced by this system.

Agency Contact: (202) 383-3939.

SO7600-003

Route Profitability System (RPS).

OMB Funding Code/Title: 69-0704-0-1-401 / Grants to National Railroad Passenger Corporation

Program: Grants to National Railroad Passenger Corporation (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Rail Passenger Service Act of 1970 (P.L. 91-518). AMTRAK Improvement Act of 1975 (P.L. 94-25). Rail Transportation Improvement Act (P.L. 94-555). Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35).

Purpose: The Route Profitability System (RPS) allocates expenses from cost centers and identifies each train's earned revenues to produce profit and loss statements for each train and route. Allocated costs are also used to derive the incremental or avoidable costs of operating a particular route. The system utilizes monthly train operating data to allocate AMTRAK and railroad costs. AMTRAK costs are reduced by expenses incurred on behalf of others (e.g. commuter and freight agencies). Key files in the system are the train file, station file, allocation technique file, statistics file and history file. **Input:** Inputs to the RPS are drawn from various documents and systems in the corporation which deal with the recording of costs, earnings, and operating statistics. **Output:** The outputs of this system include train profit and loss statements and route profit and loss statements.

Agency Contact: (202) 383-3939.

SO7600-005

Reservation and Ticketing System (ARROW).

OMB Funding Code/Title: 69-0704-0-1-401 / Grants to National Railroad Passenger Corporation

Program: Operating Grants and State Assisted Routes

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Rail Passenger Service Act of 1970, as amended (P.L. 91-518, as amended by P.L. 94-555; 84 Stat. 1338; 45 U.S.C. 601 et seq.).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: ARROW is a Reservation and Ticketing System. It has a

list reservation agents in handling all customer advance travel needs, ticket agents in handling all activity of the travel time, on-board service personnel identification and assignment of passengers and accommodations, accounting personnel in exercising financial and administrative controls, and train operations personnel in controlling movement of equipment and inventories. **Input:** All inputs to ARROW are made via on-line, real-time CRT devices in over 500 locations across the country. **Output:** Daily reports provide summary information from daily on-line activity. Additional reports provide passenger and sales statistics. Manifests are available for on-board personnel. **Agency Contact:** (202) 383-3939.

Commodity Futures Trading Commission

S07800-001

Budget/Fiscal System.

OMB Funding Code/Title: 95-1600-0-1-376 / Commodity Futures Trading Commission

Program: Administration of Commodity Exchange Act

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Commodity Futures Trading Commission Act of 1974 (P.L. 93-463, § 101).

Availability: Internal Use Only

Geographic Relevance: National; CFTC region

Purpose: The system maintains the status of CFTC resources. It provides for tracking and recording of changes in assets and liabilities, accounting for obligations, expenditures, changes in source of funds, and other accounting transactions. Also included is a systematic reporting of resource consumption of various CFTC programs, financial management reports, and personnel reports. The budget/fiscal system encompasses all CFTC offices and activities. The major subfunctions are payroll processing, miscellaneous payments processing, personnel processing and reporting, finance and accounting reports, and program activity reporting. The system provides accounting, control, and monitoring of uses of funds at both the headquarters and the region (New York, Chicago, Kansas City, Los Angeles) levels. In addition, the system provides monthly reporting of current obligations by object class for the various CFTC program activities. **Input:** All sources of data/information to the system are internal to the Agency. The major or primary providers of data/information are the divisional and regional offices. Specific input includes such things as obligation documents, time and attendance sheets, personnel action documents, and program activity data. **Output:** All reports are hardcopy accounting, payroll and personnel reports. **Agency Contact:** (202) 254-3354.

Federal Election Commission

S06100-001

Federal Election Report File System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Agency

Geographic Relevance: National; State; Congressional District

Reports submitted by candidates for federal office and the committees that support them. The system consists of photocopies and microfilm of financial reports filed by state, office sought, and alphabetical order. Multicandidate committees are filed alphabetically by name. The system includes reports submitted by all candidates and committees who participate in federal elections. Reports include the candidates and committees a committee supports, the amounts of money contributed to candidates and committees, the names of contributors, a list of candidate and committee expenditures, and a summary of all receipts and expenditures. **Input:** The system consists of financial reports submitted by candidates for federal office and the committees that support them. Correspondence between the Federal Election Commission and the candidates and committees is also on file. **Output:** Principal reports are: 1) Statement of Organization--the initial registration of a committee, containing the name of the committee, treasurer, address, officers, candidates it supports and party; 2) Statement of a Candidate--the initial registration of a candidate, containing the name of a candidate, address, officers, committee authorization; and 3) Financial Disclosure Statement--a periodic report containing the name of the candidate and committee, contribution to and expenditures of the committee or candidate, summary tables of receipts and expenditures, and aggregates to date.

Agency Contact: (202) 523-4181.

S06100-003

Federal Election Reports Disclosure System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Agency

Geographic Relevance: National; State; Congressional District

Purpose: The system was established to provide a data processing facility for tracing source records and maintaining financial data on federal candidates and their committees. The major functions of this system are to direct the user to the microfilm location of the reports, provide summary information on candidates and committees on receipts and expenditures, create a cross index of candidates and the committees that support the candidates, contribution made to the candidate; E Report--lists lists all candidates, the reports they submit, microfilm location, principal and authorized committees, summary of document. The candidate and committee master record contains the name and address of the candidate or committee, its treasurer, a log of the reports it has filed, the reports' microfilm location, the total receipts and expenditures for each report, and a cross index of committee/candidate support. The system is updated daily. **Input:** The information is derived from reports submitted by candidates for federal office and the committees that support them. **Output:** Five major reports are generated: A Report--lists all candidates, their ID numbers, address, filing frequency, type; B Report--lists all committees, their ID numbers, address, filing frequency, type; C Report--lists all committees, their ID numbers, the reports they file, microfilm location of reports, summary totals for receipts and expenditures, filing frequency, type of committee; D Report--lists all committees, the candidates they support, microfilm location of support documents, contribution made to the candidate; E Report--lists all candidates, the reports they submit, microfilm location, principal and authorized committees, summary of receipts and expenditures; and G Report--lists an alphabetical index, contributions to federal candidates and their committees or political action committees.

S06100-004

Certification for Primary Matching Funds and General Election Campaign Funds.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Subcommittee; *Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*
Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).
Availability: Agency
Geographic Relevance: National
Purpose: The system was established in order to certify the eligibility for funds by presidential candidates. The system is indexed by candidate name and includes those candidates for nomination or election to the office of the President of the United States who have requested matching funds and/or general election campaign funds. **Input:** The information is derived from certification forms and supporting data requesting matching funds or election funds. **Output:** Reports include the Presidential Campaigns and Nominating Convention Report and the Presidential Primary Matching Payment Report.
Agency Contact: (202) 523-4155.

SO8100-005

Federal Election Commission Audits.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The General Counsel, Staff Director, Commissioners, and their staff may use audit data for informal hearings, administrative compliance, civil litigation, voluntary compliance, or to refer matters to appropriate law enforcement authorities. The system accesses the financial reports submitted by all candidates and committees who participate in federal elections. Other reports include bank records, receipted bills, vouchers, invoices, debts and obligations, and contractual agreements. **Input:** The records consist of audit information. **Output:** Audited Reports are issued on committees audited.

Agency Contact: (202) 523-4155.

SO8100-006

Federal Election Commission Enforcement System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides information for Internal Commission use for administrative compliance and enforcement purposes. The system accesses compliance, investigation, and audit matters, both under enforcement review and on an action-completed basis. **Input:** The records consist of audit and enforcement data. **Output:** No reports are issued.

Agency Contact: (202) 523-4175.

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is designed for Federal Election Commission reference in the application of the general rule of law stated in 2 U.S.C. 14, or 1. R. C. chapter 95 and 96. The information in the system includes advisory opinion requests, copies of opinions issued, background information, and correspondence related to the opinions. **Input:** Requests for FEC advisory opinions form the input for this system. **Output:** This system produces Federal Election Commission advisory opinions.

Agency Contact: (202) 523-4039.

SO8100-006

Federal Election Commission Budget and Fiscal System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Internal Use Only

Purpose: This system involves agency budgetary requests and accounts for public funds allotted for Federal Election Commission purposes. Records of budget preparation, presentation, and apportionment and records concerned with the accounting for availability and status of public funds are contained in the system. **Input:** Division unit office requests, as well as accounting and fiscal records, provide the input for this system. **Output:** Reports are issued as required by statutes and regulations.

Agency Contact: (202) 523-4020.

SO8100-009

Federal Election Commission Management Information System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Federal Election Campaign Act Amendments of 1974 (P.L. 93-443). Federal Election Campaign Act Amendments of 1976 (P.L. 94-283). Federal Election Campaign Act Amendments of 1979 (P.L. 96-187).

Availability: Internal Use Only

Purpose: This system is designed to provide Commissioners and Commission management with information pertinent to the status of programs and their costs in relation to staff effort. The system is designed to provide program information on a periodic basis to Commissioners and Commission management. **Input:** Cost and other data relative to Commission programs provide the input for this system. **Output:** Monthly management information reports are issued.

Agency Contact: (202) 523-4035.

S08100-010

Federal Election Commission Litigation System.

OMB Funding Code/Title: 95-1600-0-1-806 / Salaries and expenses

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is designed for Federal Election Commission use for litigation purposes. The system accesses litigation material relative to court cases filed by or against the Commission. **Input:** Audit, enforcement, and litigation material provide the input for this system. **Output:** No reports are issued by this system.

Agency Contact: (202) 523-4175.

National Transportation Safety Board

S08300-001

Automated Aircraft Accident and Incident Information System.

OMB Funding Code/Title: 95-0310-0-1-407 / Salaries and expenses

Program: Accident Investigation

Congressional Relevance: *House Appropriations Committee; Transportation Subcommittee; House Committee on Public Works and Transportation; Senate Appropriations Committee; Transportation Subcommittee; Senate Committee on Commerce, Science, and Transportation*

Authority: Department of Transportation Act (P.L. 89-670). Independent Safety Board Act of 1974 (P.L. 93-633).

Availability: NTIS

Purpose: The system was established in 1964. Significant modifications were made in 1982 and 1983. It contains comprehensive data for each U.S. civil aviation accident and some incidents. The major functions of this system are to provide an ability to maintain, retrieve, analyze, print, and disseminate accident data. The records contain date, location, aircraft, damage, injuries, kind of flying, pilot qualifications and experience, type of accident, phase of operation, causal factors, and other related data pertinent to the accident/incident. **Input:** The data are derived from NTSB accident investigation forms completed by NTSB air safety investigators subsequent to an investigation of an aircraft accident or incident. **Output:** Major system output is: Aircraft Accident Reports, Brief Format, U. S. Civil Aviation (hardcopy, eighteen per year approximately 200 accidents); Annual Review of Aircraft Accident Data, U. S. Air Carrier Operations (hardcopy, annually); Annual Review of Aircraft Accident Data, U. S. General Aviation Operations (hardcopy, annually); and Special Safety Studies, Selected Subject(s) (hardcopy, annually).

Agency Contact: (202) 382-6570.

B08300-002

Financial Management System.

OMB Funding Code/Title: 95-0310-0-1-407 / Salaries and expenses

Program: National Transportation Safety Board (All Programs)

Congressional Relevance: *House Appropriations Committee; Transportation Subcommittee; House Committee on Public Works and Transportation; Senate Appropriations Committee; Transportation Subcommittee; Senate Committee on Commerce, Science, and Transportation*

Authority: Department of Transportation Act (P.L. 89-670). Independent Safety Board Act of 1974 (P.L. 93-633).

Availability: Internal Use Only

Purpose: This system is designed to comply with the procedures of the various laws and regulations pertaining to budget and accounting, insure

control of the Safety Board's appropriation, provide for the internal management of funds for all organizational elements, meet external reporting requirements of the Office of Management and Budget and Treasury, and aid in the development and analysis of the Safety Board's budget. The system consists of monthly and year-to-date information for obligations distributed by program, organizational element, and object/subobject class, and includes four fiscal years of data. The complete history of a particular transaction is available from initial obligation to disbursement. The system contains a quarterly update of the costs of each major accident investigation conducted by the Safety Board. **Input:** The primary system data are generated internally and consist of appropriation, allotments, operating budgets, fiscal programs, obligations, disbursements, accruals, undelivered orders, receivables, payables, collections, miscellaneous receipts, advances, payroll, travel, property, accident investigation costs, and appropriation transfers. **Output:** Output is generated monthly in a machine-readable format and includes budget and accounting report, operating budget report, cumulative summary of detail transactions, reconciliation of outstanding obligations, and obligations within federal government.

Agency Contact: (202) 382-6704.

S08300-004

Transportation Accident Investigation Records.

OMB Funding Code/Title: 95-0310-0-1-407 / Salaries and expenses

Program: Accident Investigation

Congressional Relevance: *House Appropriations Committee; Transportation Subcommittee; House Committee on Public Works and Transportation; Senate Appropriations Committee; Transportation Subcommittee; Senate Committee on Commerce, Science, and Transportation*

Authority: Department of Transportation Act (P.L. 89-670). Independent Safety Board Act of 1974 (P.L. 93-633).

Availability: Agency; NTIS

Geographic Relevance: National; State

Purpose: This system is designed to provide accident investigation reports which contain accident data for all modes of transportation and the determination of probable cause and subsequent recommendations issued to prevent future similar accidents. Specific information consists of facts, circumstances, and probable cause of accidents. Investigations are conducted in all of the United States. Investigators are dispatched immediately following accident notification. Geocoding is state, date, type of vehicle (aircraft, truck, etc.), operator, and registration number.

Input: Primary sources of information are NTSB investigators, FAA investigators, and investigations conducted by other DOT modal administrations, i.e., Federal Railroad Administration, Federal Highway Administration, and U.S. Coast Guard. Input data consist of findings of investigators. **Output:** Output is the investigators' factual report of accident investigation, charts, and photographs. Query capability is by state, date, and place of accident.

Agency Contact: (202) 382-6725.

Board on Geographic Names

S09000-001

U.S. Board on Geographic Names (BGN) Domestic Names (GNIS).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: National Mapping, Geography and Surveys

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee*

Authority: Act of March 3, 1879 (20 Stat. 394; 42 U.S.C. 31 et seq.). Act of July 25, 1947 (P.L. 80-242; 61 Stat. 456; 43 U.S.C. 364 et seq.).

Availability: Agency

Geographic Relevance: National; State; City; County

Purpose: This spatial data system contains the official name, spelling, form, and application of all named features, places, and areas in the 50 states and other areas under the sovereignty of the United States. Currently, the system contains information for approximately two million names. The information can be retrieved, manipulated, analyzed, and organized to meet the general and specialized needs or problems of a

wide variety of users in federal, state, and local governments; business and industry; and education, as well as the general public. Data elements include the official name; kind of feature, place, or area; the state and county in which the feature is located; geographical coordinates giving location and extent; elevation (when available); U.S. Geological Survey topographic map on which the feature, place, or area is located; and variant names and spellings. The data base includes some historical information but is maintained on a current basis by corrections and the additions of new names. **Input:** Information was compiled by systematic collection of name data from large-scale topographic maps and charts published by the Geological Survey and the National Ocean Survey, as well as other published sources, and from new names approved by the Board on Geographic Names. **Output:** Information from the system is available by direct access by an outside computer terminal; in open-file products such as magnetic tapes, computer printouts, and microfiche; and in printed products such as alphabetical and topical lists. **Agency Contact:** (703) 860-6331.

Board for International Broadcasting

S09100-001

Budget/Fiscal System.

OMB Funding Code/Title: 95-1145-0-1-154 / Grants and expenses

Program: Grants and Expenses (All Programs)

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Board for International Broadcasting Act of 1973 (P.L. 93-129, § 2-3; 22 U.S.C. 2877). Board for International Broadcasting Authorization Act, Fiscal Years 1980 and 1981 (P.L. 96-60 § 301).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system is designed to provide the Board with information on the status of finances during the fiscal year. The system contains the amount, agency reference number, Treasury schedule, object class, fiscal year, type of transaction (payments, accruals, and journal entries), general ledger account number, and vendor identification number. It is updated on a transaction basis. New reports are issued monthly. **Input:** Data are derived from payment of all invoices and interagency transfers, payroll costs, certified invoices, travel vouchers, interagency transfers--either billings or 1081's, timecards, and purchase orders. **Output:** Monthly reports are machine-readable and hardcopy. There is query capability by vendor, object class, general ledger, and month.

Agency Contact: (202) 254-8040.

Committee for Purchase from the Blind and Other Severely Handicapped

S09700-001

Budget System.

OMB Funding Code/Title: 95-2000-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Handicapped-Made Products, Government Purchase Act (P.L. 92-28).

Availability: Agency

Purpose: The system's purpose is to control and document funds appropriated for the administration of the program authorized by Public Law 92-28, as amended. Information includes allotments, obligations, unobligated balances, accrued expenditures, and disbursements. Data are accumulated by cost center and major object class. **Input:** The input consists of vouchers, purchase orders, contracts, and documents reflecting expenditures. **Output:** Hardcopy output includes the annual

OMB Budget Submission and a monthly record of expenses which is also available on Magnetic tape from GSA. Other miscellaneous summary reports are produced at varying frequencies.

Agency Contact: (703) 557-1145.

S09700-002

Procurement List Actions.

OMB Funding Code/Title: 95-2000-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Handicapped-Made Products, Government Purchase Act (P.L. 92-28).

Availability: Agency

Purpose: The system's purpose is to determine which commodities and services are suitable for government procurement from qualified non-profit agencies serving the blind and other severely handicapped, to publish a procurement list of such commodities and services, and to determine the fair market price for commodities and services on the Procurement List. The system contains a history of the action taken, filed by commodity or service, to justify addition to or deletion from the Committee's Procurement List. Proposed and approved additions or deletions are published in the Federal Register. **Input:** The input comes from applications from the National Industries for the Blind and the National Industries for the Severely Handicapped, exercise or waiver of priority from the Federal Prison Industries and National Industries for the Blind, and comments on proposed actions. **Output:** The principal output is a Procurement List published annually with periodic updates on paper, a list of workshops on paper updated quarterly, and an Annual Report to Congress published on paper.

Agency Contact: (703) 557-1145.

Federal Labor Relations Authority

S10500-001

Statistical Reporting System--Office of the General Counsel.

1980

OMB Funding Code/Title: 54-0100-0-1-805 / Salaries and expenses

Program: Federal Labor Relations Authority

Congressional Relevance: *House* Committee on Education and Labor; *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Civil Service Reform Act of 1978 (P.L. 95-454, title VII, § 701; 92 Stat. 1192; 5 U.S.C. 7101 et seq.).

Availability: Agency; GPO

Purpose: The purpose of the system is to: (1) track the status of all cases filed with the Office of the General Counsel; (2) identify and measure quantitatively performance in case tracking functions; and (3) develop statistical measures and indices by which to measure and manage case handling procedures. This system has the capability to measure and track all meaningful actions in the life of all cases filed with the Office of the General Counsel. The system was implemented on October 1, 1979 (the first full year of operation for the Office of the General Counsel). The file size is currently 28,000 of the roughly 29,000 cases that have been filed with the Office of the General Counsel. Subsystems are the Regional Offices, Appeals, Advice, Administrative Law Judges and Authority. **Input:** Input includes the docket logs maintained in each of nine regional offices, the Office of Appeals, and the Office of Legal Policy. **Output:** Output consists of statistical reports, which include quantitative reports; summaries of characteristics of dispositive actions; and measures of timeliness. The reports are produced and summarized quarterly on a 4-month rolling basis and on a fiscal year basis. The format includes charts, graphs, and narrative analysis.

Agency Contact: (202) 382-0791

S10500-002

Authority Case Tracking System.
1982

OMB Funding Code/Title: 54-0100-0-1-805 / Salaries and expenses

Program: Adjudication

Congressional Relevance: *House Committee on Education and Labor; House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; Senate Committee on Labor and Human Resources; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Civil Service Reform Act of 1978 (P.L. 95-454, title VII, § 701; 92 Stat. 1192; 5 U.S.C. 7101 et seq.).

Availability: Agency; Internal Use Only

Purpose: The purpose of the system is to track the status of negotiability, arbitration, unfair labor practice, and representation cases in process within the authority of the Federal Labor Relations Authority (FLRA). The scope includes all cases received by FLRA and not terminated. The file size is approximately 700 new cases each year. The period covered is fiscal year 1983 through the present. **Input:** Input includes case intake documents. **Output:** Output consists of reports on the status of cases by type and step within the process. The reports are usually monthly.

Agency Contact: (202) 382-0728.

Harry S. Truman Scholarship Foundation

S11200-001

Harry S. Truman Scholarship Program/Scholar Files.

OMB Funding Code/Title: 95-8296-0-7-502 / Harry S. Truman memorial scholarship trust fund

Program: Program Administration

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources*

Authority: Harry S. Truman Memorial Scholarship Act (P.L. 93-642, § 3-9, 88 Stat. 2277-2278; 20 U.S.C. 2004-2008).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City

Purpose: These files provide a total record of the Harry S. Truman Scholarship Foundation's communications and actions relative to each Truman Scholar. These files are stored manually and are organized by name and by year of award. The files are kept current continuously and each file is active for up to 4 years following the date of the scholarship award. **Input:** Data for this file include application materials from students and institutions; award, acceptance, and statement of terms and conditions documents and correspondence; scholarship payment records; and all other relevant correspondence. **Output:** Outputs, which consist of both correspondence and scholarship payments, average six per scholar per year up to a total of four years.

Agency Contact: (202) 395-4831.

National Commission on Libraries and Information Science

S13400-001

Budget/Fiscal System.

OMB Funding Code/Title: 95-2700-0-1-503 / Salaries and expenses

Program: Total Program Costs

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: National Commission on Libraries and Information Science Act (P.L. 91-345).

Availability: Internal Use Only

Purpose: The system provides various records and data for comparing approved budget and work plan authorizations against actual workload and assessing the need for management actions. The files contain current period (month or 4-week period) and year-to-date data on Agency obligations and disbursements. **Input:** Source documents are prepared internally from financial transaction documents. **Output:** Output is monthly and annual reports on budget execution and financial status of the Agency based on 13 4-week periods. Output is by hardcopy. Capability currently exists for on-line query of the system.

Agency Contact: (202) 653-6252.

Susquehanna River Basin Commission

S14900-001

Audit Report.

OMB Funding Code/Title: 46-0501-0-1-301 / Contribution to Susquehanna River Basin Commission

Program: Contributions to the Commission

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee*

Authority: Act of December 24, 1970 (P.L. 91-575).

Availability: Agency

Purpose: The system provides for the preparation and processing of financial and accounting data. The major functions of this system are to edit transactions, classify transaction input, and provide various accounting and management reports. An audit shall be made of the financial accounts of the Commission as soon as practical after the close of each fiscal year. The audit shall be by qualified, certified public accountants and shall be distributed to each commissioner and shall be available for public distribution.

Agency Contact: (202) 238-0422.

Pennsylvania Avenue Development Corporation

S15600-002

Accounting/Budgeting System.

OMB Funding Code/Title: 42-0100-0-1-451 / Salaries and expenses; 42-0102-0-1-451 / Public development; 42-4084-0-3-451 / Land acquisition and development fund

Program: Staff Operating Expenses; Street, Sidewalk, and Park Improvements; Historic Preservation; Business Relocation; Purchase and Disposition of Real Estate

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Pennsylvania Avenue Development Corporation Act of 1972 (P.L. 92-578, § 17(A); 90 Stat. 1188; 40 U.S.C. 871-885).

Availability: Agency

Geographic Relevance: City

Purpose: The system provides the Pennsylvania Avenue Development Corporation with a history of how funds are spent in achieving its programs. Additionally, the system allows the Corporation to effect day-to-day control over the expenditure of funds, in that cumulative summaries of the amount spent for designated purposes can be compared with the amount previously budgeted for that purpose. The accounting/budgeting system is comprehensive in the classification and recording of all costs and revenues. Each obligation is recorded by object class and/or established cost or revenue account. Expenditures against these obligations are additionally recorded when the work product--and the subsequent bill--is submitted for approval and payment. Costs are classified two ways: by account type and by account type within designated projects. Capitalized costs are carried forward within the system's records indefinitely. Expenses are summarized at the end of each fiscal year and are not carried forward to subsequent periods, although their magnitude is presented on an income and expense statement prepared

erate expenditures in the course of carrying out the various programs in which the agency is engaged. These expenditures are the input for the system. **Output:** Outputs of this system include accounting records of costs and revenues by principal cost category and, in the case of land acquisition and public development activities, records of these costs and revenues organized by specific project. The recorded output is produced on a computer print-out.

Agency Contact: (202) 523-5485.

Pension Benefit Guaranty Corporation

S16000-001

Case Processing System.

OMB Funding Code/Title: 16-4204-0-3-601 / Pension Benefit Guaranty Corporation fund

Program: Administration

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Internal Use Only

Geographic Relevance: National, State, City

Purpose: This automated data system is designed to capture certain characteristics on certain plan termination cases and plan review cases. Data on these cases are used for tracking, management information reports, budget formulation, corporate financial statements, and policy and program research. Data are derived from information submitted by plan administrators of defined benefit pension plans which terminate on or after September 2, 1974, and information generated by the PBGC in processing the termination case. Only a limited amount of data is available for plan terminating prior to 1-1-79. **Input:** The Case Processing System includes case number assigned by PBGC, plan sponsor's name and address, plan name and address of person filing the Notice of Intent to Terminate, unions representing participants in the plan, reasons for termination, date of termination, number of participants, values of plan assets and liabilities, and methods of funding. Case tracking data representing the processing of case through PBGC is also available for all types of cases. For all cases which are trusted or potential trusteeships, the system includes additional plan characteristics such as sponsor classification, participants out of pay status, net worth, employer and PBGC liabilities, and trusteeship decision data. **Output:** The output consists of computer printouts listing identifying information for all filings, printouts of extracts of all the information on a given case which serves as an update worksheet and ultimately becomes a part of the case file, and printouts which provide management and staff with workload, financial planning, and management information; other reports required by corporate officers; and time-sharing machine-readable query.

Agency Contact: (202) 254-4716.

S16000-002

Premium Processing System.

OMB Funding Code/Title: 16-4204-0-3-601 / Pension Benefit Guaranty Corporation fund

Program: Administration

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Agency

Purpose: This on-line automated system was developed to maintain the defined benefit plan Premium Payment filings submitted to the Pension Benefit Guaranty Corporation as required under Title IV insurance provisions of the Employee Retirement Income Security Act of 1974. Plan administrators are required to submit on an annual basis a Premium

payment to the Pension Payment due on a daily basis. PBGC receives, annually, approximately 100,000 forms from plan administrators throughout the United States. The system contains the data elements submitted on the PBGC-1 form "Annual Premium Filing," e.g., plan sponsor name and address, plan administrator name and address, plan name, filing entity, premium payments, and so on. **Input:** The data contained in the system are derived from the form PBGC-1 "Annual Premium Filing" which is filed by the plan administrator responsible for paying premium payments for defined benefit plans to the Pension Benefit Guaranty Corporation. **Output:** Output includes microfiche directories in employer identification number and sponsor name sequence, management statistical hardcopy reports, and on-line query capability. All reports and/or directories are produced as required by corporate officers.

Agency Contact: (202) 254-4809.

S16000-003

Benefits Payment System.

OMB Funding Code/Title: 16-4204-0-3-601 / Pension Benefit Guaranty Corporation fund

Program: Benefit Payments

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Internal Use Only

Geographic Relevance: National, State

Purpose: The system processes benefit payments resulting from both sufficient and insufficient terminated defined benefit plans which are under the trusteeship of PBGC, (also certain non-trusted plans that may be in litigation regarding the date designation for date of plan termination) and provides information for management and financial reports and research and corporate officials. Benefit payments are made by the PBGC on a monthly, annual, or lump-sum basis. The system is updated monthly to include additions, deletions, and adjustments in the benefit payments made. The plans involved include all terminated plans under the trusteeship of the PBGC and come from all geographic areas of the United States. The system contains data elements needed to administer the payment of benefits by PBGC, e.g., participants' names, addresses, dates of birth, social security number, dates of employment and termination, benefit entitlements, type of benefit and its present value, beneficiary information, amounts of employee contribution (if any). **Input:** Data are derived from information supplied by the plan administrator of each trusted plan, from information derived by PBGC in the processing of such plans, from the original plan and employment records of the plan sponsor, and from participants in the trusted plans. **Output:** Benefit payment checks are issued to participants due guaranteed benefits on a periodic basis. Accounting reports are issued for each check run. These reports provide input into Pension Benefit Guaranty Corporation's financial statements. A monthly report is issued on the number and amount of benefits paid for each plan in pay status. All other reports and/or directories are produced as required by the corporation officers.

Agency Contact: (202) 254-3018.

S16000-004

Trust Fund Ledger System.

OMB Funding Code/Title: 16-4204-0-3-601 / Pension Benefit Guaranty Corporation fund

Program: Administration

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of this system is to summarize financial data on terminated pension plans for which the Pension Benefit Guaranty Corporation (PBGC) is trustee. The system captures monthly summary transactions for multiple trust funds and posts to monthly balance fields. The system maintains account balances for the current year and four prior years and maintains trust funds by program and trust status. It provides information identifying custodian, location of assets, account balances at critical dates, and commingled shares. The intended user is PBGC. The system contains four program modules (report, table maintenance, input/edit, and ledger update) from which hardcopy reports on balance sheets, income statements, data sheets, and journal entries on each pension plan can be obtained. The update cycle is variable. Reports are produced upon request. **Input:** The primary providers of data are external private custodians (banks, insurance companies, and individuals) of assets of terminated insufficient pension plans. Custodians provide balance sheets at the date of termination and individual and summary accounting transactions for periods subsequent to termination. These data are converted in journal entries and data sheets (summarized results) to be entered into the system. **Output:** This system produces balance sheets and income statements for terminated trustee pension plans via hardcopy and/or display.

Agency Contact: (202) 254-4809.

ACTION

S16200-005

VISTA Project Master File System (PMF).

1965

OMB Funding Code/Title: 44-0103-0-1-506 / Operating expenses

Program: Volunteers in Service to America

CFDA NO.: 72.003

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Domestic Volunteer Service Act of 1973 (P.L. 93-113, title I, § 101; 87 Stat. 396; 42 U.S.C. 4951 et seq.).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State

Purpose: The Project Master File System was developed to provide VISTA with project codes and address tracking information, project slot analysis and projections, and label generation capability. The System contains the following information on all VISTA projects: region, state, project number, project names and addresses, county code, city code, project status, number of slots with the Governor's approval, Governor's approval date, volunteer arrival date, project closure date, sponsor, supervisor, and program emphasis area. The file contains about 3000 records and is updated as required. **Input:** The primary source of input for the PMF System is derived from source documents. **Output:** This system produces monthly hardcopy reports of VISTA project listing by region, state, active, inactive edit batch, and edit error.

Agency Contact: (202) 634-9424.

S16200-006

General Accounting System.

1975

OMB Funding Code/Title: 44-0103-0-1-506 / Operating expenses

Program: Volunteers in Service to America; Service Learning Programs; Older American Volunteer Programs; Citizen Participation and Volunteer Demonstration Programs

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Domestic Volunteer Service Act of 1973 (P.L. 93-113, title I, § 101; 87 Stat. 396; 42 U.S.C. 4951 et seq.).

Availability: Agency

Geographic Relevance: Federal Regions

Purpose: The accounting system provides a centralized source for financial information relating to all Agency revenues, obligation, liabilities, disbursements, and costs. It has been designed to meet the requirements established by the Budget and Accounting Act of 1950 and administrative regulations for general ledger accounting allotment reporting, and to provide financial data necessary to manage the affairs of the Agency. Financial transactions are entered into the system through coding systems to identify budget, obligation, and expenditure data by purpose, cost element, and organizational location. Automated distribution is made to files through computer tables to update general ledger and subsidiary accounts for preparation of reports for management and central control agencies. Separate records are kept for all accounts and all fiscal years for which Agency funds are available for expenditures. Files are updated as required, usually twice a week. All individual transactions are associated with a vendor code from which it is possible to derive the state and city of the vendor. **Input:** Input is provided by the budget and fiscal activities of the Agency headquarters, 9 domestic regional offices. Input from domestic regions is provided in the form of coding sheets which include individually coded fiscal transactions in direct input through intelligent terminal network. Cost data from staff payrolls, and domestic volunteer allowances are transferred through programmed computer system interfaces.

Availability: Agency

Geographic Relevance: National; Federal regions

Purpose: The system provides OEO with data regarding the racial, sexual, and ethnic composition of the Agency workforce. This information is utilized in the development, modification, and monitoring of ACTION EEO programs. In addition, the data provide input into the Agency's monthly submissions to the Equal Employment Opportunity Commission. The system contains the following data on each employee: name, title, pay plan, grade, step, salary, sex, minority code, subobject classification code, organization, entrance on duty date, date of last promotion, and date of birth. Data are added to the system (or correction/modifications made) on a monthly basis. **Input:** Input is comprised of personal data on ACTION employees and is provided to the Office of Equal Opportunity (OEO). **Output:** A computer printout of all employees by organizational location is provided to the Office of Equal Opportunity monthly. A report containing minority/ethnic information from this system is provided to the Equal Employment Opportunity Commission by the Division of Personnel Management and OEO on a monthly basis.

Personnel Management Information System (PMIS).

1969

OMB Funding Code/Title: 44-0103-0-1-506 / Operating expenses

Program: Volunteers in Service to America; Service Learning Programs; Older American Volunteer Programs; Citizen Participation and Volunteer Demonstration Programs; Opera

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Domestic Volunteer Service Act of 1973 (P.L. 93-113, title I, § 101; 87 Stat. 396; 42 U.S.C. 4951 et seq.).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: The PMIS was developed to provide current information for the management of the Agency's staff. The system reports on all personnel employed by the Agency on direct-hire appointments and personal service contracts overseas. The system is utilized by all levels of internal management and by various federal establishments. The PMIS consists of a series of processes which result in the production of a permanent monthly status master file and a permanent history (transaction

former staff members who have separated from the Agency during the last four years. The history file contains information on all staff members who have been employed with the Agency during the last five years. Both files contain personal information (e.g., sex, name, experience) and position information (e.g., location, organization, grade, salary). Geographic location is identified by city/county/state/country. **Input:** Data are derived from employee(s) (applications, etc.). Civil Service Commission (CCS), employment records, and management sources (including personnel specialists). **Output:** Output includes internal management reports, personnel documents, external reports (CSC, State Department, Congress) monthly tape submission to CSC, and special internal and external reports. Output is hardcopy, tapes, cards, and documents and is produced on biweekly, monthly, and annual schedules.

S16500-002

Budget System.

OMB Funding Code/Title: 59-0200-0-1-503 / National endowment for the humanities. Grants and administration

Program: National Endowment for the Humanities: Grants and Administration (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: National Endowment for the Arts and Humanities Act of 1965 (P.L. 94-462, § 7(c)).

Availability: Agency

Purpose: The system meets Presidential and Congressional requirements regarding the processes of budget formulation, presentation, justification, and execution. This system contains historical analyses of previous budget experience, support data for budget request, current year apportionment and allotment data, and information concerning the allocation and use of funds at the program level. **Input:** Data on program accomplishment are converted by the budget staff into a "zero-base" format. The chairman determines the final levels of the budget request as it is forwarded to the Office of Management and Budget (OMB). Subsequent action by OMB is reflected in a budget submission to Congress. **Output:** This system provides information necessary to generate regular budget schedules as prescribed by A-11, and apportionment schedules. Information is provided on request.

Agency Contact: (202) 786-0355.

S16500-003

Automated Grant User Support and Terminal Utility System (AUGUSTUS).

OMB Funding Code/Title: 59-0200-0-1-503 / National endowment for the humanities: Grants and administration

Program: National Endowment for the Humanities: Grants and Administration (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: National Foundation on the Arts and the Humanities Act of 1965 (P.L. 89-209, 79 Stat. 845; 20 U.S.C. 951-960). Arts, Humanities, and Cultural Affairs Act of 1976 (P.L. 94-462).

Availability: Agency

Geographic Relevance: National; State; Congressional District

Purpose: This system contains information on National Endowment for the Humanities' grants and grantees for use in grant administration, trend analysis, and program reporting. The system maintains data on grant applications and obligations, as well as on the processing of applications and administration of grants. The system also provides for the generation of official documents required to maintain correspondence between the grantee and the Endowment. The system is maintained on

a fiscal year and on a calendar year cycle and is updated daily. It includes two master files and six supporting files. **Input:** Information used in this system is derived from the Department of Health, Education and Welfare's Higher Education Institution System (HEGIS), the grant application, the Endowment's obligation documents, and grant award documents. **Output:** The National annual report of the National Endowment for the Humanities and an outline report are produced by this system. The system also produces comprehensive list type reports and summaries including the characteristics of grantees and/or applicants by fields of project, location, audiences, geographic areas, topics, project cost (outright, gifts, and matching), hours, and type of applicant.

S17600-001

Budget Execution Plan (BEP).

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses; 58-0100-0-1-453 / Salaries and expenses

Program: Program Support

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Federal Civil Defense Act of 1950 (P.L. 81-920).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the system is to maintain control of all Agency funds and afford management an instantaneous, up-to-date picture of accomplishments. This information is used in reviews of funding requirements and facilitates decisionmaking on reprogramming of funds. The system reflects the currently approved annual funding program, status of requisitions processed on a cumulative basis, and remaining balance. The principal subject matter of the system is the breakdown of funding by Agency organization and region, by programs, and by status. Information is continuously updated to reflect current status of funds. The information system consists of the total Agency funding which is allocated by organization, program, and region. Geographically, the system provides nationwide coverage. **Input:** Information is generated internally from funding documents within the Budget Division of the Agency's Comptroller's Office. Any document which revises the availability of funds is considered an input source, i.e., apportionment and reapportionment schedules, funding advices, requisitions for contracts and supplies, annual financial plan change letters, and obligation vouchers. The major categories of input are documents that provide funds available for obligation, documents which alter initial fund availability, and obligation and expenditure documents which reduce total fund availability. **Output:** Principal reports are: 1) Budget Execution Plan Printout--hardcopy printed at least monthly but continuously updated manually; 2) Budget Execution Plan Status Report--hardcopy printed monthly reflects current availability status of Agency funds; 3) Budget Execution Plan Status Report (Management)--hardcopy prepared monthly, reflects Agency's current status of administrative and housekeeping funds; 4) Budget Execution Plan Status Report (Travel)--hardcopy prepared monthly, reflects Agency's current status of travel funds. The system is designed to list in any order of progression any information in the Budget Execution Plan file.

Federal Emergency Management Agency Accounting System.

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses; 58-0100-0-1-453 / Salaries and expenses; 58-4236-0-3-453 / National flood insurance fund

Program: Program Support

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Geographic Relevance: National

Purpose: This system constitutes the official centralized accounting system for the Agency, designed to provide for the orderly recording and reporting of all financial transactions of the Agency, in accordance with various public laws, and OSD, OMB, Treasury, and GAO regulations. The system is the official source of all financial statements, reports, and other fiscal data required for Agency management at all levels. The system is comprised of a General Ledger and an Allotment Ledger Subsystem. The General Ledger Subsystem provides a technique for classifying, summarizing, controlling, and reporting all Agency financial transactions. This subsystem further provides a complete record of Agency operations and provides control over assets, liabilities, funds, revenues, and costs. The Allotment Ledger Subsystem provides a method of restricting obligations and expenditures to the purposes for which authorized, insuring that obligations and expenditures do not exceed amounts authorized, and fixing responsibility for violations. This subsystem identifies and accounts for each appropriation as a separate entity throughout its existence from the time of appropriation, through apportionment, transfer, allotment, commitment, obligation, expenditure, reimbursement or refund, and until lapsed or merged into successor M accounts. **Input:** Source data are generated both internally and externally and include all documents which evidence the apportionment, transfer, allotment, commitment, obligation, expenditure, disbursement, reimbursement, refund, and collection of funds appropriated to the agency, and all other funds for which the agency is accountable. **Output:** The system produces both internal reports used for Agency management and external reports required by Congress, the Office of the Secretary of Defense, and other government agencies. Reports are in both hardcopy and machine-readable form, produced monthly, quarterly, and annually. Major report types include reports on budget execution, reports on reimbursements, appropriation status by fiscal year and budget program, obligations, and grants-in-aid.

S17500-003

Federal Emergency Management Agency 1972 Input-Output and Demand Impact Transformation Tables (DITT). (4113).

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Agriculture; House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Armed Services; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480). Defense Production Act of 1950, as amended (P.L. 81-774). National Security Act of 1947 (P.L. 80-253). Strategic and Critical Materials Stockpiling Act (P.L. 79-520).

Availability: Agency

Geographic Relevance: National

Purpose: 1972 Input-Output and Demand Impact Transformation Tables (DITT) system translates aggregate Gross National Product (GNP) expenditures (actual or hypothetical) into final demand bills of goods which can then be applied to an interindustry table for estimates of total output requirements by input-output (I-O) industry. The input-output requirements data come from the 1972 input-output table of the Bureau of Economic Analysis and consider 256 sectors. The DITT bridge tables are developed by FEMA and are based on a number of data sources. **Input:** The system is used to transform emergency scenarios of the GNP final demand components into I-O sector final demands. The I-O sector final demands so computed are used to derive total output requirements, and other requirements in emergency situations. **Output:** Industry output and derived requirements for input are obtained from the system.

Agency Contact: (301) 926-5411.

mittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee
Authority: Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480); Defense Production Act of 1954, as amended (P.L. 81-774); National Security Act of 1947 (P.L. 80-253); Strategic and Critical Materials Stockpiling Act (P.L. 79-520).

Availability: Agency

Purpose: The MCL Model is a revision and extension of the Thuro macroeconomic model assimilated to aid the Federal Emergency Management Agency (FEMA) in policy simulations, studies, and economic forecasting. The technical report 107, "An Economic Forecasting Model of the United States: the MCL Macroeconomic Model," provides theoretical explanation and empirical results for estimation and simulation. The capabilities and limitations of the model are also discussed. The equations on personal taxes and residential investment are elaborated on in the two technical reports. **Input:** This macroeconomic model is used in conjunction with the FEMA Input-Output and DITT system used by FEMA to plan for contingencies or emergencies, specified in terms of the model's input, on the availability of various resources and the level and distribution of the Gross National Product. **Output:** Output from the model are simulations of the national economy.

Federal Insurance Administration Management Information System.

OMB Funding Code/Title: 58-4236-0-3-453 / National flood insurance fund

Program: National Flood Insurance Fund (All Programs)

CFOA NO.: 14.001; 14.002

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: National Flood Insurance Act of 1968, as amended (P.L. 90-448, title XIII, § 1302, as amended by P.L. 91-152, title IV, § 409(a); 42 U.S.C. 4001-4128).

Purpose: This system will provide information on communities participating in the National Flood Insurance Program. The system will also be used to monitor the progress of flood insurance rate map studies, assist in budget preparation, and contribute to other financial reporting requirements. **Input:** Information used in this system is furnished by communities participating in the program. **Output:** The system will generate progress and financial reports.

Series of Input-Output Tables-1958 to 1974. (4114).

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses

Program: Plans and Preparedness

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: National Security Act of 1947, as amended (P.L. 80-253). Federal Civil Defense Act of 1950, as amended (P.L. 81-920).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: An annual time series of input-output tables was developed to support model development for contingency planning and emergency policy analysis. Data were constructed for 36 mutually exclusive and exhaustive sectors of the U.S. economy in both current and constant dollars. Input demand data were developed for 26 materials imported in

output. The data are intermediate in the development of an emergency policy and contingency planning econometric model of the U.S. economy.

S17600-010

The Long Run Forecasting Model of U.S. Economic Growth. (MCL TR-110).

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses

Program: Plans and Preparedness

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: National Security Act of 1947, as amended (P.L. 80-253). Federal Civil Defense Act of 1950, as amended (P.L. 81-920).

Availability: Agency

Geographic Relevance: National

Purpose: The long run forecasting model of U.S. economic growth is a neoclassical macroeconomic simulation model of the structure and growth of the U.S. economy. The economy is represented as having four classes of commodities: capital services, labor services, consumption goods and services, and investment goods; and four types of decision makers: household, government, producer, and rest of world. Markets for each type of commodity for all decisionmakers are represented in the model. **Input:** Data defining a long-range economic scenario are inputs. **Output:** Estimates of the rates of growth in gross national product and its components are outputs.

Emergency Industrial Capacity.

OMB Funding Code/Title: 58-0100-0-1-054 / Salaries and expenses

Program: Plans and Preparedness

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: National Security Act of 1947, as amended (P.L. 80-253). Federal Civil Defense Act of 1950, as amended (P.L. 81-920).

Availability: Agency

Geographic Relevance: National; Industry-Level

Purpose: The data base contains three types of emergency capacity data for 1967 input-output sectors in 1972 dollars: a time series for 50 aggregate (approximately 2-digit) Standard Industrial Classifications (SICs) in mining, manufacturing, and utilities industries from 1958 to 1974; a time series for 106 (approximately 3-digit) SIC mining, manufacturing, and utilities industries from 1958 to 1974; and measures for 1974 of the capability to substitute capacity from other industries to 50 critical (approximately 3-digit) SIC mining, manufacturing, and utilities industries. **Input:** Data are based on peak year capital stock data and output data adjusted for workshift practices. Substitution capability data are based on secondary production from other industries and common types of capital equipment. **Output:** Output consists of time series of maximum emergency capacity for input-output industries from 1958 to 1974; and on-year (1974) estimates for capacity substitution capability for critical industries.

S17600-012

National Fire Incident Reporting System (NFIRS).

OMB Funding Code/Title: 58-0100-0-1-453 / Salaries and expenses

Program: Program Support; Fire

Congressional Relevance: House Committee on Commerce, Science, and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee, Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Federal Fire Prevention and Control Act of 1974 (P.L. 93-498).

Availability: Agency

Geographic Relevance: National; State

Purpose: This system is designed to gather and analyze information on the frequency, causes, spread and extinguishment of fires; on the number, nature, and causes of injuries and deaths resulting from fires; and on property losses. Its purpose is to assist state and local governments to upgrade their fire reporting and analysis capability for their own use, and to obtain data which can be used to more accurately assess and subsequently combat the fire problem on a national basis. The reporting forms contain over 100 data elements. Among other things these include the type of occupancy in which a fire occurred, the source of ignition, material ignited, type of structure, extent of damage, the manner by which flame and smoke spread to other areas, fire suppression information, demographic information, and detailed data concerning casualties, i.e., deaths and injuries. **Input:** Local fire departments within participating states (32 states as of the end of 1982) collect data in a common format and send the data to a State Office, usually the office of the State Fire Marshal. Every three months the state office sends a cumulative computer tape to NFIRS where it is added to the national data base. **Output:** Reports are generated at the NFDC and are fed back to the participating states.

Authority: Reorganization Plan 3 of 1978.

Availability: Agency

Geographic Relevance: National

Purpose: This model integrates a long-run forecasting model of the U.S. with a 35-sector interindustry model. The latter is an econometric, endogenous-coefficient input-output model of the structure of the economy

incorporating sectoral patterns of expenditures, prices, and production. The model is intended for use in contingency planning and emergency policy analysis. **Input:** Input consists of initial economic conditions, emergency scenario data, and policy measures (annual). **Output:** Output consists of gross national product and components, sector demands for supplies of final outputs, sector demands for factor inputs, and other data for the scenario under consideration (annual).

Purpose: This system provides for the recording of fiscal transactions in accordance with statutory provisions and requirements of the General Accounting Office, Treasury, and Office of Management and Budget and for reporting of such transactions for use by administrative and program management officials. The system contains information on the financial status of foreign assistance programs administered by AID. It contains information on amounts appropriated, allotted, obligated, and disbursed for both project and nonproject assistance. Financial data are aggregated at the appropriation, allotment, country, and project level. It also contains information on amounts owed to the U.S. government for foreign assistance loans, balance of payments, commodity imports, and project status. **Input:** The principal inputs are accounting documents such as appropriation warrants, obligation documents and vouchers. **Output:** Reports/outputs include, but are not limited to: financial summary--Foreign Economic Assistance; obligations; accrual basis; Financial Condition Statement; federal outlay by geographic location; project activity status; status of foreign currency funds; estimate of foreign currency collections on loans.

Purpose: This system was designed to create and maintain an interactive master data base for contracts, grants and cooperative agreements or amendments thereto. It is also used to maintain historical data relating to expired contracts, grants and cooperative agreements and to produce annual reports such as the Current Technical Service Contracts and Grants; AIO-Financed University Contracts and Grants; Federal Procurement Data System Quarterly Submission; and various ad hoc reports to satisfy managerial, congressional, and other governmental agency requests. Principal subject matter includes contracts, grants, cooperative agreements and amendments executed by the Office of Contract Management. Data/information coverage includes identifying information such as contract number, name, and address; geographic location; project office; description of service; obligation(s); type of contract; type of organization; and type of service. **Input:** Input consists of the following source documents: contracts, grants, and cooperative agreements active from July 1, 1975 to the present. The system is updated daily. Information is input two to four weeks after document execution for AID/W issued documents. **Output:** Output consists of: 1) Current Technical Service Contracts and Grants--hardcopy report averaging 350 pages and published annually after the end of each fiscal year; 2) AIO-Financed University Contracts and Grants--hardcopy report averaging 30 pages and published annually after the fiscal year; 3) Procurement data reported quarterly to the Federal Procurement Data System (FPDS); 4) The COORS is also queried to obtain data on Office of Contract Management executed contracts for numerous ad hoc reports for management, the Congress, and other users.

Purpose: This is an automated system for collecting, manipulating, and aggregating budgetary data on projects managed by the Bureau for Science and Technology of AID. Projects, research and development activities, categories, and other indicators required for top management decisionmaking are documented in the system. The system includes project budgeting, implementation, and financial management information. Specifically, the following categories of data are captured: Project, research and development activities, descriptive categories, appropriation category, technical offices, operational year budget, documentation outstanding, documentation in the Development Support Bureau and dates

and amounts. **Input:** Data are extracted from reports prepared by Program Planning and Technical Office and planning, implementing and obligating documents as they are processed through the Program Office. The system covers historical, current, and projected budgetary data which assist top management decisionmaking. It also provides critical data essential for program officers and project managers to prepare and review program documentation. **Output:** Output consists of budgetary reports aggregated by the project, cluster, office, function, and descriptive categories; operational year budget status reports at the above levels and including due dates of implementation documents and the amounts and dates received in the Program Office; exceptions report for documents due, and other reports and data provided on a query basis. The medium may be hardcopy or CRT display. The frequency is monthly and as required.

Purpose: The purpose of this report is to provide performance data on the Office of Contract Management (M/SER/CM). The performance data are distributed to all AID bureaus. The data on branches and contract managers are provided to the Director, Office of Contract Management, for use in linking staffing and workload allocations, in determining staffing levels and for evaluating performance. The report is also used as a base for numerous ad hoc reports required by Congress, AID management, and others. Principal subject matter includes statistical breakdowns by bureau and the SER/CM branch, showing quantities and dollar amounts on hand, received, completed, and remaining as of the end of the report period. Contracts completed during this period are compared with those of the last period. Statistical breakdowns by branch and contract manager lists, total, and provide averages for completed actions. The report is prepared monthly, quarterly and annually within 30 days after the close of the reporting period. The information in the report is primarily oriented toward SER/CM production but is segregated by AID geographic bureaus (Latin America, Near East, Asia and Africa). **Input:** Contracting officers use the Project/Implementation Order for Technical Services (PIO/T) and individual contracts to prepare a data sheet from which data (primarily in terms of dollars) are extracted for input into the system. **Output:** A monthly, quarterly and annual statistical report of 6-10 pages is produced. It is distributed within 10 days after the close of the period being reported.

Geographic Relevance: International/Foreign

Purpose: This system provides statistical data for planning, administering, and evaluating the AID-funded participant training program for foreign students; it is for use in congressional presentation and to meet other varied user information needs. The data includes name of participant, bio-data, country number, region code, training facility assigned to, participant funding code, training activity code, date of arrival in U.S., programming agency, type of training (subject matter), academic level, starting and ending dates of training, final degree obtained (if academic), and termination date of program (for insurance coverage). **Input:** These data include participant name, bio-data, country of origin code, Project Implementation Order/Participant number, technical activity code, major study code, participant identification number, programming agent/contractor name and code, degree objective (technical, associate, bachelor, master, Ph.D.), training facility code, starting and ending dates of training, on-board date, termination date, insurance entitlement start and end date, visa control number, visa from and to dates, visa approved date, record create date, and record update date. **Output:** Monthly reports include Participant Training Statistics and Participant Onboard by Facility. Quarterly reports include Primary Programming Responsibility. Annual reports include Fiscal Year Arrivals/Fiscal Year Departures, Fiscal Year Training Activity and actual man-months of training, Training Program Duration for Terminated Participants, Development Assistance Committee (DAC), and Colombo Plan Statistics. Special reports are generated as requested.

Geographic Relevance: International/Foreign

Purpose: This system is a management tool to assure that all AID-financed commodities shipped by ocean carriers are in compliance with cargo preference requirements. This system covers all AID-financed commodity procurements. It is the data source for reporting to the Congress on request. Information developed by this system is used by the Office of Commodity Management Operating Divisions, AID and state desks, AID overseas missions, and host countries to assure cargo preference compliance. Specific information on all active agreements includes agreement number, amount, terminal disbursement data, vessel name, flag, cargo code, load port, port of entry, source country, date lifted, weight, commodity schedule B number, amount expended, freight amount, AID-financed freight, batch number, voucher number, cumulative for month and for life of loan/grant by cargo class, source, U.S. and foreign flag tonnage, U.S. percentage, U.S. and foreign flag revenue, U.S. percentage, home flag tonnage for month and cumulative for life of loan/grant, and total funds expended. Data are updated monthly. Geographic references are as listed in the AID Geographic Code Book. **Input:** The bill of lading and the voucher associated with a shipment or commodities are the sources for the following data: vessel

commodity, and the freight amount. **Output:** Narrative and graphic reports provided include annual compliance reports to the Maritime Administration; reports on request to Congress, the Administrator, Assistant Administrators, state, and AID desk officers; and reports to Office of Commodity Management Operating Divisions and AID Overseas missions covering loan/grants not in compliance with cargo preference.

Authority: Foreign Assistance Act of 1973 (P.L. 93-189). International Development and Food Assistance Act of 1975 (P.L. 94-161). Foreign Assistance Act of 1961 (P.L. 87-195, § 103).

Availability: Internal Use Only; Departments of Treasury and Commerce

Geographic Relevance: International/Foreign

Purpose: The system provides a procedure for recording dollar value, flag, weight, and freight charges for P.V.O. commodities, and produces periodic reports from these records. The private voluntary agencies report quarterly to AID the dollar value of the commodities they ship abroad, the country to which shipped, the flag of shipment, weight, and freight charges. The system is updated quarterly with cumulative totals for the current fiscal year. **Input:** Quarterly reports submitted by private voluntary agencies which are registered with AID and participate in the overseas freight subsidy program comprise the system input. **Output:** Quarterly reports are prepared showing country breakdown by dollar value of commodities shipped, U.S. and foreign flag volume, and freight costs.

Geographic Relevance: International/Foreign

Purpose: Provides a tracking system for internal analysis of budget, program and approval, call forward and procurement, booking/shipping receipt, nutritional impact, and distribution of commodities for Public Law 480, Title II grant food programs to assist foreign countries. Information is organized on the basis of country, sponsor (voluntary agency, World Food Program, etc.), category (Maternal and Child Health, School Feeding, Food for Work, etc.), and commodity with respect to recipients, quantity, and value. Shipping information is also available, including vessel, sailing date, and port of departure. Data are updated monthly back to fiscal year 1977. **Input:** Statistical data on a worldwide basis in support of the system segments are received from U.S. private and voluntary organizations, Department of Agriculture, UN World Food Program, and Title II field posts. **Output:** Output is hardcopy printouts accessed from an on-line terminal or a high speed printer. Reports are generated on an ad hoc basis. Data base query through use of on-line terminal is done daily. Statistical data are generated under column headings.

Office of Foreign Disaster Assistance (OFDA) Annual Report.

OMB Funding Code/Title: 11-1035-0-1-151 / International disaster assistance

Program: International Disaster Assistance

Congressional Relevance: *House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee*

Authority: Foreign Assistance Act of 1961 (P.L. 87-195, § 492).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system provides a narrative and statistical summary of disaster events and worldwide relief programs to a wide distribution of users which includes Members of Congress, congressional committees, federal government offices, institutions, and individuals with an interest in disasters and relief programs. All data pertinent to the disaster event or to the relief effort (e.g., place, time, effect, kind of assistance) are included. **Input:** Data sources include cables and other reports from U.S. missions overseas, reports from U.S. voluntary agencies, field reports by Office of Foreign Disaster Assistance (OFDA) personnel, scientific evaluations by various agencies, and situation reports from the UN Disaster Relief Office (Geneva). **Output:** The principal reports are the Foreign Disaster Assistance Summary Reports, published as handouts, for each foreign disaster in which the United States has responded.

Agency Contact: Agency for International Development. (202) 632-5916.

Foreign Disaster Reporting System (Situation Reports).

OMB Funding Code/Title: 11-1035-0-1-151 / International disaster assistance

Program: International Disaster Assistance

Congressional Relevance: *House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; District of Columbia Subcommittee*

Authority: Foreign Assistance Act of 1961 (P.L. 87-195, § 492).

Availability: Agency; Office of Foreign Disaster Assistance

Geographic Relevance: International/Foreign

Purpose: This system provides for the collection of the most recent data about each disaster for analytical and historical use. This information is available to interested AID offices, the Congress, other federal agencies, and other interested parties during the period of each disaster relief operation. Reports are updated during the disaster relief operation as new information is made available. Data include facts regarding the disaster at hand: time, place, magnitude, effect, general situation, host country activities, assistance provided by U.S.G., assistance provided by U.S. Voluntary Agencies, and assistance from the International Community. **Input:** System inputs include cable traffic about the disaster, the Final Disaster Summary Report, photographs, voluntary agency reports, United Nations Disaster Relief Office (Geneva) situation reports, and reports from other international organizations. **Output:** The Situation Report, distributed only during disaster operations, is the principal report. The Situation Report is updated when necessary.

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee

Authority: Foreign Assistance Act of 1961, as amended (P.L. 87-195); International Security and Development Assistance Act of 1981 (P.L. 97-113); United Nations Environment Program Participation Act of 1973 (P.L. 93-188, § 3)

Availability: GPO; Agency

Geographic Relevance: International/Foreign

Purpose: The system includes a series of processes by which AID establishes, articulates, and communicates AID's goals, priorities, and emphases; establishes program strategies for AID assistance to recipient countries and groups of countries; establishes funding priorities and preliminary allocation of resources to competing programs for both the budget year and the operational year; assembles and transmits AID's budget request to OMB, prepares AID's portion of the President's Budget, controls the allocation of appropriated funds, and provides related reports to Congress. Information includes: 1) Planning data, by country or regional program, and 3- to 5-year funding and manpower projections, by functional account and type of assistance; and 2) Budget data. Planning data are updated within five years or as needed; budget data are updated annually; operational year budget and implementation plan data are updated annually and at interim periods. **Input:** The budget is based upon information received from AID's incentives world wide. Specifically, budget recommendations are developed from the CDSS (Country Development Strategy Statement) and the AIS (Annual Budget System) documents received from each location. **Output:** Output is hardcopy and produced annually unless otherwise noted: 1) Budget Submission to OMB, 2) Budget Amendments (ad hoc), 3) Budget Schedules and Exhibits for inclusion in the Budget of the U.S. government, 4) Operational Year Budget and Implementation Plan (annual and at interim periods), and 5) Section 653 Report to Congress.

Program: Operating Expenses Agency for International Development (All Programs)

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee

Authority: Foreign Assistance Act of 1961 (P.L. 87-195, § 667); International Development and Food Assistance Act of 1975 (P.L. 94-161).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This automated system is designed to provide the Agency for International Development (AID) with a consistent, accurate, and readily accessible source of micro and macro data to describe the economic and social conditions of developed and developing countries. The information is used by the Agency to design, implement, and evaluate its programs and projects overseas and to describe to Congress and other interested parties in the United States the rationale and results of these policies. The macro component of the ESDB system is designed to store approximately 3000 data elements for about 180 countries on an annual basis for the last 30 years. Where these data are not available for specific countries, efforts are now being made to obtain the missing information. **Input:** Macro component information inputs to the system include: economic and social data from IBRD, government finance, international financial statistics, trade and balance of payments data from IMF, agricultural data from USDA, FAO, and FAS demographic

data from the Bureau of the Census and the UN, and information data from AID missions, offices and published sources (Special indicators and economic indices from World Bank) Micro data information is available for recent, AID financed data collection efforts. **Output:** This system serves as a source of Agency data on the economic and social conditions of LDC's, generates economic and social data for congressional presentations and ad hoc requests from all sources and provides analytical support and data for cataloging the AID programs overseas. The normal output medium is hardcopy, microfiche, tape, or microcomputer floppy diskettes.

Authority: Foreign Assistance Act of 1973 (P.L. 93-189); International Development and Food Assistance Act of 1975 (P.L. 94-161); Foreign Assistance Act of 1961 (P.L. 87-195, § 103).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: DIS provides information on the Agency for International Development's (AID's) past project experience in development assistance programs primarily for use by AID project designers. The DIS also provides information from AID-generated and AID-funded feasibility, research and technical studies to AID research and technical staff. The DIS system has two data bases: (1) a project data base containing 4,000 project records with descriptive abstracts of AID projects active as of September 1974 or later; and (2) a document data base containing 33,000 records with abstract and bibliographic information for substantive AID-generated and AID-funded project, program, research and technical documents. DIS is updated daily. **Input:** AID project and technical documentation is submitted by the USAID Missions, AID contractors and the AID/ Washington and regional bureaus for storing, abstracting, indexing, and processing by the DIS. These documents are project design, implementation, technical, research, feasibility and evaluation documents. **Output:** The two major outputs, produced on an ad hoc basis daily, in hardcopy, are project description reports and bibliographic reports. The system has on-line query capability.

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: PBDS provides a comprehensive data base on the budget allocated and expended for completed and current projects on proposed Agency for International Development (AID) foreign assistance projects. Data are provided to AID management to monitor and disseminate information pertaining to actual program performance; to program analysts to assess the direction and magnitude of individual country programs and areas of technical emphasis (i.e. agriculture and education); and to the general public for general information purposes. The data are maintained as part of an on-line data base management system. One file is maintained that includes one record for each project or activity since the inception of the agency (currently contains about 11,000 items). Recorded for each item is the geographic location, activity name, start and completion data, technical area, status and life of project obligation, and expenditure amounts. A separate file is maintained for projects active since 1974 (currently about 4,000 items). **Input:** Financial data is updated based on data provided in the quarterly Project Financial Activity Reports as provided from the worldwide AID official accounting stations. All other data is provided by official accounting stations at the time of execution. **Output:** Financial reports, in hardcopy form, are provided quarterly. Reports of planned and actual financial data are available in the format most useful to the client offices. **Agency Contact:** Agency for International Development. (202) 632-0050.

Authority: Foreign Assistance Act of 1961 (P.L. 87-195, § 667). International Development and Food Assistance Act of 1975 (P.L. 94-161).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Program Budget Data System (PBDS) provides readily accessible information on the planning and budgeting activities of all Agency for International Development (AID) project assistance activities. PBDS contains documentation of projects from the original concept through the final approval. It covers the annual budget submission from field missions and AID/Washington offices through the congressional presentation. The file contains approximately 3,700 projects and is constantly updated. PBDS is interactive with the Agency's Project Accounting Information System and is thereby able to retrieve actual obligations, if requested. **Input:** Input data are received from all Agency field missions and Washington offices involved with project assistance activities. **Output:** The following reports are produced as requested: budget preparation for both the operational year and the budget year; project data comparison and analysis which compares the annual budget submission and congressional notifications; and project characteristics which provides information on the purpose and technical field. Information on U.S. overseas loans and grants and on assistance from international organizations can be provided in response to ad hoc queries. Output is in the form of tabular printouts with descriptions.

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Foreign Operations Subcommittee; Senate Appropriations Committee: Foreign Operations Subcommittee

Authority: Foreign Assistance Act of 1969 (P.L. 91-175). Overseas Private Investment Corporation Amendments Act of 1974 (P.L. 93-390).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: The system was established to provide both manual and electronic data processing facilities to maintain records and create a data base for management information. The major functions of the system are to validate all input data; create new records on the master data bases; apply changes to previously established master records; and produce fiscal accounting, control, and statistical reports. The system consists of a contract subsystem, a cash subsystem, and an application subsystem. Each subsystem is run monthly. The application subsystem contains all information necessary for the processing of an application to obtain an insurance contract. The contract subsystem contains all information necessary to administer the contract subsystem, and the cash subsystem contains records of the premium payments for each contract. An automated data base dates from about 1971 and contains such information as country, name and address of company, amount of coverage, premium rate, and payment history. **Input:** The data are derived from applications for insurance, insurance contracts, election of coverage requests, and insurance premiums. **Output:** Reports are generated monthly and include contract master record computer file, cash and master record computer file, applications master record computer file, contract bills, payment listing, new contract listing, active contracts with country listing, and pending application status listing.

Program: Insurance, Guaranty, and Loan Program

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Foreign Operations Subcommittee; Senate Appropriations Committee: Foreign Operations Subcommittee

Authority: Foreign Assistance Act of 1969 (P.L. 91-175). Overseas Private Investment Corporation Amendments Act of 1974 (P.L. 93-390).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: The accounting and budget system reports to management, other federal agencies, Congress, and the public on the results of operation. The insurance program provides insurance coverage to U.S. businesses against political risks likely to be encountered in less developed countries. This includes coverage against convertibility of local currency, expropriation, nationalization or confiscation of property by a

foreign government, and war risks damage to tangible property as a result of war, revolution, or insurrection. Finance programs assist U.S. lenders and business enterprises in locating and financing worthwhile projects in the developing world. The accounting and budgetary system is an administrative and management control system reflecting obligations and expenditures incurred for each department, object class, and general ledger account classification. The system reflects actual cost data by major expense categories such as salaries, contracted services, and other administrative costs; revenues such as premiums from insurance programs, interest and fees related to the finance program, interest realized from investment in U.S. government securities, and recoveries related to prior claim payments. The reports include all pertinent financial data for the period covered and are prepared on a consistent basis from one period to another. **Input:** The information is derived from contractual agreements with investors and vendors. Major sources of data are: vendor invoices, insurance contracts, loan agreements, insurance election of coverage forms, certificate of deposits, schedule of disbursements, contracts for services, and purchase orders for supplies and services. **Output:** Monthly reports are the departmental allotment and obligation record and a statement of transaction. Quarterly reports are: 1) Statement of income, 2) balance sheet, 3) statement of changes in capital and reserves, 4) statement of changes in financial position, 5) statement of financial condition, 6) report of direct and guaranteed loan, and 7) loans receivable by function. Annual reports are: 1) analysis of changes in government equity, 2) commitments and contingencies, 3) analysis of changes in statement of financial condition, and 4) input to the President's budget.

Integrated Personnel/Payroll System-Department of the Interior's Departmental Integrated Personnel System (DIPS) (Personnel/Payroll System).
12/12/82

OMB Funding Code/Title: 41-0100-0-1-805 / Salaries and expenses

Program: Merit Systems Protection, Other

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Civil Service Reform Act of 1978 (P.L. 95-454, title II, § 202(a); 92 Stat. 1121-1131; 5 U.S.C. 1201-1205).

Availability: Agency; Internal Use Only

Geographic Relevance: National

Purpose: The Merit Systems Protection Board utilizes the Department of the Interior's Departmental Integrated Personnel System (DIPS) to process personnel actions, pay employees, and produce both personnel and budget reports for internal and external use. **Input:** Data is extracted and encoded from various personnel forms. **Output:** Personnel and budget reports are produced. Examples are: Forms 50 and other standard personnel records. Budget records showing payroll information are also produced.

Agency Contact: (202) 653-6182.

Administrative Conference of the United States

S17900-001

Budget/Fiscal System.

OMB Funding Code/Title: 95-1700-0-1-751 / Salaries and expenses

Program: Studies to Improve Administrative Procedure

Congressional Relevance: House Committee on Government Operations; House Committee on The Judiciary; Senate Committee on Governmental Affairs; Senate Committee on The Judiciary; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Administrative Conference Act, as amended (P.L. 88-499).

Availability: Internal Use Only

Purpose: The system maintains the status of Administrative Conference of the U.S. (ACUS) resources. It provides for tracking and recording of changes in assets and liabilities and provides accounting for obligations, expenditures, changes in source of funds, and other accounting transactions. Also included is a systematic reporting of resource consumption of various ACUS programs, financial management reports, and personnel reports. It is used by ACUS personnel. The budget/fiscal system encompasses all ACUS activities. The major subfunctions are payroll processing, miscellaneous payments processing, personnel processing and reporting, and finance and accounting reports. The system provides accounting, control, and monitoring of uses of funds. In addition, the system provides monthly reporting of current expenditures by object class for the various ACUS activities. **Input:** All sources of data/information to the system are internal to the Agency. Specific input includes such things as obligation documents, time and attendance sheets, and personnel action documents. **Output:** All reports are hardcopy. The reports and their frequencies are: Estimate of Appropriation, annually; Accounting History Report, monthly; Report on Budget Execution,

American Battle Monuments Commission

S18000-001

Register of World War II and Korean War Dead. (74).

OMB Funding Code/Title: 74-0100-0-1-705 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: American Battle Monuments Commission Act of 1923 (P.L. 67-534).

Availability: Internal Use Only

Purpose: The system provides a permanent up-to-date register of World War II and Korean War dead interred in or commemorated at AWMC cemeteries and memorials around the world. The system provides serviceman's name, rank, serial number, grave, and cemetery location where interred, or cemetery or memorial where each missing serviceman is commemorated by name, date of death, state from which serviceman entered the military service, wartime organization, and decorations. **Input:** Input is graves registration activities of the military services. **Output:** The output is a register.

Agency Contact: (202) 272-0536.

S18000-002

World War I Combined Directory of List of the Missing and Burials in American Military Cemeteries in Europe. (74).

OMB Funding Code/Title: 74-0100-0-1-705 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: American Battle Monuments Commission Act of 1923 (P.L. 67-534).

Availability: Internal Use Only

Purpose: The system provides a permanent up-to-date register of World War I missing commemorated by name at and burials in American military cemeteries in Europe. The system provides the serviceman's name, rank, grave number and cemetery location in Europe or cemetery location in Europe where the missing serviceman is commemorated by name on Tablets of the Missing, wartime organization, state of entry into military service, and date of death. **Input:** System input is graves registration activities of the military services. **Output:** The system produces a register.

Agency Contact: (202) 272-0536.

S18000-003

Register of Vietnam Missing In Action for Aug. 1964 Thru 27 Jan. 1973. (74).

OMB Funding Code/Title: 74-0100-0-1-705 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: American Battle Monuments Commission Act of 1923 (P.L. 67-534; 42 Stat. 1509; 36 U.S.C. 121-138b).

Availability: Internal Use Only

Purpose: The system provides the serviceman's name, rank, branch of service, organization and state of entry into military service. **Input:** System input is Missing In Action Register activities of military service. **Output:** The system produces a register, subject to change as required. Register is in book format.

Agency Contact: (202) 272-0536.

Register of Internments, Corozal American Cemetery. (74).

01/07/81

OMB Funding Code/Title: 74-0100-0-1-705 / Salaries and expenses
Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Veterans' Affairs; Senate Committee on Veterans' Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: American Battle Monuments Commission Act of 1923 (P.L. 67-534; § 10; 42 Stat. 1509; 36 U.S.C. 121-138b).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system provides a permanent up-to-date register of internments in the Corozal American Cemetery, Republic of Panama. **Input:** Graves registration activities of the military services and the Panama Canal Company provide the input for this system. **Output:** A register of internments in the Corozal American Cemetery is produced.

Federal Financial Institutions Examination Council

S18800-001

Home Mortgage Disclosure Aggregation Tables (HMDAT).

OMB Funding Code/Title: 99-0000-9-9-000

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Reserve Act of 1913 (P.L. 63-43, § 11; 59 Stat. 237; 12 U.S.C. 248). Home Mortgage Disclosure Act of 1975, as amended (P.L. 94-200, § 310, as amended by P.L. 96-399; 89 Stat. 1128; 12 U.S.C. 2809).

Availability: Agency

Geographic Relevance: (SMSA) Standard Metropolitan Statistical Area

Purpose: The Home Mortgage Disclosure Act (HMDA), as amended in 1980, requires the Federal Financial Institutions Examination Council to compile each year, for each standard metropolitan statistical area (SMSA), aggregate data by census tract for all financial institutions subject to HMDA, and to produce tables for each SMSA providing data based on various demographic characteristics. HMDA requires approximately 9,700 financial institutions to annually disclose the number of new mortgage and home improvement loans, and the respective dollar amounts, granted by census tract. **Input:** Input data for the HMDA tables come from the annual home loan disclosure statements that lenders subject to HMDA are required to prepare and from demographic information collected by the U.S. Bureau of the Census. **Output:** Tables are designed to provide disclosure aggregation by SMSA with breakdown by census tract, income categories, racial characteristics, combined income and racial characteristics, geographic distribution, and age of housing stock.

Agency Contact: (202) 287-4208.

S18800-002

Uniform Bank Performance Report (UBPR).

OMB Funding Code/Title: 99-0000-9-9-000

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Reserve Act of 1913, as amended (P.L. 63-43, § 11; 59 Stat. 237; 12 U.S.C. 248). Federal Financial Institutions Examination Council Act of 1978 (P.L. 95-630, title X, § 1006; 92 Stat. 3695; 12 U.S.C. 3305).

Purpose: The Uniform Bank Performance Report (UBPR) system is an

analytical tool for bank supervisory and management purposes. Output report data will assist in making decisions involving adequacy of earnings, liquidity, asset and liability management, and capital. Output reports are produced for each commercial bank in the United States supervised by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation or the Office of the Comptroller of the Currency. The UBRP is a dedicated system which requires storage capacity for approximately 175 million pieces of data. The file will hold 5 years of financial data on each bank in the system. **Input:** Financial data for the UBRP system comes mainly from the periodic Reports of Condition and Income filed by commercial banks with their respective federal regulatory agency. Supplemental information may be obtained as needed from other sources. Input is updated quarterly. **Output:** Output is in the form of computer generated schedules providing for each bank a variety of financial ratios, trends, percentages, and dollar figures. Each report also shows the corresponding ratios for the bank's peer group and, in many cases, indicate the bank's percentile ranking for a given ratio. Output will be quarterly.

Agency Contact: (202) 447-0491.

Peace Corps

S19500-001

Peace Corps Volunteer (PCV) Personnel and Payroll System.

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Volunteer Operations

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 5-8; 75 Stat. 613-616; 22 U.S.C. 2504-2507).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: This automated system provides financial information concerning Peace Corps Volunteer readjustment allowances, deductions, and payments. It includes personnel information on individuals who have served or are currently serving as Peace Corps volunteers. The payroll information includes data provided to: (1) the Department of Treasury for issuance of checks for volunteer allowances; (2) the Internal Revenue Service and Social Security Administration for reporting of earnings and taxes withheld; and (3) the Peace Corps accounting system to record expense accruals. Personnel information is provided on Peace Corps volunteers and trainees. It includes name, address, social security number, next of kin, birthdate, sex, marital status, educational background, skills, job assignment overseas, dates of Peace Corps service, and country of service. **Input:** System input is provided by Peace Corps Headquarters to enter volunteers into the system and by Peace Corps Posts, worldwide, to update files. **Output:** The principal recurring reports are the monthly payroll journal, produced in hardcopy; summary personnel reports, produced monthly in hardcopy, and the payroll tax report, prepared quarterly and annually in hardcopy and microfilm in the format required for submission to the Internal Revenue Service.

Agency Contact: (202) 254-6794.

S19500-002

Applicant Management Information System (AMIS).

01/01/76

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Program Development and Support

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 15; 75 Stat. 621-221; 22 U.S.C. 2514)

graphical data on all Peace Corps applicants necessary to process their applications for volunteer service. There are four files of data in the Applicant Management Information System (AMIS): Active Applicant File, Retired Application File, Active Project File, and the Retired Project File. All input goes into the two active files, and most reports are produced from them. The retired files are maintained for historical purposes and for compliance with the Privacy Act. The two applicant files contain such information as name, social security number, date of birth, address, work experience, and education. The two project files contain such information as project number, project name, country name, region, training, start date/end date, oath date, and enter on duty date. The AMIS is updated daily. The applicant files contain about 100,000 records and the project files contain about 1,500 records. **Input:** The Peace Corps Volunteer Application is the major input source. A record is created in AMIS via terminal entry from the Peace Corps' three Regional Service Centers. The Headquarters staff further updates the status of applicants and inputs the project data. **Output:** A variety of scheduled and special request reports are produced concerning biographical information on all Peace Corps applicants as well as all approved Peace Corps projects. Scheduled outputs are produced daily, weekly, biweekly, and monthly on hardcopy and microfilm. Output media is magnetic tapes.

S19500-003

Volunteer Reservation System.

01/01/80

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Peace Corps (All Programs)

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 5; 75 Stat. 613; 22 U.S.C. 2504 et seq.).

Availability: Agency; Internal Use Only

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: The Volunteer Reservation System was established to increase the effectiveness of reserving open volunteer slots for Peace Corps applicants. This system contains all Peace Corps project data for the current season and a skeleton record for applicant data to nominate an applicant into a project/slot. Update is daily. The system contains about 8,200 records. **Input:** Project data are extracted from the Applicant Management Information System (AMIS) and loaded into the Reservation System. Applicant data are derived from recruiters who interview potential applicants and phone in the required data to the Service Center where it is keyed onto the terminal. **Output:** Hardcopy reports of applicant status and all open Volunteer slots for Peace Corps projects are produced daily and weekly.

Agency Contact: (202) 254-3867.

General Accounting System.

1983

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Peace Corps (All Programs)

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 5; 75 Stat. 613; 22 U.S.C. 2504 et seq.).

Availability: Agency

Geographic Relevance: Federal regions

Purpose: The accounting system provides a centralized source for financial information relating to all Agency revenues, obligations, liabilities, disbursements and costs. It has been designed to meet the requirements established by the Budget and Accounting Act of 1950 and administrative regulations for general ledger accounting allotment reporting, and to provide financial data necessary to manage the affairs of the Agency. Financial transactions are entered into the system through coding systems to identify budget, obligation, and expenditure data by purpose, cost element, and organizational location. Automated distribution is made to files through computer tables to update general ledger and subsidiary accounts for preparation of reports for management and central control agencies. The system includes information about all financial operations of the Agency. The data included concern individual financial transactions as well as summary records. Separate records are kept for both accounts and fiscal years that Agency funds are available for expenditures. Files are updated as required, usually twice a week. All individual transactions are associated with a vendor code from which it is possible to derive the state and city of the vendor. **Input:** Input is comprised of financial transactions of the Agency. **Output:** Output includes status of funds and a variety of accounting data.

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 5; 75 Stat. 613; 22 U.S.C. 2504 et seq.).

Availability: Agency

Geographic Relevance: Federal regions

Purpose: The system provides OEO with data regarding the racial, sexual, and ethnic composition of the Agency workforce. This information is utilized in the development, modification, and monitoring of Equal Employment Opportunity programs. In addition, the data provide input into the Agency's monthly submissions to the Equal Employment Opportunity Commission. The system contains the following data on each employee: name, title, pay plan, grade, step, salary, sex, minority code, subobject classification code, organization, entrance on duty date, date of last promotion, and date of birth. Data are added to the system (or corrections/modifications made) on a monthly basis. **Input:** Input is comprised of personal data on employees of the Office of Equal Opportunity (OEO). **Output:** A computer printout of all employees by organizational location is provided to OEO quarterly. A report containing minority/ethnic information from this system is provided to the Equal Employment Opportunity Commission by the Division of Management

S19500-008

Personnel Management Information System (PMIS).

1983

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Program Development and Support

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 15; 75 Stat. 621; 22 U.S.C. 2514).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: The Personnel Management Information System (PMIS) was developed to provide current information for the management of the Agency's staff. The system reports on all personnel employed by the Agency on direct-hire appointments and personal service contracts overseas. The system is utilized by all levels of internal management and by various federal establishments. The PMIS consists of a series of processes which result in the production of a permanent monthly status master file and a permanent history (transaction file). The master file contains information on current staff members and former staff members who have separated from the Agency within the last four years. The history file contains information on all staff members who have been employed with the Agency during the last five years. Both files contain personal information (e.g., sex, name, experience) and position information (e.g., location, organization, grade, salary). Geographic location is identified by city/county/state/country. **Input:** Input includes notification of Personnel Action (SF-50). **Output:** Output includes internal management reports, personnel documents, external reports (CSC, State Department, Congress) monthly tape submission to CSC, and special internal and external reports. Output is hardcopy, tapes, curds, and documents and is produced on biweekly, monthly, and annual schedules.

Health Services/Fiscal Services System.

OMB Funding Code/Title: 11-0100-0-1-151 / Peace Corps operating expenses

Program: Program Development and Support

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee; Foreign Operations Subcommittee; *Senate* Appropriations Committee; Foreign Operations Subcommittee

Authority: Peace Corps Act of 1961 (P.L. 87-293, title I, § 15; 75 Stat. 621; 22 U.S.C. 2514).

Availability: Agency

Geographic Relevance: National

Purpose: This system allows health services personnel to record medical bills as they are received and authorized for payment and provides for payment of the bills. The system automatically checks for duplicate billings and/or payments. The verified records are forwarded to the Fiscal Services Branch where the appropriate fiscal codes are added. The completed records are used to generate payment schedules. The system is updated daily. **Input:** Billing and payment data are taken from the bills received from doctors for services rendered to Peace Corps volunteers. **Output:** The principal recurring reports include listings of unpaid bills, listings of paid bills, and schedules of payment to be sent to the Department of the Treasury (Standard Form 1166). Products may be produced in hardcopy or CRT display.

Congressional Budget Office

S30300-001

Congressional Scorekeeping System.
OMB Funding Code/Title: 08-0100-0-1-801 / Salaries and expenses
Program: Scorekeeping
Congressional Relevance: House Committee on The Budget; Senate Committee on The Budget; House Appropriations Committee; Legislative Branch Subcommittee; Senate Appropriations Committee; Legislative Branch Subcommittee
Authority: Congressional Budget and Impoundment Control Act of 1974 (P.L. 93-344).
Availability: The CBO and Senate scorekeeping reports are publicly available
Purpose: The Congressional Budget Office is required by section 308(b) of the Congressional Budget Act of 1974 (Public Law 93-344) to issue periodic reports on the status of congressional budget action. The CBO reports budget scorekeeping data on a continuous basis to the House and Senate Committees on the Budget, who transmit it to members of Congress. These reports, intended primarily for staff use, present the basic scorekeeping tables used by CBO to tabulate congressional action affecting the fiscal year budget. Content includes federal budget information by account and budget authority and outlays by fiscal year. Information is updated daily to reflect executive and congressional budget actions. **Input:** Concurrent resolutions, congressional initiatives, appropriation bills, Budget Committee actions, Appropriation Committee actions, President's Budget, including amendments and revisions, and CBO estimates and estimates are the source data. **Output:** Computer printouts are produced.
Agency Contact: (202) 226-2812.

S30300-003**Credit Budget System (CBS)****OMB Funding Code/Title:** 08-0100-0-1-801 / Salaries and expenses**Program:** Salaries and Expenses**Congressional Relevance:** *House* Committee on Government Operations; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee**Authority:** Congressional Budget and Impoundment Control Act of 1974 (P.L. 93-344, § 308(b); 88 Stat. 313; 31 U.S.C. 1329)**Availability:** Agency**Geographic Relevance:** National

Purpose: The Congressional Budget System (CBS) has been designed by the Congressional Budget Office (CBO) to support congressional consideration of federal credit activities. It was requested by the Senate Budget Committee in October 1980. The CBS provides a source of data for consideration of the President's credit budget, support of congressional committees in developing their views and estimates--March 15th reports--on federal credit activities, development of the credit portion of the budget resolutions by the Budget Committees, and the tracking of congressional action on credit through the appropriation or authorization process. The CBS maintains data on new direct loan obligations and new loan guarantee commitments, the two basic measures of credit activity. Data on lending activity, as described in the budget increments, and changes in credit activity that affect budget authority and outlays are reflected in those numbers. However, obligations and commitments are not identifiable in standard budget tracking systems. The CBS tracks these measures of credit activity. **Input:** The CBS records information by budget account for Presidential requests, CBO reestimates, Budget Committee assumptions for budget resolutions, and Appropriation Committee action. **Output:** Reports are available which show the President's requests for the 3 years covered by the budget, comparisons between different stages of consideration, and current status of credit activity in the appropriation process. Reports can be organized by budget function, spending committee, authorizing committee, and Treasury identification code. Reports are provided to Budget Committees prior to floor consideration of Appropriations and in preparation for budget resolutions.

Agency Contact: (202) 226-2835.**S30300-004****Legislative Classification System (LCS)****OMB Funding Code/Title:** 08-0100-0-1-801 / Salaries and expenses**Program:** Salaries and Expenses**Congressional Relevance:** *House* Committee on The Budget; *House* Committee on Government Operations; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Committee on Appropriations; *Senate* Appropriations Committee; Legislative Branch Subcommittee**Authority:** Congressional Budget and Impoundment Control Act of 1974 (P.L. 93-344, § 201(a); 88 Stat. 302; 2 U.S.C. 601).**Availability:** Agency**Geographic Relevance:** National

Purpose: The Congressional Budget Office (CBO) is responsible for a data base which relates individual Federal Budget Accounts to the appropriate legislation that authorizes account activities and to the author House and Senate authorizing and spending committees. The data in the Legislative Classification System (LCS) consist of the descriptive information on the approximately 1200 budget accounts. For each account the information consists of: the authorizing and spending committee(s) involved, descriptive text summaries of account content, and sections of law authorizing activities in the account and other applicable legal citations. **Input:** Updates are applied to the data base throughout the year, with major data revisions in January to reflect changes in the President's budget structure and at the close of each session of Congress to incorporate all public laws enacted during the session. **Output:** Formal reports requested by standing committees of the Senate and House of Representatives are generated using LCS. The system also supports various CBO analyses of legislative and jurisdictional budget questions.

Agency Contact: (202) 226-2835.**General Accounting Office****S30400-002****Legislative History System**

1921

Purpose: The system supports the information needs of the Office of the General Counsel and other divisions of the General Accounting Office with respect to legislative interpretation and research. The Law Library maintains, for reference and research purposes, legislative histories on every bill introduced and law enacted by the United States Congress. The compilations contain all versions of the bill, committee reports, amendments, hearings and Congressional Record extracts not only on the bill that became law but related bills from the same and prior Congresses as well. This material is assembled in the order the action occurred, starting with the introduced bill and is referenced to the earlier laws being amended. The compilations, which date from 1921, also contain GAO letters, decisions, and memoranda. The bills and laws are indexed by a hierarchical method covering subject matter and law citations. **Input:** The Government Printing Office, congressional committees, GAO index and files, and other GAO Divisions are the input sources. **Output:** The output is legislative histories.

Agency Contact: (202) 275-2972.**S30400-003****Index-Digest System****OMB Funding Code/Title:** 05-0107-0-1-801 / Salaries and expenses**Congressional Relevance:** *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee**Authority:** Budget and Accounting Act of 1921, as amended (P.L. 67-13). Legislative Reorganization Act of 1970 (P.L. 91-510).**Availability:** Agency

Purpose: The system supports decisionmaking activities of the Comptroller General and staff (Office of General Counsel) and provides access to these activities to the General Accounting Office, to other government agencies, and to the public. The system contains subject indices of digests covering Comptroller General decisions, inter-office memoranda, and non-decision letters issued by Office of the General Counsel which deal with civilian personnel, general government matters, military personnel, procurement law, special studies and analyses, and transportation categories. The system also includes the annual full text, in bound volumes, of selected decisions (with 5-year indices of digests), the issuance of various publications covering remaining materials in the above categories, as well as maintenance of subject and citation files based upon the above material. **Input:** Comptroller General decisions, intra-office memoranda, and non-decision letters issued by Office of the General Counsel, serve as input. **Output:** Publications include: Index Digest of the Published Decisions of the Comptroller General of the United States (bound volume of digests issued every five years), Pamphlets of Published Decisions of the Comptroller General of the United States (monthly), culminating in an annual bound volume (full-text); Pamphlets of Digests of Unpublished Decisions of the Comptroller General of the United States (quarterly, covering general government matters, civilian personnel law, military personnel law, procurement law, special studies and analysis, and transportation); and subject and citation research file cards.

S30400-004

Legislative, Authorization, Program, and Budget Information System (LAPIS).

1975

OMB Funding Code/Title: 05-0107-0-1-801 / Salaries and expenses

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; *Legislative Branch Subcommittee*; *Senate* Appropriations Committee; *Legislative Branch Subcommittee*

Authority: Act of September 13, 1982 (P.L. 97-258; 31 U.S.C. 1113).

Availability: Agency

Purpose: Title 31 U.S.C. 1113 requires that the Comptroller General conduct a continuing program to identify and specify the needs of the committees and Members of Congress for fiscal, budgetary, and program information. It also requires that the Comptroller General establish, and maintain a file of information to meet recurring requirements of the Congress for fiscal, budgetary, and program information. The files are to be maintained to facilitate use by the committees of both Houses, joint committees, and other congressional agencies through modern data processing and communications techniques. The system is continually being updated during the year. The major budgetary information update occurs between January and March. Between May and November, the entire data base is reviewed, refined, and updated. Information includes legislation, (popular name, public law number, title, section, etc.), program name, budget authority, outlays, obligations, agency, bureau, appropriation account title and number, function and subfunction names and number, appropriation subcommittee and authorizing committee jurisdiction (House and Senate), authorization amounts, and authorization termination date. Budget data include budget authority, outlays, net and total obligations, and offsetting collections. Programs in the data base are coded by major distributional areas, policy areas, special program areas, target groups, and types of assistance to facilitate Congressional review of programs. **Input:** Input is from the federal agencies reflected in the Budget of the United States government and off-budget federal agencies. The agencies' input includes budgetary, program, and legislative information. In-house analysis is utilized to refine and standardize the information. Selected information from the Office of Management and Budget data tapes is integrated into the system. References to Catalog of Federal Domestic Assistance Programs are included as appropriate. **Output:** Current reports are formatted and produced in response to particular committee or member requests and contain the specific information requested. The output medium is usually hardcopy computer printouts. In some instances the final product is a typed report developed by GAO analysts utilizing the information from the system as a baseline.

S30400-006

Congressional Information Sources Inventories and Directories (CISID) Data Base.

1975

OMB Funding Code/Title: 05-0107-0-1-801 / Salaries and expenses

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; *Legislative Branch Subcommittee*; *Senate* Appropriations Committee; *Legislative Branch Subcommittee*

Authority: Act of September 13, 1982 (P.L. 97-258; 31 U.S.C. 1113).

Availability: Agency

Purpose: Title 31 U.S.C. 1113 (formerly Title VIII of the Congressional Budget and Impoundment Control Act assigned to the Comptroller General certain responsibilities for helping the Congress obtain and use information. As part of its program for carrying out those responsibilities, the U.S. General Accounting Office (GAO) has developed inventories of fiscal, budgetary and program information. The current Congressional Information Sources Inventories and Directories (CISID) data base encompasses four separate files. Each is an inventory and guide addressing a different area of program-related information. Information in the system consists of: 1) Requirements for Reports to the Congress--describes nearly 3,333 reports required of 254 agencies by the Congress; 2) Federal Evaluations--contains an inventory of approximate-

ly 1,650 evaluation reports produced by and for selected federal agencies, including GAO, which relate to the programs of those agencies; 3) Federal Information Systems--describes approximately 1,659 federal information systems maintained by government agencies which contain fiscal, budgetary, and program-related data and information; 4) Federal Information Sources/Resources--provides an indexed file to more than 909 federal information sources/resources. The GAO has established a continuing program to maintain a current inventory of reporting requirements, evaluation studies, and fiscal, budgetary, and program-related information sources and systems. The inventory is maintained on central computer files in such a manner as to render data transferable to the Library of Congress for inclusion in the Congressional Research Service's SCORPIO information retrieval system, thus facilitating their use by the committees of both Houses of the Congress. **Input:** Input is from OAO forms submitted as required under law by the executive branch agencies. **Output:** A series of directories tailored to meet the information needs of Congress is published annually. Hardcopy publication cycle for complete listings is annually for federal evaluations; every two years for reporting requirements; and every four years for information systems/sources. Magnetic tape copies of the data bases used to produce these products are also available.

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; *Legislative Branch Subcommittee*; *Senate* Appropriations Committee; *Legislative Branch Subcommittee*

Authority: Budget and Accounting Act of 1921 (P.L. 67-13; 31 U.S.C. 41). Legislative Reorganization Act of 1970 (P.L. 91-510).

Availability: Internal Use Only

Purpose: This system provides input data for the payroll system and provides management information for use in budget preparation and day-to-day operations. This system is updated with personnel, job, and financial information daily and with time and attendance data biweekly. Information provided by the system is used to monitor individual audit assignments, prepare staff year budgets, and track invoices and purchase order payments. **Input:** Data for this system are extracted from Standard Form 50 which provides basic personnel information; GAO Form 100 which contains information on authorized personnel assignments; GAO Form 484 which is used to enter time and attendance information such as leave and assignment changes; and a variety of financial input documents. **Output:** The system produces a payroll tape and various levels of management reports on a biweekly basis. In addition, ad hoc reports are available as requested.

S30500-001

Storage and Information Retrieval System/Virtual Storage (PRF-STARS/VS).

OMB Funding Code/Title: 04-4505-0-4-806 / Government Printing Office revolving fund

Program: Sales of Publications

Congressional Relevance: *House* Committee on House Administration; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee

Authority: Public Printing and Documents (P.L. 90-620, 82 Stat. 1241; 44 U.S.C. 1702).

Availability: GPO

Purpose: This system consists of the Publications Reference File which is a file of all publications for sale by the Superintendent of Documents. The file contains the following information about the publications: stock number, catalog number, status, source (agency and bureau), author, title, price, and description information about the publication and its subject matter. The records are retrievable by any word in any field, with the exceptions of price and status fields and several common words. The system is the primary tool for employees researching customers' inquiries, orders, and complaints. The file is updated daily. **Input:** The publications offered for sale by the Superintendent of Documents provide the information used in the system. **Output:** The basic product of the system is CRT display of queried publications. The Publications Reference File is available in microfiche form for sale on a bimonthly subscription basis with monthly updates. All designated depository libraries receive the subscription and updates.

Library of Congress

S30600-009

Library of Congress Information System (LOCIS).

OMB Funding Code/Title: 03-0101-0-1-503 / Salaries and expenses

Program: Automated Systems Support

Congressional Relevance: *House* Committee on House Administration; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee

Authority: Act of February 19, 1897 (2 U.S.C. 136).

Availability: Agency; GPO; Some files are reserved for congressional use

Purpose: This system reflects various missions of the Library of Congress, serves a variety of users, and provides several specific services. The major subsystems included in LOCIS are files formerly known as Subject-Content-Oriented Retriever for Processing Information On-line (SCORPIO), Multiple Use MARC System (MUMS), and the Library Order System (LOIS). The system includes the Legislative Files which monitor legislative action on bills; the Congressional Record Files which contain abstracts of pages of the Congressional Record; the Major Issues File which is a collection of topical briefs on public policy issues; and the Bibliographic Citation File which contains references to topical periodical articles, GPO publications, United Nations documents, and other publications which cite books, maps and serials are included. Among these is the Books M files which provide access to currently available books published in English since 1968 and other Roman languages since 1973. Earlier published books and periodicals not represented in Books M are contained in the PREMARC file. Copyright cataloging information on all non-serial items deposited since 1978 are included in the copyright History Monograph and Copyright History Documents files. The National Referral Center Master File provides information on organizational sources of technical and scientific and social science topics. **Input:** Bibliographic Information is prepared

and entered by the MARC editorial staff. Most of the data for the congressional files are prepared by the Congressional Research Service. The Copyright Office provides copyright cataloging data. **Output:** Hardcopy products of LOCIS include the Digest of General Public Bills and Resolutions, SSI service for Congressional users, catalog cards, and proof sheets of new cataloging. Magnetic tapes are also available for sale.

Administrative Management Systems.

OMB Funding Code/Title: 03-0101-0-1-503 / Salaries and expenses

Program: Automated Systems Support

Congressional Relevance: *House* Committee on House Administration; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee

Authority: Act of February 19, 1897 (2 U.S.C. 136).

Availability: Internal Use Only

Purpose: This system facilitates the planning, implementation, and coordination of all Personnel and administrative management for the Library of Congress (LC), as well as financial management for the LC, the Congressional Budget Office (CBO), and the Copyright Royalty Tribunal (CRT). The financial management component of the system performs the functions of disbursement, planning, and monitoring of available funds. This subsystem includes payroll files for processing biweekly pay and leave records and for maintaining a history of all pay and leave information for tax and reporting purposes. It also includes ledger files used to maintain pertinent information on each financial transaction. The personnel management subsystem consists of several activities, such as monitoring current position postings and personnel training, designed to assist the personnel and labor relations staff. The administrative management component controls and produces timely reports on all computer-related hardware acquired by the Library. **Input:** Data used in this system are derived from purchase orders, time and attendance sheets, position postings, and other administrative working documents. **Output:** This system produces a variety of hard copy reports which are available to the appropriate LC, CBO, and CRT staffs and to other government agencies as required by law. Among the products are U.S. Treasury reports, allotment ledgers, status of funds reports, weekly procurement and supply transactions, payslips, time and attendance reports, and position control reports. Information available on-line to appropriate LC staff includes hardware inventory control data, allotment ledger reports, and personnel and posting applicant data.

Copyright Services System.

OMB Funding Code/Title: 03-0101-0-1-503 / Salaries and expenses

Program: Automated Systems Support

Congressional Relevance: *House* Committee on House Administration; *Senate* Committee on Rules and Administration; *House* Appropriations Committee; Legislative Branch Subcommittee; *Senate* Appropriations Committee; Legislative Branch Subcommittee

Authority: Act of February 19, 1897 (2 U.S.C. 136).

Availability: GPO; Internal Use Only

Purpose: This system contains three subsystems designed to facilitate the work of the Copyright Office in the major areas of production of the Catalog of Copyright Entries, registration of copyright requests, and licensing of jukeboxes. The Copyright Office Publication and Interactive Cataloging System (COPICS) allows for the on-line copyright cataloging of books, sound recordings, motion pictures, filmstrips, documents, and serials. The data contained in COPICS are used to publish the Catalog of Copyright Entries. The Copyright Office In-Process System (COINS) contains information needed to manage deposit accounts for the payment of copyright registration fees and to track all pending registrations requiring correspondence. The Jukebox Licensing System is designed to record, report, and generate certificates of license for coin-operated phonorecord players (jukeboxes) within the 20 days required by law. **Input:** Data used in this system are extracted from copyright registration forms and copies of the actual work, correspondence, jukebox licensing applications. **Output:** The system produces a variety

of working documents for the Copyright Office staff, license certificates and renewal reminders for license registrants, and copyright catalog cards and the Catalog of Copyright Entries, both of which are available to the public

Agency Contact: (202) 287-8350.

National Library Services to the Blind and Physically Handicapped System.

OMB Funding Code/Title: 03-0101-0-1-503 / Salaries and expenses

Program: Automated Systems Support

Congressional Relevance: *House Committee on House Administration; Senate Committee on Rules and Administration; House Appropriations Committee; Legislative Branch Subcommittee; Senate Appropriations Committee; Legislative Branch Subcommittee*

Authority: Act of February 19, 1897 (2 U.S.C. 136).

Availability: Internal Use Only

Purpose: This system assists in administering a national program to provide reading material in nonbook media, such as braille and talking books, to qualified citizens. The materials are selected, procured, and distributed through cooperating local and regional centers. This system contains cataloging for books that have been converted to other media since 1974 and data on books being considered for conversion to other media. Among the specific data maintained for each item are order information, copy allotment to the local and/or regional centers, and copyright details. **Input:** Data for this system is drawn from cataloging worksheets and copies of actual books. **Output:** The system generates "Reading Materials for the Blind and Physically Handicapped," which is distributed to the local and regional centers, and a "Union List of Titles In-Process," which is for internal use.

Legal Services Corporation

SS5900-001

Information System on Legal Services Programs.

OMB Funding Code/Title: 20-0501-0-1-752 / Payment to the Legal Services Corporation

Program: Legal Services

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on Labor and Human Resources; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee*

Authority: Legal Services Corporation Act of 1974 (P.L. 93-355; 42 U.S.C. 2996). Legal Services Corporation Act Amendments of 1977 (P.L. 95-222; 42 U.S.C. 2996).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides a data base for producing descriptive statistics on legal services field programs funded by the Legal Services Corporation (LSC) for use in program planning. The system includes a grant data file, a workforce analysis file, and an annual program budget file. The grant data file contains current and historical funding data and service population characteristics of the local legal services programs. The workforce analysis file contains employment-related characteristics of staff by office, including job category, years of experience, annual salary, sex, ethnic background, handicap status, and use of a second language in present work. The annual program budget file details legal services program allocations of LSC and non-LSC funds among standard budget categories and identifies the sources and amounts of non-LSC funds. **Input:** The data contained in this system are extracted from funding applications and from financial reports maintained by LSC. **Output:** Computer printouts or tapes are generated in response to requests for data.

Agency Contact: (202) 272-4276.

Personnel Data System.

OMB Funding Code/Title: 20-0501-0-1-752 / Payment to the Legal

Services Corporation

Program: Support for the Provision of Legal Assistance (Management and Administration)

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; Senate Committee on Labor and Human Resources; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee*

Authority: Legal Services Corporation Act, as amended (P.L. 88-452, title X, § 1003, as amended by P.L. 93-355, § 2; 42 U.S.C. 2996b).

Availability: Internal Use Only

Purpose: The Personnel Data System consists of a summation of personnel actions taken by the Corporation headquarters and its nine regional offices. The system provides statistical data on permanent staff, long-term consultants and temporaries from October 1975 to the present. It also provides general statistics for equal employment opportunity purposes. Information on short-term employees covers the period of January 1, 1982 to the present. The applicant file includes persons interviewed between January 1, 1983 to the present. **Input:** Source documents for data input are: Personnel Action forms (appointment, termination, pay changes, etc.); Benefits Enrollment forms (selected benefits); Contracts, Extension and Amendments (type of work, duration, pay, etc.); Report on Filling Vacancy form (Equal Employment Opportunity statistics and applicant interview data); Applications/Resumes (applicant name, address, work desired, etc.); and Advertising Log. **Output:** The frequency of system output is as follows: the Personnel master is produced monthly as needed; Staff Rosters of Salary Levels are produced semi-monthly; the Staff Directory is produced semi-annually. All of the reports are currently maintained on hardcopy.

Agency Contact: (202) 272-4135.

Financial Management System (FMS).

OMB Funding Code/Title: 20-0501-0-1-752 / Payment to the Legal Services Corporation

Program: Support for the Provision of Legal Assistance (Management and Administration)

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; Senate Committee on Labor and Human Resources; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee*

Authority: Legal Services Corporation Act, as amended (P.L. 88-452, title X, § 1003, as amended by P.L. 93-355, § 2; 42 U.S.C. 2996b).

Availability: Internal Use Only

Purpose: The Financial Management System provides: (1) an accumulation of financial data to facilitate the preparation of financial reports; (2) controls to prevent overspending by use of budgets; and (3) the operational use of the accounting systems through simplification of procedures, reports and records. The Financial Management System contains the following sub-systems: Budget; General Ledger; Grants Disbursements; and Accounts Payable. The accounting data files contain financial and budgetary transactions which occur during a given fiscal year. The Legal Services Corporation fiscal year is from October 1 through September 30. **Input:** The primary sources of data contained in this system originate as a result of the following: (1) Approved Budgets; (2) Grant Contracts; and (3) General and Grant Disbursements. **Output:** The General Ledger and budget reports which are provided monthly and the annual financial statements are the major reports that are prepared by the Financial Management System. Also, Grant and General Disbursement checks are prepared by the system. These checks are issued monthly and bi-weekly, respectively. The General Ledger is maintained on hardcopy and/or microfiche. All other noted reports are maintained on hardcopy only.

Agency Contact: (202) 272-4150.

Student Loan Marketing Association

SS5900-001

Student Loan Marketing Association Forecast System.

OMB Funding Code/Title: 99-0000-9-9-000

Program: Administrative Expenses

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Higher Education Act of 1965, as amended (P.L. 89-329, title IV, § 439, as amended by P.L. 92-318; 20 U.S.C. 1087-2).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system provides corporation management with financial information for decision-making purposes. The principal subject matter is corporate financial statements. Major information is status of corporate assets, liabilities, and capital accounts, as well as income and expenses generated relative to corporate operations for a 28-month period. The update cycle is semiannual. **Input:** The primary data source is the Student Loan Marketing Association (SLMA) program operations division with regard to the status of program assets, including the warehousing advance and loan purchase programs. Information regarding interest rate forecasts is provided by the treasurer's division.

Output: The system produces an SLMA balance sheet, income statement, and cash flow statement on a monthly basis in hardcopy form.

Abstract: This publication is prepared for the use of U.S. government officials. The daily report provides its users with a continuing awareness of foreign media reporting on internal affairs and international developments in worldwide political, military, and socioeconomic spheres. Input is obtained from monitoring the foreign media. Items from foreign broadcasts, news agency transmissions, newspapers, and periodicals are processed from the first or best available source. The daily report is separated into eight volumes, each devoted to a particular geographic area: Peoples' Republic of China, Eastern Europe, Soviet Union, Asia and Pacific, Middle East and North Africa, Latin America, Western Europe, and South Asia. Each English-language volume contains current news and commentaries on internal affairs and international developments in the political, military, and socioeconomic spheres. Daily report volumes are published Monday through Friday in both paper and microfiche versions.

Abstract: JPRS responds to the requirements of government analysts and researchers by providing accurate, timely translations and abstracts from foreign media on a worldwide basis covering trends in political, military, economic, scientific, and technical spheres. JPRS publications contain information primarily from foreign newspapers, periodicals, and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained. JPRS publications are primarily concerned with publications in Communist countries, though materials from all countries may be included. About half of the reports are in the scientific and technical fields; the remainder cover the political, military,

and socioeconomic spheres. Translations are consolidated and published in both serialized geographic area and subject-oriented publications, and on an ad hoc basis.

Abstract: Publications are issued to support the intelligence needs of U.S. government officials; they provide basic background and current information about foreign countries on topics of interest to these officials. The information is collected primarily from foreign newspapers, books, magazines, journals, and official publications of foreign governments. The publications in these aids cover a wide range of subjects, with economic and biographic information predominating. The biographic reference aids are directories and listings of foreign officials, especially those of Communist and Communist Bloc countries. (These aids include "Chiefs of State and Cabinet Members of Foreign Countries," appearances of Chinese and Soviet officials, and some wall charts showing the names and positions of foreign government officials.) For the most part, the economic reports deal with the Soviet Union and the Peoples Republic of China; however, the "Economic and Energy Indicators" is concerned with the major non-Communist developed countries. The "World Factbook" is issued annually and includes information on all countries of the world. Other reports are issued irregularly on specific political, military or geographical topics. Directories, statistical compilations, Atlases, and fact books are also produced.

Abstract: This system enables updating and interrogation of catalog records for analytical, managerial, and publication purposes. The source information is obtained from federal departments, agencies, and commissions. The text record consists of full-text material for each of the more than 1,100 programs in the Catalog. Each major and subitem heading is preceded by a unique flag. Text information for a particular item can be extracted by scanning the text record for the unique item flag. The characteristics record consists of coded text material to identify such information as the agency administering the program, coordination and notification requirements, type of grant, obligational and loan information, type of assistance, applicant eligibility and authorization data. There are no reports.

Abstract: The primary purpose of the Catalog is to aid potential beneficiaries in identifying and obtaining available assistance. It is also intended to improve coordination and communication on federal program activities on federal, state, and local levels. Information is obtained from federal departments, agencies, and commissions. This is a comprehensive listing and description of federal programs and activities which provide assistance or benefits to the public. These programs are administered by 61 federal departments. Independent agencies, commissions, and councils. Each program is described in terms of the specific type of assistance provided, the purpose for which it is available, who can apply for it, and how they should apply. Federal offices to be contacted for additional information are also identified. Programs, activities, and services included are: grants, loans, loan guarantees, scholarships, mortgage loans, insurance, or other types of financial assistance; assistance in the form or provision of federal property, facilities, equipment, goods, or services; technical assistance, counseling, and training; statistical and other expert information; and service activities of regulatory agencies. Detailed instructions and indexes are provided to facilitate use of the Catalog. Information is normally updated once or twice a year. The Catalog of Federal Domestic Assistance is produced in hardcopy.

Geographic Relevance: National

Abstract: The Standard Occupational Classification (SOC) manual provides a statistical classification system for occupations so that data compiled by different agencies can be comparable. It is compiled by the Interagency Occupational Classification Committee. The SOC covers all occupations (over 600 occupational groups) in which work is performed for pay or profit, including work performed in family-operated enterprises where direct remuneration may not be made to family members. It provides a coding system and nomenclature for identifying and classifying occupations within a framework suitable for use in and out of government. It can be related to "Dictionary of Occupational Titles," which was developed by the Department of Labor primarily for job placement and job analysis.

Abstract: This reference document contains the official criteria used to define and designate Standard Metropolitan Statistical Areas (SMSA's) and a list of their titles and definitions. The report was compiled by the Federal Committee on Standard Metropolitan Statistical Areas with assistance from the U.S. Bureau of the Census. The document contains the 1971 criteria followed by OMB in establishing Standard Metropolitan Statistical Areas and Standard Consolidated Statistical Areas (SCSA's), as well as the titles and definitions of such areas. The SMSA and SCSA have been developed to meet the need for the presentation of general-purpose statistics about metropolitan areas by agencies of the federal government.

Abstract: This directory serves as a basic reference document on the statistical programs of federal agencies. It is a companion document to "Federal Statistical Directory." It is of interest to all users of federal statistics. Information was provided by the federal statistical agencies. Part I describes the statistical system of the federal government. It describes the procedures followed to achieve coordination within a decentralized statistical system and distinguishes between the various types of statistical agencies. The relations of federal statistical programs to those of other governmental and nongovernmental organizations, the use of advisory groups, the methods of collection and tabulation, and the presentation of data are described. Part II presents brief descriptions of the principal economic and social statistical series collected by government agencies. For each subject it tells what agencies are concerned and what kinds of data are collected and made available. This part has been updated to include information on energy and environmental statistics. Part III contains a brief statement of the statistical responsibilities of each agency and a list of its principal statistical publications. This publication deals with economic and social statistics, with emphasis on what statistical information is made available to the public. Among statistical activities not dealt with here are statistical programs in the physical and natural sciences and the application of statistical methods and techniques in administrative processes. The collection and use of statistical data for operating purposes is not described in detail unless the data thus obtained are also available and used for informational purposes.

Congressional Relevance: *House* Committee on Government Operations; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13, § 207; 31 U.S.C. 16).

Abstract: The system is designed primarily to facilitate communication among the various federal offices working on statistical programs and is a companion volume to "Statistical Services of the United States Government," last issued in 1975. The federal statistical system is decentralized, with the responsibility for statistical programs and activities distributed among a number of departments and agencies. OMB is responsible for coordinating the work of the several departments and agencies. Each agency furnishes OMB with a list of its key professional, technical, and administrative personnel engaged in such statistical activities. Included is a list, by agency and appropriate organizational units, of the names and locations of key persons engaged in statistical programs, including not only statisticians and economists, but administrative and managerial personnel involved in statistical programs, and information on: Planning and operation of general purpose data collection programs; planning and evaluation of statistical systems, including data processing and progress reporting; publication and dissemination of general purpose statistical information; development and application of statistical methods; and analysis and research that make extensive use of statistical data and methodology, including program planning and related activities. This directory is updated approximately every two years. The Federal Statistical Directory is produced in hardcopy.

Geographic Relevance: National

Abstract: The Department of Commerce has developed a reporting system to handle General Agreement on Tariffs and Trade (GATT) Tariff Study files. The GATT files contain trade as well as tariff data for the 11 developed countries (European Economic Community members are treated as one country). For each reporting country, detailed supplier information is carried for each national tariff line of that reporting country; the data are further concorded to CCCN. The GATT Tariff Study files are current through 1978. The system can produce a number of canned reports: principal supplier, principal imports, and tariff rate reports.

Abstract: The General Operational Procedures Manual contains information of general applicability to Plant Protection and Quarantine (PPQ) operations. Subjects included are: (1) U.S. Customs entry classifications and how they relate to PPQ procedures; (2) instructions for completing and distributing various PPQ forms; (3) lists of locations where arriving foreign carriers may receive PPQ clearance and procedures for clearing aircraft and vessels; (4) procedures for handling miscellaneous materials not subject to specific regulation but capable of carrying plant pests; (5) instructions for handling and identifying intercepted plant pests; (6) lists of facilities approved to perform treatments required of entering plant material; (7) procedures for reporting apparent violations of the regulations; (8) general information on domestic quarantine operations; and (9) guidelines on complying with environmental matters. This manual is written for PPQ officers and is not applicable to the public.

Abstract: Summaries of plant quarantine import requirements of over 150 countries are maintained and updated as changes are received. The revised summaries are distributed to federal and state plant regulatory officials, nurserymen, exporters, and others requiring such information. This is done in line with Plant Protection and Quarantine's charge of assisting U.S. exporters in meeting the entry requirement of foreign countries.

Abstract: The Animal Products Manual provides administrative interpretation and guidance in the enforcement of regulations contained in 9 C.F.R. 92, 94, 95, 96, and 156. These regulations are designed to prevent the introduction of exotic animal diseases into the United States. Plant Protection and Quarantine (PPQ) officers are charged with enforcement of these regulations at ports of entry. The manual also contains guidance on handling other animals and animal products that may be encountered until personnel from Veterinary Services (VS) or other agencies can be contacted and take over enforcement activity. The manual includes lists of establishments currently authorized by VS to receive restricted products for treatment or required processing. This manual is written for trained PPQ officers and is not intended for the general public.

Abstract: The Plant Protection and Quarantine Treatment Manual contains procedures and schedules for applying fumigants for the elimination of insect pests in imported commodities. In addition, sections on equipment, facilities, and safety describe the equipment used, provide guidelines for construction and operation of fumigation facilities, and provide safety instructions. Instructions for cold treatments are also included. This manual is used to guide Plant Protection and Quarantine (PPQ) officers supervising treatments and commercial applicators performing treatments required to meet PPQ requirements. This manual has become a reference on fumigations for plant quarantine work throughout the world. Copies are in the hands of the plant quarantine officials of a large number of countries.

Abstract: The Emergency Programs Information Center (EPIC) brings together at one location key technicians, middle managers, and specialized information resources whose primary function is to prepare for and respond to any outbreak of foreign animal disease that may occur in the United States. Information in the form of published literature, maps, and audiovisuals is continuously updated and available within minutes to help animal disease control specialists decide the best possible course in controlling dangerous epizootic outbreaks. During the course of an outbreak, epidemiologic data collected from field investigations is stored for rapid retrieval. EPIC bibliographic resources include more than 50,000 articles in English concerning 38 animal diseases. Articles are extensively indexed using a thesaurus of over 4,000 keywords and phrases. The full text of each article is stored on 16 millimeter microfilm. Bibliographic citations and index terms are stored in a computerized data base (EMERPRO). The data base can be searched by any field in the citation, as well as by index terms. The articles can be quickly located and printed on microfilm reader-printers equipped with a page-search device. Data collected during an outbreak of an exotic animal disease is input at the task force site into the Recorded Emergency Animal Disease Information (READI) data base for rapid retrieval both by the task force and EPIC personnel. EPIC audiovisual resources include 2 inch by 2 inch color slides of animals affected by foreign animal disease, as well as 16 millimeter sound films and videotapes dealing with differential diagnosis and pathogenesis of foreign animal diseases. Film and videotape playback equipment is available for use at the information center. EPIC also maintains an aperture card file of 35 millimeter microfilm maps, including topical maps of the entire world, U.S. Geological Survey maps of the United States, and county maps of the United States. These maps may be printed in various enlargements on a microfilm enlarger printer maintained at the information center.

Abstract: The Animal Disease Thesaurus contains over 4,000 terms relating to over 40 exotic animal diseases and their insect vectors. Terms are arranged hierarchically in 15 categories: Clinician, Biochemistry, and Physics; Countries of the World; Diseases; Disease Agents; Entomology; Epizootology and Epidemiology; Immunology; Pathology, Toxicology and Anatomy; Pharmacology and Therapeutics; Physiology and Nutrition; Prevention, Control, and Eradication; Species Affected; Techniques and Apparatus; Zootecny; and Miscellaneous. There is also an alphabetical listing of terms. Each term is assigned a six-digit code which is listed in both the hierarchical and alphabetical sections. This code represents the term as stored in the EMERPRO computerized data base and is used for retrieval of citations from the data base.

Abstract: The purpose of the EMERPRO User Guide is to assist the terminal user in the operation of the EMERPRO data base. Simple instructions for basic procedures of operation are presented in this guide; more complex procedures are detailed in the System 2000 Manual. Each command in this guide has a reference to the corresponding section in the System 2000 Manual. The sections of the guide are: General Information; Application, which includes a description of the data base and its structure; and Procedures and Requirements, which includes logon procedures, input clauses, and update procedures, as well as retrieval procedures and examples of report formats.

Availability: Internal Use Only

Abstract: The Recorded Emergency Animal Disease Information (READI) User Manual was developed to allow all employees involved in eradication efforts to understand the use of the READI System, a computerized information storage and retrieval system, for recording activities during the course of an outbreak of an exotic animal disease. It is intended to provide task force directors, field veterinarians, and computer operators with specific information on how to input and retrieve data. The manual is divided into 10 sections: Introduction; Terms; Task Force Forms, which includes examples of each input form along with instructions for completion; Form Review and Coding; Installing Your Terminal; Communicating with Computer, which includes general operating instructions such as logon procedures, function keys, error correction, and print procedures; Entering Your Data; Query Program Reports, which provides examples of complex reports available from the

system along with retrieval and query reports; and Appendix, which provides examples of simple listings available from the system along with retrieval instructions, and Ad Hoc Query, which provides instructions for formulating retrieval statements and reports. These sections are followed by an appendix which lists all the codes used in the system and an error message appendix which explains error messages generated by the system.

Geographic Relevance: National; State; County; City

Abstract: The Annual Statistical Review of Food and Nutrition Programs is published annually to provide interested persons with facts and figures on the operation of the programs. A preliminary report is published when available, followed by a final report when complete data is available. The final report for the fiscal year 1975 was published in July 1977. Data for the two editions of the Annual Statistical Review are

prepared by the program reporting agency to the management information on the operation of FNS programs. The data come to them from the operators of food assistance programs, in most cases, the appropriate agencies of the state governments, but also, in a few cases, by Regional Offices of the FNS. This report presents statistical information on FNS programs, including data on the food stamp, special milk, child nutrition, special supplemental food, food donations, and elderly feeding programs. Graphics, text, and printouts are utilized to present the information in the form which might be most useful to users of the publication.

Abstract: The system was set up to monitor and control expenditures for commodity purchases and to insure mandated allocation, ordering, and delivery of commodity assistance to each eligible domestic outlet. The current files contain over 60,000 entries which are used in the publication of "Abstracts of Purchase Contracts" and "Food Requisitions." The files contain information on \$2.1 billion worth of commodities, about 2 billion pounds of food, 12 different outlets, two separate delivery years, and 5 different appropriations.

Geographic Relevance: National

Abstract: The report was initiated to furnish management, other government agencies, Congress, and the public with a financial statement, prepared in accordance with accepted accounting principles, reflecting the financial condition and operations of the Commodity Credit Corporation. The report is used by management as an official record of prior and current operations, of the assets and liabilities of the Corporation and as a guide in planning future activities. It is used by budget, research, and legislative agencies of the government, as well as by the general public. The major input is from ASCS state, county, and Washington offices. Tobacco sales data are entered by county offices employees working temporarily in tobacco warehouses. The Office of the General Sales Manager enters information relating to credit sales, Public Law 480, and Barter Contract activity. Counties provide information concerning program participation and payment applications, land use, farm constitutions for tobacco, loans, and county office expenses. Washington offices enter fiscal and budget data. The ASCS knows City Commodity Office, cooperatives, servicing banks, and Federal Reserve Banks also enter data. This report presents information on the financial condition and operations of the Commodity Credit Corporation. Financial statements for the fiscal year are included. A review of programs and program operation is presented.

Abstract: The Kansas City Commodity Office manages the grain, rice, processed commodities, and cotton inventory programs. These programs are necessary to carry out the mission of Commodity Credit Corporation (CCC). The processed commodities, grain, cotton, and rice inventory systems are automated. The systems all record data relating to the acquisition, storage, handling, and disposition of commodities acquired by CCC. In the case of processed commodities, certain products may be purchased, processed, or repackaged. The information is utilized by managers at the commodity office and Washington Offices. Data are sent to others outside the agency. The Kansas City Commodity Office also supports Title II of Public Law 75-480 and the Domestic Donation Programs for Food and Nutrition Service. Input for grain, rice, and cotton acquisitions from CCC loans to farmers is provided by the Kansas City Management Office. Other input is internal from documents submitted by bidders, transportation organizations, warehousemen, contractors, and processors. Commodity acquisitions may occur anywhere in the United States. Update and processing cycles vary from daily to annually. The records relate to inventory description, inventory quantity and value, bids, storage, handling, transportation, processing, packaging, and sales. Examples of elements in the system are the name of the commodity, where stored, quality factors, quantity, storage rates, handling rates, specifications for bids, bids received, sale prices, summary totals of inventories, transportation data, loss in transit data, and accounting information. Operational program reports are prepared to control the day to day operations. These reports are primarily status reports on purchases made or to be made, inventory and merchandizing lists, deliveries, etc. Program management reports primarily contain summaries of program activity. Most reports are microfiche, microfilm, hardcopy computer printouts, or other hardcopy medium. Frequency varies from daily to annually. Most operational reports are weekly or monthly, and most management reports are monthly.

Abstract: The Kansas City Management Office develops and maintains information systems that serve many of the ASCS programs and administrative activities. The systems accept and record data from Washington and ASCS field offices in order to maintain accounting, program activity, inventory, and other records relating to ASCS administrative and program operations. The information is utilized by managers in the field and at all management levels in the Washington office. Reports are also sent to others outside the agency. The major input is from ASCS, state, county, and Washington offices. Tobacco sales data are entered by county office employees working temporarily in tobacco warehouses. The Office of the General Sales Manager enters information relating to credit sales, Public Law 480, and Harter Contract activity. Inspection offices provide permit inspection information. Counties provide information concerning program participation and payment applications, land use, farm constitutions for tobacco, loans, county office expenses, county office workload, and emergency food facility listings. Washington offices enter fiscal and budget data. The ASCS Kansas City Commodity Office, cooperatives, servicing banks, and Federal Reserve Banks also enter data. The program payment records contain the identification of the participant, acres, pounds, other units of participation, amount earned or loaned, and other miscellaneous data relating to program participation. These records are kept on a National, state, and county basis and, in some cases, on a producer basis. The reports serve statistical, accounting, and budgeting purposes. The credit sales, Public Law 480, and Harter Contract records serve the needs of ASCS, CCC, and the Office of the General Sales Manager. Accounting and budgeting systems serve those organizations for both program and administrative funds. Some records are maintained, and reports made on a calendar year basis, some on a fiscal year basis, and others on a program year basis. Many reports are made monthly. Update cycles vary from daily to annually. Major program activity, accounting, and budgeting reports are prepared monthly with annual summaries. They are usually computer prepared microfilm or hardcopy reports, but some machine readable reports are issued.

Availability: Agency

Geographic Relevance: National

Abstract: This report presents an analysis of present and anticipated uses of, demand for, and supply of renewable resources of forest, range, and other associated lands, including consideration of the international resource situation and the pertinent supply and demand and price relationship trends. In addition, it supplies an inventory of present and potential renewable resources and an evaluation of opportunities for improving their yield of tangible and intangible goods and services. All federal land management agencies provide information for use in this report. Forest Service employees, both throughout the nation and in the Washington Office, also provide input information. An analysis of the present situation and the outlook for outdoor recreation and wilderness, wildlife and fish, range, timber, and water is presented. Statistical data are presented on the ownership and condition of the nation's forest and range lands and associated inland waters; recent changes in forest and range resources; trends in the consumption and prices of major products; the prospective supply, demand, and price outlooks for the next several decades; and opportunities for increasing supplies of products and improving productivity. Data are provided on international trade in forest and range products and on the forest resources of foreign countries; an analysis of the kinds of scientific information and data needed to provide an adequate quantitative basis for future assessments of this type and for planning programs to match future supplies of these products with future demand is also presented.

A Reconniended Renewable Resource Program--1980 Update. (FS-346).

January 1976; 680 pp.

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Management, Protection and Utilization (All Programs)

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Forest Service Creative Act of 1891 (P.L. 51-145).

Geographic Relevance: National
Abstract: This program is intended to provide a long-range program for the Nation's renewable resources which will assure an adequate supply of forest and range resources in the future while maintaining the integrity and quality of the environment. In its final form, the program will present a recommended plan of action whereby the Forest Service can achieve the purposes set forth in the Forest and Rangeland Renewable Resources Planning Act and will present alternatives which describe the range of choices which could be made. The program is intended to serve as an administrative tool for the Secretary of Agriculture and the President, as a legislative tool for the Congress, and as a management tool for the Forest Service. The major source of information for this program was "The Nation's Renewable Resources--An Assessment, 1975." Pertinent information was also gathered from the reports of the Public Land Law Review Commission, the President's Advisory Panel on Timber and the Environment, the President's Advisory Commission on Materials Policy, and from other state and federal agencies concerned with renewable resource management. After examining the role of the Forest Service in natural resource programs and identifying the program framework, in-depth studies are presented for each of the following renewable resource systems: the outdoor recreation and wilderness system; the wildlife and fish habitat system; the range system; the timber system; the land and water system; and the human and community development system. The following aspects of each of these systems are examined: the resource situation; opportunities and backlogs; alternative goals; alternative programs for each goal; and an environmental analysis. Summaries of the program assumptions and of the environmental effects and interrelationships among systems are also presented for each system. Summaries and comparisons of program outputs and costs are included for the alternative programs for each system. Finally, an overall recommended program is presented.

Abstract: This publication is designed to present a photographic album of the men and women who have applied the science of developing, caring for, and cultivating forests during the century since 1876. It is primarily a pictorial history of the Forest Service. The photographs which comprise this volume were provided by Forest Service photographers, both retired and active, or were drawn from Forest Service files throughout the Nation. Over 300 photographs present a history of forestry in the past century. These photographs are arranged into the following sections: 1) before there was a Forest Service, 1876-1904; 2) the early years of the Forest Service, 1905-1916; 3) growing up, 1917-1945; 4) years of great change, 1946-1960; 5) keeping up with the times, 1961-1975; and 6) the look ahead, 1976 and forward. The photographs cover the forests themselves, the people involved in forestry activities; forestry activities, and Forest Service facilities and services.

Abstract: This report contains data on the production, trade, consumption, and prices of forest products in the United States. Information utilized in this report was collected from a variety of sources, including Forest Service researchers, several federal and state agencies, and several forest industries associations. Information is presented on the production, prices, trade, and consumption of the following: timber; lumber; pulpwood; plywood and veneer logs; particleboard, hardboard, and insulation board; and miscellaneous timber products. Although in most cases national trends are discussed, some material is presented for regions and states. Imports and exports of these products are examined. Statistical data generally cover the periods from 1950 to 1981.

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Research

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145).

Availability: Agency

Geographic Relevance: International/Foreign; National

Abstract: The accomplishments of each Forest Service research project are summarized by subject area and relevant published reports resulting from the research are identified. The document is primarily directed at the research community and at forestry related industries and is intended to assist in the rapid utilization of information developed through these projects. Internal sources of information for this report are researchers in the forest and range experiment stations of the Forest Service. External sources include federal, state, industry, and university

cooperators in these research projects. Research accomplishments aimed at improving environmental quality, productivity, and usefulness resulted from projects focusing on reducing pollution; improving wildlife, range, and fisheries habitat; improving social and amenity values; environmental tree culture; ecology and classification of natural vegetation; improving environmental quality through fire management; improving insect and disease control; improving the water resource; improving engineering systems; forest resources evaluation; bettering silvicultural systems; economics of forest management; and weather modification and weather effects. Research accomplishments in the area of improving utilization of and extending wood supplies resulted from research projects focusing on intensive culture methods; breeding improved trees; improving the uses and protection of wood; marketing under-used species and residues; supply, demand, and price analysis; and improved marketing systems. The publication list is divided into the following categories: forest environment research; forest insect and disease research; forest fire and atmospheric sciences research; timber management research; forest economics and marketing research; and forest products and engineering research.

The 1980 Report to Congress on the Nation's Renewable Resources. (FS-347).

February 1976; 155 pp.

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Management, Protection and Utilization (All Programs)

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Forest Service Creative Act of 1891 (P.L. 51-145).

Availability: Agency

Geographic Relevance: National

Abstract: This report provides a summary of the assessment of the national situation relative to forest and rangeland resources and of recommendations for long-range Forest Service programs essential to meet future needs for those resources. Material used in this summary was drawn from "The Nation's Renewable Resources--An Assessment" and from "A Recommended Renewable Resources Program." This summary presents a review of the Forest and Rangeland Renewable Resources Planning Act of 1974; a summary of the major findings of the assessment of renewable resources; a discussion of the framework used for planning and decisionmaking; and an outline of the alternative programs considered. The summary of the recommended renewable resource program is presented in terms of the goals, target activities, and expected results for each of the following resource systems: recreation, wilderness, wildlife and fish, range, timber, land and water, and human and community development. A brief summary of the estimated costs of the recommended program and of the environmental, social, and economic effects of the program is presented. Very little statistical data are included; public comments are included.

policy direction within which the Forest Service will operate to meet specific forest management needs. The Act itself and related Congressional discussions and processes provide the essential input for this report. Interpretive material was developed by the Office of Information staff and the Programs and Legislation staff of the Forest Service. Highlights of the legislation are reviewed, including provisions regarding National Forest System land management planning, timber management, public participation, the statutory status of National Forests, and payments to states from National Forest receipts. Actions taken toward implementing major tasks in each of the following areas are described: National Forest System land management and resource planning, forest management and timber sales; renewable resource program expansion; reports to the President and Congress; transportation system, public participation and advisory boards; payments to states; land acquisition; and other areas. Background information related to the development of the Act is presented. A question and answer section covers a wide range of issues related to the creation of the legislation; the effect of the law on a variety of Forest Service and industry activities; the effect of the law on resource management planning; and other such topics. The Act itself, and an index to it, are also included.

Geographic Relevance: National

Abstract: This report presents a narrative and statistical summary of the Forest Service's accomplishments in the preceding fiscal year to the Secretary of Agriculture. Input for the report is provided by all Forest Service staff groups in the Washington office. The report presents the activities during the previous year and an overview of major legislation enacted during the year which affects Forest Service activities. A financial statement is also included. Statistical data are provided on the following aspects of Forest Service operations: 1) National Forest and other lands administered by the Forest Service; 2) construction, reconstruction, and maintenance of National Forest roads, bridges, and trails; 3) National Forest recreation--state-by-state summary of recreation use; 4) Human resource programs, including personnel training programs; Job Corps program, Youth Conservation Corps, and Volunteers in the National Forest; 5) timber sales, reforestation, and timber stand improvement on National Forest land; 6) wildlife habitat improvement in National Forests and National Grasslands; 7) legal harvest of big game animals on National Forests, National grasslands, and land utilization projects; 8) grazing report; 9) pest management; 10) planting stock; 11) wildfires; 12) fire control dollar expenditures; and 13) works of improvement.

States. The pest incidence and distribution information presented in the report was obtained from cooperating federal and state forest insect and disease management specialists throughout the country. An overview of the major insect and disease problems in the eastern and western United States is presented. The main body of the report consists of in-depth reports by region. These regional reports consist of overviews of the regional conditions, the status of specific insect infestations, and the status of specific diseases. Efforts to control problems are described. The specific types of trees affected are identified, and the effects of the insects or diseases are described.

Rural Community Fire Protection. (FS-312).

11 pp.

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: State and Private Forestry; Cooperative Renewable Resource Management and Utilization

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145).

Availability: Agency

Geographic Relevance: National

Abstract: This report presents a summary of the rural fire and fire protection problems and describes the Rural Community Fire Protection Project, a pilot project designed to improve the ability of rural communities to suppress fires. State forestry organizations and Forest Service specialists in fire prevention, control, and suppression provided the information for this report. A legislative history of rural fire protection is presented. The effects of a growing rural population on the rural fire problem are discussed. Data collected during a pilot study indicated major deficiencies in existing rural fire services, including the lack of adequate protection for over 125 million acres of rural lands. Most existing or potential fire departments need assistance in organizing, training, and equipping rural fire fighting forces to meet recommended state standards for fire protection. During the first year of the pilot program, 5,684 applications were received and \$38,761,672 requested. Only \$3.5 million was available. In the first two years, the pilot program established 120 new rural fire departments, trained 28,000 rural firefighting personnel in basic and advanced fire suppression techniques, and converted over 1,000 excess military vehicles to firefighting apparatus and loaned them to rural fire departments.

Abstract: This document comprises an organizational directory to the Forest Service, an agency within the Department of Agriculture. Information presented was drawn from all organizational levels of the Forest Service. This organizational directory presents a listing of personnel, titles and/or areas of responsibility, and telephone numbers for all organizational units within the Forest Service. Information is presented for the organizational units within the Chief's Office; the Office of the General Counsel--U.S. Department of Agriculture (USDA); the Extension Service--USDA; the Radiological Safety Staff--USDA; the state and private forestry areas; the nine regional offices; and the ten research units. Indexes of personnel and of national forest administrative units are included. A listing of field office addresses is also presented.

Abstract: This library system provides information services, especially to users in remote areas, and assists in land management decisions and forestry technology transfer. WESTFORNET is a special library network serving seven regions and four experimental stations of the Forest Service and selected cooperators in 15 western states. The network provides general document delivery, reference and referral services, computer-based literature searches, and current awareness via a monthly publication of selected references. WESTFORNET is part of the National Technical Information System directed by the Forest Service Technology Transfer Group.

Geographic Relevance: National

Abstract: This handbook is divided into two major sections: functional divisions and major acts of Congress relating to Forest Service activities. The first section arranges the laws (or major parts of laws) according to broad subject matter areas to provide quick reference to statutory authorizations and limitations for the broad functional activities of the Forest Service. The second section contains the entire wording of major statutes, or applicable portions, relating directly to Forest Service activities. Laws not listed can be located in the United States Statutes at Large, United States Code, or United States Code Annotated.

Abstract: The principal function of the Economic Research Service is to serve the critical need for timely and reliable agricultural economic information (research, forecasts of major agricultural economic indicators, policy analysis, and data) that addresses the multitude of economic concerns and the decisionmaking needs of farmers, consumers, extension workers, private analysts, processors, marketers, input suppliers, and policy officials in the federal government, Congress, and state and local governments. The information is made widely available to farmers, farm organizations, farm suppliers, marketers, processors, consumers, and others who make production, marketing, and purchasing decisions, and to legislators and other public officials at the federal, state, and local government levels as the basis for development and administration of agricultural and rural policies and programs.

Abstract: The National Agricultural Library started as the Department of Agriculture library under the Organic Act of 1862 establishing the

Department's mission is "to acquire and disseminate among the people of the United States useful information on subjects connected with agriculture in the most general and comprehensive sense of the word." The library assembles and maintains a collection of published materials in all subjects pertaining to agricultural research. The resources of the library consist of books, periodicals, manuscripts, and materials in nonprint forms. The principal reports include: Agriculture On-Line Access (AGRICOLA) (monthly tapes), Bibliography of Agriculture (monthly hardcopy), National Agricultural Library Catalog (monthly hardcopy), Samanaha Serial Reports (published irregularly), Serials Currently Received, and various bibliographies in hardcopy published irregularly.

Abstract: This series consists of the following five reports providing general import data tailored to the textile category system: 1) TQ 2010, "U.S. General Imports, Cotton Manufactures," published monthly, 240 to 250 pages; 2) TQ 2210, "U.S. General Imports, Wool Manufacturers," published monthly, 130 to 140 pages; 3) TQ 2310, "U.S. General Imports, Man-Made Fiber Manufactures," published monthly, 220 to 230 pages; 4) TQ 2493, "U.S. General Imports, Cotton, Wool and Man-Made Fiber Manufactures, Import Month by Date of Export," published monthly, 55 to 60 pages; and 5) TQ 2510, "U.S. General Imports, Other Textile Manufactures," published June and December each year, 100 to 110 pages. Reports are required for the administration of the textile import program and to meet the obligations by the United States to provide import data to the bilateral textile agreement partners under the program. Copies of the reports not needed for these purposes are available to the general public, including associations, importer firms, and individuals upon request on a first-come, first-served basis.

tion. Statistical data provided by the importers are verified by the Customs officials. Data presented in TQ 2010, TQ 2210, and 2310 include 11 country of origin totals in equivalent square yards; 21 groupings of Tariff Schedules of the United States Annotated (TSUSA) numbers--quantity totals; 3) groupings of TSUSA numbers by country of origin and TSUSA number by country of origin--quantity totals; 4) country of origin by groupings of TSUSA numbers--quantity totals; and 5) country of origin by groupings of TSUSA numbers in equivalent square yards. TQ 2493 provides data on the country of origin by textile category by date of exportation. TQ 2510 provides data on grouping and TSUSA commodity totals by country of origin--quantity.

Abstract: This document identifies restrictions and requirements of 137 countries which may affect U.S. textile and apparel export sales. It provides U.S. export data to help assess the impact of specified restrictions. The document is intended for use as a marketing tool by U.S. exporting firms and trade associations and as an informational source by the Exporters Textile Advisory Committee. Information for this report is gathered from direct contact with the foreign governments, the U.S. Foreign Service, various domestic and foreign public trade journals and digests, and U.S. businesses involved in exporting. The information presented is divided into non-tariff measures and consumer oriented requirements. The information is presented by individual country and includes the type of non-tariff measure, remarks, and the dollar value of U.S. exports by 3-digit Standard International Trade Classification code. The types of non-tariff measures covered include taxes, insurance requirements, banned items, quotas, fees, licensing requirements, rules of origin, and permits needed. The section on consumer oriented regulations simply lists any regulations by country.

U.S. Production, Imports and Import/Production Ratios for Cotton, Wool and Man-Made Fiber Textiles and Apparel.

January; 237 pp.

James Bennett, Laurie McKenna

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

Congressional Relevance: *House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Trade Act of 1974 (P.L. 93-618).

Availability: Agency

Geographic Relevance: National

Abstract: This document is intended to assist U.S. domestic firms, trade associations, and the government in the assessment of the impact of imports on domestic production of textile and apparel products. Information utilized in this report was provided by the Bureau of the Census and by industry trade associations. The report provides information on the import penetration of cotton, wool, and man-made fiber textiles and apparel products in the United States for the period 1967 through 1976. The ten-year trends in domestic production, imports, and import/production ratio are identified by fiber and by specific products. The methodology used in the study is discussed. The ratio of imports to apparent domestic markets for cotton textile products, wool textile products, and man-made fiber textile products are reported. The ratio of imports to domestic production are presented for sales yarn, broadwoven fabrics, knit fabrics, apparel, and made-up and miscellaneous products. These data are presented by specific product category numbers.

Abstract: This document is published to provide information to various sectors of trade, to other government agencies, and to foreign governments on the placement of Tariff Schedules of the United States Annotated (TSUSA) items in the textile category system. This system is pub-

each of the 10 textile categories and prices the appropriate TSUSA number in each category. It provides a brief description of each TSUSA item, the conversion factor used to convert from the unit of measure to square yards equivalent and the unit of measure for each category. Section 5 of the Correlation provides a cross reference with each TSUSA number being assigned to a textile category.

Abstract: This document is intended to provide statistical information to government agencies and domestic industry sources on major shippers of textile and apparel products to the United States. The report presents U.S. general import volume data by textile category with major country breakdowns and includes totals for other than major countries, OECD countries, controlled countries, uncontrolled countries, and world total. Periods shown are year to date, three latest 12-month intervals, and the 12-month period ending 12 months ago. Each category report also shows the category number and description, the latest import/production ratio, the year of that ratio, and the conversion factor by which figures shown were converted to equivalent square yards. A section is also included which summarizes U.S. general import volume data by country for countries with significant volume. Time periods shown are the two latest calendar years and the three latest 12-month periods. The percent change from the 12 months ending one year ago to the latest 12-month period is also included. Imports are broken out by significant category with totals for each fiber type and total country.

Abstract: These booklets are designed to assist U.S. businesses in establishing commercial relations with the Communist countries, including the U.S.S.R., Poland, German Democratic Republic, Hungary, Czechoslovakia, Romania, Bulgaria, and the People's Republic of China. Data are derived from foreign trade publications and statistical handbooks of Communist countries. Separate publications are issued for individual Communist countries, e.g. "Trading with Czechoslovakia," "Trading with Poland," etc. They are updated periodically (2-3 years). The booklets describe foreign trade organizations and trade and business practices of the individual country covered.

Abstract: This directory provides a listing of the directors and addresses of the District Offices of the Department of Commerce. The District Offices serve as the initial point of contact for International Trade Administration (ITA) and components of the Department with business community. The District Offices carry out the basic mission of the Department, which is to foster and promote foreign and domestic commerce, by consultation and dissemination of market research material developed, for the most part, by other ITA and Commerce entities. Information for this list is obtained from the Department of Commerce's organizational structure and operations. The directory provides the name of the director, the street address and ZIP code, and the telephone number and FTS number for each of the District Offices of the International Trade Administration. The list is updated quarterly.

Abstract: This publication provides the exporting community with a looseleaf compilation of the official export control regulations of the United States. All inputs to the publication are prepared in the Office of Export Administration whenever changes in U.S. policy or international policy dictate change. Regulations governing the export of commodities from the United States, the reexport of U.S. origin commodities, and the transfer of U.S. origin technology are incorporated in the Export Administration Regulations. This comprehensive publication includes: an introduction to the regulations; a table of contents; a detailed index; a section on legislative authority; procedures for obtaining licenses and other authorizations; guidelines for determining the applicability of controls; and parts devoted to imports, foreign boycotts, short supply, enforcement, and denial and probation orders.

Abstract: This report presents a comprehensive and detailed statistical analysis of the confectionery segment of the food industry. Users of the report include confectionery manufacturing firms, service-oriented firms such as advertising agencies, consultants, and packaging manufacturers; and U.S. government agencies such as the Department of Agriculture and the Food and Drug Administration. The statistical content of the report is based on information obtained from a survey questionnaire administered by the Bureau of the Census at the industry's expense. The questionnaire is developed by the industry in conjunction with the Department of Commerce. The survey covers 207 confectionery reporting units, representing 154 companies, and accounts for about 95 percent of the total estimated sales of the U.S. confectionery industry. Categories of input data include volume and value of manufacturers' shipments; data on sales, distribution, production, and consumption areas; ingredient use; and import and export data. Data are presented on the following aspects of the confectionery industry: 1) confectionery shipments, sales, average value, and per capita consumption; 2) cocoa bean prices; 3) wholesale sugar prices; 4) manufacturers' net sales by product class, by product type, and ratio to total confectionery sales; 5) manufacturers' net sales classified by retail price; 6) confectionery manufacturers' sales, grouped by company size; 7) sales, including resales of confectionery manufacturers, by kind of business and type of outlet; 8) total confectioners' shipments by kind of business and area of plant location; 9) confectionery sales, including resales, population and percentage distribution of sales and population by state; 10) total consumption of selected ingredients by the U.S. confectionery industry; 11) U.S. foreign trade in confectionery products; 12) U.S. imports of sweetened chocolate; 13) principal foreign suppliers of chocolate and non-chocolate confectionery; 14) principal foreign markets for chocolate and non-chocolate confectionery; and 15) U.S. foreign trade in cocoa and cocoa products.

Abstract: This document is used to develop and expand a comprehensive data base and analytical capability for domestic and international franchising. These data and analyses of franchising trends represent the sole source of public or private economic data on the franchising industry. This document is widely used in the formulation of federal and state legislation and regulatory policies on franchising. Data used in this report are collected from all known franchisors. Individual returns were received from 1,166 firms representing an estimated 99 percent of the total franchising sales and establishments in the United States. To supplement the survey, franchising data for automobile and truck dealerships, gasoline service stations, and soft drink bottlers were included from other sources. Summary data presented by kind of franchised business include: 1) franchising in the economy; 2) sales; 3) number of establishments; 4) total sales of products and services by franchisors to franchisees; 5) average sales per establishment; 6) minority ownership; 7) international franchising; 8) types of changes in ownership; 9) employment; 10) ranking of kinds of franchising by sales and by number of establishments; 11) percent of total sales and establishments accounted for by franchisors and franchisees; 12) total investment and start up cash required; and 13) franchising, size distribution by number of establishments. In addition, more specific data are presented for each of the following kinds of franchised business: automobile and truck dealers; automotive products and services; accounting, credit, collection agencies,

and general business services; employment services; printing and copying services; tax preparation services; miscellaneous business services; construction, home improvement, maintenance, and cleaning services; convenience stores; educational products and services; fast food restaurants; gasoline service stations; hotels and motels; campgrounds; laundry and drycleaning services; recreation, entertainment, and travel; rental services (auto-truck); rental services (equipment); retailing (non-food); retailing (food other than convenience stores); soft drink bottlers; and miscellaneous.

Authority: Department of Commerce Act (P.L. 57-87).

Availability: GPO

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area

Abstract: This publication is unique in that it brings together basic and diverse facts about a very complex industry and represents a concise, systematic, and timely vehicle for disseminating the significant current and historical information on construction, reflecting both governmental and private sources. The \$170 billion new construction sector is not an easy one to follow or analyze, and the availability of "Construction Review" obviates the need, on the part of the Bureau of Industrial Economics, for answering thousands of inquiries each year from both inside and outside of the government. The absence of "Construction Review" would necessitate a more costly and cumbersome means of communicating construction information. Data on construction activity, housing starts, building permits, federal contract awards, construction cost indexes, and production and shipments of selected building materials are obtained from the Bureau of the Census; data on wholesale prices and contract construction employment are provided by the Bureau of Labor Statistics. Contract award data are published by permission of McGraw-Hill Information Systems Co. Inputs for analytical articles come from the above sources as well as from the Department of Housing and Urban Development, Federal Board of Governors, Federal Home Loan Bank Board, National Bureau of Standards, industry trade associations, and trade publications. The publication presents: statistical information on the volume of construction put in place; output of materials used in construction; number, hours, and earnings of construction workers; housing starts, costs, and financing; construction contract awards; building materials prices; building permit authorizations; construction costs; and similar statistical information available as a result of regular or special studies by the Department of Commerce, other agencies of the federal government, state and local governments, and, when appropriate, private research organizations. Regular analytical articles regarding economic and statistical trends, correlations, current developments, and forecast, as well as special articles related to other aspects of construction and related industries, are also included.

Geographic Relevance: International/Foreign; National

Abstract: This study explores the impact which fundamental technological change accompanied by aggressive marketing have had on the U.S. calculator industry and provides insights into where the industry may be heading. Parallels are drawn from the calculator industry's experience which may apply to analogous industries where similar technological, international, and economic factors are involved. The primary source of statistical data for this report is the U.S. Bureau of the Census. This report discusses developments in calculator technology, including electromechanical calculators, electronic calculators and components, and types of electronic calculators; the U.S. calculator market and foreign competition; the contrasts in U.S. calculator manufacturing; U.S. calculator imports; and the outlook for the future. Data are presented on: the domestic shipments, imports, and exports of calculating machines, 1965 to 1974; apparent consumption of calculators by the United States, 1965 to 1974; and U.S. total imports of calculators and calculator imports of Japanese, Mexican, and Belgian origin, 1965 to 1974.

Availability: Agency; GPO

Geographic Relevance: National

Abstract: This publication provides a compact overview of more than 300 of the Nation's industries, organized for maximum usefulness to those in such varied endeavors as investment, banking, market research and planning, and business consulting. It is a useful aid to manufacturers in evaluating how their customers in other industries are faring and what to expect from suppliers. The source serves a broad spectrum of the business community, from those seeking a panoramic view to those with a specialized interest in only a few specific industries. This book is a by-product of the primary responsibilities of a staff of more than 100 industry analysts and economists in the International Trade Administration who monitor industrial segments year-round to provide working data for policy makers in the government. Data from the Bureau of the Census provide the basis for most of the tables included. Other statistical data are provided by the Bureau of Labor Statistics. Each analyst is responsible for assembling statistics, monitoring and interpreting trends, and maintaining communications with key elements within a particular industrial segment. Specific industries within each of the following industrial categories are discussed separately: building and forest products; metals; chemicals, rubber, and allied products; transportation; distribution and marketing; consumer goods; communications; machinery; instrumentation; power and electrical equipment; and business and consumer services. Profiles for 1983, trends, and projections are presented for many 4-digit Standard Industrial Classifications. Particular aspects covered in the text vary from industry to industry. Generally, changes in the products or production, the international trade situation, the market, and/or the regulations affecting the industry are reviewed. The outlook is projected for each industry.

Abstract: This publication provides U.S. manufacturers and exporters and individuals living or traveling abroad with information on the characteristics of electric current available and the type of attachment plugs used in principal cities throughout the world. Data for this report were supplied by the U.S. Foreign Service and other sources. Two tables are included in this publication. The first provides information on the type of plug used in each country and advises whether adapters are readily available. The second list provides information on the type and frequency of current, number of phases, nominal voltage, number of wires, and frequency stability (in terms of whether it is stable enough for electric clocks) for all cities of any consequence in each country.

Abstract: The President is required by Public Law 89-283, Title V, Section 502, to submit an annual report to the Congress on the implementation of the Automotive Products Trade Act of 1965. Trade data presented in the report were supplied by the U.S. Bureau of the Census and Statistics Canada. Production, investment, and pricing data were provided by U.S. automotive companies. The text of the report covers background information, production, retail sales, expenditures for plant and equipment, prices, and employment by the North American automotive industry. Automotive trade between the United States and Canada and between each of these countries and other countries is discussed. Changes in the Agreement, adjustment assistance, and General Agreement on Tariffs and Trade (GATT) waivers are also covered in the report. Data are presented on retail sales, production, price indexes for automotive equipment, prices of typical models, employment in the automotive products industry, and U.S. and Canadian imports, exports, and automotive trade with each other and with the other countries. Lists of U.S. and Canadian bona fide vehicle manufacturers are also included.

Abstract: The "Franchise Opportunities Handbook" is published in support of the Department's overall program to assist in establishing minority group business, an effort which is spearheaded by the Office of Minority Business Enterprise. This publication identifies franchisors who do not discriminate on the basis of race, color, or national origin in the availability, terms, or conditions of their franchises. The decision of the listed franchisors to participate in this effort to make equal business opportunity meaningful is a positive commitment to help minority groups who are the most common victims of discrimination. All known franchisors are invited to be listed in the "Franchise Opportunities Handbook." The publication lists franchise offerings from firms in 40 broad categories, by industry. Examples are automotive products/services, business aids/services, clothing/shoes, and food/restaurants/dive-ins/carry-outs.

Abstract: This report provides an overview of the domestic and international developments that have influenced the emergence and growth of the U.S. semiconductor industry. Because of the technological pervasiveness of this industry, its products are crucial in the competitiveness of many other industries, nationally and internationally. Historical trends that have shaped its development are analyzed and evaluated to provide insights into present-day production and research characteristics, new product development and marketing strategies, and international competitiveness.

Alloy Phase Diagrams Data Center of the National Standard Reference Data System (NSRDS).

OMB Funding Code/Title: 13-0500-0-1-376 / Scientific and technical research and services

Program: Measurement and Engineering Research and Standards

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Science and Technology; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: National Bureau of Standards Organic Act, as amended (P.L. 56-177, § 2; 31 Stat. 1449; 15 U.S.C. 272). Standard Reference Data Act (P.L. 90-396; 82 Stat. 339; 15 U.S.C. 290 et seq.). Act of September 9, 1950 (P.L. 81-776; 64 Stat. 823; 15 U.S.C. 1151 et seq.).

Availability: OPO

Geographic Relevance: International/Foreign; National

Abstract: This resource covers evaluated numerical data on physical and chemical properties of well-characterized materials and substances. The primary purpose is to provide reliable technical data to U.S. scientists, engineers, and the general public, as mandated in the Standard Reference Data Act, Public Law 90-396. In addition, it provides guidance to research planners and managers through identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the NBS Alloy Phase Diagram Data Center in cooperation with the American Society for Metals. These centers form, in aggregate, the National Standard Reference Data System. The Alloy Data Center collects, indexes, evaluates, and disseminates evaluated reference data on phase diagrams of alloys. Data on related thermophysical properties of alloys are also compiled.

Agency Contact: National Bureau of Standards. (301) 921-2811.

100305-003

Diffusion in Metals Data Center (DIMDC) of the National Standard Reference Data System (NSRDS).

OMB Funding Code/Title: 13-0500-0-1-376 / Scientific and technical research and services

Program: Physical Measurement and Engineering Research Standards, Competence and Central Technical Support

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Standard Reference Data Act (P.L. 90-396; 82 Stat. 339; 15 U.S.C. 290 et seq.). Bureau of Standards Act (P.L. 56-177, § 2; 15 U.S.C. 272). Act of September 9, 1950 (P.L. 81-776; 64 Stat. 823; 15 U.S.C. 1151 et seq.).

Abstract: This resource covers evaluated numerical data on physical and chemical properties of well characterized materials and substances.

The primary purpose is to provide reliable technical data to U.S. scientists, engineers, and the general public, as mandated in the Standards Reference Data Act, Public Law 90-396. In addition, it provides guidance to research planners and managers through identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The Diffusion of Metals Data Center collects, indexes, evaluates, and disseminates evaluated reference data on diffusion in metals and their alloys. The temperature dependence of the rate at which atoms of different chemical elements intermix in solid or liquid alloys is especially emphasized since this rate strongly influences metals processing and durability. Industrial design engineers and scientists are provided with a comprehensive source of diffusion data on the technologically important materials.

In addition, it provides guidance to research planners and managers through identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. The data center collects and catalogs all literature on atomic transition probabilities and spectral line shapes; extracts and critically evaluates the numerical data; and prepares and publishes bibliographies, critical reviews, and general tables of "best" values. Current tabulations are primarily in response to demands in fusion research. Relevant scientific journals and other literature are continuously monitored; selected papers are cataloged and classified. Critical evaluation of numerical data is carried out according to previously established critical factors for each experimental and theoretical method and by utilizing regularities and systematic trends along iso-electronic sequences, spectral series, and homologous atoms. Newly established systematic trends and oscillator strength distributions are also used to determine additional data by interpolation.

The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the National Bureau of Standards (NBS). These centers form, in aggregate, the National Standard Reference Data System. Data are collected from over 300 journals on such materials as minerals, intermetallic compounds, environmental contaminants, and other inorganic substances. Critical evaluation is provided by close scrutiny by the professional staff of the Center, employing specially developed computer programs which permit correlation of sets of data. Evaluated data are placed in the NBS Basic Crystal Data File (57,000 entries, 6000 new/year). The file is used to prepare crystal data tables, space group tables, and crystallochemical identification tables. The Center also provides input to the NIST-ELCA Chemical Information System and other on-line computerized data systems.

Geographic Relevance: International/Foreign; National

Abstract: This resource collects, correlates, and evaluates numerical data on the physical and thermophysical properties of mixtures and their pure constituents. The primary purpose is to provide reliable technical data to U.S. scientists and engineers, industry, and the general public, as mandated in the Standard Reference Data Act, Public Law 90-396. In addition, it provides guidance to research planners and managers through the identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are identified and retrieved from the world's literature, evaluated as to accuracy, and assembled into tabulations, correlations, and mathematical models which represent the evaluated data. The latter are published and otherwise disseminated. The work is done in close collaboration with other Data Centers which, in the aggregate, comprise the National Standard Reference Data System. The emphasis of the Fluid Mixture Data Center is on the thermodynamic and transport properties of complex mixtures. The fluids of interest include hydrocarbons, natural gas, liquefied natural gas, LPG, liquid and gaseous products from the conversion of coal and oil shale, chemicals in fluid form, rocket propellants

and explosives as well as publishing data in tabular form. This approach is not possible for complex mixtures. Therefore, the primary dissemination media are correlations and predictive equations, usually in the form of computer codes.

Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. This Center compiles data on the chemical thermodynamic properties of chemical substances on a continuing basis. Data on inorganic and selected organic substances are being evaluated to provide tables of enthalpies, and Gibbs energies of formation in their standard states at 298.15K; of the enthalpy, entropy, Gibbs energy, and Cp at 298.15K; and of the enthalpy of formation at 0K, to the extent that the data will permit. Tables covering 14,500 substances have already been published. The Center's activities are highly automated. The Center provides the inorganic section, the overall substance-property index, and the final copy for the "Bulletin of Chemical Thermodynamics" each year. New techniques for using computer solutions for large sets of equations are being developed to provide self-consistent sets of chemical thermodynamic data. Projects involving exchanges of computerized information are being carried out with workers in other centers. The center participates in a project under CODATA to provide internationally accepted data for key compounds.

The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. The facility supplies critical compilations of atomic energy levels data needed for plasma diagnostics in controlled thermonuclear energy and laser research, and for the interpretation of astrophysical spectra. Atoms and ions of the first 28 elements, especially iron-group elements, are currently emphasized. It supplies references and information on unpublished results of interest to the Department of Energy and space astronomy researchers and produces a series of compilations for the lighter elements, including the iron group elements, each publication giving the energy levels for all ions of a particular element. The data are critically evaluated for experimental and theoretical consistency. A bibliography reference file on atomic spectroscopic data of controlled thermonuclear research and space astronomy interest is kept current.

The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. The facility collects and evaluates the low-energy atomic and molecular collision data which are needed for modeling MHD plasmas, such as transport properties, cross-sections, and the relations between them. It collects and disseminates molecular electron affinity data; this literature is surveyed for data on electron transport properties and low-energy electron collision cross-sections for atoms and molecules which are expected in MHD plasmas. Using a computer code developed for this purpose, a kinetic theory analysis is done to check the compatibility of the transport and swarm data. These data and the analysis are for pure gases. Well known formulas permit calculation of the properties of the mixtures from the cross-section information on pure gases.

Geographic Relevance: International/Foreign; National

Abstract: This resource covers evaluated numerical data on physical and chemical properties of well-characterized materials and substances. The primary purpose is to provide reliable technical data to U.S. scientists, engineers, and the general public, as mandated in the Standard Reference Data Act, Public Law 90-396. In addition, it provides guidance to research planners and managers through identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. The Center supplies numerical data on the chemical effects of ionizing radiation to aid in solving problems in nuclear energy, radiobiology, forensic chemistry, environmental chemistry, and other related fields. The facility compiles and evaluates numerical data from the primary literature. It maintains a searchable file of papers in the field and issues a "biweekly Current Awareness" publication, an "Annual Index" to the file, and critical reviews in radiation chemistry.

Abstract: The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. On a continuing basis, the Center abstracts the world's technical literature on photonic reactions, maintains and updates a library of digital cross section data, provides scientific and technological communities with information from these files on request, and periodically publishes updates.

and annotated bibliographies and data evaluations. Ten journals are regularly searched for data. Use is made of nuclear data group's (ORNL) annotated bibliographic files to cover the remaining published literature. Digital data are obtained both from published reports and from laboratories for entry into computer files. Files are used to reply to specific queries and prepare compilations of evaluated data. The data center provides critically evaluated photoion (X-ray, gamma-ray) and charged particle atomic interaction and transport cross-section data needed for safe and efficient use of nuclear energy technology, medical diagnosis and therapy, analysis of materials, and national defense applications. Energies of incident radiations extend from 10 electron volts (eV) up to the multi-GeV region. X-ray and charged particle experimental and theoretical cross-section and transport data are extracted.

The primary purpose is to provide reliable technical data to U.S. scientists, engineers, and the general public, as mandated in the Standard Reference Data Act, Public Law 90-396. In addition, it provides guidance to research planners and managers through identification of areas in need of better data. The primary source of data is the published scientific literature. Pertinent data are retrieved from the world literature, evaluated as to accuracy, and assembled into tabulations of recommended values which are published and otherwise disseminated. The work is done in a complex of data evaluation centers supported and coordinated by the Office of Standard Reference Data at the Bureau. These centers form, in aggregate, the National Standard Reference Data System. This data center provides for the collection, critical evaluation, and dissemination of molecular spectral frequencies and constants obtained from molecular spectra in the microwave, infrared, visible, and ultraviolet spectral regions. Publications of critically evaluated spectral data are designed to facilitate applications in kinetics, chemical analysis, atmospheric constituent measurement, radio astronomy, and spectroscopic research. The work requires detailed literature searches, continuous contact with laboratories throughout the world to maintain a current file of spectroscopic data, extraction of the spectral data from literature sources, careful evaluation and reanalysis of the data, additional laboratory measurements in specific cases in which more accurate spectral predictions are the objective, and development of computer software for data file composition and automatic typesetting of the final data tables.

Abstract: The catalog and supplemental yearly price lists describe approximately 1,000 standard reference materials (SRM's) available from the National Bureau of Standards (NBS). The primary source of information is the Office of Standard Reference Materials at NBS. SRM's contained in the catalog were produced at the request of various industrial sectors of the country as well as other government agencies, standard organizations, trade associations, and professional societies. The catalog lists SRM's available in 70 major areas, including ferrous metals, glass, plastics, rubber, minerals, ores, environmental analysis, and clinical analysis. Principal subjects covered include chemical composition standards, physical property standards, engineering type standards, research materials, and general materials. Also included is a guide for requesting development of SRM's. Presently, 1,000 reference materials are available from NBS. Catalogs are revised every 3-4 years. A new price list and supplemental information are issued yearly.

Abstract: Federal Information Processing Standards are for the management and use of computer systems and services by federal departments and agencies. The standards are approved by the Secretary of Commerce on behalf of the President in accordance with the provisions of Public Law 89-306 and Executive Order 11717. Federal Information Processing Standards Publications (FIPS Pubs) series include guidelines and standards for networks, programming languages, character codes, magnetic media, data communications, component interfaces, documentation, data elements and codes, computer operations, and computer security. The current set of FIPS Pubs contains 104 publications. These are cited in procurements of computer equipment, software, and services by federal departments and agencies in accordance with Federal Property Management Regulations issued by the Administrator of General Services. The standards are required for use in interagency and public information reporting requirements and clearances as administered by the National Archives and Records Service of GSA and the General Accounting Office. The computer security standards and guidelines are used by federal agencies in accordance with directives issued by the Office of Management and Budget to implement the provisions of the Privacy Act of 1974 (Public Law 93-579). NBS works with industry, voluntary standards organizations, and federal, state, and local governments to determine requirements and to develop standards and guidelines cooperatively.

Abstract: This directory contains information on 272 international and regional organizations which conduct standardization, certification, laboratory accreditation, or other standards-related activities. This volume describes the work in these areas, as well as the scope of each organiza-

tion, national affiliations of members, U.S. participants, restrictions on membership, as well as the availability of any standards in English. This volume summarizes an effort by the National Bureau of Standards to obtain information relevant to monitoring U.S. participation in the many international organizations active in standardization. It is designed to serve the needs of federal agencies and standards writers for information on international and regional organizations involved in standardization and related activities. It may also be useful to manufacturers, engineers, purchasing agents, and others.

Geographic Relevancy: National; State

Abstract: This directory is a guide to mandatory and voluntary standards activities in the United States at federal and state levels and by nongovernment trade associations, technical and other professional societies. It excludes proprietary (company standards) and local levels of government (i.e., county and municipal). It supersedes the 1975 edition (NBS SP 417), "Directory of United States Standardization Activities" and, for the first time, includes standards distributors, libraries and information centers, and union lists of standards repositories by regional areas. It also lists organizations that no longer develop standards or have become defunct since the previous directory was issued. Over 700 current descriptive commentaries are formatted, with subject headings to facilitate access to specific information. The main sections cover nongovernment, federal government, state procurement agencies, sources of standards documents and information; a subject index and related listings covering acronyms and initials, defunct bodies, and those organizations with name changes. Organizations have been included if they develop standards or contribute to the standardization process, whether voluntary or mandatory, or are sources of standards documents or information. An introductory section provides general information on federal (including military) standards activities, a list of 20 major nongovernment standards developers, some historical notes, and an overview of U.S. (national) standardization activities.

Geographic Relevancy: International/Foreign; National; City; Latitude and Longitude

Abstract: This facility is the largest data center in the National Environmental Satellite Data and Information Service. Its purpose is to make historical weather information available to the public in a form suitable for making decisions in the areas of health, business strategy, engineering design, food production, litigation, and research. The Center maintains archives of weather records dating from the early 1800's and files these data according to specific disciplines, such as climatology (land and marine surface and upper air) and hydrology. In addition, large volumes of observational data from all over the world are collected through an international exchange program and placed in the Center's archives. From these data the Center develops a series of summaries, records of weather events, and statistics of extremes. It conducts investigations for other federal agencies on such topics as aviation operations, marine climatology, space exploration, and environmental pollution, but its principal role is supplying data to researchers, planners, and other users. Data are derived from NOAA's National Weather Service, the weather services of the Air Force, Navy, and the Federal Aviation Administration, the Coast Guard, and cooperative observers on land, at sea, and in the air. Cloud photography and other data (obtained from environmental satellites and a large number of observations from all over the world) are verified, edited, and placed in the Center's archives. Resources include: 26 million record sheets each representing many observations; 837,000 microfiche containing an additional 45 million record sheets; 162,000 reels of magnetic tape; and 194,000 publications. Content consists of local, national, and international climatic data including monthly storm data, and temperature and precipitation data. The update cycle varies with type of data and user requirements.

Geographic Relevance: International/Foreign; National; State; City; County; Latitude and Longitude

Abstract: The Center deals with data related to solid earth geophysics (seismology, tsunamis, main field geomagnetism, volcanoes, marine geology and geophysics, geothermics, and gravity) and solar-terrestrial physics (the ionosphere, geomagnetic variations, solar activity, auroral, cosmic rays, and airglow). Data services in the form of computer listings, plots, publications, microfilm, photographs, magnetic tapes, and electrostatic copies are supplied. For engineers, planners, and site evaluation studies concerned with earthquake hazards, data on the historical occurrence of earthquakes worldwide are made available, as well as information on the effects at each reporting locality. Seismograms from a worldwide network of standardized stations are microfilmed and distributed to researchers. Other observing activities of the National Oceanic and Atmospheric Administration, universities, other government agencies, foreign organizations, and world sources under international exchange agreements provide input. Resources consist of 4 million seismograms, 1 million magnetograms, solar-terrestrial data including 12 million feet of ionogram film, 800,000 feet of all sky camera film, 3 million sheets of graphical and numerical data, and additional information on magnetic tapes. Solar activity data include those on solar flares, radio emission events, and some satellite monitoring measurements. Global solar patrol data on calcium plages, solar magnetic fields, chromospheric structural anisotropy data, and cosmic ray data are also part of the Center's holdings. National and international coverage is provided. The system is continually updated.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Ocean and Coastal Programs (Mapping, Charting, and Geodesy Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Coast and Geodetic Survey Activities Act, as amended (P.L. 80-373, § 1-4, 61 Stat. 787-788; 33 U.S.C. 883a-883d).

Availability: Agency

Abstract: The National Ocean Survey (NOS) is responsible for the graphic and tabulated data required to define the National Airspace System. This includes coverage of the entire United States and selected terminus points abroad. This system provides the basic repository of information for all types of aeronautical charts. Users of this system include the Federal Aviation Administration (FAA), Military Aviation, General Aviation, and NOS components in maintaining aviation products. The primary source of information is the National Flight Data Center of the FAA. Data pertain to the national airspace and contain descriptions of restricted areas, delineations of airways and heights, and indications of transition points. Supplemental data is received from military organizations (re airbases), Federal Communication Commission (re transmission towers), the Coast Guard (re marine navigational aids), the flying public, and associations (re obstacles and hazards to navigation). The aeronautical charting information is maintained for the entire United States, including Alaska, Hawaii, and U.S. territories, and includes location of obstacles and hazards to navigations, such as towers, spires, buildings, and other structures; airports and facilities; airway fix points; angles, bearings, and distances between points; and landmarks and locational bearing data. Approximately 30 percent of the airway fix information is revised on a 56-day schedule; other information is updated when changes occur.

Abstract: The facility provides navigation charts and aids for the safe and efficient use of the Nation's waterways and marine environment; the information is available to industry and the public. Most nautical data are generated within the National Ocean Service. Surveys of the Nation's coasts and waterways are collected, verified, edited, and used to prepare accurate charts and navigational aids. Limited worldwide observations are also processed. National data are collected as frequently as survey scheduling allows and are retained as a historical record. Worldwide data are retained as available.

Abstract: The facility is responsible for the preparation, publication, and dissemination of geodetic control data related to the Nation's horizontal and vertical control networks. These data are distributed to governmental (federal, state, and local) and commercial organizations to meet their surveying and mapping needs, and to assist in various related scientific and engineering fields such as evaluation of seismic activity, subsidence studies, and management of water resources. Most geodetic control data are generated within the National Geodetic Survey (NGS). Supplemental control data are received from the U.S. Geological Survey, Defense Mapping Agency, Bureau of Land Management, state and local surveying agencies, and private surveyors. The NGS's resources include the following: original descriptions and resources for 200,000 horizontal and 500,000 vertical control points (paper copy); 2 million horizontal observational data records on magnetic tape; 100,000 index cards for horizontal stations; elevations for the 500,000 vertical control points (paper copy); 2.73 million horizontal and vertical quadrangle data sheets; 114,000 sheets of unadjusted horizontal and vertical data; 130,400 geodetic diagrams and charts; 570,000 data sheets of geographic positions and plane coordinates; 570,000 data sheets of geographic positions and plane coordinates; 170,000 data sheets and horizontal descriptions; 220,000 data sheets of level lines; 430,000 data sheets consisting of miscellaneous geodetic indexes; master copies of all existing geodetic control diagrams for internal use; a complete set of U.S. Geological Survey's topo sheets for internal use; and a library of all NOAA/NOS/NGS special publications, technical memorandums, technical reports, technical bulletins, operational data reports, unnumbered publications, and Coast and Geodetic Survey journals, distributed to the public upon request.

Abstract: The Center is responsible for the preparation of large-scale weather forecasts and analyses used as guidance material at field forecast offices across the country. The Center also prepares and issues analyses and medium range global forecasts. The facility, each day, receives, processes, and uses as input, 50,000 synoptic and 24,000 hourly surface aviation observations, 2,500 ship weather reports, 2,500 atmospheric soundings, 3,500 aircraft weather reports, and all available data from weather satellites. Data come from the domestic communications system and full duplex trunk circuits to and from Europe, Asia, South America, and Canada, forming a data base of global weather information. Output includes forecasts of precipitation, temperature, and winds at various elevations over the United States, out to 10 days, and a limited number of forecast products for the globe.

Authority: National Weather Service Organic Act, as amended (26 Stat. 653; 15 U.S.C. 311, 313).

Geographic Relevance: International/Foreign

Abstract: This Center, co-located with the National Climatic Data Center, was established in 1956 as one of the major international data repositories in the WMO World Data Center system. Information from specialized, large scale or global experiments is available to researchers, industry, and the general public. Data are in a form suitable for investigating macroscale circulation patterns, thermodynamic interrelationships, or detailed microscale analyses of boundary layer and air-sea interactions. The Center maintains archives of meteorological and satellite data collected by many individual countries or received as exchange information from other World Data Centers. Archives consist of about 54,000 microcards, 4,000 reels of microfilm, 148,000 pages of reports or catalogs, 3,500 reels of computer compatible tape containing surface observational data and 8,800 reels of satellite data.

Availability: Agency

Geographic Relevance: International/Foreign; National; Latitude and Longitude

Abstract: This data center collects, catalogues, archives, exchanges, and disseminates on request data, publications, and marine data inventory forms of international interest. The center is also responsible for the complete spectrum of exchange with World Data Center B, Moscow. The Center, which is one of seven U.S.-located, discipline-oriented subcenters of the World Data Center system, operates under international guidelines set forth by the International Council of Scientific Unions' Panel on World Data Centers. The Center's holdings consist of more than 1,500,000 marine scientific observations, over 20,000 publications and articles, and over 11,000 marine data inventory forms. The Center keeps the international community informed of the Center's holdings

through issuance of catalogues of data, catalogues of publications, and reports of data exchange.

Abstract: The Center provides a convenient method of exchanging data internationally and participating in international scientific programs. Activities in the Boulder Data Center consist of the centers for the disciplines in solar-terrestrial physics, solid-earth geophysics, marine geology and geophysics and glaciology. The fields covered include solar activity (such as flares, sunspots, and solar discharges), the ionosphere (including ionospheric structure, currents, and magnetic variations), earthquakes, volcanoes, gravity, main field geomagnetics, tsunamis, marine bottom core samples, snow cover, sea ice, avalanches, and permafrost.

Geographic Relevance: International/Foreign; National; State; Regional

Abstract: The Center develops models capable of simulating the environmental component of some environmentally sensitive areas of study. These models quantify climate-associated fluctuations and the socioeconomic consequences of those fluctuations, serving as the basis for long-range, large-scale program planning. First generation crop-weather models employing large historical data sets have already been developed by the Assessment and Information Services Center (AISC) group. Other models under planning and development are: models to simulate distribution and demand for conventionally produced energy; models quantifying the production and yield of coastal and oceanic fisheries; and models of energy potentially available from the sun, tides, winds, and geothermal sources. Data bases which are used in support of modeling contain approximately 45 million bytes. Files are updated continuously (as data become available) and contain data from the late 1880s to the present. Many of the models are interactive. Inputs to AISC models are from a variety of primary and secondary sources—i.e., weather data from NOAA sources and socioeconomic data from the Bureau of the Census. The Center also develops and manages a central library and information system and provides technical guidance to other National Oceanic and Atmospheric Administration (NOAA) libraries. Its pur-

pose is to promote effectiveness, efficiency, and economy in the dissemination of scientific and technical information. The libraries have open stacks, reading rooms, and a common service policy-loan reference, literature searching and interlibrary loan services for NOAA personnel. The library holdings include over 500,000 volumes. This comprehensive collection includes scientific studies in fisheries, meteorology, climatology, and hydrology, and their applications; it specializes in geodetic astronomy, nautical and aeronautical cartography, geodetic and hydrographic surveying, photogrammetry, mathematics, and several divisions of geophysics (geodesy, gravity, geological oceanography, and tidal phenomena).

Abstract: The Office of Oceanography and Marine Services (OOMS) provides oceanographic and related meteorological data and information in the form of observations, analyses, assessments, and predictions required for safe, rational, effective, and economic use of oceans, coastal zone, and Great Lakes. Such data and information are developed in order to describe the natural environment, tides, currents, and lake levels, and the state and the trends of the environment due to human activities. The information is provided through publications (atlases, tide prediction tables, and annual reports to Congress), data services, or through real-time transmission of data to ocean users. OOMS develops policies and procedures for the analysis and development of lake, estuarine, coastal, and oceanographic products and services and directs the preparation of these products and their dissemination to the public, other agencies, and other National Oceanic and Atmospheric Administration organizations. OOMS provides national leadership in conducting assessments and disseminating information on multiple ocean uses, such as waste disposal and energy development, in major coastal and ocean regions to identify resource use compatibilities and potential conflicts. It conducts studies in representative coastal regions and estuaries and assesses the impacts of individual ocean use activities. It provides scientific support to Federal On-Scene Coordinators and participates in comprehensive assessments of damages from oil and hazardous materials. The Office conducts and sponsors programs in applied research, development, testing and evaluation, and provides the necessary engineering support of such activities.

Geographic Relevancy: National, State, County
Abstract: The Resource and Statistics Division of the National Marine Fisheries Service (NMFS) maintains and provides information to the public and to government agencies for research and for management, business, and environmental decisionmaking. Data are collected by NMFS field personnel, state agencies, and contracted statistical surveys. The data are converted to machine-readable form, verified, edited, tabulated, published, and archived. The system contains data on U.S. Marine recreational fisheries and commercial fisheries. For commercial fisheries include: quantity, value, method, and source of the commercial fisheries catch; number of fishermen; number, characteristics, gear, and crew data on fishing operations; import, export and processing information on fishery products; and current market information. Data are available in published form, microfilm, and computer listings, and in machine-readable media for portions of the last 15 years. Output is produced weekly, monthly, and annually and includes "Fisheries of the United States," "Fisheries Statistics of the United States," monthly Landings Bulletins, "Frozen Fish Report," and related publications.

Availability: NTIS

Abstract: The National Technical Information Service (NTIS) was established to simplify and improve public access to scientific and technical reports produced by the federal government. It is the central source for the public sale of government funded research and development reports and other data and analyses prepared by federal agencies, their contractors or grantees, as well as for translations of some foreign technical reports. Documents and magnetic tape input are provided by all federal agencies wishing to participate in the NTIS system. Content is the submission provided by the federal agencies, as well as microfiche copies of the documents created by NTIS. A bibliographic citation record is created in machine-readable form for every accession into the system. This data base is available through NTIS and commercial services for standard bibliographic searching. The following products, among others, are produced by NTIS: Government Reports Announcements and Index (GRA and I)—a biweekly bibliographic reference journal with indexes, abstract newsletters, a series of current-awareness newsletters, the NTIS Directory of Computerized Data Files, Software and Related Technical Reports; published searches—bibliographies published from 20 data bases on 3,000 different subjects; Selected Research in Microfiche (SRIM); and the NTIS Bibliographic Data File—a magnetic tape file of all titles in the NTIS collection from 1964.

Abstract: This directory announces public availability of federally-funded research and development resulting in machine-readable related software. In those cases where the item is available from NTIS, necessary ordering information is given. Federal government agencies are sources of input. This directory is a catalog of machine-readable software from more than 100 federal agencies and/or their contractors. The directory contains some 500 programs, is indexed by agency, accession number, subject, hardware and language, and is divided into 17 major subject areas. All release data meet the requirements of the Privacy Act and the Freedom of Information Act. Software output, when ordered, is machine-readable magnetic tape.

Availability: NTIS

Abstract: The Catalog consists of five volumes which cover a majority of the government's 26,000 active patents: (1) Catalog of Government Patents Chemical and Related Arts 1966-74; (2) Catalog of Government Patents Electrical and Related Arts; (3) Catalog of Government Patents General and Mechanical, 1966-74; (4) Catalog of Government Patents Abstracts 1975-80; and (5) Catalog of Government Patents Index 1975-80. Information for these volumes was collected from the assignment files of the U.S. Patent and Trademark Office and from patent copies identified as owned by the U.S. government. Each invention reference in the Catalog contains: (1) title of invention; (2) patent number; (3) patent application serial number; (4) agency assignee, inventor(s); (5) filing and issue dates; (6) U.S. patent classification (class/subclass); (7) abstract; and (8) illustration (when appropriate). The first three volumes are organized under a unique system of 850 primary and secondary subject categories. The fourth volume arranges patents and patent applications in 10 subject categories by federal agency sources. The fifth volume is a subject and agency index which lists inventories by specific topic or category. Volumes 1 through 3 are available individually or as a set. Volumes 4 and 5 are available as a set only.

Program: National Technical Information Service (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Science and Technology; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of September 25, 1970 (P.L. 91-412, § 1; 88 Stat. 864; 15 U.S.C. 1525).

Availability: NTIS

Abstract: This monthly subscription provides information on new technology developed by the federal government. This service pulls together into a convenient package of 10 separate categories, one to two page fact sheets of new technology selected as having potential practical or commercial use. Included with the subscription is the annually issued Federal Technology Catalog. The categories include: (1) Computers; (2) Electrotechnology; (3) Energy; (4) Engineering; (5) Life Sciences; (6) Machinery and Tools; (7) Manufacturing; (8) Materials; (9) Physical Sciences; and (10) Testing and Instrumentation.

Federal Technology Catalogs Summaries of Practical Technology.

Annually; 328 pp.

OMB Funding Code/Title: 13-8546-0-7-376 / Information products and services**Program:** National Technical Information Service (All Programs)**Congressional Relevance:** *House Committee on Energy and Commerce; House Committee on Science and Technology; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee***Authority:** Act of September 25, 1970 (P.L. 91-412, § 1; 88 Stat. 864; 15 U.S.C. 1525).**Availability:** NTIS**Abstract:** These annual catalogs present summaries of practical technology selected for commercial potential and/or promising applications to the fields of computer technology, electrotechnology, energy, engineering, life sciences, machinery and tools, manufacturing, materials, physical sciences, and testing and instrumentation. Each summary not only describes a technology, but more importantly, gives a source for further information. This annual publication describes some 1,100 new processes, inventions, equipment, software, and techniques developed by and for dozens of federal agencies during 1982. Included is coverage of National Aeronautics Space Administration (NASA) Tech Briefs, Department of Energy (DOE) Energygrams, and Army Manufacturing Notes. Contributing agencies include NASA, Department of Defense, DOE, and many other leading sponsors of federal research and development activity. These unique, single-volume collections of practical technology are arranged into the 21 broad disciplines. A subject term index is included.**Agency Contact:** National Technical Information Service. (703) 487-4838.

Authority: Act of July 19, 1952 (P.L. 82-593, § 1; 66 Stat. 792-794, 801, 810; 35 U.S.C. 1-13; 35 U.S.C. 131-135, 261). Trademark Act of 1946 (P.L. 97-489, title 1, § 2-22; 60 Stat. 432-435; 15 U.S.C. 1062 et seq.).

Availability: Agency

Abstract: This system is designed to provide a source of information on ownership of patents, patent applications, trademark registrations, and trademark applications. A searcher of this collection can determine assignor, assignee, inventor, and history of changes in status that have occurred to a patent or trademark that has been assigned. Information from legal documents associated with patents and trademarks provide the input for this system. Between 25,000 and 30,000 entries per month are added in the collection. Information from legal documents such as assignments, court papers, liens, change of names, and mergers is abstracted and entered into a computer data base for patent applications and is typed onto index cards for trademark applications and registrations. Six subfiles provide access via inventor, assignor, assignee for patents; and via registration number, application number, assignor and assignee for trademarks. Documents from which the data are taken are filmed and provide an additional source. Files are updated when an action occurs which changes the status of a patent, trademark, or application. Records prior to 1955 are found in book form.

Abstract: The collections provide the patent and trademark examiners with literature to supplement their files for use in prosecuting patent and trademark applications. The collections also function as a science and technology library for the use of patent attorneys, inventors, and the general public in search of technical information. The collections are derived from several sources. The Patent and Trademark Office literature is housed primarily in the Scientific Library. There are 120,000 monographs and 1,600 journal subscriptions. Some journals are available on microfilm. The library holds an exceptionally large collection of abstracting and indexing tools. The scope of the collection is the entire area of science and technology. The Office also has special smaller collections in chemistry, design, research and development. The documents

are organized by the Library of Congress classification system. The library has an extensive collection of foreign patents.

Availability: Agency

Abstract: The Patent and Trademark Office maintains two separate systems of search files with print-out documents classified by subject under the U.S. Classification System. The examiners search files contain 13,000,000 U.S. patents, 10,000,000 foreign patents and 1,000,000 non-patent literature documents classified into over 100,000 subclasses of the system. The Public Search Room contains only U.S. patents in the classified file. U.S. and foreign patents are available in numeric files maintained in the Public Search Room and Scientific Library. The classified search files are growing annually at the rates of 325,000 U.S. patents, 250,000 foreign patents and 100,000 non-patent literature documents. The major U.S. patent collection is housed in the Public Search Room in two forms--the classified collection in hardcopy and the numerical collection in microfilm. There are various indexes to provide access to the patents via inventor, assignee, and subject. The foreign patents are located in the Scientific Library, filed by country in order of receipt. These documents are partly in paper copy, partly on microfilm and are accessible by date of filing, by document number, and, to some extent, by subject. The examiners' search files are arranged in small collections. These files are primarily the U.S. patents in a given subject area enriched by foreign patents and nonpatent literature about the same subject.

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of July 19, 1952 (P.L. 82-593, § 1; 66 Stat. 792-794, 801, 810; 35 U.S.C. 261; 35 U.S.C. 1-13; 35 U.S.C. 131-135). Trademark Act of 1946 (P.L. 79-489, title 1, § 2-22; 60 Stat. 432-435; 15 U.S.C. 1062 et seq.).

Abstract: This system provides the trademark examiners and public with information about the registration of a trademark and with a complete collection to search in processing of applications. The collection consists of approximately 500,000 registered trademarks and a digest of pending marks. The Patent and Trademark Office (PTO) registers about 1,000 trademarks per week; and about 5,000 applications are received per month. The trademark collection includes all marks registered by the PTO, including those for foreign applicants but not marks registered only in foreign countries. The file is divided into two major categories--the registered marks and the digest of pending marks. In both files the documents are organized alphabetically and/or according to classification of the design. Also associated therewith are numerical indices and microfilm records of abandoned and canceled trademarks and information thereon.

Abstract: This is a tape file system of individual records for all persons who have established eligibility to represent inventors' interests in applications for patents. This file is used to provide name and address listings. It is also the basis for automated printing of an official publication listing all such persons and bearing the title, "Attorneys and Agents Registered to Practice before the U.S. Patent and Trademark Office." This publication is sold to the public by GPO. Attorneys and agents submit modifications, additions, and deletions to the Office of Enrollment and Discipline. The Office of Enrollment and Discipline codes this information and submits it to the Office of ADP Administration for processing. Information includes attorney's or agent's name, business address, phone number, and various other information pertaining to his eligibility to be included in this file. Information is updated daily. The records can be referenced by state, country, or ZIP code.

Abstract: The system facilitates the searching, examination, reclassification, and technological assessment of U.S. patents. Examiners and classifiers within the Patent and Trademark Office use the system extensively. On-line retrieval terminals are provided for public access to classification information. Classification data are provided by a weekly processing of all new patents and by a continual reclassification of the existing inventive art. All system input is provided by Patent and Trademark Office organizations. The system contains over 13 million records; pertinent constructs are U.S. classifications with information on search room location, date of establishment, reclassification status, and responsible Art Unit and U.S. patents with information on location and type of reference. Reports on the location and title of all classifications and classes are prepared monthly for inclusion in the U.S. Manual of Classification. A comprehensive series of reports are used to manage and control the flow of over 500,000 patents currently undergoing reclassification. A semiannual microfilm copy of the file is created for archival purposes.

Geographic Relevance: National; State; County

Abstract: This guide helps to improve the quality and reliability of current data by providing an independent vehicle for evaluating the feasibility of new approaches and concepts. This document provides governmental and private users with periodic and reliable information on agricultural services statistics. Input is primarily provided by individual farm operators or processors and from administrative records. This document presents statistics on the number of agricultural service establishments in the United States in 1978 and their gross receipts, labor, and annual payroll for agricultural service activities. Data are given by county for each state covering establishments whose primary activities are providing agricultural services. Information at the national, state, and county levels for all establishments is presented for selected four-digit standard industrial classification codes by size and type of organization. The data shown include dollar volume of business, gross receipts from products provided, gross receipts, labor and payroll by type of service performed, capital expenditures, and expenditures for electricity, gasoline, petroleum, and other fuels.

Abstract: This file provides a range of socioeconomic data on the population which is of interest to a variety of planners and decisionmakers in public and private organizations. The data for this file are derived from the March supplement to the monthly current population survey, which is conducted primarily to provide labor force characteristics data to the Department of Labor. The original data are collected in a national sample of about 60,000 households. The file provides demographic, social, and economic characteristics data on persons included in the survey. No names, addresses, or other types of personal identifiers are contained in the file. The file is made available for statistical purposes only.

Availability: GPO
Abstract: This catalog provides governmental and private users with current and reliable information on available Census Bureau publications for the period 1946 through 1972. Bureau catalogs and other bibliographic materials issued between 1946 and 1972 provide the input for this catalog. This catalog complements the "Catalog of United States Census Publications, 1790-1945," and helps provide an historical and comprehensive bibliography of sources for Bureau statistics from 1790 through December 31, 1972. Census reports, other special reports, and reports issued on a current basis are listed for each of the following subject areas: agriculture, construction, foreign trade, general economic statistics, geography, governments, housing, manufactures, mineral industries, commercial fisheries, population, retail trade, wholesale trade, selected services, and transportation. These are followed by sections on

compendia and guides; methodological studies, and studies of foreign countries. Appendixes, a subject index, and a geographical index complete the presentation.

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; County
Abstract: The County Business Patterns data, which provide information on establishment, payroll, and employment by industry classification and county location, are useful to market researchers, economists, state and local economic development officials, trade associations, and other users of economic statistics. The data for the County Business Patterns are extracted from the Census Bureau's Standard Statistical Establishment List, which is updated annually using the IRS No. 941 payroll file, the Social Security Administration's first quarter form 941A and quarterly file covering FICA wages, and the Census Bureau's Annual Organization Survey. The file provides summary data on number of employees, first quarter and annual payroll, and number of establishments by employment-size class at the four-digit industry level for counties and states.

Abstract: A census of agriculture is taken every five years in accordance with United States Code Title 13. This census provides a statistical picture of the Nation's farming, ranching, and related activities on a uniform basis at the county level. The data are used by federal, state, and local agencies, the Congress, academics, private businesses, and trade associations. The data in this file are the responses to a questionnaire mailed to farm operators. The file contains summary data on such agricultural topics as crop acreage and value, livestock and poultry production, machinery and equipment, value of products sold, and other farm-related information. The data are summarized for counties, states, divisions, and regions.

Abstract: The sixth edition presents a compact selection of statistics on major facts of the social, economic, and political structure of the United States. Statistics in this book are produced by the Bureau of the Census as well as those of many other organizations, both government and private. A summary section provides statistics in charts and graphs and a brief narrative text and is followed by more detailed statistical tables and additional charts in 25 subject matter sections. Sections are devoted to the following subjects: population, vital statistics, immigration, land, environment, recreation, government, elections, national defense, law enforcement, labor, health, education, welfare, income, agriculture, forestry, fisheries, business enterprise, manufactures, engineering, construction and housing, transportation, communications, science, energy, finance and insurance, distribution and services, and foreign commerce. Among the specific subjects covered are the population of states, large cities, and selected standard metropolitan statistical areas; legal abortions; 1976 Presidential election; federal aid to state and local governments; U.S. government foreign military sales; crime; air and motor vehicle pollution; unemployment; Social Security beneficiaries and payments; energy consumption; persons below poverty level; retail food prices; corporate profits; petroleum and natural gas; U.S. foreign aid. An explanation of terms, an Index, and a narrative summary are also included.

Abstract: These county level population estimates are developed under the auspices of the Federal-State Cooperative Program for Local Population Estimates, whose objective is to develop and publish county population estimates using uniform procedures standardized for data input and methodology. The estimates are cooperatively prepared by state agencies and the Bureau of the Census using standardized statistical procedures which utilize such input as state tax data, school enrollment figures, vital statistics, Medicare enrollees, and institutional and military population counts. The file contains population estimates and birth, death, and migration figures.

Geographic Relevance: National
Abstract: This program provides governmental and private users with current and reliable information on population projections through the year 2050. This document presents projections of the population of the United States by age and sex and of the components of population change (births, deaths, and migration). These projections are shown annually by race (White and Black) from 1982 to 1985 and often from 1990 to 2050. Text tables show estimates and projections of total population (including Armed Forces) from 1982 to 2050. Also included are data for selected years on annual percent change and annual number of births; deaths and net migration under alternative assumptions about future fertility, mortality, and migration. Information is also available on the projected components of change by race in the middle series. These national population projections supersede those published in July 1977 in Current Population Reports, series P-25, No. 704.

Abstract: This reference manual provides governmental and private users with current and reliable information on population and housing statistics. The purpose of this publication is to provide an appropriate and up-to-date starting point for the new or prospective user and a handy reference for the experienced user. Input is provided primarily by individual respondents and from administrative records. This reference manual presents a comprehensive introduction to demographic data from the Census Bureau or, more specifically, data about population and housing. It presents those facts or principles most relevant to understanding the 1970 census and related data from current programs,

to being able to add desired data, and to appreciating the definitions and limitations of those data. Fifty reference charts and illustrations are included, along with numerous cross-references in other publications where more detailed information can be obtained. The manual is designed especially for use by instructors participating in the Census Bureau's college curriculum support project.

Abstract: This series of reports provides governmental and private users with periodic and reliable information on agricultural statistics. Input is primarily provided by individual farm operators or processors and from administrative records. This series includes 54 paperback reports, one for each state, the United States, Puerto Rico, Guam, and the Virgin Islands. Volume 1 presents data on farms, farm characteristics, and farm products. The reports for the states contain data for all farms and farms with sales of \$2,500 and over. Detailed data are presented at the state level classified by size of farm, tenure and age of farm operator, type of organization, value of products sold, and major type of farm. County data are summarized by subject and are presented by subject for miscellaneous crop and livestock items.

Geographic Relevance: National

Abstract: This one-volume basic reference source, issued annually since 1878, is the standard summary of statistics on the social, political, and economic organization of the United States. It presents a comprehensive selection of statistics from the publications and records of governmental and private agencies. Statistics produced by the Bureau of the Census, as well as those of many other organizations, both government and private, provide the input for this reference source. This edition contains more than 1,500 tables and charts and an extensive guide to sources of additional data, as well as a 2-page presentation of customary and metric weights and measures. Twelve pages are devoted to tabulations of recent trends in many of the subjects included in the detailed statistical tables. Emphasis in the Statistical Abstract is given primarily to national data, although many tables present data for regions and a smaller number for cities. There are over 100 new tables in this edition covering women, financial problems of large cities, divorce, drug sales, pollution control, federal and local finances, military sales, income, energy consumption, gasoline prices, and many other topics. In addition, continuing series have been brought up to date and less timely data have been curtailed or eliminated. Text notes have been revised to reflect changes

in definitions and source references. Linkages between data presented in the "Statistical Abstract" and in "Historical Statistics of the United States, Colonial Times to 1970," are provided by specific headnote references and by an appendix to this edition. A new appendix provides, briefly and in nontechnical language, a discussion of statistical methodology and reliability, including definitions, information on how the data were obtained, a measure of their validity, and references to methodological reports.

Abstract: The data in the 1976 Survey of Income and Education were collected for the Department of Health, Education, and Welfare to meet the data requirements of P.L. 93-380 to furnish current estimates of the number of school-age children living in poverty families. Additionally, the data are of interest to planners and decisionmakers in a variety of public and private organizations. The data were collected in a national survey of nearly 200,000 households. The file provides demographic, social, and economic characteristics of persons, families, and households included in the survey. No names, addresses, or other types of personal identifiers are contained on the file, which is made available for statistical purposes only.

Abstract: This guidebook provides materials to assist local planners in the review, evaluation, and preparation of population projections for local areas. Input is provided primarily by individual respondents and from administrative records. The guide consists of three main divisions, as follows: a textual discussion of various aspects of projections for local areas; supporting information, such as sources of basic data, a bibliography of pertinent literature, a brief glossary of technical terms, and a list of state agencies to assist in locating and obtaining population projections; and a set of appendixes which provide statistical information useful in preparing population projections. A step-by-step description of the cohort-component projection method is given.

Abstract: The Division serves as the focal point for receiving users' requests for summary tapes, computer program packages, selected maps, and related products. The Division maintains over 2,500 data files, the majority of which are products of the Bureau's regular data processing and tabulation programs. Other files are special tabulations prepared from census basic records at users' requests. Many of the data files contain tabulated or summarized data from the Decennial and Economic Censuses. However, some of the files, primarily from surveys, contain untabulated data—that is, disclosure-free individual records for persons, households, travelers, trucks, etc. Files consisting of individual records are known as microdata files. All data files available for purchase have been reviewed for disclosure. Special tabulations are available on computer tape produced at users' request, microfilm and in computer/report format. The computer programs provide for accessing, matching, manipulating, and displaying census data and geographic information.

Abstract: The Center conducts the Census Bureau's international training and technical assistance activities. The programs cover demographic, economic, and social subjects, systems analysis, data processing, and statistical methodology. Input is provided primarily by the Bureau of

the Census. The Center is engaged in providing practical training for statisticians and data processors from developing countries and consultative/advisory assistance to statistical offices and officials in the developing world. Coordinate with and supportive of these functions is the preparation of training and reference materials on the conduct of censuses and surveys and the development of special computer software for use in developing countries. The training is conducted in English and varies in length from two to 18 months. The basic program, which lasts one year, has six areas of specialization. Advisory assistance is given on both short- and long-term basis. This includes statistical assistance to the Agency for International Development (AID) in evaluating programs, determining policies, and planning and conducting household surveys. Major financial support for the programs is provided AID. Collaborative arrangements have also been made with the United Nations and many of its affiliates. The second major role of the Center is to provide technical assistance, for all areas of data collection and data processing, in foreign countries. This assistance takes two forms: long-term resident advisers stationed to the host country; and consultative trips from Washington headquarters, typically lasting from 2 to 4 weeks in length.

Abstract: The 1979 Farm Energy Survey was conducted to supplement the energy data collected in the 1978 Census of Agriculture. This survey was conducted on a sample basis following the census to provide needed data on farm energy uses and requirements without burdening all farm operators. Detailed information is provided on such items as: expenditures for selected types of energy, amount of selected energy items purchased by quarters, fuel storage facilities and inventories, fuel sources, energy consuming equipment, crop drying facilities, heated and air-conditioned buildings, customwork performed for and by others, and energy conservation practices. The 1979 Farm Energy Survey is the first survey collecting detailed energy information to be taken in connection with a census of agriculture.

Availability: GPO

Geographic Relevance: National; State

Abstract: The 1979 Farm and Ranch Irrigation Survey was conducted to supplement the basic irrigation data collected in the 1978 Census of Agriculture. This survey was conducted on a sample basis to provide needed data for on-farm irrigation, without burdening all farm operators. This method allowed for the use of a shorter report form in the 1978 Census of Agriculture. The survey provides detailed information for on-farm irrigation such as: acres irrigated, yields of irrigated and nonirrigated crops, quantity of water used, method of water distribution, type of pumps, inventory and characteristics of irrigation wells, expenditures for pumping irrigation water, and expenditures for water obtained from off-farm suppliers. These data combined with data from the 1978 Census of Irrigation Organizations and the 1978 Census of Agriculture provide a relatively complete and detailed picture of irrigation in the conterminous United States. Selected irrigation for on-farm irrigation have been collected in the Census of Agriculture since 1891. In 1902, a census of farms reporting irrigation in the 1900 Census of Agriculture was authorized by Congress. Surveys of irrigation in limited areas were taken in connection with the 1954 and 1959 censuses. The 1979 Farm and Ranch Irrigation Survey is the first survey devoted entirely to the collection of on-farm irrigation for the conterminous United States.

Abstract: This is the sixth census of horticultural specialty production. These censuses have been taken in conjunction with the agriculture censuses of 1890, 1930, 1950, 1959, 1969, and 1978. The 1979 Census of Horticultural Specialties, as in previous censuses, includes producers of cut flowers, flowering and foliage plants, bedding plants, cultivated florist greens, nursery products, bulbs, flower seeds, vegetables grown under glass or other protection, cultivated mushrooms, vegetable seeds, and sod. Data for these specialty items were collected for each state. Establishments producing horticultural specialties also have been included in the regular census of agriculture; however, the number and detail of questions included in that census were severely limited.

Abstract: Varying elements of farm finance have been collected since the first agriculture census was taken in the United States. Initially, the principal points of interest were the value of farmland and sales of agricultural products, but in 1890, census data were also requested on farm mortgage debt. In later censuses, this aspect of the data collection effort was expanded to include farm taxes. The 1979 survey included new sections on production contracts, income and expenses from farm-related sources, assets, when and how owned land was acquired, off farm work, education, and household characteristics. The survey also repeated questions from the 1970 survey on debts, expenditures, income, and taxes. Data for all of these items were collected from farm operators, and most of them from landlords. The landlord report form also included new sections on ownership and sales of agricultural land, participation in management decisions, type of ownership, and characteristics and occupation of landlords.

Availability: GPO

Geographic Relevance: National; State; Irrigation Organizations

Abstract: The 1978 irrigation data were collected in two separate censuses. The Census of Agriculture collected irrigation data from farm and ranch operators, and the census of Irrigation collected data from irrigation organizations. These data are presented in separate chapters in this volume. Chapter 1 presents data obtained from farm and ranch operators, and chapter 2 presents data obtained from irrigation organizations. Chapter 1 presents data for the number of farms and ranches irrigating, acres irrigated, crops irrigated, harvested cropland irrigated, pastureland and rangeland irrigated, other land in farms irrigated, and land use. The data are for the United States, regions, divisions, and states. A more detailed description of how the census was taken is presented in the general explanation for chapter 1. Sections from the Census of Agriculture report form which relate to irrigation are shown in appendix A. Chapter 2 presents data for source and disposition of water, number and type of users served, acres served, irrigation facilities operated, irrigation storage reservoirs, measurement of irrigation water, cost of operation and maintenance, new capital investment, indebtedness, and revenues collected. These data are presented by state and water resources regions and subregions. County data are not included because the operations of these organizations were delineated by topographical areas rather than political boundaries. Copies of the two report forms (A60 and A61) and instructions appear in appendix B. The general explanation for chapter 2 contains additional information on the methodology used in taking the census and processing the data.

Abstract: The Quarterly Financial Report (QFR) provides aggregated quarterly information on the financial results and position of United States corporations. Based upon an extensive sample survey of 14,000 corporations, the report presents estimated statements of income and retained earnings, balance sheets and related financial and operating ratios for all manufacturing, mining, and trade corporations. The data are classified to the 2- and 3-digit Standard Industrial classification level and by asset size. The report has been published every quarter since 1947. These timely estimates are important to estimation of Gross National Product, Flow of Funds, and corporate tax liability. These data are also used in analysis of economic trends, small business performance, and industry profitability. QFR is also a standard reference series that is published quarterly approximately 75 days after the end of the first second, and third calendar quarters and approximately 95 days after the end of the fourth calendar quarter.

Abstract: This reference provides governmental and private users with information on construction establishments in the United States. Input is provided primarily by construction establishments through the use of a mail survey, and by administrative records. Summary data are presented for construction establishments with and without payroll, by total receipts, and size of establishment; for industry groups and industries; and for the United States, geographic regions, states, and selected Standard Metropolitan Statistical Areas. Data presented for construction establishments with payroll are as follows: number of establishments, number of employees, payrolls, selected expenditures, and receipts. Construction receipts are shown by the following: type of structure, new construction versus maintenance and repair, and location of construction. Operating ratios for construction establishments and comparative data for prior years are also shown.

Abstract: This report provides projections of the resident population of each state by 5-year age group and sex for July 1, 1990 and 2000. The April 1, 1980 census data are also included. These projections are consistent with the untitled series of the national population projections published as Current Population Reports, Series P-25, No. 922. These state projections also assume that the net migration patterns by age and sex estimated for the 1970 to 1980 decade will continue unchanged through the end of the century.

Abstract: This annual report describes the progress of four major technical divisions of the Institute for Telecommunication Sciences (ITS) during the preceding fiscal year. ITS is the research and engineering arm of the National Telecommunications and Information Administration (NTIA) in the Department of Commerce. Its mission may be divided into two major elements: (1) to provide direct support to the NTIA Administrator and the Secretary of Commerce and (2) to serve as a central federal resource to assist other agencies of the government in the planning, design, maintenance, and improvement of their telecommunications activities. Its program falls under two broad categories: (1) Spectrum Research and Analysis and (2) Systems and Networks Research and Analysis.

Abstract: This monthly report is the official medium for presenting the

execution of fiscal, financial, international, wage-price, and other policies. This information is essential for economic decisionmaking by business, federal, state, and local governments, labor, and other economic groups and individuals. Inputs to the current business statistics and analyses published within the "Survey" come from the information systems of the Bureau. These systems receive inputs from numerous sources, including other federal agencies and private and public organizations outside the federal government. The "Survey of Current Business" is the official source of data on the economic accounts. Analyses of current business conditions and the near-term outlook are published in "The Business Situation" section of the "Survey." These analyses are prepared within the framework of the economic accounts. A review and interpretation of the preliminary GNP estimates and also a preview of them, based on data available 1 month earlier, are published quarterly. In addition, analyses of one or more specific aspects of the business situation are published. Statistics and explanatory notes are published in the "5-pages" of the "Survey." These carry approximately 1,900 separate series. Used in conjunction with the biennial "Business Statistics" supplements to the "Survey," they provide continuous and consistent series running back many years and cover all major aspects of the economy.

Geographic Relevance: International/Foreign; National

Abstract: The "Business Conditions Digest" (BCD) is the monthly Bureau of Economic Analysis publication which disseminates short-term economic time series at the national level. Inputs to the economic time series published in BCD are obtained from a variety of public and private sources including the Bureau of Economic Analysis, the Department of Labor, the Bureau of the Census, Dun and Bradstreet, and the Department of Defense. The "Business Conditions Digest" is a monthly compendium of economic indicators which presents approximately 300 monthly and quarterly seasonally adjusted economic time series, about 150 of which have been classified as cyclical indicators, i.e., they conform well to broad fluctuations in aggregate economic activity. The remaining series are useful in the interpretation of the economic situation and outlook, although they do not qualify as cyclical indicators. The series are shown in graphic since 1959 and in tabular form since 1982. Diffusion indexes, various analytical measures, and summary characteristics of individual series are also shown. The cyclical indicators--classified as leading, roughly coincident, or lagging--and the composite indexes derived from them, have been generally recognized as useful tools for economic forecasting.

Abstract: DMDC maintains automated inventory of personnel and manpower data on both a current and historic basis of the active duty military, reservist, civilian employee, and military retiree populations of the Department of Defense. Coverage generally dates from 1971. These data are utilized to support analytic projects and policy initiatives undertaken by or on behalf of the Department of Defense. Data contained in the DMDC data base are provided by the military departments and DOD Agencies, the Civil Service Commission, the Veterans Administration, the Department of Labor, and the Department of Commerce. Most records contained in the data base contain such variables as SSAN, name, rank/grade, occupation, component location, age, race, sex, education level. A current inventory normally contains approximately 6 million records. Frequency of update ranges from monthly to annually. Aggregated summaries of individual records are provided upon request to various components of DOD and the federal government.

Geographic Relevance: International/Foreign; National; State

Abstract: The Center collects, indexes, stores, and disseminates both published and unpublished technical literature in the areas of arthropod pest biology and integrated control/management. The Center maintains 961 books, 109,095 accessions, 168 current journals, and 50,000 historical accessions. The technical literature covers such areas as arthropod-borne diseases and their vectors, taxonomy and distribution of medically important arthropods, stored product pests, structural pests, and pests of Department of Defense natural resources. Other principal subjects include rodent and bird control; weed management; pesticide usage, training, and safe disposal; and various other noxious plant and animal problems. The Center supports authorized users with both periodic and one-time selective disseminations of information which are bibliographic subject print-outs with summaries. The Center also reviews and analyzes

current awareness items for distribution to pest management professionals. The Center also periodically produces Disease Vector Ecology Profiles (DVEP) which are comprehensive summarizations of the Vector-Borne disease incidence and epidemiology organized by country.

Availability: Mitre Corp.

Abstract: The Command, Control, Communications, and Intelligence (C3I) Research and Evaluation Library is a computer-aided data storage and retrieval system which was designed to facilitate the exchange of information among members of the C3I community. Each document entry in the library has its title, document number, data, security classification, author(s), corporate author, sponsor, agency, and point-of-contact identified. In addition, the content of the document has been categorized by codes indicating the subject activity, mission area addressed, service agency concerned, purpose or anticipated use for the activity or methodology presented, its place in the spectrum of research and evaluation techniques, the C3I system component(s) discussed, the methods of evaluation used or presented, and the current status of the subject activity as of the date of the document. These codes may be used to select those documents in the library relating to any subject area or combination of subject areas of interest. Each document entry also contains a short abstract to provide the user further insight as to its suitability for his particular purpose. The document identification information is stored in an interactive data storage and retrieval system. Document entries relating to a specific area of interest may be retrieved by entering the appropriate identifier code, or combination of codes, so that entries corresponding to those categories will be selected and displayed on the computer terminal and/or printed. This selection process is simple; the user responds to clear English language instructions and options offered by the program.

Geographic Relevance: National
Abstract: The handbook presents qualitative descriptions of reliability, availability, and maintainability (RAM) parameters and quantitative techniques traditionally found useful in analyzing system RAM performance. The text is presented in a self-learning format consisting of a narrative description of a given parameter followed by a description of analytical techniques useful in analyzing the parameter and concludes with a series of case studies including commentary. Chapter titles include Mathematical Models of Reliability, Statistical Concepts, Reliability Data Analysis, Reliability Test Planning, and Reliability Growth and Data Base Considerations. The text incorporates tables and charts required to complete (or assess the adequacy of) a test design or data analysis. The analytical portion of the text material is presented in simplified format.

Abstract: This library provides bibliographic and reference services to support the missions of the Air Force Geophysical Laboratory and the Electronic Systems Division, which are located at Hanscom Air Force Base in Massachusetts. The library collections include 240,080 volumes, 7,300 journal titles (2,420 current subscriptions), and 127,994 technical reports. Special collections include the Rayleigh Archives, an oriental language collection, and an AFGL and AFRL contractor report archival collection. This library is one of the largest environmental and space sciences libraries in the country. The collection is extensive in scope and intensive in coverage in the areas of geophysics, astronomy, astrophysics, geodesy, metallurgy, ceramics, chemistry, and environmental sciences. The library offers referral, interlibrary loan, selective dissemination of information, and translation services. On-line information retrieval systems include Lockheed's DIALOG, System Development Corporation's ORBIT, and Defense Documentation Center's RDT&R. Through its membership in FEDLINK, the library participates in OCLC, Inc.'s shared bibliographic and cataloging systems. Access to the library, except through interlibrary loan, is normally limited to Department of Defense and contractor personnel.

Abstract: The USAF Environmental Technical Applications Center (USAFETAC) assesses the natural environment from a historical perspective and advises the United States Air Force, United States Army, and other agencies as directed, on its effects, through: 1) applied climate;

2) post-event analysis; and 3) environmental simulation. USAFETAC maintains and builds an historical data base of worldwide real, derived and synthetic environmental data sets. USAFETAC manages the Air Weather Service Technical Library (AWSTL) which contains over 5,000 monographs, 160,000 technical reports in paper and microform; 350 journals; 20,000 maps; and 4,500 original documents and project records. The major subject disciplines include meteorology, climatology and astrophysics. Working collections are maintained in mathematics, statistics, computer sciences, and management. Reference and interlibrary loan services are provided. Literature/data searches are conducted and bibliographies are produced on request. The AWSTL is on-line to the DOD Research, Development, Test, and Evaluation; OCLC, Inc.; Lockheed DIALOG; Bibliographic Retrieval Service data base systems; SDC ORBIT; Institute for Scientific Information; MEAD NEXIS; and Department of Energy's Gateway.

Abstract: This facility provides library materials and services to support the missions of the Air Force System Command's School of Aerospace Medicine and Aerospace Medical Division. The library collections include 118,307 books, 1,904 journal subscriptions, and 142,371 technical reports. Special collections include archival records of the School of Aerospace Medicine's technical reports. The library collections provide extensive coverage of aerospace medicine, life sciences, and bio-engineering, with particular emphasis on biochemistry, radio biology, bio-astronautics, and bio-nucleonics. The library offers referral, interlibrary loan, and selective dissemination of information services. On-line information retrieval systems include the National Library of Medicine's MEDLINE, Lockheed's DIALOG, DOD's RDTGE online data system, and System Development Corporation's ORBIT. The library is an active participant in the AMIGOS library network, CORAL, HIOISA, and TAIION. It is on-line to OCLC Inc.'s shared bibliographic and cataloging systems. Access to the library, except through interlibrary loan, is normally limited to Department of Defense and contractor personnel.

Army

100403-001

Coastal Engineering Research Center (CERC).

OMB Funding Code/Title: 96-3124-0-1-301 / General expenses

Program: General Expenses (All Programs)

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Rivers and Harbors Act of 1902 (P.L. 57-154); Flood Control Act of 1917 (P.L. 64-367); Protection of Shores Act (P.L. 79-727); Coastal Engineering Research Act (P.L. 88-172).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Abstract: CERC provides thorough research and development computer programs and models to be used as tools in planning, design, and

construction in the field of coastal engineering in order to provide a better understanding of coastal processes, winds, waves, tides, currents, and materials as they apply to problems relating to navigation, recreation, flood/storm protection, shore and beach erosion control, shore structures, and other offshore islands and structures. Data input for programs and models is obtained from field data collection and observations. The center has developed and is using the following programs and models in their research and development efforts: 1) Wave Refraction--accurately predicts the changes, height, and direction of wind-generated waves through calculations based on hydrodynamic equations and local depth fields; 2) Wave Data Analysis--produces standard monthly summaries of objectively determined wave heights and periods from data collected in coastal observation stations; 3) Storm Surge--provides a numerical model to determine the flood level expected from specific hypothetical storms based on hydrodynamic equations and local depth fields; 4) Beach Evaluation Program system--provides graphical and statistical data related to the response of beaches to waves and tides of specific intensity and duration; used as part of a storm warning system for low-lying coastal communities; and 5) Littoral Environmental Observation--analyzes data on meteorological and oceanographic forces which affect the shoreline to provide meaningful correlations between various recorded parameters and to lead to better understanding of the shoreline physical characteristics and littoral processes. The Center produces a wide variety of reports and forecasts on tides, wave analysis, storms, beach erosion, and shorelines.

Availability: Internal Use Only

Abstract: The Center was developed to conduct research in hydrologic engineering. Data are developed from regions and field applications. The Corps' Hydraulic Engineering Center (HEC) conducts extensive activities in the area of hydraulic engineering. In its efforts to relate academic research and development in practical needs in the field, HEC has developed a variety of systematic procedures for hydraulic engineering and planning applications, including 28 computer programs and models for such applications as flood hydrographs, water surface profiles, reservoir system analysis, streamflow simulation, rating and flood routing, basin rainfall and snowmelt computation, urban storm water runoff, and others. The Corps is continuing to develop and test new computer programs and models as well as modify existing ones to stay abreast of new research and methodology. The Center produces a variety of reports and forecasts on hydrologic engineering.

Coastal Engineering Research Act (P.L. 88-172).

Abstract: The library, located at the Waterways Experiment Station, Vicksburg, MS, provides a central repository for the documentation and source code material for all approved engineering computer programs. Computer programs and related documentation are submitted to the library from all Corps components. The ECPL functions as a distribution center for disseminating information to all Corps of Engineers activities in the status of engineering computer programs development within the Corps of Engineers as well as the status of engineering computer software development in the scientific community which pertain to Corps activities. The library functions also as a repository and lending library for the distribution to divisions, districts, and other Corps offices of visual-aid materials required for the training of engineering personnel in Automatic Data Processing appreciation and computer programming. Output is computer software and documentation.

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Universities

Abstract: This information center collects, analyzes, and distributes information in the field of hydraulic engineering. The Center does not maintain a separate collection of materials. It is served by the Library, Technical Information Center, WES, whose collection exceeds 250,000 items, of which about 50,000 are relevant to HEIAC subject fields. Hydraulic engineering subject fields covered by the information center include river, harbor, and tidal hydraulics; flow-through pipes, conduits, channels, and spillways as related to flood control and navigation; hydraulic design and performance of dams, locks, channels, and other navigation structures; and water waves and underwater shock effects. Services provided by the center include literature searches in specific areas of interest, development of state-of-the-art reviews and bibliographies, responses to requests for specific data and technical information searches, performance of technical analyses and evaluations, and directing persons seeking information to organizations or qualified individuals with specialized knowledge for advisory and consultant services.

Geographic Relevance: International/Foreign; National; State; Congressional District

Abstract: The Cold Regions Research and Engineering Laboratory conducts and coordinates research applicable to the Army in those geographic areas of the world where cold represents a problem at least one year in ten. The main laboratory facility contains 24 cold laboratories which can operate to -58 degrees F, special testing apparatus for frozen material chemistry analysis, an electron microscope laboratory, a soils processing laboratory, a pavement test facility for testing under freezing and thawing conditions, a wastewater treatment research facility, an ice engineering facility, a computer facility, a spectrometer, a gas chromatograph, and a small laser facility. An Alaska Projects Office at Fairbanks conducts research and provides logistic support for other research. The Laboratory's military and civilian personnel have expertise covering a wide range of scientific and engineering disciplines related to cold regions research.

Abstract: This information center is to select, acquire, and maintain an intensive and extensive research collection of all scientific and technical disciplines for which the U.S. Army Missile Command (MICOM) and Marshall Space Flight Center (MSFC) (NASA) have missions. The Center's collection includes 195,000 books, 82,000 journals, 1,500,000 documents, and 1,100,000 special collections. The Center provides literature research, translation, bibliographic, reference, circulation, and readers advisory services for MICOM, MSFC (NASA), and other local Department of Defense organizations, their local contractors, and related establishments. In addition, the Center maintains liaison with universities, research institutes, information centers, government agencies, and associated contractors engaged in research and development and participates in information interchange programs through which bibliographic resources of the entire nation as well as of other countries are made available. The information content of the Center includes aerospace and missile technology, related scientific and technical disciplines, and professional management. Publications of the Center include Periodicals Catalog, Book Catalog and Monthly Supplements, and Accessions List.

Abstract: The Technical Information Center supports the U.S. Army Corps of Engineers and the Waterways Experiment Station missions by serving as a central source of specific and technical information. The Information Center's library collection is among the nation's most extensive in the engineering and scientific fields covered. These subject fields include hydraulics, soil mechanics, concrete, engineering geology, rock mechanics, pavement, expedient construction, nuclear and conventional weapons effects, protective structures, vehicle mobility, environmental relationships, aquatic weeds, water quality, dredged material research, and nuclear and chemical explosives excavation. The Center's library also serves the four Department of Defense technical information analysis centers located in the Waterways Experiment Station: the Soil Mechanics, Concrete Technology, Hydraulic Engineering, and Pavements and Soil Trafficability Information Analysis Centers. The Center also operates the Engineering Computer Programs Library for the Corps of Engineers.

Availability: Agency

Abstract: This organization's function is to collect, organize, and distribute information relative to logistics studies, logistics models development and operation, and related documentation. Its purpose is to assure that redundancy in research projects does not occur and to disseminate the information collected throughout the logistics community to assist DOD organizations responsible for logistics research, their contractors/grantees, and other government agencies that can benefit from completed study/model efforts. Documentation is generated internally by DOD activities performing research (study/model projects) and externally by DOD contractors/grantees performing study projects or model development for the DOD. The current sponsor/performer listing for in-house efforts contains approximately 700 sources; performing contractors (external) comprise approximately 1000 activities; and there are about 250 publishers, both external and internal. These figures are cumulative. The following figures are for the studies data base contained in this system: 1) facilities--3,987 (includes acquisition, construction, design and development, disposition, evaluation, maintenance, operation, planning, and requirements); 2) management--4,127 (includes analysis, concepts, control, evaluation, planning and techniques); 3) material--23,579 (includes acquisition, design and development, disposition, distribution evacuation, evaluation, inspection, maintenance, management, movement, production, requirements, and storage); 4) operations--8,843 (includes administration, analysis, concepts, control, evaluation, planning, readiness, requirements, simulation, and support); 5) organization--1,233 (includes analysis, concepts, planning, and requirements); 6) personnel--4,637 (includes administration, evacuation, hospitalization, management, mobilization, movement, requirements, and training); 7) resources--5,569 (includes acquisition, administration, allocation, development, distribution, evaluation, management, mobilization, readiness, and requirements); and 8) services--1,001 (includes acquisition, evaluation, and furnishing). The models data base consists of the following: (1) accounts-177; (2) facilities-852; (3) material-2,828; (4) messages-50; (5) military operations-1,129; (6) personnel-722; and (7) theoretical models-198. Services provided DLSIE include development and publication of the DOD Bibliography of Logistics Studies and the DOD Catalog of Logistics Models.

Abstract: This organization maintains a select group of records, manuscripts, and documents relating to naval operations, policy, and strategy; the history of specific commands; and officer biography, primarily since 1939. These sources, or information derived from them, are made available to naval officials, other governmental users, analysts, study groups, scholars, and members of the public. The Branch also publishes historical volumes dealing with recent naval history and guides to naval historical sources held by the Naval Historical Center and other organizations.

Abstract: This technical library supports the information requirements of the Naval Surface Weapons Center for research, development, test and evaluation, training and information. The Naval Surface Weapons Center is the principal Navy research, development, test and evaluation center for surface warfare, weapon systems, ordnance technology and strategic systems. In addition to general library functions, the technical library also maintains special data banks for major projects. The library acts as an information referral center by maintaining contacts with various government, industry, and university information and documentation centers. The subjects covered by the materials maintained in the library include materials, electronics, engineering, acoustics, plastics, aerodynamics, explosive, underwater detection, communication, and weapons. All technical reports received and retained by the library are indexed for computer and manual literature searches. Computer-produced catalogs (both film and hard copy) are available. The library has an on-line terminal for searching the Defense Documentation Center collection. Other data bases which are used as required include NASA, Lockheed, SDC. The library publishes a book accession list, report accession list, periodical holding list, and reports catalog.

Abstract: This information and analysis center collects, stores, evaluates, processes, and disseminates information pertaining to mechanical shock and vibration technology. The scope of the information includes the shock or vibration effects on structures, equipment, or humans that may be generated by acoustic, mechanical, or other physical phenomena. Specific areas of shock and vibration include instrumentation and measurement techniques, test techniques, prediction of dynamic environments, design of equipment and structures, dynamics of materials,

isolation and damping, dynamic analysis, structural analysis, reliability, mechanical impedance, and human response. Products and services of the center include the Shock and Vibration Symposium, the Shock and Vibration Bulletin, state-of-the-art monographs, the Shock and Vibration Digest, special technology surveys, direct responses to inquiries, and consultative services.

Abstract: The Navy Underwater Systems Center's (NUSC's) primary responsibility is as the Navy's principal research, development, test, and evaluation center for submarine warfare and submarine weapon systems. These activities include responsibilities for programs in surface ship and submarine sonars, ASW weapons, combat control, and launchers and in undersea ranges and life-cycle support, ranging through technology and concept development, systems acquisition, fleet introduction support, and in-service engineering support. NUSC is now charged with responsibility for most aspects of the submarine combat system and top level systems engineering analysis toward optimizing the total architecture of the combat system. NUSC Newport was formed in 1970 by the merger of the Naval Underwater Weapons Research and Engineering Station, Newport, Rhode Island, and the Naval Underwater Sound Laboratory, New London, Connecticut. NUSC Newport has its historical origins in the Naval Torpedo Station 1869. The strength of information at NUSC Newport continues also to focus on research and development in the areas of torpedo propulsion, range instrumentation, fire control systems, launchers, explosive echo ranging, and oceanography. The Mission of the NUSC Technical Library is to meet the special informational needs of this top level R&D Center. Access is restricted to: (1) internal Center use, (2) other Navy laboratories and activities, and (3) other Department of Defense activities.

Availability: Agency

Abstract: The Naval Underwater Systems Center (NUSC) was formed in 1970 by the merger of two independent laboratories of the Naval Materiel Command: the Naval Underwater Weapons Research and Engineering Station (NUWS), Newport, Rhode Island, and the Navy Underwater Sound Laboratory (NUSL), New London, Connecticut. These two complexes are now the principal laboratories of NUSC. In July 1971, the Atlantic Undersea Test and Evaluation Center (AUTEC) in the Bahamas was made a detachment of NUSC. The New London Laboratory is the descendant of two World War II laboratories operated by the National Defense Research Committee: the Columbia University Division of War Research and the Harvard Underwater Sound Laboratory. The Columbia Laboratory at New London worked chiefly on the development of passive sonar devices while at Cambridge, the Harvard Laboratory was transferred to New London and merged with the work of the Columbia Laboratory creating NUSL. A basic and applied research program supporting systems development is a major thrust at the Center, and activities at NUSC cover all phases of the Center's primary mission responsibilities at the Navy's principal research, development, test, and evaluation center for submarine warfare and submarine weapon systems. These activities include responsibilities for programs in surface ship and submarine sonars, ASW weapons, combat control, launchers, and in undersea ranges including the management of the AUTEC range complex.

Abstract: The purpose of the Tactical Technology Center is to compile in one centralized location the studies, technical analyses, and doctrinal and tactical theses applying to tactical warfare. The documents are obtained from the Department of Defense, industry, and university sources. The information content spans the full spectrum of tactical warfare technologies, including weapons, tracked vehicles, radars, guns, small arms, night vision devices, and so forth. In addition it includes many trade-off analyses relative to tactical and doctrinal implications of new weapons systems. The data base is primarily designed to support the Defense Advanced Research Projects Agency but is available to all parties within the Department of Defense upon request.

Abstract: The Defense Technical Information Center (DTIC) is the central element in the Department of Defense's scientific and technical information program for acquiring, storing, retrieving, and disseminating scientific and technical information to support the management and conduct of DOD research, development, and engineering programs. Virtually all fields of science and technology are contained in the DTIC collections. The Army, Navy, Air Force, Defense agencies, and Defense contractors are required to deposit research information (classified and unclassified, including secret and restricted data) into data bases which are maintained at DTIC for subsequent retrieval by DOD and its contractors and by other U.S. government organizations and their contractors, subcontractors, and grantees with current government contracts. Research and development (R&D) organizations without current contracts may become eligible for DTIC services by a military service authorization under DOD potential contractors programs. DTIC serves the general public indirectly by making making unclassified/unlimited documents available through the National Technical Information Service. Principal data bases maintained by DTIC follow: (1) the Research

and Technology Work Unit Information System which contains summaries of ongoing DOD research which answer the how, when, where, by whom, and at what costs efforts are being conducted; (2) the Technical Reports (TR) data base which consists of bibliographic records of technical reports which have resulted from or have relevance to research efforts; and (3) the Independent Research and Development data base which contains summaries of R&D efforts which have been independently undertaken by contractors and which have future applicability to DOD contracts. In addition, DTIC operates and administers the Manpower and Training Research Information System (MATRIS). MATRIS contains information related to DOD research in the field of military personnel and produces specialized products for the benefit of DOD managers and scientists.

Abstract: This information center is responsible for collecting, storing, evaluating, processing, and disseminating technical information pertaining to the reliability characteristics of components and systems. The scope includes reliability and failure mode/mechanism information that is generated during all phases of component fabrication, testing, equipment assembly, and operation. Information and data on research and development studies, process control, quality analysis practices, screening and burn-in, qualification and environmental testing, failure analysis, reliability prediction methods, reliability demonstration, and field testing and mission deployment are incorporated in the hard copy library and computer data base. Components covered include microcircuits, including monolithic bipolar and metal oxide semiconductor integrated circuits, hybrid circuits, thin and thick film circuits, and large scale arrays;

discrete semiconductors, including transistors, diodes, optoelectronic devices, and microwave devices, nonelectronic devices; and standardized electronic modules. The center provides specialized services and assistance on a wide range of reliability problems, such as reliability assessment and prediction, survey, data analysis, device selection, failure problem investigation, reliability test plans and procedures, and systems reliability/maintainability support to systems reliability/maintainability control programs.

Abstract: This information analysis center is responsible for collecting, storing, reviewing, evaluating, synthesizing, repackaging, and disseminating technical information pertaining to thermophysical and electronic properties of various materials. The thermophysical properties of materials covered include thermal conductivity, thermal contact resistance, viscosity, emissivity, absorptivity, reflectivity, transmissivity, specific heat, thermal diffusivity, and coefficients of thermal expansion. The electronic properties of the materials covered include the absorption coefficient, dielectric constant and strength, effective mass, electrical resistivity, energy bands, energy gap, energy level, magnetic susceptibility, refractive index, and work function. Property groups covered include electron emission properties, luminescence properties, magnetoelectric properties, photo-electric properties, piezoelectric properties, thermoelectric properties, and magnetomechanical properties. Materials covered include elements, inorganic and organic compounds, ferrous and nonferrous alloys, intermetallics, glasses, ceramics, cermets, applied coatings, polymers, composites, and systems.

Metal Matrix Composites Information Analysis Center, Kaman-Tempo (MMCIAC).

1980

OMB Funding Code/Title: 97-0400-0-1-051 / Research, development, test, and evaluation, Defense agencies

Program: Defensewide Mission Support

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Act of 1981 (P.L. 96-342).

Availability: Agency; NTIS; GPO

Geographic Relevance: International/Foreign; National

Abstract: This information center is responsible for collecting, storing, evaluating, processing, and disseminating technical information pertaining to metal matrix composite (MMC) materials technology, including: continuous fibers, wires, discontinuous whiskers with L/D 10, and directionally solidified eutectics; fibers--boron, graphite, silicon carbide, boron, nitride, alumina, boron carbide, and titanium diboride; wires--stainless steel, tungsten, molybdenum, beryllium titanium, and niobium alloys and compounds; whiskers--alumina, silicon carbide, and silicon nitride; MMC systems--alumina/magnesium, beryllium/titanium, boron/stainless steel/aluminum, boron/titanium/aluminum, boron/aluminum, boron/titanium, copper/graphite, graphite/aluminum, graphite/lead, and tungsten/nickel; and MMC properties--physical properties (thermal, chemical, optical, electro-magnetic), specific modulus, strength, fatigue, environmental response, and creep and wear resistance. Technical areas covered include manufacturing, fabrication process development, defense systems applications, performance computations, cost, test and evaluation techniques and methods, properties data, operational, serviceability/repair, environmental protection, and other MMC-related areas.

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028; 10 U.S.C. 2352-2358).

Availability: Agency; GPO; NTIS

Geographic Relevance: International/Foreign; National

Abstract: The Data and Analysis Center for Software (DACS) serves

as a centralized source for current, readily usable data and information concerning software technology and software engineering. Subject coverage includes: (1) modern programming practices; (2) acquisition management; (3) programming techniques and methods; (4) software development cycle, including requirements definition design, coding and testing; (5) software failures; (6) testing methodologies; (7) quality measurements; (8) reliability and cost modeling; (9) life-cycle costs; (10) standards and guides for software development; (11) maintenance techniques and tools; and (12) technology research and development. DACS maintains a computer data base of data collected on many software development and maintenance programs. This data base contains data relevant to software reliability; software errors, faults and failures; software cost and productivity; and methodologies and tools for software development maintenance. Subsets of the data are available for research purposes, and can be obtained on hardcopy and magnetic tape.

U.S. Board on Geographic Names (BGN).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Intelligence and Communication, Defense Mapping Agency

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of July 25, 1947 (P.L. 80-242; 61 Stat. 456; 43 U.S.C. 364 et seq.).

Availability: Agency

Abstract: This system provides staff support to BGN foreign-names programs in response to provisions of Public Law 80-242 (which created BGN) and provides information about foreign geographic nomenclature to DOD, other federal, and non-federal users. Primary sources of information comprise maps, gazetteers, atlases, census documents, and other publications issued by foreign agencies. As processed by DMA staff under BGN guidelines, these sources become the basic files of nomenclatural information. An important part of processing is conversion to roman alphabet of names from non-roman-alphabet sources. Data are concerned with nomenclature of geographic features in foreign areas (including undersea features, features in Antarctica, and features on planetary surfaces). Items include name of feature, class or type of feature, location (latitude and longitude), and administrative area in

when located. Listed are approximately 3 million names, including a BGN-approved name for features as well as variant spellings as required. While some information is old, most names in files are kept relatively current. Information about names is disseminated through telephone and correspondence inquiry service, hard copy gazetteers, and periodic bulletins containing the latest BGN decisions on names. Some of the gazetteers are old and may have obsolete names. The gazetteers cover about 165 countries and areas.

OMB Funding Code/Title: 97-0400 0-1-051 / Research, development, test, and evaluation, Defense agencies

Program: Technology Base

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106)

Geographic Relevance: National

Abstract: This information and analysis center serves as the focal point for information about nuclear weapon effects on tactical and strategic military systems and about nuclear weapon phenomenology. The scope encompasses virtually all Department of Defense nuclear weapons effects research and test programs. The center's reference collection and special data files are considered the largest readily accessible source of nuclear effects information in the United States. Specific topics include documentation on nuclear weapon output; nuclear phenomenology; nuclear effects on humans, plants, and animals; and systems effects. The information is used for response to subject matter queries, test data compilations, comparisons and summaries, information assessments, state-of-the-art surveys, data reduction, and nuclear computer codes dissemination.

Availability: Internal Use Only

Geographic Relevance: National

Abstract: The program listing is a brief, handy reference for Department of Health and Human Services (HHS) managers. It provides concise, descriptive information on the nature of programs and who administers them. Each HHS agency and the Office of the Secretary provided and reviewed entries. The listing contains the following information for each HHS program: Office of Management and Budget Catalog number (if any), program title, administering entity, and short description. Tallies for total number of programs and for programs by category (assistance, intramural, regulatory, and international) are included. The listing also contains program indices by organization, functional area, and popular name.

Abstract: The manuals provide Department of Health and Human Services employees with information and instructions on administrative and financial matters that they need in their official work. Primary sources include laws, executive orders, regulations issued by central agencies such as the General Services Administration, the Office of Management and Budget, and the Civil Service Commission, Secretarial orders, management studies, and other documents having an effect on the Department's work. Providers of information are the several staff offices in the Office of the Secretary. Information covers all phases of administrative and financial management. It is issued in these 22 volumes--accounting, voucher examination, correspondence, forms management, issuance management, ADP Systems, emergency, organization, personnel, telecommunications, safety management, printing, procurement, material management, public affairs, records management, security, time and leave accounts, travel, facilities engineering and construction, general administration, and grants administration. These materials are updated as needed.

Abstract: The Department Library provides mission-related research, law, archival, and bibliographic services for the Office of the Secretary, including the immediate Office of the Secretary, the principal operating components, and all Department employees as required by their current research and administrative programs. Research, law, and bibliographic services are provided to those Presidential Commissions, task forces, and similar groups with which departmental officials are closely affiliated as chairmen or members. In addition, it provides services to the regional offices on request. The Department Library also cooperates with and gives services to other libraries, educational institutions, and research agencies or organizations both within and outside the federal government. The Library collects and processes information related to all aspects of the activities of the Department. Materials are received from sources within the Department, other government agencies (federal, state, county, city, etc.). In addition, a wide variety of materials is secured from nongovernmental sources. The Library is also a designated Depository Library of the Government Printing Office. As a member of the Ohio College Library Center network, the Library actively participates in the programs of the Center which is sponsored by the Federal Library Committee/Library of Congress. The JURIS system is available for the retrieval of legal data. This library, estimated to have over 720,000 items and to receive approximately 5,000 current periodicals and serials, has one of the country's outstanding collections in social sciences, public welfare, and the health sciences. It has a comprehensive collection of the Department's publications and an active vertical file of miscellaneous materials.

Geographic Relevance: National

Abstract: The purpose of this Digest is to disseminate information regarding the policy research activities of the Office of the Assistant Secretary for Planning and Evaluation. Input was all prepared internally. The digest is categorized into four subject areas: income maintenance and employment, health, other human services, and basic research and statistical data. Within the first three categories, the projects are grouped by major program activities while the final category lists informally projects of an interdisciplinary nature. Each project is identified by title, performer, method of finding, start and end date, and funding. Performers' opinions and conclusions are reported.

Authority: (Reorganization Plan 1 of 1939). Social Security Act (P.L. 74-271). Economic Opportunity Act of 1964 (P.L. 93-644).

Availability: Agency; NTIS

Geographic Relevance: National

Abstract: This Compendium is the first edition of a new publication reflecting a major expansion of the Department of Health and Human Services (HHS) Documentation Center's service capabilities. For the first time, all key information on each HHS evaluation study has been entered in a single, one page description sheet. These sheets have in turn been placed on a computer system which generates this publication directly. Input was all prepared internally. This edition covers about 650 evaluation projects, about half of those initiated in HHS during the 1970-1976 period. The compendium is divided into five main sections. The first, project descriptions of HHS evaluation studies presents detailed information on each study. The studies are organized by sponsoring agency and within each agency by an identifying number. The other sections consist of an agency sponsor index, a program index, a subject index, and an agency cost table.

Authority: Public Health Service Act (P.L. 78-410).

Geographic Relevance: International/Foreign; National

Abstract: The center serves the staff of the National Institute of Mental Health (NIMH) in its requirement for informational materials relating to the behavioral sciences. The library is open to the public for study and provides interlibrary loan service to other libraries. The collection is derived from journal subscriptions, books, reports, documents, NIMH publications, and conference proceedings. The information content covers the mental health literature in such areas as psychiatry, psychology, related social and medical sciences, and psychopharmacology. The collection includes 6,000 books, 400 documents, 2,500 microfilm and 600 journal titles.

Mental Health Study Center Library.

OMB Funding Code/Title: 75-1361-0-1-550 / Alcohol, drug abuse, and mental health

Program: Mental Health

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410).

Availability: Agency; Internal Use Only

Geographic Relevance: National

Abstract: Since the National Institute of Mental Health (NIMH) Library is located in the Parklawn Building in some distance from the Mental Health Study Center (MHSC), and with a staff of 30-40 professionals on duty in the MHSC, there is a need for minimal library resources immediately at hand to supply these MHSC staff with a few basic books and journals used daily in conducting mental health community research projects, thus removing the necessity to run to the NIMH Library in Rockville daily to consult the most elemental books and journals. Since the collection is minimal, as is staff, the materials are available only to the 30-40 staff of the MHSC. Input is limited to a few subscriptions to the most popular and frequently used mental health journals, plus the yearly purchase of basic books mined by staff as absolutely needed in their specific research projects, if funds permit. Most purchases of materials are made once a year with supplemental "end of year" funds. Content is limited to basic books and journals in the open literature from major publishers dealing with psychiatric medicine, psychology, sociology, community mental health, social change, social problems, urban problems, and human growth. These materials represent only a portion of those which would come under the interests of the larger NIMH Library in Rockville.

National Clearinghouse for Alcohol Information (NCALI). (HMC020).

OMB Funding Code/Title: 75-1361-0-1-550 / Alcohol, drug abuse, and mental health

Program: Alcoholism Management and Information

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Comprehensive Alcohol Abuse and Alcoholism Prevention and Treatment Act (P.L. 91-616).

Availability: Agency; Internal Use Only

Abstract: The National Clearinghouse for Alcohol Information Processing System is an information system designed to collect information related to alcohol and alcohol abuse and to disseminate that information. The primary data file contains indexes and abstracts of documents pertaining to alcohol and alcohol abuse. Information input to this file is obtained by searching and acquiring appropriate information from books, journals, newsletters, conference proceedings, secondary sources, and other data bases. Secondary data files consist of the subscription file of people registered to receive publications and services from NCALI, the inventory file of all items stored in the NCALI inventory, and the correspondence file of requests for information. The NCALI document file contains over 32,000 indexes and abstracts of documents relating to alcohol and alcohol abuse for the time period of 1974 to present. The file is updated every one to two months. Most references are to English language documents, with a small percentage of foreign language documents. Geographic coding is not performed except to indicate publishing place and date for books, conference locations, and author's address when appropriate. The subscription file contains names and addresses and, when available, organization and occupation codes for the people currently registered to receive periodical publications and services of the Clearinghouse. The inventory file lists all standard materials stored in the Clearinghouse warehouse inventory along with demand information

contains information on requests for information and type of information supplied in response.

Inventory of Mental Health Facilities.

OMB Funding Code/Title: 75-1361-0-1-551 / Alcohol, drug abuse, and mental health

Program: General Mental Health: Management and Information (Subfunction 551 Programs)

CFDA NO.: 13.238

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410).

Availability: Agency; GPO

Geographic Relevance: National; State; County; City; (SMSA) Standard Metropolitan Statistical Area; Health Service Areas

Abstract: This inventory is designed to provide current data on the nature and scope of existing mental health treatment programs, the number and distribution of mental health personnel, and the number of persons utilizing the available resources. Facilities covered by the inventory include psychiatric hospitals, including state and county, Veterans Administration, and private hospitals, residential treatment centers for children; outpatient mental health facilities; mental health day/night facilities; and other multiservice mental health facilities, excluding federally-funded community mental health centers. The following data are provided for the facilities: treatment modalities provided, geographic restrictions, size of caseload, staff by type of discipline and by hours worked, expenditures, type of facility, and type of ownership.

Sample Survey Program.

OMB Funding Code/Title: 75-1361-0-1-551 / Alcohol, drug abuse, and mental health

Program: Mental Health: Management and Information

CFDA NO.: 13.237

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410).

Availability: Agency

Geographic Relevance: National

Abstract: This program gathers information on various demographic and other characteristics of clients served in various mental health facilities. The program presents data on the characteristics of patients at the following types of mental health care facilities: state and county mental hospitals, private psychiatric hospitals, separate psychiatric inpatient units in general hospitals, psychiatric outpatient service settings, psychiatric day treatment settings, and residential treatment centers for emotionally disturbed children.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (301) 443-3343.

100503-010

Annual Census of State and County Mental Hospital Inpatient Services--1978.

118 pp.

OMB Funding Code/Title: 75-1361-0-1-551 / Alcohol, drug abuse, and mental health

Program: Mental Health: Management and Information

CFDA NO.: 13.238

mercer; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410).

Availability: Agency

Geographic Relevance: National; State; County

Abstract: This census is used to obtain certain baseline data and trend data on the number and characteristics of patients in state and county mental hospitals. Data are collected and published on admissions to state and county mental hospitals and on resident patient age, sex, and diagnosis.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (301) 443-3343.

100503-011

The Prevalence of Hearing Impairment in the State and County Mental Hospital Resident Population.

OMB Funding Code/Title: 75-1361-0-1-551 / Alcohol, drug abuse, and mental health

Program: Mental Health: Management and Information

CFDA NO.: 13.243

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410).

Availability: Agency

Geographic Relevance: National; State

Abstract: This one-time survey is to collect information on the hearing status of patients in state and county mental hospitals. Information collected on the demographic characteristics, the diagnosis and treatment history, and the hearing status of residents in state and county mental hospitals will be used to establish an estimate of the prevalence of hearing impairment among these patients, to compare hearing and hearing impaired patients, and to evaluate the special problems of the hearing impaired mentally ill. Data will also be collected on all existing special programs for the hearing impaired mentally ill.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (301) 443-3683.

Centers for Disease Control

100504-001

Clearinghouse for Occupational Safety and Health Information, Division of Technical Services, National Institute for Occupational Safety and Health (NIOSH).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Safety and Health

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596).

Geographic Relevance: International/Foreign; National

Abstract: The Clearinghouse for Occupational Safety and Health Information provides the technical information support for National Institute for Occupational Safety and Health (NIOSH) research programs. It also provides technical information upon request to other government agencies, researchers in occupational safety and health, and the public. Large NIOSH publications are also disseminated upon request to occupational safety and health professionals and the general public. Information resources of the Clearinghouse for Occupational Safety and Health Information include a technical library specializing in occupational health and safety research, NIOSHTIC--a computer based bibliographic retrieval system for occupational health and safety research, a file of ongoing research relevant to occupational health and safety, and

a file of completed NIOSH contract research. Major categories of information include occupational medicine, industrial hygiene, toxicology, safety, engineering controls, chemical sampling and analytical methodologies, and field epidemiology. The Clearinghouse for Occupational Safety and Health Information collects, organizes, and retrieves published and unpublished technical information related to the field of occupational safety and health. This includes adverse effects of chemical substances, physical agents, psychological stress, samplings and analysis techniques, engineering controls, personal protective equipment, and recommended standards.

Center for Disease Control Library (CDC Library).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Disease Control (All Programs)

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Public Health Service Act (P.L. 78-410). Occupational Safety and Health Act of 1970 (P.L. 91-596). Lead-Based Paint Poisoning Prevention Act (P.L. 91-695).

Geographic Relevance: National

Abstract: The purpose of the library is to provide the scientific literature resources and information needed to support the work of the Center for Disease Control. The library's holdings consist of about 61,000 bound journals and books. About 750 journal titles are received by the library. The library collection is strong in the fields of communicable diseases, public health, preventive medicine, entomology, virology, immunology, microbiology, bacteriology, and veterinary medicine.

Food and Drug Administration

100505-001

Food and Drug Administration Clinical Experience Abstract (FDA-CEA). (US ISSN 0429-9442).

28 pp.

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Federal Food, Drug, and Cosmetic Act (P.L. 75-717). Public Health Service Act (P.L. 78-410). Fair Packaging and Labeling Act (P.L. 89-755).

Availability: Agency

Geographic Relevance: International/Foreign; National

Abstract: In support of the Drug Experience and Trends Analysis Program, information is collected from the medical literature, reports of adverse reactions, poisoning, and toxicity to drugs and other FDA-regulated commodities are abstracted and indexed; and information is disseminated within the agency, to other government agencies, and to other individuals and organizations concerned with or responsible for the safe use of these entities. Hospitals and drug information centers are heavily represented. Reports are obtained from a continuing surveillance of 185 English-language clinical journals, supplemented with a recurring bibliography on the subject supplied by the National Library of Medicine through its on-line system. The publication is a distillation of significant human data on adverse effects, hazards, and efficacy of drugs, devices and nutrients, and on the adverse effects of cosmetics, household chemicals, and food additives. Suspected as well as confirmed cases are included. Animal studies on teratogenicity, carcinogenicity, and mutagenicity are also within scope. Original case reports, clinical trials, authoritative reviews, correspondence, meeting reports and original

summaries since 1962 under various titles.

Authority: Public Health Service Act (P.L. 78-410). Fair Packaging and Labeling Act (P.L. 89-755).

Availability: Agency

Geographic Relevance: International/Foreign; National

Abstract: The Food and Drug Administration is responsible for eliminating unnecessary exposure to electronic product radiation through research, surveillance, and performance standards. The Library provides reference and document retrieval services for Bureau of Radiological Health components and other agencies. It supplies selective dissemination of technical information to Bureau staff. The Library holdings consist of: 7000 books, 493 periodical subscriptions, and 2000 technical reports. Subject areas include radiological health, radiation hazards, nuclear medicine, radiation emission, lasers, and microwaves.

Agency Contact: Food and Drug Administration. (301) 443-1038.

100505-004

Food and Drug Administration Medical Library.

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Federal Food, Drug, and Cosmetic Act (P.L. 75-717). Public Health Service Act (P.L. 78-410). Fair Packaging and Labeling Act (P.L. 89-755).

Geographic Relevance: National

Abstract: The Library's purpose is to collect extensively, organize, and make available to Bureau of Drugs and other Food and Drug Adminis-

support of the agency's program on drugs and devices and, to a lesser extent, on other regulated commodities. Collections and services include: books, monographs and reports; journals, abstract/index services, miscellaneous pamphlets and reprints, drug literature card services, microfilm, audio tape services; special collections such as FDA archives and U.S. and foreign drug compendia; and translations. Automated literature data bases of major commercial vendors and federal agencies—approximately 65 are used. Subject emphasis is on: pharmacology, toxicology, drug therapy and adverse reactions, veterinary medicine, chemistry, pharmacy, food and drug law, biostatistics and consumer affairs. There are approximately 35,000 books and monographs and 2,000 journal titles, 50 per cent of which are covered by 20-year holdings. Services include: reference and in-depth literature searching, nutrimated as well as manual, circulation and inter-library loan, SDI (selective dissemination of information), special recurring bibliographies and limited editorial and translation services.

100505-005

Medical Device and Laboratory Product Problem Reporting Program (PRP).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Federal Food, Drug, and Cosmetic Act (P.L. 75-717).

Availability: Agency

Geographic Relevance: National; State

Abstract: The Medical Device and Laboratory Product Problem Reporting Program (PRP) is a voluntary practitioner reporting system which utilizes 15 health care professional association members to report problems associated with medical devices and in vitro diagnostic products. All reports are received by the Food and Drug Administration (FDA) via the United States Pharmacopoeia (USP). The data reported through the system are used to detect hazards, identify industry-wide problems, and as a source of device experience for various bureau programs as mandated by the 1976 Medical Device Amendments to the Federal Food, Drug, and Cosmetic Act. Initial input is received from various health care professional association members that co-sponsor the program. All reports are received on Office of Management and Budget form 2519F and acknowledged by USP. The USP supplies FDA with copies of each report. The reports are entered into an automated data base by Division of Product Surveillance Personnel. Internal data relative to follow up is entered into the data base as it becomes available. The system maintains an on-line and off-line computer file which contains all problem reports received through the system. The data base is cumulative from 1973. Updating of the on-line file is accomplished as the reports are received, while the off-line file is updated monthly. The principal data elements are the Bureau of Medical Devices (BMD) Classification Names for In Vitro Diagnostic Products, BMD's Classification Names for Medical Devices, Product Name, Manufacturer, and report text. Currently there are approximately 8000 reports in the data base.

100505-006

Medical Device Establishment Registration and Product Listing System.

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Federal Food, Drug, and Cosmetic Act (P.L. 75-717).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; FDA District

Abstract: The system maintains on file a list of registered medical device establishments and their products with the Food and Drug Administration (FDA) pursuant to the Medical Device Amendments of 1976.

This system provides information to organizational units within the agency to assist in regulatory activities. It contains all medical device establishments required to register and a list of medical devices and their components in commercial distribution which are not exempt. Input data are collected from medical device establishments on official FDA forms: Initial Registration of Medical Device Establishment, Establishment Annual Registration, Medical Device Listing. Registration data contain the FDA registration number, name and address of the establishment, type of establishment, owner/operator identification, name and address of the owner/operator, estimated number of devices, and name and address and telephone number of the designated official correspondent. The registration data are updated annually or when the changes occur. Product data contain document numbers, reasons for submission, activity and report dates, owner/operator's name and identification number, classification name and number of the device as classified by the Classification Panels, proprietary name, common or usual name, whether it is subject to performance standard, premarket approval, general distribution, and the registration number, name and establishment type. Product data are updated semiannually. Regular printouts are generated from the data file for regulatory activities and information dissemination to device establishments. The system is used for Freedom of Information requests and is also available through NTIS.

National Clearinghouse for Family Planning Information.

June 1976

OMB Funding Code/Title: 75-0350-0-1-551 / Health resources and services

Program: Community Health Services

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410). Special Health Revenue Sharing Act of 1975 (P.L. 94-63). Family Planning Services and Population Research Act of 1970 (P.L. 91-572).

Availability: Agency

Geographic Relevance: National

Abstract: The clearinghouse provides information to family planning workers, educators, and consumers throughout the United States. The clearinghouse collects and processes relevant materials relating to family planning, then utilizes this collection to provide services in response to the information needs of its audience. The clearinghouse collection consists of information from articles and serial publications useful to the professional rendering family planning services or to the family planning consumer; from producers of family planning educational materials such as private family planning organizations, private health, community action, research and educational organizations, state health departments, universities, pharmaceutical companies, book publishers, and film and audiovisual producers and distributors; and from Bureau of Community Health Services (UCHS)-funded family planning clinics. The clearinghouse collection consists of approximately 2000 to 2500 informational and educational materials and journal articles specific to family planning. The clearinghouse responds to public inquiries for subject searches or bibliographies on specific topics and for information on the availability of specific materials. An annotated catalog of approximately 1000 print and audiovisual materials is available. A directory is published of the 200 UCHS-funded grantees and 3600 clinics providing family planning services. The clearinghouse distributes educational materials including a health education bulletin and an information services bulletin to family planning service providers.

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410).

Availability: Agency

Abstract: The library supports National Institutes of Health (NIH) biomedical research programs by maintaining a special collection and by providing reference services to the Division of Computer Research and Technology (DCRT) and NIH staff regarding computer science and related subject areas. The collection contains monographs, documents, journals, and microforms obtained from trade, university, society, and research sources. Information content includes literature in the subject areas of computer science, mathematics, and computer applications in biomedical sciences, engineering, statistics, information science, and management. Information is used to support DCRT biomedical research and project activities in computer services at NIH. Materials are available for circulation to all NIH staff. Information is also available to other libraries through Interlibrary loans and to the public for use on site.

Geographic Relevance: International/Foreign; National

Abstract: The National Library of Medicine aids the dissemination and exchange of scientific information important to the progress of medicine and health. The Library acquires and preserves books, periodicals, prints, and audiovisuals; catalogs and indexes the materials; publishes catalogs, indexes, and bibliographies; lends material in its collection; provides reference and research assistance; provides grant assistance to medical libraries; and engages in research and development activities related to biomedical communications. The collection consists of worldwide published scientific and scholarly information relating to the health sciences. The Library collects materials exhaustively in some 40 biomedical areas and, to a lesser degree, in such related subjects as general

chemistry, physics, botany, zoology, psychology, and instrumentation. The holdings include about two million journals, technical reports, documents, theses, books, pamphlets, microfilms, and pictorial and audiovisual materials. A separate collection on the history of medicine includes works produced before 1871. Major publications of the Library include: Index Medicus, Current Catalog, Medical Subject Headings, and Bibliography of the History of Medicine. A computerized system, MEDLARS, prepares these publications for printing, and also allows on-line searching (MEDLINE) of the Library's bibliographic data bases

Geographic Relevance: International/Foreign; National

Abstract: The library staff provides, through its own collection and other sources, factual information, research assistance, and background materials to answer bibliography, reference, and research questions in any subject within the Social Security Administration's (SSA's) field of interest. The library collects and organizes information related to all aspects of the Social Security Program from domestic and international sources. Materials are received from SSA and other governmental agencies (federal, state, and local levels) and non-governmental sources. The SSA headquarters library is estimated to have over 70,000 volumes, monographs and reports, approximately 600 current periodicals, 20,000 law volumes, and 34,500 law volumes on microfiche. Emphasis is placed on the social sciences, public welfare, and health economics. There is strong concentration in all areas of social insurance, rehabilitation, gerontology, retirement, statistics, research methodology, social and medical economics, electronic data processing, management, public administration, law and legislative materials. The library maintains a comprehensive collection of SSA publications and a current vertical file of pertinent materials related to the Social Security areas of interest.

Geographic Relevance: National

Abstract: The library was organized as a branch of the Social Security Library in Baltimore to serve the special needs of the technical staff of the Office of Research and Statistics in Washington, D.C. The library collects and organizes information related to the research needs of the staff from domestic and international sources. Materials are acquired from the Social Security Administration (SSA) and other governmental agencies (federal, state, and local levels) and nongovernmental sources. The collection of approximately 8,000 books, monographs, and reports, and about 300 periodicals consists of social and economic materials relating to specific problems in the areas of income maintenance, social

gerontology, public welfare, and econometrics. The library also maintains a special collection of research grant and contract reports funded by SSA.

Assistant Secretary for Health

100522-001

Parklawn Health Library.

OMB Funding Code/Title: 75-4552-0-4-551 / Service and supply fund

Program: Parklawn Services (Library)

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Labor-Federal Security Appropriation Act of 1946 (P.L. 79-124).

Abstract: The Parklawn Health Library (PHL) provides mission-related library services to personnel of the Public Health Service, other portions of the Department of Health and Human Services (HHS), and to appropriate libraries, educational institutions, research agencies and organizations, and individuals. PHL collects and organizes pertinent record literature to meet research, educational, informational, and other program requirements; provides ready access to bibliographic collections; and assists users in locating required material or information. PHL also furnishes reference services, literature searches, and bibliographic work utilizing the library's own collections and those of other libraries and information centers. Publications are received from HHS, other federal, state and local government agencies, and from commercial and private sources. The library collects and organizes literature related to all aspects of health care administration including health care systems, health manpower, health resources, health services and health statistics. Quantitatively, the collection now numbers approximately 75,000 items: 22,000 books, 28,000 journal holdings, and 25,000 monographs and technical reports (15,000 in microfiche). Primary source materials in PHL history are now in the collection state. The library also operates a branch library at the Center Building, 3700 East West Highway, Hyattsville, Maryland 20782. Publications include the "Parklawn Health Library Bulletin", published twice monthly, "Parklawn Health Library Selected Bibliographies," and "Journal Holdings of the Parklawn Health Library."

Program: Health Research, Statistics, and Technology: Health Services Research

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410, § 301; 58 Stat. 691; 42 U.S.C. 241).

Availability: Agency

Geographic Relevance: National

Abstract: Project SHARE is a national clearinghouse for improving the management of human services. It identifies, announces, and makes available a wide range of documents on planning, management, and delivery of human services at the state and local level. Publications include a quarterly Journal of Human Services abstracts, topical annotated bibliographies, monographs, occasional papers on various topics, and bimonthly newsletters. Additionally, SHARE provides reference and referral services (including customized searches of the data base) free of charge. The current user community includes over 10,000 federal, state, and local planners, managers, and evaluators, as well as universities and private nonprofit sector entities. The Clearinghouse's primary purpose is to assist state and local users in their decisionmaking processes by providing relevant information on planning and management activities across the Nation.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

100800-002

Program Information Center.

July 1966

OMB Funding Code/Title: 86-0143-0-1-451 / Salaries and expenses, including transfer of funds

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901).

Availability: Agency

Abstract: The center serves HUD headquarters and field personnel, all elements of the federal government and state and local government, public interest groups, local public agencies, businesses, industrial, and academic communities, consumer groups, trade and professional associations, foreign institutions, and the general public in providing information and published materials about the Department's programs, organization, function, and activities. The primary sources of input are internal. The Program Information Center is a national information source for housing, community planning and development, urban affairs, and broadly related disciplines. Designated to receive Freedom-of-Information requests as required by the Freedom-of-Information Act, the Center receives visitors and advises them about the Department's programs and organizational structure. When indicated, appointments are made with appropriate program officials in order to obtain more specific details. The facility recommends and provides materials about the Department to groups sponsoring seminars, workshops, and conferences. An employee, or the public, may visit or telephone the Program Information Center for information or 1 to 5 copies of publications on departmental programs and, if necessary, to arrange for further discussion with technical experts.

Programs of HUD. (HUD-214-6-PA).

October 1982; 83 pp.

OMB Funding Code/Title: 86-0143-0-1-451 / Salaries and expenses, including transfer of funds

Program: Housing and Urban Development (All Programs)

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948, as amended (P.L. 89-901; 62 Stat. 1283; 12 U.S.C. 1701c). Housing Act of 1949, as amended (P.L. 81-171; 63 Stat. 413; 42 U.S.C. 1441).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; City; Regional Planning Authorities

Abstract: This document is a compilation of programs for those who wish to use HUD aids or to obtain further information about the Department's activities. It contains a brief description of each program, and of aid available from HUD in the form of grants, guarantees, loans, mortgage loan insurance, homeownership and rental subsidies, and technical assistance. Input is from each of the major program areas of the Department. This document is designed to be an introductory guide to

those interested in using HUD's aids and programs. Contents include material on community planning and development, housing, research and technology, fair housing and equal opportunity, consumer and regulatory functions, insurance programs. Alphabetical, numerical, and subject indexes are provided at the end of the annually updated publication. A contact is given for questions concerning program changes.

Community Development Block Grant Program: Directory of Allocations. (HUD-CPD-109-6 and 109-7).

74 pp.

OMB Funding Code/Title: 86-0162-0-1-451 / Community development grants

Program: Grants and Related Expenses

CFDA NO.: 14.218; 14.219

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies

Agencies Subcommittee

Authority: Housing and Community Development Act of 1974, as amended (P.L. 93-383, as amended by P.L. 96-399).

Availability: Agency

Geographic Relevance: State; City; County; Town; Townships

Abstract: The document provides information on the distribution of funds appropriated in fiscal years 1978-1982 under the Housing and Community Development Act of 1974 by entitled units of government. It reflects, too, how other funds (discretionary balances) are allocated geographically and is used to answer inquiries on such topics as entitlement amounts and relative rates of funding. The grant amounts are determined by Data Systems and Statistics Division of Community Planning and Development based on demographic data obtained from the Census Bureau using a dual formula system. The Directory describes the legal background for the Community Development Block Grant program, and details the formula used to determine objective needs in fund allocation. The report contains an entry for every direct entitled unit of government, showing the entitlement amounts for each, if applicable, over the most recent five years of the program. Also shown are the amounts of discretionary balance (small cities program) funds allocated to the metropolitan and nonmetropolitan portions of each state. The document is updated annually with new entitlement data for the additional year.

Natural Resources Library.

OMB Funding Code/Title: 14-0102-0-1-306 / Office of the Secretary
Program: Library and Information Services

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Department of the Interior Organic Act of 1849 (43 U.S.C. 1451).

Availability: Agency

Abstract: The Natural Resources Library is the lead library in the National Natural Resources Library and Information System, which is composed of over 400 libraries and information centers. The Interior Department agencies participating in the library include the U.S. Geological Survey, the Bureau of Indian Affairs, the Bureau of Land Management, the Bureau of Mines, the U.S. National Park Service, the Heritage Conservation and Recreation Service, the Bureau of Reclamation, and the U.S. Fish and Wildlife Service. The library's collection contains over 1,000,000 bound volumes, including 21,000 serial titles, 250,000 microfiche, and 8,000 reels of microfilm. Special collections include the Departmental Archives, more than 20,000 doctoral dissertations in the general areas of natural resources, a rare book collection, and a U.S. document depository.

100709-002

The Migratory Bird Banding Laboratory.

1921

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management
Program: Wildlife Resources

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Environment and Public Works; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Fish and Wildlife Coordination Act (P.L. 86-614); Fish and

Wildlife Act of 1956 (P.L. 86-686); Endangered American Wilderness Act of 1978 (P.L. 95-237); Migratory Bird Treaty Act (P.L. 65-186).

Availability: Agency

Geographic Relevance: North America

Abstract: The Bird Banding Laboratory maintains banding records and supplies and provides reports on banding and band recovery of nearly 1,000 species of birds. Information covers the North American continent. The Canadian Wildlife Service participates with the Fish and Wildlife Service in this activity and uses the Bird Banding Laboratory facility. The intended audience includes ornithological researchers, bird management specialists, and other interested parties, both internal and external to the Service. The primary providers of data are individuals or entities (governmental or private) who band birds (under permit procedures) and individuals who recover the used bands. The data received at the laboratory are processed by specialist staff, coded onto paper forms, and then keyed onto magnetic tape. The principal subject matter coverage pertains to banding activity and quantity of bands recovered. This in turn relates to the migratory bird populations of the North American continent. The laboratory relies on a number of interrelated computer subsystems that create, maintain, and retrieve information related to banding and recovery. The products of the computer system include reports to the bander and to the individual who reports a recovery and monthly reports to agencies and individuals involved in banding. The form, medium, and frequency of output vary in accordance with the purpose and nature of any given report or other output.

National Survey of Fishing, Hunting, and Wildlife Associated Recreation.
Quinquennial; 150 pp./1 vol.

OMB Funding Code/Title: 14-9923-0-2-303 / Miscellaneous permanent appropriations

Program: Miscellaneous Permanent Appropriations (All Programs)

CFDA NO.: 15.610

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Fish and Wildlife Coordination Act (P.L. 84-1036; 70 Stat. 1119; 16 U.S.C. 742d).

Availability: OPO

Geographic Relevance: State

Abstract: The purpose of this survey, conducted every 5 years, is to collect, analyze, and publish data on the numbers of sportsmen, days of activity, expenditures, attitudes, and economic values of fishing and hunting activities. Data for this study are reported by state and nationwide. The socioeconomic profile of American sportsmen is used by state and federal agencies in the planning of fish and wildlife programs and in guiding policy decisions. When combined with other data bases, the survey produces data on trends and indices for the public demand for hunting and fishing in the United States.

Authority: Fish and Wildlife Coordination Act (P.L. 73-121, § 1; 48 Stat. 401; 16 U.S.C. 661). Fish and Wildlife Act of 1956 (P.L. 84-1024, § 2; 70 Stat. 1119; 16 U.S.C. 742a et seq.). Act of March 15, 1958 (P.L. 85-342, § 1-4; 72 Stat. 35; 16 U.S.C. 778-778c).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Abstract: The National Fisheries Center (NFC) administers and directs fishery research activities of several laboratories in other states. Together, the facilities conduct research and develop information on the diagnosis, treatment, and prevention of diseases in hatchery propagated fish throughout the world. The laboratories maintain extensive information on fish parasites and bacterial infections, and the dietetic and nutritional needs of individual species. The NFC also administers the National Fisheries Academy for fish health and fishery management for federal, state, university and foreign attendees. The Center is located in Lee-town, West Virginia.

CFDA NO.: 15.304

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Bureau of Mines Organic Act, as amended (P.L. 61-179, 36 Stat. 370, 30 U.S.C. 3); Mining and Minerals Policy Act of 1970 (P.L. 91-631, § 2, 84 Stat. 1876; 30 U.S.C. 21a); Wilderness Act of 1964 (P.L. 88-577; 78 Stat. 893; 16 U.S.C. 1133); Federal Land Policy and Management Act of 1976 (P.L. 94-579; 90 Stat. 2762; 43 U.S.C. 1732); Surface Mining Control and Reclamation Act of 1977 (P.L. 95-87; 91 Stat. 447; 30 U.S.C. 1201 et seq.).

Availability: Agency

Geographic Relevance: National

Abstract: Mineral and land assessments are required by the Wilderness Act and by the Federal Land Policy and Management Act and consist of initial surveys or general reconnaissance to determine mineral potential and site specific studies to better define the potential. The BOM and the USGS collaborate on the studies. The Bureau is responsible for engineering aspects and the USGS is responsible for the geologic aspects of mineral assessments. The Bureau evaluates an area for evidence of previous mineral-related activities by documenting past production, conducting courthouse searches of mining claims records, and seeking any relevant information about the area, and through fieldwork investigates the mineral supply potential of recognized, geologically favorable sites. The results of the Bureau's investigations and those of the Geological Survey are incorporated into one published report that is made available to the Congress and the public. The BOM wilderness program consists of a Forest Service subprogram and a Bureau of Land Management subprogram, in which the work is similar but on different schedules. The bulk of the activities are conducted through four field offices.

Abstract: Mineral Commodity Summaries is an annual overview of mineral data. It furnishes the earliest published estimates of resources, reserves, production, imports, exports, use, recycling, substitution, environmental considerations, and related subjects. Published in January, it covers approximately 90 mineral commodities for the previous calendar year. Most of the estimates are based on nine months data. The data sheets contain information on the domestic industry structure, government programs, tariffs, and five year salient statistics for the individual minerals and metals.

Mineral Industry Surveys.

Monthly, Quarterly, Annually

OMB Funding Code/Title: 14-0959-0-1-306 / Mines and minerals

Program: Minerals Information and Analysis: Minerals Information
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Bureau of Mines Organic Act, as amended (P.L. 61-179, § 2, as amended by P.L. 62-386; 36 Stat. 370; 30 U.S.C. 3).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Abstract: The Mineral Industry Survey series includes brief monthly, quarterly, and annual reports that contain timely statistical and economic data on nonfuel mineral commodities. They are designed to keep government agencies, the mineral industries, and the business community regularly informed of trends in production, distribution, inventories, and consumption of nonfuel minerals.

Agency Contact: Bureau of Mines. (202) 634-1188.

Mineral Facts and Problems.

Every 5 years; 1 volume

Oliver Knott

OMB Funding Code/Title: 14-0959-0-1-306 / Mines and minerals

Program: Minerals Information and Analysis: Minerals Information
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Bureau of Mines Organic Act, as amended (P.L. 61-179, § 2, as amended by P.L. 62-386; 36 Stat. 370; 30 U.S.C. 3).

Availability: GPO

Geographic Relevance: International/Foreign; National; State

Abstract: Mineral Facts and Problems is a one-volume reference book containing worldwide production information and demand forecasts for all nonfuel minerals. It is published every 5 years. Each commodity chapter covers and structure of the industry, uses of the commodity, reserves and resources, technology, supply-demand relationships, byproducts and coproducts, strategic considerations, economic and operating factors, and forecasts to 1990 and 2000. Each chapter also compares United States and world reserves with cumulative demand to appraise the adequacy of world mineral supplies.

100712-001

Publications of the Geological Survey.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Geologic and Mineral Resource Surveys and Mapping
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: U.S. Geological Survey Organic Act (P.L. 45-82).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Abstract: The catalog is an order list of publications of the U.S. Geological Survey. It supplements the permanent catalogs, "Publications of the Geological Survey, 1879-1961" and "Publications of the Geological Survey, 1962-1970." Input is from research within the department and from departmental publications. The document gives information on the availability of books and maps by mail and over the counter. Book publications listed consist of professional paper, bulletins, water supply papers, circulars, "Earthquake Information Bulletins," techniques of water resource investigations, reports in the series, "Water-Resources Investigations," those available only through the National Technical Information Service, and open-file reports. Maps and charts are also available; these include geologic quadrangle and geophysical investigations maps, oil, gas, and coal investigations charts, and special geologic and topographic maps. There is a general index (including a listing by states) and an index of authors.

100712-002

Catalog of Information on Water Data.

1974; 21 vols.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Water Resources

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (43 U.S.C. 31(a)(b)). Outer Continental Shelf Lands Act of 1953 (P.L. 83-212). (OMB Circular A-67).

Availability: Agency

Geographic Relevance: National

Abstract: The Office of Water Data Coordination was established to carry out the responsibilities for coordination of federal activities in the acquisition of water data as specified by Office of Management and Budget Circular A-67. These responsibilities include maintenance of a central catalog of information on water data and on federal activities being planned or conducted to acquire water data, continuing and systematic review of water data requirements and activities, designing and operating a national network (system) for acquiring water data, organization of national network data and the catalog of information to facilitate maximum use, and preparation of a federal plan for efficient utilization of water data acquisition activities. This interagency activity involves over 30 federal agencies concerned with the collection or use of water data. In addition, some 460 non-federal agencies participate in the cataloging activity (information on planned activities is not solicited from the non-federal agencies). The catalog contains information about water data activities. For streamflow and stage and surface and ground water quality station activities and areal investigations and miscellaneous activities, a computerized file contains locator information (latitude, longitude, state and county codes, and hydrologic unit or basin codes),

site type (stream, lake, reservoir, well), parameter code and frequency, and identification of operating agency. The computer file is updated annually. The computerized file is being incorporated into the Master Water Data Index (MWDI) of the National Water Data Exchange (NAWDEX). In the MWDI, additional information on data availability and means of accessing data from the acquiring agencies or through alternate sources will be included. Indexes to the catalog are published periodically. An annual federal plan summarizes the information in agency plans and needs for data acquisition. A National Handbook of Recommended Methods for Water Data Acquisition is published and maintained.

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(b)). Outer Continental Shelf Lands Act of 1953 (P.L. 83-212).

Availability: Agency

Geographic Relevance: Site specific

Abstract: NAWDEX provides nationwide assistance to users of water data in the identification, location, and acquisition of needed data. NAWDEX gathers information on water data available from surface and groundwater sites. This information is currently supplied by 19 federal organizations and 300 non-federal organizations active in water data collection activities. Contributing non-federal organizations include state governmental organizations, local governmental organizations, river basin commissions, interstate commissions, irrigation districts, universities, public utilities, and private organizations. NAWDEX data systems include: A *Water Data Sources Directory* which contains information on organizations that collect water data, the types of data collected, geographic areas in which data are collected, and locations within each organization from which water data may be acquired; and a nationwide *Master Water Data Index* which identifies sites for which water data are collected, the collecting organization, the geographic location of the site, the type of site, the types of data collected, the periods of records for which data are available, major water data parameters being measured and their frequency of measurement, and the media in which each type of data are available. These annually updated data systems contain information on the availability of streamflow, river stages, peak and low flow values, reservoir or lake volumes, geologic identifiers, groundwater levels, groundwater discharges, well depths, and water quality data of surface and groundwaters including physical, biological, sediment, and chemical characteristics. NAWDEX data systems have both remote batch and interactive ad hoc query capability. Printed reports and tables of information on data availability are produced. Numeric summaries of categories of data available may also be produced. A printed directory of sources of water data is published periodically for public dissemination. Ad hoc reports are produced upon request.

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(b)).

Availability: Agency

Geographic Relevance: National; State; Site specific

Abstract: Data systems are maintained which contain information on the availability of aerial and space images, maps, charts, geodetic data,

and related digital data produced by USGS, other federal agencies, selected state and local agencies, and some private sources. The major sources and suppliers of information include: 1) Aerial and space imagery--USGS National Mapping Division, NASA, Departments of Agriculture, Commerce, and Defense, some states, municipalities, and contractors; 2) maps and charts--USGS, DMA, NOS, NOAA, Library of Congress, Corps of Engineers, some states, municipalities, and contractors; 3) geodetic control--USGS, National Geodetic Survey, NOAA (geodetic control input is to National Geodetic Survey database). The systems contain: 1) Aerial imagery (state, county), summary of planned, in-progress, and completed photo projects; 2) maps and charts (state, county), unit records of multipurpose maps and charts; 3) geodetic control, horizontal and vertical control data; 4) digital map data, map features in computer readable form; and 5) geography limit use and land cover data. All geographic references are latitude/longitude, and the update cycle for the microfiche editions are quarterly or semi-annually depending on the system. The Center makes available such products as index maps and catalogs showing the status of published maps, mapping data, and aerial photography in the United States; nontechnical brochures describing various cartographic data; names and addresses of the agencies and private organizations that hold cartographic data; descriptive lists of geographic features of selected maps published by the Geological Survey and other agencies; and a newsletter describing recent activities.

Geologic Surveys, Investigations, and Research Program.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Geologic and Mineral Resource Surveys and Mapping

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(h)).

Availability: Agency

Abstract: The program provides geologic, geochemical, and geophysical information for other government agencies and for the general public on land resources, on mineral and energy resources, and on geologic hazards of the Nation and its territories. Geophysical techniques measure the variations in the earth's gravity, magnetic field, and electrical sensitivity to help trace geologic features beneath the surface. Geochemical studies include determining the distribution of elements in the earth's mantle and crust, determining the processes that form ore bodies, determining isotopes and their application to establishing the age of rocks, and analyzing rocks, minerals, and ores. The national program produces geologic, geophysical, and geochemical maps and analyses that show the distribution, age, composition, structure, and physical properties of rocks and minerals at and beneath the earth's surface; new or improved methods, techniques, and instruments for mineral or energy exploration on land and on the submerged continental margins; and, with the help of other state and federal agencies, information on the chemistry and physics of the earth, moon, planets, and the geologic processes by which they were formed and are continually being modified. The major output types are professional papers, bulletins, circulars, geologic quadrangle maps, Journal of Research, open-file reports, miscellaneous investigation maps, administrative reports, miscellaneous field studies maps, geophysical investigations maps, earthquake information bulletin, geological survey annual research, geological survey annual director's report, National Technical Information Service reports, and general interest pamphlets.

100712-006

National Earthquake Information Service (NEIS).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Geographic and Mineral Resource Surveys and Mapping

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House*

Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(b)), Earthquake Hazards Reduction Act of 1977 (P.L. 95-124).

Availability: Agency; GPO, NTIS

Geographic Relevance: Site specific

Abstract: The primary objectives are to acquire and disseminate information on the global occurrence of earthquakes and to conduct research on the internal structure of the earth. In addition to seismic data received from the USGS network, data are received from over 650 stations around the world including the U.S.S.R. and the People's Republic of China. An observer at each station reads the seismograms and provides these readings to the NEIS by teletype, telephone, and airmail. The data received from the stations are entered into a timesharing computer. The computer processes as much as possible and prints out formats for review by an experienced geophysicist. The information provided to interested scientists in Preliminary Determination of Epicenters is lists of earthquakes which occur worldwide, i.e., date, time, size, location; seismicity maps; station directories; and alerting service to state and federal government agencies about damaging earthquakes. Also provided monthly is the Earthquake Data Report which contains much more information on each earthquake, including the individual phase readings from each station their arrival times, polarity, period, and amplitude. The distance and azimuth of station to epicenter and residuals for P phases are also computed and the accuracy of each solution is listed. The major output types are Preliminary Determination of Epicenters (PDE) (every two weeks), Earthquake Data Report (monthly), seismicity maps (special publications), PDE monthly listing (monthly), seismicological notes (every two months), U.S. earthquakes (quarterly and annually), and punched cards (monthly). Output is in machine-readable form, i.e., punched cards, tapes, and hardcopy.

Earth Resources Observation Systems (EROS) Data Center.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: National Mapping, Geography and Surveys

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(b)).

Availability: Agency; NTIS

Geographic Relevance: National

Abstract: The center maintains, reproduces, and sells USGS aerial mapping photography and photographic and digital remotely sensed data acquired by NOAA Earth Resources satellites and NASA-manned spacecraft and high altitude aircraft. Data archived at the center total about 7 million frames of data including over 800,000 frames of Landsat imagery and Landsat digital tapes; over 40,000 photographs from Skylab, Apollo, and Gemini; more than 1.8 million photographs from the NASA research aircraft program; and over 4 million aerial mapping photographs from the Department of the Interior. The input is received from the NOAA-operated Landsat satellites. Landsat offers almost complete coverage of the land mass of the earth beginning in 1972 and continuing through 1984. Many areas have multiple coverage. NASA high altitude photography is collected randomly across the United States to support various scientific investigations and is then sold to the public through the Data Center. USGS aerial mapping photography is acquired in support of USGS mapping activities and sent to the EROS Data Center for archiving, reproduction and dissemination. The data storage and retrieval system is updated daily as new coverage is received from contributing sources. The major output types are: technical papers, Geological Survey professional papers, training manuals, slide cassettes, 16mm films, training exercises, and computer printouts of available data, all produced in varying formats at different time intervals. Inquiry capability is provided through the User Services section of EDC by calling or writing the Data Center and through the National Cartographic and Geographic Information Service of the USGS. Major output is reproductions of any of the data in the data bank in paper-print, film transparency or magnetic tape form. They are available in a variety of sizes and map scales.

Geographic Research.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Topographic Surveys and Mapping

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Environment and Public Works; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31(a)(h)).

Availability: Agency

Abstract: The Geography activities involve the compilation of land use and other geographic data in maps and digital form for state, regional, and local planners. Services include advisory and consulting services on land use analysis techniques, geographic information systems, data collection, digitizing of land use and natural resource data, and research in analysis of interactive geographic information systems. The data are: land use and land cover--internal, National Mapping Division, USGS; political units--internal, National Mapping Division, base maps, USGS; hydrologic units--internal, Water Resources Division, USGS; census county subdivisions--external, Census Bureau; and federal land ownership--internal, National Mapping Division, USGS. Land use and land cover maps are compiled on a classification system of 37 categories (see Geological Survey Professional Paper 964) from remotely sensed data (primary), plus secondary sources (land use and other maps utilizing field survey methods) at scales of 1:250,000 and 1:100,000. Following compilation, land use and land cover maps and their associated overlays are converted to digital form and are input to a Geographic Information Retrieval and Analysis System (GIRAS). Land use, land cover, and associated data are digitized in polygon format (each individual land use, land cover area comprising a polygon). Conversion of polygons of all data sets to grid cells of varying sizes can be made when desired. Computer manipulation and analysis of land use-land cover and other data are provided for the compilation of statistical data, by counties for areas of federal ownership, river basins and subbasins, and by statistical units such as census tracts or other census county subdivisions. The major output types are land use and land cover and associated maps on film positives, diazo foil, paper diazo available as released from compilation; statistical tabulations for land use-land cover, and associated overlays available upon release from computer analysis. Computer program documentation on GIRAS will be available on a nonrecurring basis through USGS publications.

J. R. Anderson

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Topographic Surveys and Mapping

CFDA NO.: 15.803

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Act of September 5, 1962 (P.L. 87-626).

Availability: Agency

Geographic Relevance: National

Abstract: The National Atlas of the United States is a comprehensive source of information, presented in cartographic format, about the principal historical, physical, socioeconomic, and cultural characteristics of the Nation. The Atlas provides national overview information for decisionmakers, planners, research scholars, and others to aid in the analysis and understanding of environmental, resource, economic, and related issues. The maps portray general reference information such as the location and size of populated places, transportation linkages, and areas under federal administration. Thematic or special subject information is presented on such specific topics as geology, relief, tectonics, marine science, soils, vegetation, climate, water resources, mineral and energy resources, population, income, transportation, and communications. The information is presented on multi-color maps at the basic scales of

1:2 million; 1:7 million; 1:17 million; and 1:34 million on standard size sheets measuring about 19 by 28 inches.

Water Resources Scientific Information Center (WRSIC).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Water Resources Investigations

CFDA NO.: 15.804

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Water Research and Development Act of 1978 (P.L. 95-467, title III, § 301; 92 Stat. 1312; 42 U.S.C. 7852). Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31). Department of the Interior and Related Agencies Appropriations Act, 1984 (P.L. 98-146).

Availability: Agency

Geographic Relevance: International/Foreign

Abstract: The system disseminates scientific and technical information to the water resources community through a variety of services, including a monthly abstracting bulletin, a computerized file of ongoing water research projects updated quarterly, topical bibliographies, and computer searches. The system contains data from state water resources institutes, water-related U.S. agencies, and foreign governments on exchange agreements, and about 600 scientific and technical journals. Input is in the form of magnetic tapes executed to WRSIC specification and accompanied by original document. Content includes abstracted and indexed information dealing with water-related aspects of the life, physical, and social sciences, as well as related engineering and legal aspects of the characteristics, conservation, control, use, or management of water. It covers 1968 to the present, although earlier permanently valuable works are included. The coverage is worldwide, with English-language material predominating. The printed file is updated monthly; the machine-readable counterpart is updated monthly.

Authority: Reclamation Act (Irrigation of Arid Lands) (P.L. 57-161); Colorado River Basin Project Act (P.L. 90-537) Colorado River Storage Project Act (P.L. 84-485) Small Reclamation Projects Act of 1956 (P.L. 84-984)

Availability: Agency

Abstract: The primary function is to provide a central source for documentation of a Reclamation project's construction and operation. These histories are compiled by the Bureau and the local water user organizations with which the United States has contracts for providing water service and for repayment of project costs. These histories are generally prepared annually but may vary from project to project. A narrative discussion of significant events affecting project operations is normally included. Most aspects of project construction and operations are normally covered. These include hydrologic and precipitation data, financial data, construction and/or operation and maintenance costs and activities, crop production and value, recreational use, and flood control. These reports are compiled in the various project offices. The most recent two or three reports are maintained in the Department of the Interior Library. The others are available at the National Archives.

Geographic Relevance: Regional

Abstract: Basic reclamation law and the authorizing legislation for most Service projects provide for the repayment of reimbursable construction costs to the United States. To fulfill this requirement, repayment and water service contracts are negotiated with water user entities who will benefit from project construction. A reference library of these contracts and amendments is maintained in Washington, DC. This library serves as a centralized and comprehensive source for the use of the Bureau and other interested parties in contract administration. The sources are the water users and the federal government. The water users may be irrigation districts, conservancy districts, municipalities, or specific industrial firms. This library provides a centralized reference location for repayment and water service contracts, amendments, and explanatory memoranda pertaining to agreements between water user entities and the United States. The responsibilities and obligations of each party are delineated. General provisions of the contracts include responsibilities for construction, operation, and maintenance of the project facilities and repayment of obligations and/or water service charges annually, semi-annually or monthly schedules. Provisions for development period, requirements for compliance with excess land restrictions, and other general items are also included in the contracts. No additional output is generated.

DEPARTMENT OF JUSTICE

100800-002

Legislative Files.

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Legal Activities (All Programs)

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554).

Availability: Agency

Geographic Relevance: National

Abstract: The Legislative File is used for storing material on legislative matters prepared by various components of the Department of Justice. It is primarily used by the Office of Legislative Affairs (OLA) but also by other components of the Department to prepare recommendations on pending legislative matters. There is no one primary source of input. Any material prepared on legislative matters within OLA or in any other division of the Department may be stored in the Legislative File System. The legislative files include material in the present and past Congresses. Copies of pending and enacted legislation, reports on pending bills, views on draft bills of other agencies and draft Department legislation are examples of the types of material stored in the system. This office has immediate access to files for the 94th through the 98th Congresses. Files can be recalled from the Sutherland Federal Records Center for the 87th through 90th Congresses.

Authority: Government Organization and Employees Act (P.L. 89-554).

Availability: Agency

Geographic Relevance: National; State

Abstract: The NCIC is a nationwide computerized information system that provides information, on-line, to criminal justice agencies concerning wanted persons, missing persons, stolen property, and computerized criminal histories. The central processing unit and data storage devices are located within the FBI headquarters, Washington, DC. Input and retrieval are performed via federal, state, and local computer/terminal interfaces with the FBI computer. Input includes entries, updates, clears, and cancellations, as well as inquiry capability, relating to NCIC records. NCIC serves criminal justice agencies in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, Canada, and U.S. Territories. Nine files pertain to wanted persons, stolen property, and computerized criminal histories. The tenth, or missing person file, has no connection with the criminal data stored in the NCIC and is primarily used to assist in the location of missing juveniles. Updates to the NCIC files are performed on a 24-hour-a-day, 7 days a week on-line basis.

Availability: Agency

Geographic Relevance: National; State; Local

Abstract: The President's Task Force on Victims of Crime, in its December 1982 report, recommended the establishment of a National Victims Resource Center. Specifically, the Task Force report called for a federally-based resources center that would serve as a national clearinghouse of information on victim assistance and compensation programs and victim advocacy organizations; function as a liaison to public and private organizations that assist crime victims; and operate as a reference point for those seeking current information on state victim compensation programs and other victim-related legislation and victim services. In pursuit of its mandate to implement the recommendations of the Task Force, the Office of Justice Assistance, Research, and Statistics, U.S. Department of Justice, has established this National Victims Resource Center. The Center works through a network of public and private organizations at the national, state, and local level that promote or operate victim assistance programs. It maintains a computerized national program data base containing descriptions of all types of victim assistance programs throughout the country. A legislative data base has been developed to track pending and enacted legislation on victim assistance and compensation programs. Both make it easier for people to learn what others are doing for victims including the problems they encounter, the results they achieve, and the new insights they gain. The National Victims Resource Center also collects and makes available literature including books, articles, reports, and audiovisual materials.

Abstract: The Commission maintains a library of its decisions on claims to provide ready access to the determinations it has made on claims, for use of both the Commission and the general public. Indices of its decisions and claims are also maintained. Decisions on claims considered by the Commission are filed by program, and indices are maintained. The content of the system is decisions from various claims programs conducted by the Commission, with indices thereto. They include war damage or loss to property during World War II in certain Eastern European countries and certain Pacific areas and losses to certain insurers and passengers on ships; and claims for losses in or against the governments of Yugoslavia, Panama, Poland, Bulgaria, Hungary, Rumania, Italy, Soviet Union, Czechoslovakia, Cuba, and the Chinese Communist Regime. After the Commission completes administration of a claims program, the decisions are placed on file in the library. Volumes of Decisions issued by the Micronesian Claims Commission are also on file in the library of the Commission. Copies of Commission decisions are in typed form. No formal output is produced.

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: War Claims Act of 1948, as amended (P.L. 80-896) International Claims Settlement Act of 1949, as amended (P.L. 81-455); Micronesian Claims Act of 1971 (P.L. 92-39).

Availability: Agency

Abstract: The Foreign Claims Settlement Commission is authorized to consider certain types of claims of nationals of the United States for losses related to actions by foreign governments, war damage losses, and losses sustained by prisoners of war and civilian internees as a result of their detention. The materials submitted are filed in this system according to the program under which a claim is filed. These materials are then examined by the Commission; and where the claim is found to be meritorious, a certification of the amount of loss is made to the proper agency as directed by statute. Materials in the system represent submissions by the claimants as well as information generated by the Commission and required by the Commission from other sources. Information contained in the system relates to those items needed to be proven for a claim to be found compensable, including, but not limited to, evidence of ownership of the property claimed to have been lost, its value, and its nationalization or other disposition by the foreign government concerned. The system contents include: World War II Prisoner of War Claims; World War II Civilian internees; claims of religious organizations for losses in the Philippine Islands during World War II; Prisoners of War during Korean and Vietnam Conflicts; Civilian internees during Korean and Vietnam Conflicts; U. S. merchant seamen captured and interned during World War II; sequestration of bank accounts during World War II in the Philippines; detention benefits to Guamanians during World War II; war damage or loss to property during World War II in certain Eastern European countries and certain Pacific areas and losses to certain insurers and passengers on ships; and benefits to civilians and members of Armed Forces captured on U. S. S. Pueblo. It also contains claims for losses in or against the governments of Yugoslavia, Panama, Poland, Bulgaria, Hungary, Rumania, Italy, Soviet Union, Czechoslovakia, Cuba, the People's Republic of China, and the German Democratic Republic. The Commission also maintains records regarding claims adjudicated by the Micronesian Claims Commission. A decision is rendered on every claim. Representative decisions which set precedents or are of more than routine interest are published in the Annual Reports of the Commission. Decisions are in typed format and

may be located by the use of indices which list claim number, decision number, and name of claimant.

Abstract: The National Criminal Justice Reference Service (NCJRS) is a centralized clearinghouse of practical and theoretical criminal justice information. NCJRS maintains an active acquisitions program that identifies, locates, and acquires all types of print and non-print information in the United States and abroad in the field of criminal justice. In order to make these holdings accessible to the public and to criminal justice professionals, NCJRS runs a document loan program, operates a reading room, provides microfiche copies of many documents, and supplies translations and summaries of selected current foreign-language literature. In addition, NCJRS's Selective Notification of Information service provides users with a bi-monthly announcement of significant recently acquired documents. NCJRS offers a wide variety of products and services on a cost-recovery basis to aid practitioners and researchers and to foster an exchange of information in the field of criminal justice. The NCJRS is comprised of a staff of specialists who can provide document citations and abstracts in answer to questions about police, courts, juvenile delinquency, corrections, and evaluations. Their publication program produces such documents as the "Document Retrieval Index," and the "Directory of Criminal Justice Information Sources," as well as special information packages on current criminal justice topics, and selected bibliographies.

sources produced by the National Criminal Justice Reference Service (NCJRS). Selected bibliographies and special information packages which provide users with concise, up-to-date reviews of the literature are published periodically throughout the year. The "Document Retrieval Index" and its supplements contain the complete citation and indexing information for every item in the NCJRS data base. The "NCJ Thesaurus" provides users with a listing of the standard terminology used in criminal justice and for accessing information in the NCJRS data base. Directories which describe information sources and existing programs in law enforcement and criminal justice are also published. The "Directory of Criminal Justice Information Sources," published bi-annually, is the principal directory produced. The "Selective Notification of Information (SNI)" Bulletin is a bi-monthly announcement of selected significant documents acquired recently by NCJRS.

Abstract: National Institute of Justice (NIJ) Publications are documents produced by the Institute which describe the work and major findings of projects undertaken by NIJ. The Institute publishes summaries and full reports of its research and evaluation studies. In addition, several specialized types of publications are produced, including an issues and practices series, policy briefs, program and test designs, exemplary projects, and national evaluation programs research. The policy briefs provide action guidelines for legislators and government executives, including concise descriptions of actions which can be taken to improve the administration of justice. The issues and practices series present detailed descriptions and in-depth analyses of the most successful approaches currently being used to solve particular criminal justice problems. The test designs detail the specifications of actual program strategies which have been selected for careful testing in a limited number of sites. The program designs are the refined models derived from the evaluations of the implemented test designs. The national evaluation and assessment programs research provides practical information on the effectiveness, cost, and problems of certain widely used criminal justice programs.

National Criminal Justice Data Archive.

September 1977

OMB Funding Code/Title: 15-0401-0-1-754 / Justice assistance

Program: Justice Statistical Programs

CFDA NO.: 16.551

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Omnibus Crime Control and Safe Streets Act of 1973 (P.L. 93-83, § 515; 42 U.S.C. 3763). Justice System Improvement Act of 1979 (P.L. 96-157, § 302; 42 U.S.C. 3701).

Availability: Agency

Geographic Relevance: National; State; County; City; (SMSA) Standard Metropolitan Statistical Area

Abstract: The major functions of the archive are: to collect, process, and disseminate data of relevance to criminal justice practitioners, policy makers, and academic scholars; to provide technical assistance in the use of such data; and to conduct data management and analysis training for members of the criminal justice community. Data sets include: data collected directly for the Bureau of Justice Statistics, such as the National Crime Survey and censuses of inmates in jails and prisons; data resulting from grants awarded by the Bureau of Justice Statistics (BJS); and data not supported by BJS but which have relevance to criminal justice issues, such as the Uniform Crime Reports. Data sets resulting from routine periodic collection efforts are updated as new files become available. Raw data are available in a number of machine readable formats and are processed to be compatible with the user's installation. Alternatively, data sets may be accessed on-line at the University of Michigan via phone lines.

Availability: Agency; GPO; CJAIN, Census Bureau, NCJRS

Geographic Relevance: National; State; County; City; (SMSA) Standard Metropolitan Statistical Area

Abstract: Data are collected to provide information for federal, state, and local uses of cost and employment data. Criminal justice expenditure and employment data are provided for the Nation, the federal government, each state, each county, and each city over 10,000 population, and for a sample of cities with less than 10,000 population. Data are

provided for the following categories: police protection, judicial, prosecution and legal services, public defense, corrections, other criminal justice, and total criminal justice. Detailed breakdowns of some of these major functional categories are also provided. Expenditure and revenue data relate to fiscal years, employment data to October of each year. Annual publications include "Expenditure and Employment Data for the Criminal Justice System" (since 1967), "Trends in Expenditure and Employment Data for the Criminal Justice System" (since 1973), and magnetic tape data tapes (since 1971). Use of a separate survey to collect this data was discontinued with the collection of data for 1979. Beginning in 1980, similar data will be extracted from the Census Bureau's Annual Government Finance and Employment Survey.

Availability: National Center for State Courts

Geographic Relevance: National; State; County; City; Individual courts

Abstract: The National Court Statistics Project provides judicial data for policy making, planning, and evaluation. The project produces biennial reports on the civil, criminal, juvenile, and appellate cases filed, pending, and disposed by state and local courts across the nation. Data are available by case type and individual court, as well as aggregated (in state and, in some instances, national totals). A survey of judicial organization, resources, and financing was conducted in early 1980. "State Court Caseload Data" is published annually. Magnetic tapes are planned. Major categories are cases filed, pending, and disposal of for appellate and general jurisdiction courts.

Geographic Relevance: National; State; County; City

Abstract: This document provides a name and address listing of all federal, state, and local criminal justice agencies used for conducting sample surveys and censuses of criminal justice activities. The listing includes information about the agencies that is useful in drawing samples, such as size, jurisdiction, functions, client caseload, and population served. The directory is updated periodically through a mail survey. Quarterly updating of the directory is performed through searches of other directories, and other relevant literature and the results of other criminal justice surveys sponsored by B.J.S. A summary report providing agency counts cross tabulated by function and other available information was prepared in 1980. Magnetic data tapes, computer print-outs, and mailing labels are also available.

Geographic Relevance: National; State; County; City; (SMSA) Standard Metropolitan Statistical Area

Abstract: This clearinghouse was established to promote the concept and practice of system transfer in the field of criminal justice information systems. An automated index of more than 800 criminal justice systems is maintained. The Clearinghouse offers a wide range of technical services to agencies interested in the transfer process, including police departments, probation agencies, state planning offices, legislatures, and other governmental agencies with criminal justice responsibilities. Assistance can be provided in such areas as requirements analysis, system specification, donor system selection, configuration analysis, multi-agency coordination, and implementation support.

Authority: Omnibus Crime Control and Safe Streets Act of 1968, as amended (P.L. 90-351, title J, § 301-305, as amended by P.L. 96-157; 42 U.S.C. 3731-3735).

Availability: GPO; NCJRS

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area

Abstract: The victimization program involves a multiobjective survey which obtains data on the incidence and characteristics of criminal victimization in the United States. Data are obtained on both reported and nonreported crimes, demographic characteristics of victims and offenders, characteristics of incidents, the extent of injury and economic loss, and the reasons for reporting and not reporting incidents to the police. Crimes measured by the survey include rape, robbery, assault, personal and household larceny, household burglary, and motor vehicle theft. Annual interviews are conducted for the Bureau of Justice Statistics by the Bureau of the Census of about 120,000 households systematically sampled to represent the Nation's population. The program generates annual reports, annual change reports, a series of special analytical reports, and some subnational publications.

Availability: NCJRS

Geographic Relevance: National; State

Abstract: The correctional statistics program provides information on prisoners, parolees, and persons on probation. The program contains four subprograms: the National Prisoner Statistics Program; the Special Correctional Studies Program; the Uniform Parole Reports; and the National Probation Statistics Program which is currently in a developmental phase. The prisoner and parole programs produce annual data by state and for the Nation as a whole on the number of persons on parole, in prison, and under sentence of death. The special correction studies program conducts surveys of inmates in prison and jails, including their personal histories and characteristics, and censuses of prisons and jails. These censuses are performed at 5-year intervals. Annual data are submitted by the states from the administrative data maintained by their departments of corrections and parole agencies. Censuses are conducted through questionnaires mailed to jail and prison administrators. Inmate surveys are conducted through personal interviews with stratified random samples of inmates conducted by interviewers from the Bureau of the Census. The program generates two annual publications

Reports, one from the National Probation Reports, and a series of occasional reports from the Special Correctional Studies series.

Authority: Comprehensive Employment and Training Act of 1973 (P.L. 93-203).

Geographic Relevance: National

Abstract: The ETA Resource Clearinghouse maintains a special collection of technical assistance information on employment and training programs that may be borrowed from or used in the Clearinghouse. It can also conduct an automated search of such literature to provide bibliographic information. Material is compiled from published research reports, training manuals, and other technical assistance information prepared by program specialists or under contract. The Clearinghouse also coordinates with other related sources of information such as ETA Regional Resource Centers (in operation in Boston, Philadelphia, Atlanta, Denver, Chicago, Kansas City, Seattle and New York) the Office of Information, and the Labor Library. The Clearinghouse has material that covers a wide range of employment-related subjects. It maintains reports or manuals on counseling, job development, placement, training, occupational information, labor force and labor market information, unemployment insurance, apprenticeship, job matching, public

services such as health and child care, and programs for special groups such as veterans, ex-offenders, and youth.

Abstract: This publication lists labor surplus by city and county, and the civil jurisdictions included, as classified by the U.S. Department of Labor. Employers located in such labor surplus areas are eligible for preference in bidding on certain federal contracts. Area Trends is prepared by the Employment and Training Administration's U.S. Employment Service. The data used in classifying labor surplus areas are obtained from the Bureau of Labor Statistics. In addition to providing a current list of labor surplus areas, the publication contains background information on the labor surplus area program, including a description of the labor surplus area classification criteria, the geographic areas eligible for such classification, and the process for preparing the annual labor surplus area list as well as the updates to this list. The publication also provides summary labor force data on major labor areas throughout the country.

Division of State Employment Standards Programs (DSESP).

OMB Funding Code/Title: 16-0105-0-1-505 / Salaries and expenses

Program: Enforcement of Wage and Hour Standards

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Migrant and Seasonal Agricultural Worker Protection Act (P.L. 97-470); Fair Labor Standards Act of 1938 (P.L. 75-718); Consumer Credit Protection Act (P.L. 90-321).

Geographic Relevance: State

Abstract: The Division serves as a central source of information on state labor laws and practices, and maintains a continuing clearinghouse on state labor legislation during each legislative session and offers technical consultative assistance in the development and promotion of improved standards. Input is provided by the Commerce Clearing House, the Bureau of National Affairs, and the state labor departments. Information (including bills, laws, regulation, rulings, and court and administrative decisions) is maintained on a variety of state labor standards, including: minimum wage, child labor, wage payment and wage collection, prevailing wages, regulation of private employment agencies, discrimination in employment, industrial relations, and the organization of state labor departments. Available publications include an annual article on state labor enactments, a biennial article on trends in state labor legislation, and a directory of state labor agencies. Information is also maintained on state elected/appointed officials and on legislatures.

Geographic Relevance: National

Abstract: The Benefits Review Board acts as the final point of review within the Department of Labor for workers' compensation cases. Claims are initially filed with the Office of Workers' Compensation Programs in the Employment Standards Administration. Contested claims are heard before one of the Department's Administrative Law Judges. Administrative Law Judges' decisions may be appealed to the Board. Board Dispositions may be further appealed to the U.S. Courts of Appeal and ultimately appealed to the U.S. Supreme Court.

Geographic Relevance: National

Abstract: The report provides Congress with a summary of federal programs designed for the protection of the safety and health of its employees during 1977. The report is required on an annual basis. The information is obtained from summary reports submitted by government agencies describing program efforts to protect the safety and health of federal employees. The document is the President's annual report to the Senate and the House of Representatives. It provides an overview of federal agency safety and health programs, program objectives, program achievements, and a program review for 1977. The discussion on program objectives covers administration; training; promotion; research and engineering; recordkeeping, reporting, investigation, and analysis; and inspections, standards, and committees. Program achievements cover administration, training and education, promotion, research and engineering, and inspections. Finally, the program reviews major actions, as well as other matters. It is a condensation of the secretary's report to the President.

Occupational Wage Structures and Surveys.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

16-3902-0-4-505 / Consolidated working fund
Program: Wages and Industrial Relations; Special Economic and Statistical Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area; City

Abstract: Occupational wage surveys are used by federal, state, and local agencies in wage and salary administration and in the formulation of public policy on wages. They are of value to federal and state mediation and conciliation services, to state unemployment compensation agencies in judging the suitability of job offers, and to private industry for wage and salary determinations by employers or through the collective bargaining process and by employers in the selection of location for new facilities and in cost estimating related to contract work. Most of the data are from private industry establishments. Information on straight-time earnings by occupation and on establishment practices and supplementary wage provisions is obtained from a sample of employers in an area or industry. Occupational wage surveys fall into three general categories: 1) Area Wage Surveys provide data for occupations common to a wide variety of industries in the areas surveyed. 2) Industry Wage Surveys cover occupations peculiar to a particular industry. 3) National Survey of Professional, Administrative, Technical, and Clerical Pay--provides annual data on average straight-time salaries for about 100 occupation-work levels.

Geographic Relevance: National

Abstract: The system is to develop current and projected information on National occupational employment by industry for use in career guidance and in planning education and training programs; provide national information on employment outlook, nature of work, educational requirements, earnings, and working conditions in occupations and industries for use in career guidance programs in educational institutions, state employment service offices, and other agencies providing guidance services, such as the Veterans' Administration. Secondary source data developed by other bureaus, departments, and Federal agencies are used, as well as data from the Federal-State Occupation Employment Statistics Survey conducted jointly by the Bureau of Labor Statistics, and State Employment Security Agencies (SESA). This system contains data on national employment and projection on about 700 occupations in 260 industries. Data are available for 1982 and projected 1995. Career guidance information is published every other year covering about 200 occupations.

Authority: Department of Labor Act (P.L. 62-426). Job Training Partnership Act (P.L. 97-300).

Availability: Agency; OPO

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; County; City

Abstract: The system supplies labor force, employment, and unemployment data for states and local areas, and provides data on the current labor force and unemployment trends for states and local areas which serve as economic indicators for those areas. These data are also used for cooperative area labor force planning reports and as the basis for determining eligibility or funding for various federal economic assistance programs such as Job Training Partnership Act (JTPA) and the Urban Development Action Grant Program. Monthly estimates are calculated by the State Employment Security Agencies, forwarded to the Bureau of Labor Statistics for review, and entered into a computerized data base. Annual average estimates derived from the Current Population Survey (CPS) are used to adjust the monthly state estimates for greater reliability. The data base is composed of labor force, employment, unemployment, and unemployment rate for each month that data have been calculated for states, Standard Metropolitan Statistical Areas (SMSA), other labor market areas, JTPA areas of substantial unemployment, counties, large cities, and New England towns. New data are entered monthly. Annual average demographic data from the CPS are available currently for all states, the 30 largest SMSAs, and 11 central cities. Publications include: state and metropolitan area unemployment-labor force, unemployment, and unemployment rate (monthly press release); state, county and selected city employment and unemployment-year to date, labor force, employment, unemployment, and unemployment rate (monthly). The press release is publicly available in hard copy. The other reports are publicly available from the Government Printing Office in microfiche or hard copy, or from the Division on request. Data are available for most areas from 1976 to date.

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO; Regional Offices

Geographic Relevance: National

Abstract: The Industrial Price program is a major source of information on price changes in primary markets of the economy; that is, price changes at the first commercial transaction for products. The data are used in market analysis, escalation of long-term purchases and sales contracts, formulation of economic policy, as indicators of economic trends, and deflation of the National Accounts. Data are collected monthly by mail directly from buyers and sellers of the more than 5,000 items priced. The fundamental data in the system are price indexes for over 5,000 detailed commodities sold in the primary markets of the United States. These detailed indexes are summarized in three different aggregation structures. One is by stage-of-processing for finished, intermediate, and crude materials. A second is by industry output for 250 4-digit industries in the Standard Industrial Classification. Data are published monthly. Corrected data are published four months following the original release to reflect late reports or other corrections.

Current Wage Developments (CWD).

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; State; City

Abstract: Current Wage Developments provides detailed accounts of individual collective bargaining settlements involving 1,000 workers or more in the private economy, in state government, and in larger cities. Statistical summaries also are published. Accounts and statistical data are used by labor, management, private institutions, and government to determine trends in wages and benefits and for wage, income, and gross national product forecasts. Information on collective bargaining settlements is derived primarily from secondary sources, including general circulation newspapers and periodicals, as well as union, management, and trade publications. Other sources include the file of union contracts maintained by the Bureau of Labor Statistics (BLS) and contacts made to management or labor representatives. The accounts of individual settlements describe in detail all settlement terms that involve wages or supplemental benefits, such as specified wage changes, automatic wage escalator clauses, shift differentials, holidays, vacations, and insurance. Each monthly issue presents settlements that occurred in the prior month, as well as deferred wage changes and escalator adjustments resulting from settlements published earlier. The statistical data are presented in quarterly summaries. A standard set of tables appearing monthly provide compensation data series obtained from various federal agencies. Until 1981, annual articles were published on teachers, firefighters, police patrol officers, refuse collectors, and federal white collar employees, generally based on information obtained from employer or other groups, supplemented by direct contacts by BLS personnel.

Program: Wages and Industrial Relations

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: National; Regional

Abstract: The index is provided for the analysis of wage and compensation change on a timely basis. The data are used in analyzing the relationship between changes in compensation and other economic series such as prices and in analyzing the source and causes of wage and compensation change. The data are used in escalating wage related values such as employee costs in long term contracts. Occupational wage and salary data are collected quarterly from approximately 2,000 establishments representing, with certain exclusions, the occupational employment composition of the private nonfarm economy. The major exclusions are the self-employed, unpaid family workers, and private household employees. Data are also collected from about 750 establishments in state and local governments. Annual and quarterly changes in wage and total compensation for the private non-farm and public sectors are published separately and also combined as the civilian economy; detailed series in the private sector are given by region, union status, and metropolitan status. Additional detail is provided for broad occupational and industrial groups.

Geographic Relevance: International/Foreign

Abstract: The purpose is to provide current reliable data on labor developments abroad in comparison to the United States. The primary sources are U.S. statistical agencies, foreign and international statistical agencies, reports obtained from the U.S. foreign service, and selected academic and private sources. Chief among the statistical agencies are Bureau of Labor Statistics, the Bureau of the Census, the Bureau of Economic Analysis, Federal Reserve, central statistical agencies abroad covering labor statistics, OECD, ILO, EEC, and the United Nations. Information is in the following areas: 1) Output per hour, hourly compensation, and unit labor costs in manufacturing-indexes, annual, updated twice a year; 12 industrial countries data stored in computer system. 2) Productivity and labor costs in the steel industry-indexes and absolute levels, annual, updated once a year, five countries, stored in computer system. 3) Real gross domestic product per capita and per employed person, indexes and absolute levels, annual, updated twice a year, nine countries, stored in computer system. 4) Hourly compensation costs in manufacturing and over 30 manufacturing industries, absolute amounts in national currencies and U.S. dollars, annual, updated twice a year for total manufacturing, steel, and motor vehicles and once a year for industries, detail on structure of compensation in 10 countries for selected years, stored in computers. 5) Labor force, employment and unemployment-absolute amounts and rates, annual plus monthly unemployment rates, unemployment rates updated monthly and other measures about twice a year, 10 countries, detail covering age breaks, sex breaks and other factors, stored in data system. 6) Consumer prices-indexes, annual, detail by expenditure group, on an annual basis stored in computer system. 7) State Department indexes of living costs abroad-index relatives, annual but revisions issued quarterly, about 165 foreign posts, additional data on housing allowances and hardship differentials, published quarterly by GPO. 8) Industrial disputes, workers involved, and lost, annual, updated once a year, 14 countries, stored in computers. 9) Fixed capital investment, excluding residential construction, as a percentage of GDP, annual, updated once a year, sub-breaks for non-residential construction and machinery and equipment, stored in computer system.

Geographic Relevance: National

Abstract: The purpose is to establish techniques and methods for detecting in advance the impact of automation and other technological changes on productivity and employment. Major government data sources are the Census Bureau and Bureau of Labor Statistics. Other data sources include trade and technical publications, government and corporation reports; interviews with industry officials, equipment producers, and labor and government experts; and visits to industry establishments, trade shows, and equipment manufacturers. Three types of studies are prepared to obtain information on implications of technological change. One type of summary report appraises some of the major technological changes emerging among selected U.S. industries and discusses the impact of these changes on productivity and labor over the next 5 to 10 years. Another category of study examines the impact of technological changes such as computers and numerical control of machine tools which are being adopted throughout industry. In addition, in-depth studies are prepared periodically for selected industries

on a large scale.

Productivity and Costs (PRODY).

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Productivity and Technology

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee.*

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: National

Abstract: This source provides information on labor and multifactor productivity--output per hour of all persons and output per unit of combined labor and capital inputs--and costs for the U.S. economy. This information helps public and private economists and planners evaluate and project economic progress, employment trends, and resource allocation. Input includes measures of employment and average weekly hours from the Bureau of Labor Statistics (BLS) Establishment Survey (790) and Household Survey. Output and capital measures are based on the National Income and Product Accounts (NIPA) prepared by the Bureau of Economic Analysis of the U.S. Department of Commerce and the Federal Reserve Board's Index of Industrial Production. Compensation data for employees and other costs data are from the NIPA. Data on changes in prices come from the Consumer Price Index prepared by BLS. Productivity and cost measures are prepared for the business, nonfarm business, and manufacturing sectors (including durable and nondurable manufacturing subsectors) and for nonfinancial corporations. These measures are published quarterly in the Productivity and Costs press release (issued eight times annually) and are carried in the Monthly Labor Review (MLR), Employment and Earnings, Business Conditions Digest, and Economic Indicators. Most of the series begin in 1947. Annual measures of multifactor productivity, output per unit of capital input, and capital per hour of all persons are also maintained and regularly published for the private business, private nonfarm business, and manufacturing sectors. These measures are published twice yearly in the Multifactor Productivity press release and are carried in the MLR. Measures are also maintained for 10 major industrial classifications (annually) and for the total economy and several residual sectors. All of the series cover the entire Nation; no regional divisions are available. Measures of productivity and costs are studied to separate secular and cyclical patterns and to illuminate the relationship between productivity and cost movements. Quarterly and annual articles and technical notes appear regularly in the MLR on these subjects.

Productivity Indexes for Selected Industries and Government.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Productivity and Technology

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee.*

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National

Abstract: Productivity indexes measure the relationship between output in real terms and the labor time involved in its production. The measures show the changes from year to year in the amount of labor time required to produce a unit of output. The productivity measures are useful for studying changes in labor utilization, projecting future employment requirements, analyzing trends in labor costs, comparing productivity progress among industries and countries, examining the effects of technological improvements on employment and unemployment, and analyzing related economic activities. Users include labor unions, management, the Council of Economic Advisers, economic and statistical researchers, and other government agencies. Productivity measures for

selected industries are determined primarily from secondary source information. Data from the Bureau of Labor Statistics (BLS), the Bureau of the Census, the Interstate Commerce Commission, the Civil Aeronautics Board, the Bureau of Mines, and other government agencies and trade associations are used to develop real output indicators. Data from BLS, the Bureau of the Census, the ICC, the CAB, and the Internal Revenue Service are used to develop measures for employment and hours. Productivity and related indexes for the federal government are developed from output, employee-year, and personnel compensation data collected directly from approximately 390 federal organizations. The indexes of productivity and the related indexes of output, hours, and employment cover selected industries within the mining, manufacturing, trade, service and transportation sectors of the economy. The indexes for the the government cover about two-thirds of the government civilian work force and selected state and local government services. Measures are available for the federal government as a whole and for 28 functional groupings. The indexes for the selected industries and government are published annually. Historical information is available for selected industries. The productivity indexes for selected industries and the government are available only at the national level. Geographic information is not available.

Current Employment Statistics.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Labor Force Statistics

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Joint Economic Committee.*

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area

Abstract: The Current Employment Statistics program provides detailed current information on nonagricultural wage and salary employment for the Nation, states, and major labor areas. Estimates are based on a mail survey of employer units, which account for 39 percent of the total estimated employment. The industry employment statistics program also provides detailed information on average weekly earnings, average hourly earnings, and average weekly hours which relate to production workers in mining and manufacturing industries, construction workers in construction industries, and non-supervisory workers in Trade, Services, Transportation and Public Utilities, and Finance, Insurance and Real Estate. Input is from CES-BLS-790, a sample of 210,000 employer units/State Employment Security Agencies. These data provide the following information. Non-agricultural establishment employment data available: National--total employment in major non-agricultural industries, 1919 to current year; total employment in 509 industries; production or non-supervisory workers in 451 private non-agricultural industries; women employees in 437 industries; selected employment series, seasonally adjusted; historical summary, annually; state and area--total employment by major industry division for each state and 250 areas, annual averages in greater detail. Hours and Earnings data available: National--gross hours and earnings of production or non-supervisory workers in private non-agricultural industries, 1947 to current year; gross hours and earnings in 454 industries; overtime hours in 323 manufacturing industries; indexes of aggregate weekly hours and payrolls in private non-agricultural industries; hourly earnings excluding overtime in major manufacturing industries; spendable weekly earnings, current and adjusted for price changes for major industry groups, seasonally adjusted at the total private non-agricultural industry level; average weekly hours and average weekly earnings seasonally adjusted, total private and major divisions; historical summary, annually; state and area--gross hours and earnings in manufacturing industries for each state and 209 areas, annual averages in greater detail.

Agency Contact: Bureau of Labor Statistics. (202) 523-1446.

Abstract: Employment and Wages is compiled from information collected from mandatory tax documents for state unemployment insurance programs and contains the only data available covering the entire population of workers covered by unemployment insurance programs. Data for all reporting units are classified by industry and state and county of work; total and taxable wages and contributions are included. Most employees in the United States are accounted for in this report. Exceptions are some agricultural and household workers, workers in certain nonprofit establishments, unpaid family workers and railroad employees. Data come from Employment and Wages, a quarterly report filed by approximately 4.5 million reporting units subject to the unemployment insurance laws/State Employment Security Agencies. This source contains the following information: monthly employment, total quarterly wages, total number of reporting units, taxable wages, and employer contributions by state, industry, and (for first quarter) size of establishment of workers covered by state unemployment insurance laws and program of unemployment compensation for federal employees. Data are available at the basic industry level, nationally and by state. Annual averages are included.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Economic Growth Studies

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO; NTIS

Geographic Relevance: National

Abstract: The primary objective of the studies is to develop medium- to long-range projections of employment opportunities under alternative assumptions about the future economic environment. The projections provide a framework for assessing a number of important economic problems over the next decade, including labor utilization and the employment impact of specific government programs. Input is from the Bureau of Economic Analysis--National Income and Product Accounts of the United States, Input-Output Structure of the U.S. Economy (studies for various years); the Bureau of the Census--various economic and demographic Censuses of the United States; and the Bureau of Labor Statistics--payroll employment and hours survey data. The current program produces output and employment projections for 160 industries over a 10-15 year horizon. A completely revised set of projections is released about every 2 years. Results are structured according to the Standard Industrial Classification. In the course of developing output and employment projections several intermediate results are produced. These include projections of the aggregate economy including analysis of major income flows, Government policy, and the growth of potential output; projections of major demand categories in industry and selected product detail such as personal consumption expenditures by product type, government expenditures by function, and investment by industry; and projections of the input-output structure of the U.S. economy. The data base and analysis developed as a part of the projection program

ly operating or anticipated government programs and/or categories of demand.

International Price Program--Export and Import Price Indexes.

Quarterly releases

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: International/Foreign; National

Abstract: The International Price program provides measures of price change for U.S. exports and imports and analyses of price trends of U.S. products in world markets. Aggregate and detailed indexes are published that represent 100 percent of the value of both U.S. imports and exports. These indexes are used to measure the effect of changes in exchange rates on the prices of goods traded by the United States. They are also used by U.S. representatives in international trade and financial negotiations and by other policymakers and analysts to assess trends in the competitive position of U.S. products in world markets. In most cases, price data for these indexes are collected by mail questionnaire directly from exporters and importers. In a few cases, prices are obtained from other sources. The publication categories for both export and import indexes are based on the Standard International Trade Classification of the United Nations, a product classification system, and indexes are published at the 2-, 3-, 4- and 5-digit level of detail. Data are collected quarterly, and indexes are updated and published quarterly. The reports produced include Export and Import Price Indexes (quarterly press releases), analyses of U.S. export and import price trends, and comparisons of export price trends of the United States, Germany, and Japan for competitive products. Export and Import Price Indexes are also published by end use classification.

Consumer Expenditure Surveys.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO; NTIS

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area; Regional

Abstract: The population covered by the Consumer Expenditure Surveys (CES) is the non-institutional population of the United States. Data from the 1972-73 CES were collected by personal interview from a sample of 20,000 households and by a self-administered diary from a separate sample of 20,000 households. The ongoing CES designates approximately 5,000 sample families per year to participate in the interview survey and another 5,000 in the diary survey. Sample families rotate in and out of sample during the year. Studies are based on the CES which are conducted to provide timely data on the buying habits of American consumers and to support revisions of the Consumer Price Index. The surveys collect detailed data on consumer expenditures and income as well as other demographic and socioeconomic characteristics of the family. Up until the 1972-73 CES, these Bureau of Labor Statistics household surveys were conducted every 10 years. In 1980, however, an ongoing CES was initiated in order to provide a continuous flow of data over time, allowing for a more frequent and timely release of consumer expenditure and income data. Selected data for 1980-1981 are available in 1984.

Family Budget Studies.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area

Abstract: The studies provide hypothetical budgets for three levels of living for a self-sufficient urban 4-person family and for an urban retired couple. The budgets provide an indication of the costs of purchasing goods and services for the three levels for both family types and were used in analysis of interarea living costs by individuals contemplating a change of residence and in labor-management negotiations involving regional adjustments in wages and salaries. The four-person family is composed of an employed husband, a wife not employed outside the home, and two children, aged 8 and 13. The retired couple family is composed of two self-supporting persons over 65 who are in relatively good health. The three levels of the hypothetical budgets are lower, intermediate, and higher and were obtained by varying the assumptions concerning the manner of living and by providing different quantities and quality of the goods and services necessary to provide physical health, social well-being, and participation in community affairs. The budgets were updated and published annually for the United States, 39 metropolitan areas, (25 metro areas for 1979, 1980 and 1981), nonmetropolitan areas, nonmetropolitan averages for four regions, and Anchorage, Alaska. The series was discontinued with the publication of 1981 family budget cost estimates.

Availability: Agency; GPO; NTIS

Geographic Relevance: National; (SMSA) Standard Metropolitan Statistical Area

Abstract: This index supports analysis and publication of data on changes in prices for the goods and services bought by urban consumers as well as urban wage earners and clerical workers. It is the Nation's principal economic measure of the rate of inflation and is used to formulate and analyze economic policy; to escalate wages, pensions, and Social Security benefits; and in wage negotiations. The price data are collected by Bureau of Labor Statistics data collectors in 85 sample areas from retail outlets, housing units, and other reporters. Indexes are available for all items, major groups, and subgroups for the United States and 28 major metropolitan areas. Major groups include food and beverages, housing, apparel, transportation, medical care, entertainment, and other goods and services. The cycle for data collection varies with the item priced. Most items are priced monthly or bimonthly. A few are priced semiannually or annually. The Consumer Price Index is updated and published monthly.

Abstract: The Monthly Labor Review (MLR) provides monthly coverage of the most significant data and analysis produced by the Bureau of Labor Statistics (BLS), and some coverage of related data produced by other government agencies and private researchers. The intended audience is the general reader interested in labor economics and statistics, and specialists in the field. Most of the data are generated by BLS program offices. The MLR provides its readers with data and analysis on labor economics and related social sciences. Areas covered include: current employment, prices, productivity, wages and industrial relations, occupational safety, and health and economic growth. There are 105 volumes, covering the years 1915-83.

Abstract: The handbook's purpose is to inform users of the Bureau of Labor Statistics (BLS) data of how BLS obtains and prepares the economic data it publishes. Volume I contains this information for all BLS programs except the Consumer Price Index. Chapters for each major Bureau program give a brief account of the program's origin and development and follow with information on concepts and definitions, sources of data and methods of collection, statistical procedures, where

the data are published, and then used by information centers in additional technical information are given at the end of most chapters. Volume II contains the information for the Consumer Price Index.

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area

Abstract: Occupational employment data are developed from responses to voluntary surveys of business establishments by states cooperating in the Occupational Employment Statistics (OES) survey as well as from administrative records such as the Office of Personnel Management's Central Personnel Data File. The data are developed for all sectors of the economy except agriculture and private households and are made available at the two and three digit Standard Industrial Classification levels. Geographically, data are available at the National, state, and selected substate levels. OES surveys are conducted annually and cover approximately one-third of the economy. Three years are needed to collect data for all sectors. Excluded from the data are owners and proprietors, unpaid family workers, and members of the armed forces. The occupational information collected by the OES survey is used by job counselors, labor market analysts, industrial planners and others interested

in current, detailed pictures of the occupational structure of the economy. In selected industries, the number of workers engaged in research and development by occupation is also surveyed.

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 24; 84 Stat. 1614; 29 U.S.C. 673).

Availability: Agency; GPO; NTIS

Geographic Relevance: State

Abstract: The Work Injury Report survey program develops information on the nature of specific work-related incidents or injuries of mutual interest to the Occupational Safety and Health Administration (OSHA) and National Institute of Occupational Safety and Health (NIOSH). The information is obtained from mail questionnaires completed by the injured workers, who were identified as potential respondents from filed state workers' compensation records. The questionnaires are specifically tailored to obtain causal information on the areas selected for study and to provide a detailed profile of characteristics associated with the accident or injury. Where universe data are available, the survey uses a probability sample. Final results are contained in published reports which can be purchased by the public from the Government Printing Office or the National Technical Information Service. The data are useful to OSHA and NIOSH for guidance in standards development, compliance, training, and safety research; to manufacturers of safety equipment; and to accident preventionists in general. To date, 16 studies have been completed: 3 dealing with specific equipment, ladders, scaffolds, and power saws; 5 dealing with injuries related to specific body parts, eyes, face, foot, head, and hands; 3 dealing with injuries/accidents related to specific worker activities, servicing equipment, and welding and lifting; 2 on industries, logging, oil and gas drilling, and well servicing; 2 involved with falls; and 1 with amputations.

Agency Contact: Bureau of Labor Statistics. (202) 272-3459.

hazardous trends in the mining industry; and to provide recommendations for improvement. The studies aid in the achievement of education and training goals through adoption of appropriate training programs for improving health and safety in the mining industry. They also provide information as an aid in recommending health and safety research and development work conducted by the Bureau of Mines. An important secondary function is the compilation and periodic dissemination to the public of accident, injury, and occupational illness information in appropriate MSHA publications.

Abstract: The OECD Registry collects and distributes classified and unclassified memos, studies and publications containing general information and statistical data to U.S. government agencies and Congress on a wide range of economic (broadly defined) subjects. The documents are essential to action officers in the various agencies who must prepare U.S. positions for the numerous meetings of OECD Committees and their subgroups. This information dates back to 1961 and is stored in FADRC and the Sutiland Records Center. Data are compiled by the OECD in Paris through questionnaires, studies, and information submitted by the member countries. This system serves as an internal information system for all other government agencies. Documents and publications contain information and statistical data in such areas as economic problems, developing countries, environment, employment, energy policy, nuclear energy, industry, agriculture, fisheries, tourism, inland transport, maritime transport, and education. This information is used in answering requests and aids in writing reports and studies and in formulating U.S. government positions on issues being handled in the OECD.

Authority: Foreign Service Act of 1946, as amended (P.L. 74-724). Secretary of State Powers Act of 1956 (P.L. 84-885).

Availability: Agency

Abstract: This section maintains central files of all U.N. and U.N.-related documents; provides research and reference service on such documents for the Department of State, other government agencies, the U.S. Mission to the United Nations, Congress, and to private organizations and individuals. The master file maintained is the U.S.

and statistical yearbooks. The section also processes documentation and publications from the regional commissions at Geneva, Bangkok, Addis Ababa, and Santiago, as well as those from UNCTAD and UNIDO at Geneva and Vienna. The contents go back to the beginning of the United Nations in 1946. They include the provisional verbatim and/or summary records of all meetings of the General Assembly and its seven committees, the Security Council, and the Economic and Social Council. A master file of U.S. U.N. press releases for the same period and other documentation for its current use is also maintained. The file can be used to identify and retrieve all U.N. documentation. The card catalog system is maintained up-to-date with exchange of analyses between this office and its counterpart in the U.S. Mission in New York. Output is reports, directories, handbooks, publications, and copies of U.N. documentation on a daily basis.

Abstract: The official record of the foreign policy of the United States. Volumes from 1861 through 1932 were part of the *Annual Message* of the President to the Congress. The series is issued for public information and for educational and research purposes. It includes minutes of meetings, Presidential papers, diplomatic notes, messages between Washington and diplomatic and military posts abroad, memoranda, and other papers. The series has international circulation to governments, libraries, and research centers. The series is based principally on classified records of the Department of State, Department of Defense, National Security Council, Central Intelligence Agency, Department of the Treasury, other departments and agencies, and on records of foreign governments and international organizations. Documents are declassified for publication in "Foreign Relations." An objective and representative selection of the most important political and economic documents of the U.S. government (particularly the Department of State) on major developments during the periods covered by individual volumes. These have covered the administrations of every President from Abraham Lincoln to Dwight D. Eisenhower, and work continues. Special volumes have dealt with the Paris Peace Conference of 1919, the summit conferences of World War II, and relations with China, Japan, and the Soviet Union. Volumes now being published cover 1951-1954. Volumes now being prepared will cover events from 1955-1960 together with at least six volumes dealing with the diplomacy of the Vietnam War.

Availability: GPO

Geographic Relevance: International/Foreign; National

Abstract: This series is an annual record of the most important unclassified official documents relating to American foreign policy and foreign relations. The series is intended as a general reference work for the use of government policy officers and the public. It includes the most important available unclassified documents of the White House; the Departments of State, Defense, Treasury, Commerce, and Agriculture; and other agencies concerned with foreign affairs. Several of these official documents have not previously been printed. The series has international circulation to governments, libraries, and research centers. Volumes were published annually under this title for the years 1956 through 1967, preceded by two earlier cumulative documentary anthologies, *A Decade of American Foreign Policy: Basic Documents, 1941-1949*, and the two-volume *American Foreign Policy, 1950-1955: Basic Documents*. In 1983 the series resumed with the first of three retrospective volumes, *American Foreign Policy: Basic Documents 1977-1980*. Two retrospective volumes, covering the periods 1968-1972 and 1973-1976, are planned to fill the remaining years of the post-1967 gap in publication. Annual volumes beginning with 1981 are now being prepared for publication.

Availability: Agency

Geographic Relevance: International/Foreign

Abstract: The purpose of the publication is to provide full texts of regulations governing administration of allowances benefits for U.S. government civilian employees in foreign areas. Foreign costs and environmental data are obtained from regular prescribed reports submitted annually or biennially from foreign posts where American U.S. government civilian employees are stationed. These include embassies, consulates general, consulates, and other official posts for U.S. government activities. Specific major reporting categories include housing (permanent and temporary) general costs of living, education, and environmental conditions. Texts of Standardized Regulations (GC,FA) governing the administration of 15 basic allowances benefits for U.S. government civilian employees in foreign areas establish the criteria and conditions for payment and the rates of payment. In addition, the regulations establish the rates (but not the regulations) for foreign area travel per diem payments. The regulations apply to approximately 43,000 civilian U.S. employees of about 28 agencies.

Congressional Relevance: House Appropriations Committee: Transportation Subcommittee; House Committee on Public Works and Transportation; Senate Appropriations Committee: Transportation Subcommittee; Senate Committee on Commerce, Science, and Transportation
Authority: Department of Transportation Act (P.L. 89-670).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; City

Abstract: The Department of Transportation (DOT) Library's principal purpose is to support the mission of the Department by assisting DOT employees in their daily work, special assignments, and general needs for information. As an important resource of transportation information, the DOT Library also has a national responsibility, serving as an integral part of an information network in transportation affairs. The library collects and organizes information related to all aspects of transportation from domestic and international sources. Materials are received from the DOT, other governmental agencies (federal, state, and local levels), and non-governmental sources. The DOT Library participates in shared cataloging and other cooperative activities of the Online Computer Library Center network under the sponsorship of the Federal Library Committee/Library of Congress. The DOT Library maintains a comprehensive collection of books, serials, and documents covering all modes and aspects of transportation and subjects related to transportation. Although some materials are pre-1900, time coverage generally begins with the early 1900's and extends to the present. Geographic coverage is worldwide. Among the library's holdings are: a reference file of highway maps, some of pre-1920 issuance; technical reports dealing with all facets of transportation technology. The Library contains a number of special files and is a major source of information concerning the DOT, its predecessor agencies, and their publications. Holdings are in both paper copy and microform. The collection numbers 77,000 reports; 509,580 microform items; 414,100 volumes of books and periodicals; and subscriptions to 2,100 periodicals. Special collections include 50,000 volumes of aviation reports; and 5,000 titles of technical publications.

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; City

Abstract: Indexing and revision of the file was terminated in March 1982. The file (1921-1981) remains intact in the Department of Transportation (DOT) Library. The purpose of the file was to keep DOT

staff apprised of past, new, and continuing developments in subjects related to their work. Transportation articles from general and specialized journals, many of which are not indexed elsewhere, comprise the input. The file covers the period 1921 through 1981 and consists of approximately 819,200 cards filed chronologically by subject matter. Prior to establishment of DOT in 1967, subject coverage stressed topics related to roads and highways. After 1967, topics covered all modes of transportation and a wide range of subjects but emphasized highways, railroads, tunnels, bridges, motor vehicles, driver studies, parking, planning, traffic studies, urban transportation, comparative and statistical transportation studies.

Geographic Relevance: International/Foreign; State; City

Abstract: TRISNET is a Department of Transportation (DOT) sponsored coordinated system of libraries document repositories, indexing and abstracting centers, and other organizations that provide information services to transportation planners and technologists. TRISNET is a part of DOT's technology sharing program. Its users include DOT personnel, state and local government, universities, and private industry. Source data are provided in uniformed format by the Transportation Research Board (Highway Research Information Service), the National Highway Traffic Safety Administration, the Urban Mass Transportation Administration, the Research and Special Programs, and the Department's Transportation Systems Center (TSC). TRISNET consists of 17 core and associated information organizations. There are four major transportation libraries (DOT Library, TSC Information Centers, University of California at Berkeley Transportation Library, and Northwestern University Transportation Library) with a combined holding of 500,000 documents on transportation law, technology, and economics and subscriptions to over 2,500 periodicals; seven indexing and abstracting organizations which organize and disseminate information relevant to road, rail, maritime, air, traffic safety, tunneling research and development technology, and international programs; and six associated services which have working agreements with one or more core services or with a federal sponsor. The TRISNET network contains abstracts on both transportation research reports and ongoing research activities. On each report/activity there exist unique descriptors including title, bibliographic data, funds allocation, performer, and duration. Abstract bulletins and special directories are provided monthly and annually.

Authority: Department of Transportation Act, as amended (P.L. 89-670, § 4; 80 Stat. 931).
Availability: Agency; GPO
Geographic Relevance: International/Foreign; National; State; Production Areas
Abstract: This report presents the results of a questionnaire survey conducted to collect comprehensive data on the movements of exports and imports within the United States. New data collected for this report included the U.S. interior origin of exports and destination of imports; the domestic mode of transportation between significant points; the commodity weight, value, and volume; the international and domestic shipping costs; the use of containerization and other handling characteristics; and the terms of sale. These new data were linked to data already available on the international movement of commodities through ports within the 48 contiguous states as collected from documents filed with the U.S. Customs Service. The resultant information will be useful to shippers, carriers, port authorities, researchers, and governmental agencies at all levels in areas such as cargo forecasting, market analyses, and facilities planning; in analysis of trade patterns, port hinterlands, modal distribution, and modal interface at ports; and in studying the impact of foreign trade on the domestic transportation system and state and local economies. All commodities were included in the survey except crude oil and grains.

CFDA NO.: 20.002
Congressional Relevance: *House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*
Authority: Federal Water Pollution Control Act (P.L. 92-500, § 311; 86 Stat. 816; 33 U.S.C. 1151). Intervention on the High Seas Act (P.L. 93-248).
Availability: GPO
Geographic Relevance: International/Foreign
Abstract: This manual provides information on the assessment of chemical hazards. The handbook is part of the Coast Guard's Chemical Hazards Response Information System (CHIRIS). The hazards assessment handbook contains information on various methods of estimating the rate and quantity of hazardous chemicals that may be released under different circumstances. It also provides information on means of predicting the threat that the chemicals will present after release. Predicting procedures for estimating the concentration of hazardous chemicals in water and in air as a function of time and distance from a spill are also discussed.

I01102-001

Accident, Incident, Violation Information.

OMB Funding Code/Title: 69-1301-0-1-402 / Operations

Program: Administration of Aviation Standards Program

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: International Aviation Facilities Act (P.L. 80-647; 62 Stat. 451; 49 U.S.C. 1152 et seq.); Federal Aviation Act of 1958, as amended (P.L. 85-726; 72 Stat. 744; 49 U.S.C. 1341 et seq.); Airport and Airway Improvement Act of 1982 (P.L. 97-248; 96 Stat. 671; 49 U.S.C. 2201 et seq.).

Availability: Agency

Geographic Relevance: National, State, General Aviation district offices

Abstract: This information is used to identify and monitor accidents involved in accidents and/or accidents who have violated the Federal Air Regulations, to analyze facts surrounding accidents and incidents to determine whether or not FARs have been violated, and to support aviation safety analysis. Information is obtained from FAA inspectors, pilots and other crew members, ground crews, passengers, and witnesses. Information in this category describes the conditions surrounding the accident, incident, or violation. This includes the circumstances, causes, malfunctions, mechanical failures, deviations from established procedures, injuries, and principals involved (pilots). No statistical incident information is available; single incident reports are produced for public/FAA use when requested. Preliminary FAA accident and violation data (statistical and case records) are available for internal Administration planning purposes only.

I01102-002

Aeromedical Research Information.

OMB Funding Code/Title: 69-8108-0-7-402 / Research, engineering and development (Airport and airway trust fund)

Program: Aviation Medicine

Congressional Relevance: *House* Committee on Public Works and Transportation; *House* Committee on Science and Technology; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: International Aviation Facilities Act (P.L. 80-647; 62 Stat. 451; 49 U.S.C. 1152 et seq.); Federal Aviation Act of 1958, as amended (P.L. 85-726; 72 Stat. 744; 49 U.S.C. 1341 et seq.); Airport and Airway Improvement Act of 1982 (P.L. 97-248; 96 Stat. 671; 49 U.S.C. 2205(b)).

Availability: Agency

Abstract: This information source disseminates results or findings of aeromedical research conducted, or contracted for, by the FAA to interested parties in the aviation and aviation medicine communities. Information is derived from FAA Forms 1750-1 which are used for initiating, completing, and terminating research tasks, and FAA Forms 9950-1, Research Task Quarterly Reports. These reports are prepared by researchers at the Civil Aeromedical Institute, FAA, or by individuals or groups with which the FAA contracts. This source contains information in the following task areas: Aeromedical Factors in Systems and Operations, Aircrew and Passenger Protection, Personnel Performance and Efficiency, and Aeromedical Factors in Flight Management. Normal end products of FAA aeromedical research are project reports, advisory circulars (issued by the agency especially to affected user groups), Office of Aviation Medicine reports (available through NTIS), Federal Aviation Regulations, FAA directives, and/or publication in the open scientific literature.

Program: Administration of Aviation Standards Program

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726, title III, § 305, 307, 312; 49 U.S.C. 1346, 1348, 1353)

Availability: Agency

Geographic Relevance: National; State; FAA district offices

Abstract: This information is used to identify the various aviation related schools, repair stations, and commercial operators that are certificated by FAA. The information is obtained from the individual application for the certificate. This information describes non-airperson certificate holders including air taxi/commercial operators, aviation maintenance technical schools, flight ground and pilot schools, parachute lifts, repair stations, aircraft dispatcher schools, and flight engineer schools. The information includes the certificate holding agency's name and business address, certificate number, and specialized ratings. Various computer listings and advisory circulars (140 series) are available on this information area.

Geographic Relevance: National; State; FAA region

Abstract: This information source is to provide management with statistical and operational information about the characteristics, ownership, and operation of aircraft comprising the U.S. Civil Aircraft Fleet. Information from this source also supports aviation safety analysis. Information is derived from external sources--aircraft owners, manufacturers, operators, banks--and internal sources--FAA Flight Standards Inspectors and individuals designated by the FAA to perform certain (inspection and maintenance) functions. This source contains information about aircraft ownership, recordation, lien and leases; type and airworthiness certifications, mechanical reliability; flight hours; aircraft and operators inspection and surveillance; engines, propellers, and other aviation appliances/components; and types and categories of aircraft operations. Regularly published reports include Aircraft Registry-- microfiche, or machine-readable, Type Certification Data Sheets, Airworthiness Directives, Type Certificate and Supplemental Type Certificate Holders, Census of U.S. Civil Aircraft, and FAA Statistical Handbook of Aviation.

I01102-005

Airmen (Non-Medical) Information.

OMB Funding Code/Title: 69-1301-0-1-402 / Operations

Program: Administration of Aviation Standards Program

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Geographic Relevance: National, State, City, County

Abstract: This information area is to provide management and operational information relative to certified airmen. Information from this source also supports aviation safety analysis. Information resulting from the airmen certification process is obtained from the individual's certificate application. Surveillance data on airmen and operations are obtained by the local district office during the course of inspections and investigations. Information deals with the operation and performance of certified airmen—pilots, other flight crew members, instructors, mechanics, parachute riggers, control tower operators, and dispatchers. It includes accident involvement, violations, and written and practical examination results. Principal reports are: Airmen Directory (hardcopy and machine-readable certification information), FAA Statistical Handbook of Aviation, U.S. Civil Airmen Statistics, and Listings of Designated Examiners (hardcopy).

101102-006

Aviation Activity Information.

OMB Funding Code/Title: 69-1301-0-1-402 / Operations

Program: Federal Aviation Administration Operations (All Programs)

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Federal Aviation Act of 1958, as amended (P.L. 85-726).

Availability: Agency

Geographic Relevance: National, State, City, FAA region

Abstract: Aviation activity information is used for planning, budgeting, and staffing, support for Agency programs and for statistical publications. Information includes monthly activity reports from each FAA facility, annual aircraft registration revalidations, and Civil Aeronautics Board, Immigration and Naturalization Service, and FAA survey data. Air traffic activity data are collected from FAA air route traffic control centers, towers, and flight service stations on a monthly basis by facility and geographic locations. This includes data such as airport operations and instrument operations at towers, departures and aircraft handled by FAA Air Route Traffic Control Centers and aircraft contacted, pilot briefs, and flight plans originated for FAA flight service stations. These are collected monthly, and annual summaries are published in FAA publications. Selected aircraft activity statistics are collected in an annual survey of aircraft owners from the survey data and the aircraft registry. Statistical data on total registered aircraft, active aircraft, aircraft by base airport, aircraft make and model, and type of aircraft such as fixed-wing piston engine are collected, tabulated, and published annually. Enplaned passenger data reflect passengers enplaned at U.S. airports by certified route air carriers, supplemental air carriers, foreign flag air carriers, commuter air carriers, and air taxi and commercial operators. The data are updated annually. Data are available on machine-readable magnetic tape, detailed computer printouts are maintained either on hardcopy or microfiche; and summary statistics are published in the following FAA publications: Air Traffic Activity, Military Air Traffic Activity, FAA Statistical Handbook of Aviation, Census of U.S. Civil Aircraft, Airport Activity Statistics of Certificated Route Air Carriers, Commuter Air Carrier Operator (as of September of each year), and U.S. Civil Airmen Statistics.

Aviation Forecast Information.

February, 70 pp.

FAA Forecast Branch

OMB Funding Code/Title: 69-1301-0-1-402 / Operations

Program: Federal Aviation Administration Operations (All Programs)

Availability: Agency; NTIS; GPO

Geographic Relevance: National

Abstract: The FAA publishes annually a 12 year national forecast aviation activity of which the latest is entitled, Aviation Forecast 1984-1995. Included are forecasts for enplaned passengers, revenue passenger miles, cargo, air carrier and general aviation fleet and activity levels, engine and aircraft production, and total air carrier, general aviation, and military activity at FAA-operated air traffic control facilities. This publication supports internal planning and budgeting activities as well as advising the public of current and expected trends. In addition to these regularly published series, the Aviation Forecast Branch also produces special industry and forecast studies are produced for use in policy formulation. Data are derived from: FAA Facility Reports of Activity, FAA Airmen and Aircraft Registry, CAB Airline Reports, census reports, special surveys, and Economic Forecasting Services. The system contains: Aircraft Operations Counts, Daily by Facility, by Category of Flying; Instrument Operations Counts, Daily by Facility, by Category of Flying; Instrument Flight Rule Aircraft Handled, Monthly by Facility by Category of Flying; Flight Services, Monthly by Facility by Category of User; Airmen Annual, by Type Certificate, by Age, by Sex, by Address; Aircraft Annual, by Make-Model, Age, and Base Airport; Passenger and Operational Statistics by Airline, Airport, Origin, and Destination; Fare Basis; Complete Financial Statistics; Aircraft and Engine Production, Exports and Imports Monthly by Make and Model; Cost and Operational Statistics for Noncommercial Aviation; and Total Economic and Demographic Data by County. Annual forecast documents and special studies are available on this information area.

Availability: Internal Use Only

Geographic Relevance: National, FAA region

Abstract: This information is essential to the decisionmaking process of estimating, programming, and allocating FAA resource requirements for the current year, the budget year, and the multi-year program. For the current year, it provides data needed to establish program funding levels; issues fiscal programs and allotments; insures that total allotments do not exceed appropriations, apportionments, or statutory limitations; and evaluates program progress against available funds to make necessary redistribution of budgetary resources. For the budget year and the multi-year program, it provides the basis for Agency decisions on levels of projected funding for existing programs and projects, new programs and projects, mix of Agency programs or needed redirection of effort.

and related matters that impact on budgetary requirements in future years. Data are derived primarily from the following FAA organizations: 9 regions, 2 centers, the Metropolitan Washington airports, and various offices and services at the Washington headquarters. Information includes annual budget estimates; multi-year program estimates; annual program allowances; staffing authorizations; quarterly distribution of funds; summary and detailed information comparing obligations to authorized allowances for each program by object class or project; and details of changes or adjustments made to the original program; quarterly distribution of funds, both within and between programs. Annual/multi-budget submissions to the Office of the Secretary of Transportation, OMB, and Congress; internal reports relating to staffing, employment, and funding levels; evaluation of program progress; and redistribution of budgetary resources; and reports to meet requirements of the Office of the Secretary of Transportation, OMB, Congress, GAO, and the Treasury Department are produced using this information.

Abstract: This information source is used for planning, establishing, organizing, and monitoring performance on all engineering and development programs. Information contained in this source is derived from internal elements of the Federal Aviation Administration's Engineering and Development organizations. This source contains information concerning the goals and status of the 21 engineering and development programs. This information includes objectives and program structure. Research and technology information is maintained in these technical efforts both planned and in progress to avoid duplication of efforts. Major reports include: Engineering and Development Program Plan-Structure and Objectives (Report No. FAA ED-00-C); Annual Report prepared by the FAA Office of Systems Engineering Management which provides program descriptions, highlights, goals, objectives and new system concepts; and research and technology resumes which describe technical efforts both planned and in progress.

Geographic Relevance: National; State; Congressional District; County; FAA region

Abstract: This information identifies federal involvement in the identification and planning of a National System of Airports (a component of

the National Aviation System); support, primarily through grants-in-aid, for airport system and master planning, airport development and operations, airport ground safety (including the administration of the Airport Certification Program for airports served by scheduled or unscheduled passenger operations of aircraft designed for more than 30 passenger seats); and assurance of compliance by recipients of federal airport assistance with conditions of that assistance. Information is derived from both internal and external sources. Basic data on airport physical characteristics (a prime source for NFDC data base) are collected by FAA personnel and mailed in by airport management. National Plan of Integrated Airport Systems (NPIAS) data are a responsibility of FAA field offices, derived in large measure from airport management, planning agencies, aviation sources (e.g., air carriers) and others; airport grant data are a product of sponsor submissions and self-maintained material supplemented by FAA inspections, reviews, and audits. Compliance data are derived from grant files followed up by information obtained by visits, correspondence, and phone calls. Airport Certification data are, first, submitted by applicant airports, verified, and supplemented by FAA visits. Included is information about airport location and physical characteristics, services, airport activity (for airports in NPIAS), planning data (also those in NPIAS), environmental impact statements and assessment reports to support certain airport planning and development, airport design and construction standards, records on all airport grant projects and airport compliance status, surplus property transfer deeds and related information, relocation assistance guidance, airport certification standards and guidance, data on status of certification compliance including reports of violation, guidance and information on the bird strike program, sanitary landfills, crash/fire/rescue equipment, and other airport safety matters. Principal reports include: Annual Report of Accomplishments Under the Airport Improvement Program, NPIAS, advisory circulars, and bird strike report, and Airport Master Record.

Abstract: This information source is used to produce data required by FAA management to plan, construct, modify, manage, and evaluate the facilities owned and/or maintained by the FAA to support the National Airspace System. Information is derived from internal elements of the Agency. Data to support budgeting and planning for facility construction originate in the regional offices and are combined with headquarters cost data. Configuration information, as well as data about frequencies and power levels, are maintained in headquarters. Information on the physical status of construction projects and performance of operating facilities is generated by region and sector field offices. Statistical data concerning facilities are produced in the regions and headquarters. Information is about facility configuration (including frequencies and power levels, cost estimates of construction and installation to support budget submissions, physical status of facility installation projects, and facility data (identification, location, performance ownership, power type, and maintenance logs. Most data are updated at least monthly although high priority performance data are imported daily. Major output reports include: Frequency Master File (monthly, hardcopy), Physical Status Reports (weekly, hardcopy and tape), Facility Master File (monthly, hardcopy and tape), Facility and Service Outage Reports (monthly, hardcopy and tape), and Line Performance Reports (monthly, hardcopy and tape).

Geographic Relevance: National; State; County; FAA region

Abstract: This information source is used to produce the aeronautical charts, flight publications, and operational data used in operating the National Airspace System. Information is derived from internal and external elements of the aviation community. The airspace configuration and flight procedures are the product of an identified operational requirement and designated by rulemaking action. The physical characteristics and operational status of the navigational and communications components of the airspace and the airports in the system are collected from the operators of the activities. Information is received from other federal agencies and local governments as well as other elements of the aviation community. Information is about airports (identification, location, physical characteristics, and services), obstructions, navigational aids and communications facilities (locations, operational characteristics), the configuration of the airspace, airway and route descriptions, airway/route fixes, holding patterns, terminal flight procedures, and special use airspace descriptions. A substantial amount of the information is in machine-readable form and can be queried. Among regularly published reports are: Aeronautical Charts, The National Flight Data Digest (NFDG), and NOTAM (A teletype message containing a Notice to Airmen).

Abstract: This information source is used to support the national procurement policy, standards, goals, systems, procedures, planning, labor compliance programs for placement and administration of all prime and related contracts in support of national programs of the Agency. Information is primarily derived from internal enterprises and developed into planning, and labor compliance programs for public/private categories of data. Specifically, the sources are various business firms, Defense Contract Audit Agency, Small Business Administration, and FAA regions and centers. Major categories of input data are technical and cost proposals including responses to Invitation For Bids, which require replies to many questions such as industry small business size standard, minority business, disclosure statement--cost accounting practices and certification, and eligibility for preference as a labor surplus concern. Information includes: procurement office; kind of action, modification, termination for default, termination for convenience, completed, deletion; contract number, modification number; date of action; type of contract; and the detailed contract and procurement statistics. Additional source data documents consist of bidders lists including debared bidders, contract status of delivery records, labor compliance reports, labor dispute reports, labor standards and investigation reports, policy and plans including implementation directives, pricing analyses, procurement request completion forecast, project status, section 8(a) award reports, small business assistance, and waivers/exemptions to procurement directives. Principal output is: 1) Procurement Action Report (Contract Information System). Data submitted on each contract exceeding \$2500 and submitted no later than the tenth day of the month following the month in which the award (new contract/contracts) is made. Modifications, contract completions and terminations, updating the file no later than the tenth day of the month following the month in which the action was taken. Any data from the Contracting Information System are available; 2) Report on Procurement by Civilian Executive Agencies--semiannual; and 3) Minority Business Reports--annual, machine-readable, able to be queried. Report is in tabular form.

Abstract: This information source provides data required to evaluate Agency supply support programs, assist customers of the programs to identify requirements and obtain supplies with a minimum of effort, furnish Materiel Management Data for program planning, and establish requirements for controlled materials. Information is obtained from internal sources regarding availability of supplies, requirements, value of inventory, amount and value of issues and receipts, financial transfers, and effectiveness of programs. The Department of Defense (DOD) furnishes item identification, management data, catalogs, and allotments of controlled materials. Other government agencies, such as Department of Commerce and General Services Administration, furnish additional management data. A broad scope of information deals with cycle inventory planning, accomplishment, and adjustment; all depot activities; ordering; replenishment; internal and external support furnished, warehousing; shop support; engineering modifications; address and supply support code directories; stratification; item identification; requisition records; cataloging; identification of potential excess; provisioning; Fedship and Milstrip operations; number, type, and location of projects, value of material on hand, due-in, and excess; and effectiveness of support programs considering both supply source and users worldwide. FAA Supply Catalogs and Cross Reference Lists, Requisition Register, Operating Materiel Inventory Management Report, Operating Materiel Stratification Summary Report, FAA Address List, Supply Support Code Directory, DOD Supply Catalogs, Controlled Materials, Controlled Materials Usage Report, Stratification of Depot Project Inventory, Regional Project Materiel Management Report, Unassigned Project Materiel Report, System Analysis Report, and other operational system prepared reports resulting from cycle processing are produced using this information. Data are produced on demand (either hardcopy or machine listings).

Program: Administration and Research

Congressional Relevance: *House Committee on Public Works and Transportation, Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee.*

Authority: Act of August 27, 1958 (P.L. 85-767, 72 Stat. 913; 23 U.S.C. 307). Highway Safety Act of 1966 (P.L. 89-564; 80 Stat. 731; 23 U.S.C. 402).

Availability: Agency; GPO, NTIS

Geographic Relevance: National; State; City; County; (SMSA) Standard Metropolitan Statistical Area

Abstract: These are the only reports to the federal government of state data concerning numbers and characteristics of registered vehicles, driver's licenses, motor fuel consumed, tax and other highway related revenue, highway bonding, toll financing, roadway extent and characteristics, expenditures by type of governmental highway activity, highway travel extent and characteristics, construction costs, and materials in accordance with 23 U.S.C. 307 and 402. The data obtained from these reports provide a body of information used in the planning, administration, and monitoring of the federal highway programs. With the exception of total public road mileage and travel data required for the administration of 23 U.S.C. 402, data are not mandatory and are provided primarily by state highway agencies as part of the highway planning program authorized by 23 U.S.C. 307. Data are primarily byproducts of state and local planning, accounting, and administrative procedures. Principal reports include state highway income and expenditures, local road and street finance reports, state motor fuel tax collections, state motor vehicle registrations, travel and accident report, mileage reports, truck weight reports, speed trend reports, and contract award reports.

Authority: Department of Transportation Act (P.L. 89-670). Transportation Safety Act of 1974 (P.L. 93-633). Natural Gas Pipeline Safety Act of 1968 (P.L. 90-481). Pipeline Safety Act of 1979 (P.L. 96-129).

Availability: Agency

Abstract: The Materials Transportation Bureau's (MTB) Public Docket Room makes available to the public certain classes of information as required by section 552 of the Administrative Procedure Act. It maintains centralized MTB dockets and information services for all hazardous materials and pipeline safety official matters which require formal docket procedures and action. Information in the Public Dockets Room is received by the MTB from individuals and organizations who petition for rulemaking, apply for exemption from the federal regulations, or apply for rulings or determinations. Technical background and other pertinent information are placed in the dockets by MTB staff members. Available in the Public Docket Room are: 1) Copies of notices of proposed rulemaking, including advance notices, together with the comments received thereon during rulemaking proceedings; copies of any related Federal Register notices, final rules, petitions for reconsideration, and decisions issued in response to petitions for reconsideration; 2) applications for exemptions from the Department of Transportation's hazardous materials and pipeline safety regulations, including supporting data,

al Register notices, and rulings, determinations, and orders issued in response to those applications, 4) records of compliance order proceedings and copies of MTB compliance orders; 5) appeals and MTB decisions issued in response to those appeals, and 6) such other information pertaining to the MTB's hazardous materials and pipeline safety programs required by statute to be made available for public inspections and copying and any information which the MTB determines should be made available to the public. Full docket services are provided, from original receipt of action request, through all processing actions, to decisions and finalization. An information file is maintained on past, present, or proposed docket actions.

Abstract: "Publications of the Maritime Administration" is used as a working tool to provide Agency employees, members of the maritime industry, and the general public with necessary data on all major agency reports released during the year covered in the report. Additional reports are available as listed in the publication. Information contained in this report is extracted from a log of publications maintained, and updated as necessary, by the Office of Public Affairs. The document consists mainly of reports resulting from agency research and development contracts but includes general publications of a nontechnical sort. This listing of current publications of the Maritime Administration contains information on placing orders and addresses of Maritime Administration Region Offices. Publications are classified under the headings of general, domestic shipping, fuels, government aids, Great Lakes, intermodal development, liquefied natural gas (LNG), marine pollution, marketing, nuclear, personnel and training, ports, powerplants, seamen, ship construction, ship operations, and trade.

Geographic Relevance: International/Foreign; National

Abstract: This pamphlet discusses the historical role of the U.S. merchant marine from colonial times to the present. It contains illustrations and photographs of maritime scenes and is suitable for children of school age and for adults. The information included in this pamphlet was compiled through use of records of the Maritime Administration and research into the history of the United States. The document gives a brief history of the U.S. merchant marine and discusses the relationship between the government and the fleet. The narrative describes the earliest merchant fleet, its initial importance and subsequent decline and its role in World Wars I and II and in the postwar period. The effect on the merchant marine of specific legislation and of the establishment of new government agencies is told, as is its role today.

Availability: Agency; GPO

Geographic Relevance: International/Foreign; National

Abstract: This report shows a breakdown of merchant fleets of the world. Information is given on the number of vessels, gross tons, and deadweight tons for four vessel designations. Data are restricted to oceangoing vessels of 1,000 or more gross tons; ships operating on the Great Lakes and inland waterways and special categories, such as channel ships, ice breakers, and cable ships, are excluded. Data used to prepare this report were collected by the Maritime Administration from public sources and U.S. government records. This report summarizes the status of the world's merchant fleets as of December 31, 1976; it gives tabular information showing the number of vessels and gross and deadweight tonnages for four all-inclusive vessel-type designations. The freighter fleet is then further broken down into five subgroups, and comparative deadweight rankings of each national flag in 1976, 1975, and 1966 are given for each type of vessel. An extended analysis of the U.S. merchant fleet and the fleets of the 12 largest maritime nations is

time fees.

Abstract: This bulletin highlights articles and data that provide selected preliminary income, financial and tax information from individual and corporate tax returns formerly published separately. Articles also include summary data on special topics including subjects covered separately in periodic Statistics of Income reports or supplements. Examples are sales of capital assets, estates, fiduciaries, personal wealth, farmers' cooperatives, private foundations and other tax-exempt organizations, income earned abroad by individuals, income of nonresident individuals and corporations, foreign tax credit, U.S. possessions corporations tax credit, residential energy credit, Controlled Foreign Corporations and Domestic International Sales Corporations. Annual data on sole proprietorships and partnerships are included as well as quarterly data from crude oil windfall profit tax returns are included. Projected filings of tax returns for future years and superfund environmental tax collections are among the other articles for which statistics are presented. The historical tables cover number of returns, individual and business income and deductions, profits reported, and federal taxes by type.

Availability: GPO

Abstract: The statement reflects the principal amounts of public debt issues outstanding as of the end of a calendar month. The information is shown at the loan level and is used by the general public, members of the financial community and various segments of the executive and legislative branches of the federal government. It is used as an aid in analyzing the securities investment market, as a debt management tool, and as a means of monitoring outstanding debt vis-a-vis statutory debt limit. Input is through daily public debt activity reports and twice submitted by the Federal Reserve Banks and Branches and other Treasury offices which issue and redeem Public Debt securities. The reports show the amount of principal for each Public Debt security issued and redeemed. A monthly tabulation of details of the public debt is generated.

OMB Funding Code/Title: 20-0911-0-1-803 / Salaries and expenses

Program: Executive Direction

Congressional Relevance: *House* Committee on Ways and Means; *Senate* Committee on Finance; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Revenue Act of July 1, 1862 (12 Stat. 432).

Availability: Agency; GPO

Geographic Relevance: National; IRS District and Region

Abstract: The Annual Report of the Commissioner of Internal Revenue Service is issued in compliance with the Revenue Act of July 1,

1862, to provide the Secretary of the Treasury and Congress with essential information on the overall administration of the revenue system during the fiscal year immediately preceding. Narrative, graphic, and tabular data are obtained from national office organizations. The Annual Report covers a fiscal year period. It contains factual information of general interest on taxpayer assistance, collecting revenues, insuring compliance, tax rulings, international programs, legal activities, planning and research, data services, and internal security and administration. An appendix chapter contains organizational and historical data, audit charts and tables, as well as statistical tables covering revenue collections by sources and geographic areas, returns filed and refunds issued, legal and tax court data, and administrative cost summaries.

Authority: Revenue Act of July 1, 1862 (12 Stat. 432).

Availability: Agency

Geographic Relevance: National Office

Abstract: The catalog was established to provide a list of the national office internal and external recurring reports exclusive of basic work process or normal work activity. The information is obtained from forms provided by the Offices of the Assistant Commissioners and the individual divisions under their jurisdiction. The catalog is generally updated on an annual basis. Section I lists reports which national office or organizational elements require from other offices in the national office or from regional offices, district offices, service centers, Data Center and/or National Computer Center. The reports are listed by report symbol according to the Internal Revenue Manual part or chapter or the ADP Handbook number for the respective organizations, instead of requiring the organization's component code. A cross reference to the component code, which was formerly used, is shown. The internal reports have been assigned a mandatory expiration date as of December 1985. Future and/or renewed internal recurring reports will be assigned a mandatory expiration date by the requiring office. The date will not exceed 3 years from the approval date or prior mandatory expiration date. Section II lists reports required of the national office by other federal agencies or Congress. The data may be required from the field or may be information readily available in the national office. The reports are listed by report symbol according to the agency or Congress that requires the report. Both sections provide the report symbol, title, description and frequency, name and organizational symbol of the requiring organization and the organizations preparing the report, and symbol of the requiring directive(s).

Abstract: This bulletin highlights articles and data that provide selected preliminary income, financial and tax information from individual and corporate tax returns formerly published separately. Articles also include summary data on special topics including subjects covered separately in periodic Statistics of Income reports or supplements. Examples are sales of capital assets, estates, fiduciaries, personal wealth, farmers' cooperatives, private foundations and other tax-exempt organizations, income earned abroad by individuals, income of nonresident individuals and corporations, foreign tax credit, U.S. possessions corporations tax credit, residential energy credit, Controlled Foreign Corporations and Domestic International Sales Corporations. Annual data on sole proprietorships and partnerships are included as well as quarterly data from crude oil windfall profit tax returns are included. Projected filings of tax returns for future years and superfund environmental tax collections are among the other articles for which statistics are presented. The historical tables cover number of returns, individual and business income and deductions, profits reported, and federal taxes by type.

Availability: Agency; GPO; U.S. Mint Sales Areas

Abstract: The use of national medals by the United States government

began as early as the Revolutionary War, when medals were authorized to be made and presented to outstanding military and navy heroes. These medals were made at the French Mint, principally under the direction of Thomas Jefferson, then the first United States Ambassador to the Court of France. About a century ago, the Mint began to gather together from various sources the dies which were used to strike the medals which had been authorized by the United States Congress. Bronze copies of these medals were made available to the public, starting in the 1860's. The primary purpose of the Catalogue is to offer a detailed reference for those who might wish to know more about the Mint's medals program. It contains illustrations, background information, and prices for over 250 official national medals currently being offered for sale.

Abstract: This publication presents, in tabular form, a complete historical record of all coins that have been manufactured by Mints of the United States. Domestic coinage is reported by Mint, class, denomination, and year of production. Each presentation is delineated by both number of coins and face value. The U.S. Mint began to manufacture coins for foreign governments in 1876. The second section of this document enumerates this production by country. The most recent edition covers production through calendar year 1980. The final section of the report presents the major U.S. coinage legislation from the Act of April 2, 1792, through 1980.

This publication lists data supplied primarily by the Bureau of the Census, Bureau of Indian Affairs, Bureau of Economic Analysis, and Internal Revenue Service. The data include: population figures, per capita income, adjusted taxes, and intergovernmental transfers. These elements are used by the General Revenue Sharing Allocation System in calculating the allocation due each of the recipient governments for the

method used in determining the amount of General Revenue Sharing funds in which a governmental unit is entitled to by apportioning the total funds by mathematical formula detailed in the law. The elements are in account number sequence, within county, and within state.

Congressional Relevance: *House* Committee on Government Operations; *House* Committee on Ways and Means; *Senate* Committee on Finance; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258, as amended by P.L. 98-185; 96 Stat. 1012; 31 U.S.C. 6702 et seq.).

Availability: Agency

Geographic Relevance: National; State; County

Abstract: The publication is intended for use by Congress, federal, state, and private audit agencies, and program participants as well as support for payments and periodic financial statements as required by the state and Local Governments' Fiscal Assistance Act of 1972 (Public Law 92-512) as amended by Public Law 94-488 in 1976, P.L. 96-604 in 1980, and P.L. 98-185 in 1983. The data are derived primarily by mathematically calculating the General Revenue Sharing allocation for each recipient government using data supplied primarily by the Bureau of the Census, Bureau of Indian Affairs, Bureau of Economic Analysis, and the Internal Revenue Service. This annual publication lists the current entitlement period allocations and entitlements and the prior period allocations and adjustments listed in order by place, within county, within state, and summarized to a national level.

Availability: Agency; GPO

Geographic Relevance: International/Foreign; National

Abstract: Energy Abstracts for Policy Analysis (EAPAs), while embracing all phases of energy analysis and development, is limited primarily to nontechnological or nontechnological articles or reports having significant reference value. This selectivity in scope and coverage of EAPA is effected to emphasize the following: programmatic efforts, policy, legislative, and regulatory aspects; social, economic, and environmental impacts; regional and sectoral analyses, institutional factors, etc. Selection for EAPA is based strictly on content (substantive articles) and is made from congressional committee prints; federal agency and department reports; regional commission and state and local government reports; periodicals, including trade journals and weekly news; conference proceedings and/or conference papers; books, including manuals, directories, encyclopedias, etc.; and documents from industrial firms, private institutes and foundations, educational institutions, societies, associations, etc.

Abstract: Energy Research Abstracts (ERA) provides abstracting and indexing coverage of all scientific and technical reports, journal articles, conference papers and proceedings, books, patents, theses, and monographs originated by the U.S. Department of Energy, its laboratories,

energy centers and contractors. ERA also covers other energy information prepared in report form by federal and state government organizations, foreign governments, and domestic and foreign universities and research organizations. ERA is comprehensive in its subject scope, encompassing the Department of Energy's research, development, demonstration, and technological programs resulting from its basic charter for energy sources, supplies, safety, environmental impacts, and regulation.

Availability: Agency; GPO; NTIS

Geographic Relevance: International/Foreign; National

Abstract: OSTI manages a centralized technical information management program for the Department of Energy (DOE): collecting, managing and disseminating diverse information from a wide variety of programs, projects and energy needs; accumulating and processing all DOE-funded research and development and merging this information with other pertinent and related energy information; coordinating, linking, and exchanging information with other information centers and international sources; and providing a single source of availability to assist the DOE and its contractors. Information services are provided directly to authorized users in the form of pertinent publications or through the development and maintenance of appropriate data bases, and indirectly through by referral to public sales agents and commercially available data base vendors. The center maintains a number of computerized data bases including the Energy Data Base covering the national and international energy literature which now contains 2 million citations, and the Research-in-Progress Data Base with 17,000 citations. The period covered is from the early 1940's to the present. The center obtains input from a number of U.S. government agencies, private industry, technical societies, foreign governments, and international organizations. Output is on magnetic tape issued semi-monthly, 13 journals published either semi-monthly or monthly, microfiche and paper copy of DOE reports issued daily, and other DOE publications issued daily.

Geographic Relevance: National
Abstract: The Publications Services Division of the National Energy Information Center serves as the central Energy Information Administration (EIA) activity for the review and registration of EIA information products and for the implementation and administration of systems and procedures that insure proper editorial and authority controls are applied to the publication and dissemination of EIA data and information. Information is submitted to the Division by organizational units of EIA which derive data from official Department of Energy (DOE) data collection forms and reports filed by publicly and privately owned companies under the jurisdiction of DOE. The Division provides the following support services: (1) establishes policies, standards, practices, procedures, and schedules for the production and distribution of energy information products; (2) manages EIA technical writing and editing activities; (3) establishes and maintains mailing and distribution lists; and (4) compiles and interprets energy information from EIA sources and generates special EIA information products.

National Energy Information Center (NEIC).
OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration
Program: Energy, Data Information Services
CFDA NO.: 81.039
Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee*
Authority: Energy Policy and Conservation Act of 1975 (P.L. 94-163). Department of Energy Organization Act (P.L. 95-91). Federal Energy Administration Act of 1974 (P.L. 93-275).
Availability: Agency; GPO, NTIS
Geographic Relevance: National
Abstract: The National Energy Information Center (NEIC) provides energy information and assistance in support of federal, state, and local governments; the academic community; industrial and commercial organizations; and the general public. In addition, it develops and implements information management programs and practices governing the

services to facilitate the flow of energy information throughout both the public and private sectors. Information is obtained from commercial, governmental, and academic data bases; energy-related publications, including those of the federal government; energy information facilities collections, services, products, product dissemination, and information-user requirements. NEIC is a comprehensive source of information about energy data and information providing: indices and catalogs of energy information publications and statistical tables incorporated in the National Energy Information System; compilations of energy data and information; standard reference and referral materials; an inquiry unit for users seeking assistance in obtaining energy data and information; expertise re energy sources and applications; and online search and retrieval services providing access to both government and commercial data bases and print/microform holdings, such as the DOE/RECON System. All Energy Information Administration reports published to date are catalogued in the annual EIA Publications Directory. Some of the monthly reports, such as the Monthly Energy Review, Electricity Monthly, and Natural Gas Monthly are among the best known and most used reports. NEIC also publishes its own Energy Information Directory. NEIC makes various automated data files available through the National Technical Information Service (NTIS). The Center operates a Public Inquiry Center for visitors who wish to review copies of EIA's statistical publications. EIA publications sold through the U.S. Government Printing Office (GPO) are also available for purchase at the Center.

of 1974 (P.L. 93-473). Energy Conservation and Production Act (P.L.
94-385). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Abstract: The National Solar Heating and Cooling Information Center
was established by the Department of Housing and Urban Development
(HUD), in cooperation with the Department of Energy (DOE), as part
of a federal program to foster American energy sufficiency. In May
1981, this center was merged into the Conservation and Renewable En-
ergy Inquiry and Referral Service (CAREIRS), operated by DOE. In-
formation and data (e.g., reports, studies, proposals, grants) from HUD
and DOE laboratories and contractors, universities, consultants, organi-
zations, and private citizens are sources of input. The Center has a com-
puter tie-in with the DOE Energy Data Base, which is maintained by
the DOE Technical Information Center. The Center maintains a collec-
tion of books, reports, periodicals, directories, and demonstration data.
Information is available on a variety of topics related to solar heating
and cooling, including flat plate solar collectors, thermal storage sys-
tems, solar water heating, solar marketing potential, and economic as-
pects of solar heating and cooling. The Center maintains on computer,
information on locations of solar buildings, state and federal solar legis-
lation, and addresses of solar manufacturers, distributors, builders,
architects, and installers. Approximately 240 publications, including bi-
bliographies, summary sheets, and pamphlets are distributed by the
Center. All information is provided by the Center at no cost, and is
available to government agencies, business and industry, building pro-
fessionals, and the general public. Information is disseminated in
response to written requests or to requests received through the toll free
telephone numbers: 800/523-2929; Pennsylvania: 800/462-4983; and
Alaska and Hawaii: 800/233-3071. Based on existing and new informa-
tion, the Center maintains a voluminous listing of state-of-the-art re-
ports, periodicals, books, buyers' guides, and a directory of solar energy
uses and users. Literature searches will be performed on request. In-
formation on grant applications (e.g., eligibility and timing for application
submission) is available. The Center operates a centralized data bank of
information.

Abstract: The Center for Energy Studies (CES) was established to provide a central liaison for energy research and educational activities and to provide a formal focal point for the collection and dissemination of energy information. The Center was given a broad mandate to initiate, stimulate and provide liaison for multidisciplinary energy programs. To date, programs have been initiated or enlarged in the following areas: Geothermal, energy conservation, coal and lignite, solar and wind power, nuclear, oil and gas, new fuels, electric power, and environmental effects. The Center has conducted several major policy studies for federal, state, and local governments

Availability: Agency

Abstract: The goal of the branch is to provide for the DOE a working center of expertise that has detailed information on existing insolation data, its quality, quantity, and availability; the state-of-the-art of insolation instrumentation research programs for specific kinds of insolation data; to conduct experimental work to test and develop instruments and techniques for insolation research, including data handling and display techniques; to gather insolation data from a network of remote, portable installations; and to reduce, compile, and report that data. The input is in-house experimentation and data collection from outside sources. Solar radiation received on a given body or over a given area comprises the content. Specific tasks include the experimental mapping of the day sky for insolation studies; modification of portable automatic photometers to provide insolation data; evaluation of the present status of the U.S. insolation data base and data dissemination program; and the evaluation of the present status of the U.S. insolation instrumentation and data acquisition program.

Abstract: Geothermal Energy Technology is a current awareness bulletin published on a semimonthly basis. The bulletin announces the results of Department of Energy (DOE) and DOE-sponsored research, development and demonstration projects in the area of geothermal energy. The bulletin also includes references to reports, journal articles, conference proceedings, patents, books, and monographs issued by other U.S. government agencies, research and industrial institutions, and foreign governments, agencies, and institutions. The subject scope of Geothermal Energy Technology includes: resource status and assessment; geology and hydrology of geothermal systems; geothermal exploration; legal and institutional aspects; economic and financial aspects; environmental aspects and waste disposal; by-products; geothermal power plants and engineering; direct energy utilization; and geothermal data and theory. The semimonthly abstract journal is published by the Technical Information Center and is available to DOE and DOE contractor personnel from the Center. Others may obtain the publication from the National Technical Information Service at an annual subscription price of \$40.00 (24 issues).

Abstract: This data center provides evaluated nuclear data sets to the basic science and applied technology communities. Data are collected from research programs, collated and evaluated, and tested for reliability. This data center serves as the central distribution point of reference for Department of Energy programs. Related nuclear data evaluation activities are coordinated by the Center to reduce costs and increase utilization of reference data. The Center maintains a complete computerized data base for basic and applied nuclear research. Examples of applications include operating and safety analyses of nuclear power fission reactors, fusion devices, and biomedical studies. Publications produced by the Data Center include a newsletter published eight times a year, compilations published every four years, and reports published several times a year. The Center also provides information retrieval upon request. The data base includes: Evaluated Nuclear Data File (ENDF), Evaluated Nuclear Structure Data File (ENSDF), Computerized Index of Neutron Data (CINDA), Nuclear Data International Exchange Files (EXFOR), and Cross Section Information Storage and Retrieval System (CSISRS). Output is generated in the forms of magnetic tapes, listings, or graphical displays.

101308-011

Oceanographic Data Acquisition and Monitoring System.

OMB Funding Code/Title: 89-0224-0-1-271 / Energy supply, R&D activities

Program: Program Management and Support; Operating Expenses

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: International/Foreign

Abstract: This project is concerned with the development of new methods and techniques of data acquisition of oceanographic parameters. The instrumentation development involves special attention to digital sampling, integrating, and averaging of analog data from sensors. Techniques and instrumentation for data communication systems suitable for oceanographic data and command system communication will be studied and developed. In-house development of technology is the source of input. The essential requisites for successful programs of oceanographic measurement are low power consumption data acquisition and monitoring systems operating automatically or in command-response modes with minimum manual intervention in remote off-shore and on-shore locations; implementation of valid data sampling, averaging and reconstruction techniques; on-line data monitoring for validity and quality determination; and appropriate telemetry communication and central station reception, monitoring, and recording of data. Signal processing and special electronics required for certain types of sensors will be considered.

Physical Data Group.

OMB Funding Code/Title: 89-0220-0-1-053 / Atomic energy defense activities

Program: Weapons Activities

Congressional Relevance: House Committee on Interior and Insular

Authority: Energy Reorganization Act of 1974 (P.L. 93-438). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Abstract: The Physical Data Group was started in 1957 and covers neutron, photon, and charged particle cross section data required for weapons, weapons effects, shielding, and reactor calculation (experimental and evaluated data); development of data processing codes for producing constants required for neutronic-photon codes employing diffusion, discrete ordinates, and Monte Carlo methods; integral neutron experimental data, critical and bulk, static and dynamic, required for the testing and evaluation of neutronic and photonic data and for the improvement of calculational methods; development of Monte Carlo neutronics and photonics computer codes including linked neutronics-photonics; and development of advance computer programs to unify storage, manipulation, reorganization, retrieval, and display of numeric and bibliographic information. Nuclear physicists supply input. Neutron, photon, and charged particle cross section data are the information content. The Center answers inquiries on topics within its scope and publishes state-of-the-art reviews and data compilations.

Materials Management Plan (MMP).

OMB Funding Code/Title: 89-0220-0-1-053 / Atomic energy defense activities; 89-0222-0-1-251 / General science and research activities; 89-0224-0-1-271 / Energy supply, R&D activities; 89-0226-0-1-271 / Uranium supply and enrichment activities

Program: Naval Reactors Development, Weapons Activities, and Materials Production; High Energy Physics

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Abstract: The Materials Management Plan (MMP) serves as the annual Department of Energy (DOE) nuclear materials planning document for the production and utilization of nuclear materials for the ensuing 16-year planning period. It contains significant materials management issues requiring top DOE management attention. This document is provided to the Office of Management and Budget (OMB) to be used as background information for reviewing the DOE budget. It is also provided to the Department of Defense (DOD) and the National Security Council as background for nuclear materials planning activities. The basic input to the MMP is the nine field offices individual MMP's. The nuclear materials include: (1) enriched uranium; (2) weapon-grade plutonium; (3) fuel-grade plutonium; (4) power-grade plutonium; (5) tritium; (6) plutonium-238; (7) uranium-233; and (8) heavy water. The enriched uranium analysis is prepared mostly by the Office of Uranium Enrichment and Assessment. The MMP is prepared annually, and it is published after issuance of the Nuclear Weapons Stockpile Memorandum which is prepared by DOE and DOD and approved by the President. It is consistent with the DOE budget submission to OMB.

of Energy, Division of Military Applications. The Center was established in 1965 and concerns itself with criticality safety in transportation, storage, and chemical and metallurgical processing of fissile materials. The input is derived from books, monographs, reports, journals, and data in the subject area. The content is criticality safety data in transportation, storage, and chemical and metallurgical processing of fissile materials. The Center performs analyses of the critical dimensions of accumulations of fissile materials; publishes data compilations, together with necessary correlations, technical guides, and standards; and provides guidance in the preparation of regulations and standards related to criticality safety.

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Abstract: The Department of Energy library provides the scientific and technical literature needed to support DOE's mission. The input includes MARC (Machine-Readable Cataloging Applications Package); Unclassified Reports Listing program; Serials Information Control System (SICS); LIBREP; and LIBS 100. The computerized system contains all books cataloged by the DOE Library since mid-1974. The number of all full size unclassified reports held by the DOE Library is reported and updated every six weeks. The titles and number of DOE Headquarters reports, and all subscriptions handled by the Library are updated monthly. The circulation control system for books receives a daily update. The Library reports the number, drawer, number, and accession number of all unclassified microfiche received since May 1977, and all retrospectively classified microfiche. The output consists of: 1) Authority-Title Book Catalog, Subject Book Catalog, Shelf List to Book Catalog - Selected Dissemination of Information output from MARC tapes; 2) Unclassified Reports List; and 3) Accessions and Holdings List, Routing slips, Serial Expiration Report, Routing List by Journal, Publisher List, Routing List arranged by recipient, X Cards, Claim Letters, and Serial Expiration Letter. All output is hardcopy.

Radiation Shielding Information Center (RSIC).

OMB Funding Code/Title: 89-0224-0-1-271 / Energy supply, R&D activities

Program: Energy Supply, Research and Development Activities

Congressional Relevance: House Committee on Science and Technology; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Energy Reorganization Act of 1974 (P.L. 93-438). Department of Energy Organization Act (P.L. 95-91). Department of Energy Act of 1978 (P.L. 95-238).

Availability: Agency

Geographic Relevance: National

Abstract: Established in 1962, the Center functions as a technical institute, serving as an information exchange medium between shielding research and design projects throughout the government and industry with the purpose of saving time, preventing duplication of work, and seeking to advance the technology. RSIC, a radiation information, transport, and shielding information analysis center, serves its sponsors as a national technology resource by collecting, organizing, evaluating, and disseminating information related to radiation from reactors, radioisotopes, weapons, accelerators, and to that occurring in space. In addition to published information, RSIC collects, examines, packages, and disseminates complex digital computer codes, evaluated cross section data sets, multigroup data libraries, radiation environment data, and benchmark problems for use in shielding calculations. With the assistance of the computerized Storage and Retrieval Information System (SARIS), the center answers technical inquiries, publishes general bibliographies, writes state-of-the-art reviews, and routinely disseminates selected information to fill individual needs indicated by customer profiles. A monthly newsletter covers current activities, literature accession lists, news of current work and problems in the shielding community, additions and corrections to the data and code collections, and general shielding information. RSIC publishes abstracts of computer code and data packages and fills requests for the packages; it makes recommendations, advises, and trouble shoots on problems connected with the code and data collection. RSIC serves as a clearinghouse for Defense Nuclear Agency and DOE-sponsored nuclear data activities, maintaining and distributing evaluated and processed cross section data sets. Seminar-workshops on specific topics are held, and the proceedings are published as state-of-the-art reviews. Technical conferring services and personal assistance to visitors to the Center are provided.

101316-002

Liquid Metal Fast Breeder Reactor Fuel-Cladding Information Center (LMFBR).

OMB Funding Code/Title: 89-0224-0-1-271 / Energy supply, R&D activities

Program: Division of Reactor Research and Technology (Breeder Reactor Systems)

Congressional Relevance: House Committee on Science and Technology; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Energy Reorganization Act of 1974 (P.L. 93-438); Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Abstract: The LMFBR Fuel-Cladding Information Center provides nuclear engineers and scientists with a broad base of engineering data on LMFBR nuclear fuels and cladding materials. It maintains a central data source of materials performance from irradiation tests on experimental mixed-oxide fuel elements and FFTF (Fast Flux Test Facility) driver fuel elements. In-house experimentation and data collected from outside sources comprise system input. The system includes fuels and cladding materials data from LMFBR mixed-oxide fuel element development programs. Data for all experimental mixed-oxide fuel elements irradiated in the EBR-II (Experimental Breeder Reactor) are maintained on magnetic tape and microfiche files. These files are cladding fabrication, cladding properties, irradiation history, postirradiation examination results, and breached cladding files. The Center has data on the manufacturing of driver fuel elements for the FFTF, the fabrication of experimental mixed-oxide fuel elements, and postirradiation examination of materials. The system provides traceability to original raw materials with data for each major fabrication step, answers inquiries, and provides data compilations. Data are available directly from the computer in the form of tables, plotted curves, and simple statistical analysis. Summaries are prepared for experimental fuel elements irradiated in the EBR-II. The files contain data only for U.S. technology.

Transportation Accident Environmental Data Bank.

OMB Funding Code/Title: 89-0220-0-1-053 / Atomic energy defense activities

Program: Defense Waste and Byproducts Management

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Department of Energy Organization Act (P.L. 95-91).

Geographic Relevance: National

Abstract: The maintenance of the Transportation Accident Environmental Data Bank involves the active pursuing of sources of new data, the updating of indices, and responding to official users who wish to obtain environmental data. User requests for nonexistent data are expected to be the major contributor to this identification. It is anticipated that when needs for new data are identified, feasible methods of obtaining these data will also be recognized. Recommendations for acquisition of needed data will be made. Nuclear safety data related to transporting and handling radioactive materials is contained. Various types of output are available by contacting the laboratories.

Availability: Agency

Geographic Relevance: National

Abstract: In order to improve the technical defensibility of remedial action project measurements and assist in providing greater uniformity among the various measurement contractors and sites for field activities, Bendix Field Engineering Corporation was selected as the responsible contractor for accomplishment of the standardization and calibration of field and related laboratory measurements for the Department of Energy Remedial Action Program. Among tasks assigned to the Technical Measurements Center is the conduct of workshops to instruct and to transfer developed information to the project field contractor personnel and to others interested in specific topical subjects. For example, a workshop on surface radiometric measurements will be held in mid-April, 1983. Another workshop scheduled concerns time-integrated measurements of radon daughter concentrations, planned for July, 1983.

Abstract: The Remedial Actions Program Information Center serves as a central clearinghouse for current background information pertinent to the Surplus Facilities Management Program (SFMP), formerly Utilized Sites Remedial Actions Program (USRAP), and Uranium Mill Tailings Remedial Action Project (UMTRAP). The center's services include: (1) maintaining the bibliographic reference system, continuously updating data files on published literature (plans, studies, reports, policy

research efforts, (4) publishing the availability of the center's services to government, private industry, and public sectors, (5) responding to all requests for conducting literature searches, (6) publishing and promoting distribution of an annotated bibliography from the center's data files, issuing update volumes on a least an annual basis; (7) providing public information booth support at technical conferences or other events related to SFMP, FUSRAP, and UMTRA¹ (OSM will coordinate provision of these services for the three Remedial Actions Program components), and (8) designing and preparing posters, brochures, and fact sheets describing services of the Remedial Actions Program Information Center for the use at conferences and as general distribution of materials.

Availability: Agency

Geographic Relevancy: International/Foreign; National; State

Abstract: The Department of Energy (DOE) acquires data on various aspects of uranium raw materials, including efforts of government agencies, their contractors, and the private sector throughout the United States. Information is gathered on domestic uranium ore reserves, economics, and production capability as a basis for agency and industry planning in development of nuclear and alternative energy systems. After obtaining the industry data on current and past activities in uranium exploration, mining, and milling, DOE prepares estimates of domestic uranium reserves and resources as well as projected production capability. Similar data are gathered and reported on foreign uranium resources and production capability. DOE is generating additional information under a National Uranium Resource Evaluation (NURE) program, which is a systematic reconnaissance survey using various methods to identify areas favorable for the occurrence of uranium leading to preparation of a national uranium resource appraisal. Press releases and papers containing data on uranium raw materials are issued routinely. Special reports on uranium resources are produced as required. Through August 15, 1980, DOE had issued 639 reports on NURE investigations, including two reports on national uranium resource appraisal.

Abstract: This annual statistical report describes conditions in education as well as those in the larger society that affect education. Statistical indicators are presented on the basic components of education, participants, resources including finance and staffing, and performance from the preprimary through postsecondary levels. The report attempts to follow some of the major trends in education over the recent period, and where projections are available, to show the outlook for the near future. Special topics of pertinent concern are selected each year for closer analysis. Data on emerging as well as recurring issues are reported. A cumulative index lists topics and data shown in the current and previous editions of the report.

Program: Office for Civil Rights

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Education Amendments of 1972 (P.L. 92-318; 86 Stat. 373; 20 U.S.C. 1681 et seq.). Rehabilitation Act of 1973 (P.L. 93-112, § 504; 87 Stat. 394; 29 U.S.C. 794).

Availability: Agency

Abstract: Policy determinations fall into one of the three following categories: clarification and explanation of regulatory provisions; outline of specific procedures recipients must follow to comply with regulatory provisions or the procedures the Office for Civil Rights (OCR) will follow to obtain compliance; and illustration of how OCR has applied regulatory provisions to specific fact patterns developed through investigations. Three of the policy determinations in this report relate to title IX of the Education Amendments of 1972 and two relate to section 504 of the Rehabilitation Act of 1973.

Authority: Higher Education Act of 1965, as amended (P.L. 89-329, title IV, § 417D, as amended by P.L. 96-374; 20 U.S.C. 1070d-1).

Availability: Agency

Geographic Relevance: National; State

Abstract: This edition of the Special Programs for Disadvantaged Students Directory lists grant and contract awards made in program year 1980-81 with Fiscal Year 1980 funds under Title IV of the Higher Education Act of 1965 (section 417A-D). Within state order, the Special Programs for Disadvantaged Students discretionary grant awards are listed by program, ordered chronologically according to the length of time each program has been in existence. The second section of the directory lists the training contracts awarded. The third section includes the Biomedical Sciences Program grantees. Each entry includes the grantee/contractor name, address, and funding level.

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Education Amendments of 1976 (P.L. 94-482, § 403(a), 90 Stat. 2227; 20 U.S.C. 1221e(b)(2)(E)). Elementary and Secondary Education Act of 1965 (P.L. 89-10). Cooperative Research Act (P.L. 83-531).

Availability: GPO

Geographic Relevance: National

Abstract: The Educational Resources Information Center (ERIC) was established under the Cooperative Research Act (Public Law 83-531), as amended by Public Law 89-10. ERIC is a nationwide decentralized information network for acquiring, selecting, abstracting, indexing, storing, retrieving, and disseminating the most significant and timely education-related documents and reports. It consists of a coordination staff in Washington, DC, several support contractors, and 16 clearinghouses located at or with professional organizations across the country. These clearinghouses, each responsible for the content of a particular educational area, are an integral part of the ERIC system. Reports

or conference proceedings, selected dissertations, and pertinent educational journal literature, are sources of system input. The educational subject areas are: Adult Career and Vocational Education; Counseling and Personnel Services; Elementary and Early Childhood Education; Educational Management; Handicapped and Gifted Children; Higher Education; Information Resources; Junior Colleges; Languages and Linguistics; Reading and Communication Skills; Rural Education and Small Schools; Science, Mathematics, and Environmental Education; Social Studies/Social Science Education; Teacher Education; Tests, Measurement, and Evaluation; and Urban Education. The major output is Resources in Education, a monthly abstract journal announcing recent report literature related in the field of education.
